To Buyers of Poultry Netting:

The Season is now at its height. Every day's delay in the receipt of your goods counts to your loss.

Statements have been made in print by some Jobbing Houses that all manufacturers of Netting are behind in their orders.

These statements cannot be substantiated, and are only intended to pacify customers who are not getting their orders filled as they should be.

We GUARANTEE shipments of "JERSEY" NETTING within forty-eight hours after the receipt of order.

We FURTHER GUARANTEE that every bale of Netting bearing our Trade-Mark, as shown herewith, will be standard in every respect.

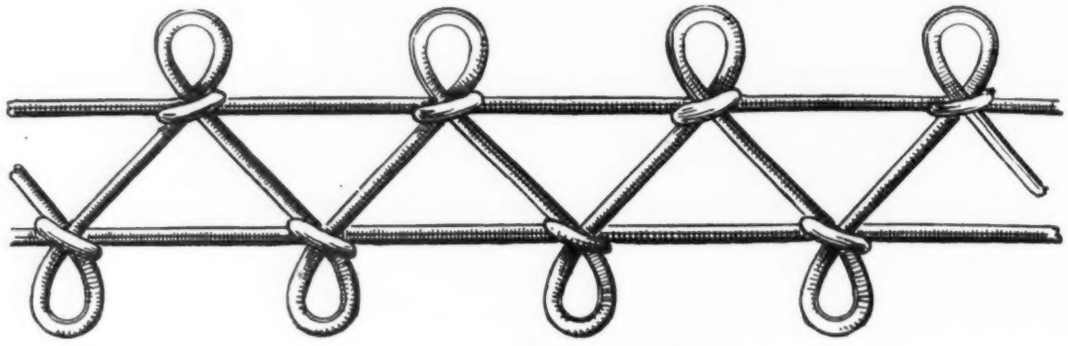
DAVID WILLIAMS, Publisher & Bookseller, 96-102 Reade St., N. Y.

Iowa Barb Wire Co.,

98 Reade St., New York.

HATHAWAY PATENT FENCE WIRE.



EXACT SIZE OF WIRE.

On account of the frequent accidents to valuable stock there is a growing prejudice against the use of barb wire. We believe the **HATHAWAY** to be the best fence wire in the world. It is made of galvanized steel wire and is **STRONG, HANDSOME, DURABLE** and **CHEAP.** The strand is one and three-fourths inches in width, and consequently is easily seen by stock.

SOLD BY HARDWARE DEALERS IN ALL PARTS OF THE COUNTRY, AND BY THE

PROVIDENCE, R. I.

COLD FORGED PRODUCTS.

"Spur Pointed" Wood Screw.

Patented May 10, July 19, 1887; Oct. 29, 1889; Aug. 19, Oct. 21, 1890; April 7, May 12, 1891.

ITS ADVANTAGES ARE:

Stronger than a cut screw.
Forged nick.
Requires the use of only one bit.
Inserted easier.
Increased holding power.
Centralized point.
Is cold forged, and entire surface has a metallic skin.

Samples Sent on Application.

Patented Nov. 11, 1890, Oct. 20, 1891.

FLUTED TIRE BOLTS.

SEND FOR SAMPLES.

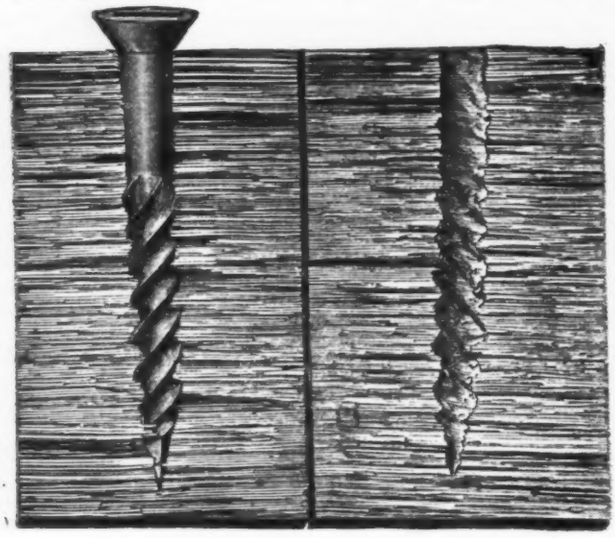
Cold Forged Coach Screws.

Patented May 10, July 19, '87; Oct. 29, '89; Aug. 19, Oct. 21, '90; Apr. 7, '91.

"ROGERS' DRIVE SCREWS."

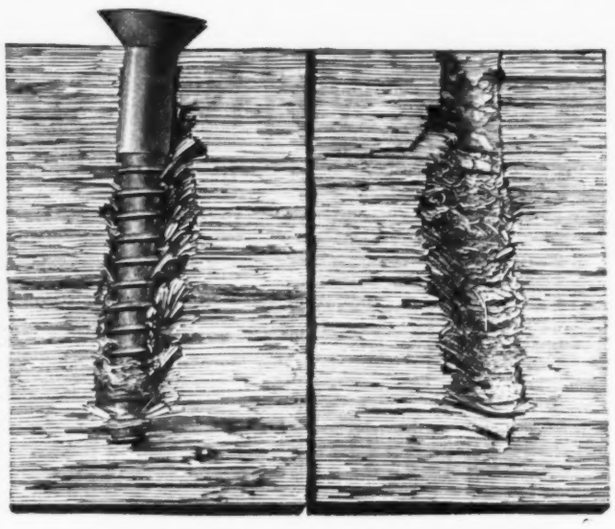
Patented May 10, 1887; July 19, 1887; July 10, 1888. Other patents pending.

List prices, same as common iron wood screws. Discount for Flat Heads, 82½%.



THE "ROGERS DRIVE SCREW,"

Driven with a hammer its entire length.



A COMMON CUT THREAD SCREW,

As ordinarily inserted, *i. e.*, driven two-thirds of its length with a hammer and the balance with a screw-driver. Fibres of the wood are necessarily broken, and holding power of screw much impaired.

Should be driven with a hammer its entire length.

1. Turns like a screw when driven with a hammer.
2. Holds stronger than a common screw as ordinarily inserted.
3. Does not break the fibres of the wood.
4. Cheaper than a common screw.
5. Is cold forged and has metallic skin over entire surface.

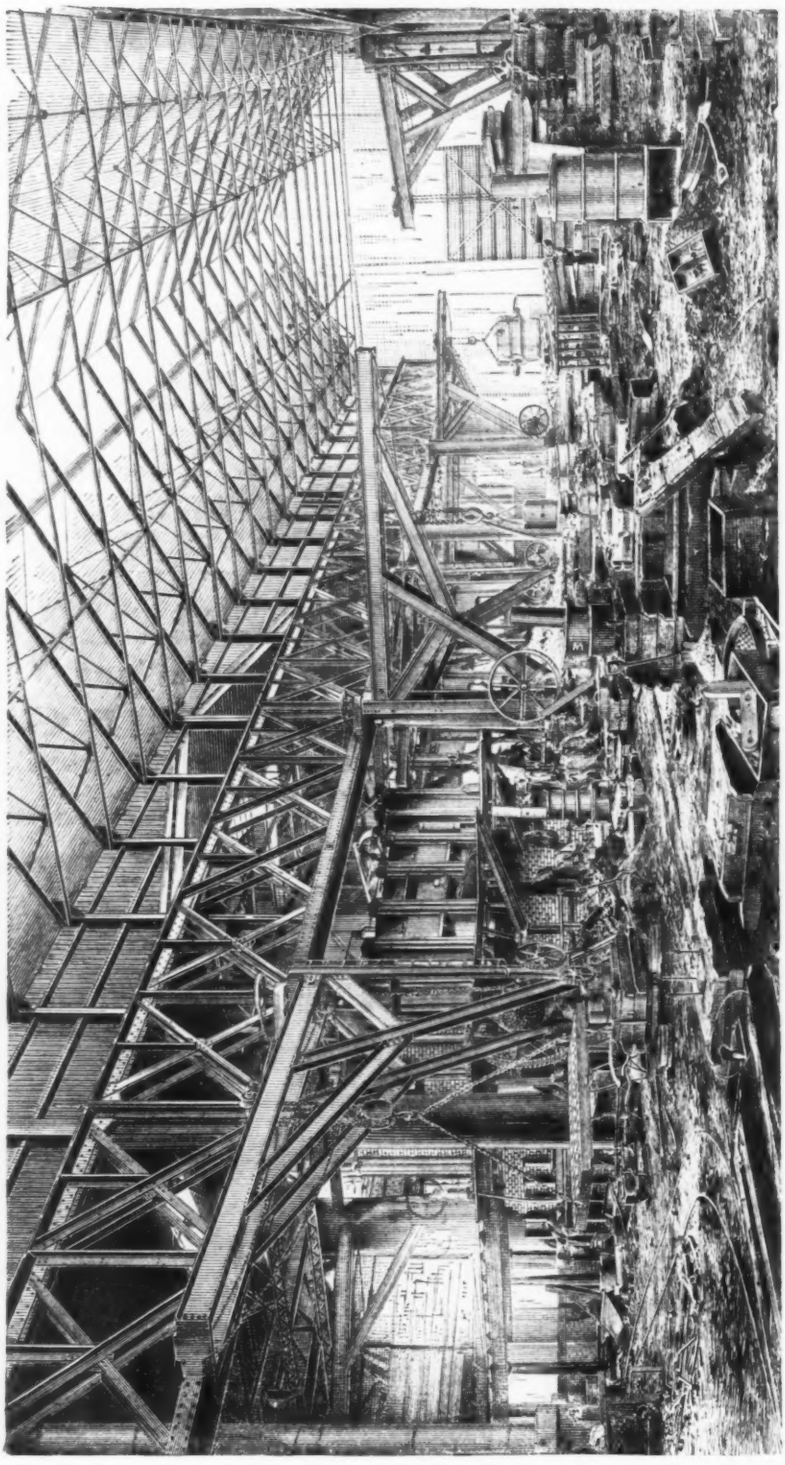
THE BERLIN IRON BRIDGE CO.,

Engineers, Architects and Builders in Iron.



The above illustration is taken direct from a photograph, and shows the interior of an Iron Foundry designed and built by us for The Farrel Foundry and Machine Co., at Ansonia, Conn. The building is 129 ft in width by 302 ft. in length. The wings are 30 ft. and 43 ft respectively, and the central portion is 56 feet in width. The central portion of the building is controlled by a hydraulic crane, with a travel the full length of the building, and is also arranged with jib cranes for delivering material from traveling crane to cranes in the wing trusses.

and are prepared to make

PROMPT DELIVERIES AND LOW PRICES,

Depending upon sizes, quantity and quality needed.

ALSO THE CELEBRATED

COLD ROLLED SHEET AND STRIP STEEL

FOR PRESSED, STAMPED AND DRAWN WORK, ETC.

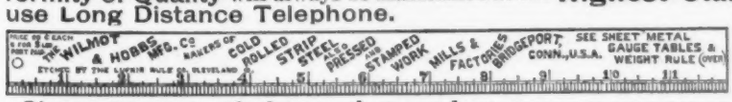
COLD ROLLING MILL.

UNEXCELLED BECAUSE OF ITS

SMOOTHNESS OF SURFACE,
ACCURACY OF GAUGE,
GENERAL UNIFORMITY,
GREAT DUCTILITY,
FREEDOM FROM GRIT.

Furnished in any width, ½ inch to 12 inches, and in lengths of 3 inches to 300 feet, also any degree of stiffness and quality of surface.

The Eastern Trade will find these Hot and Cold Rolling Mills extremely convenient, as they will not be subject to the long delays in transportation, etc., incidental to dealing with Western Mills, and Accuracy of Gauge and Width and Uniformity of Quality will always be maintained at the **Highest Standard of Excellence.** When in a hurry use Long Distance Telephone.



STEEL RULES

GIVEN AWAY.

If you use any of above, please send us this page of IRON AGE and a list of the material, mentioning size, quantity, quality generally ordered, and we will **MAIL A RULE FREE.**

—THE—

Chemical Analysis of Iron.

A Complete Account of all the Best Known Methods for the

Analysis of Iron, Steel, Pig Iron, Iron Ore, Limestone, Slag, Clay, Sand, Coal, Coke, and Furnace and Producer Gases.

SECOND EDITION.

——BY——

ANDREW ALEXANDER BLAIR,

Graduate United States Naval Academy, 1866; Chief Chemist United States Board appointed to Test Iron, Steel and other Metals, 1875; Chief Chemist United States Geological Survey and Tenth Census, 1880; Member American Philosophical Society, etc.

Handsomely Illustrated by 120 Outline Engravings on Wood. 8vo. 314 Pages. Half Morocco. $4.00.

The reputation which this book has so quickly won for itself among analytical chemists will certainly be increased by the improvements in the second edition. Every means has been taken to bring it up fully to the times, by incorporating all the new and improved methods, necessitating the addition of thirty pages of letterpress and nine new cuts.

"This work may, in fine, be pronounced a useful summary of a special and important department of analytical chemistry by an author of prolonged and wide practical experience."—*Chemical News*, London.

"Mr. Blair's is a standard work which will prove the chief guide of the young chemist, and a frequent guide to more experienced analysts."—*The Iron Age* New York.

"All iron chemists will find this book an exceedingly useful laboratory companion."—*The Chemical Review*, London.

"It is thorough, accurate, and so complete, as to be practically exhaustive of the important subject of which it treats."—*Philadelphia Iron.*

GRAPHITE PAINT!

TO DEALERS:- That Graphite Paint is the best protecting covering for exposed surfaces whether metal or wood is becoming more surely known and demonstrated every day. No matter what the exposure may be, whether heat, brine, acid or ordinary weather conditions, nothing will resist and protect as Graphite (Plumbago) will. **BUT IT MUST BE PURE.** We have our own Graphite mine, the celebrated Plombagina mine, Sonora, Mexico, and are the only manufacturers that can guarantee absolute purity, and this we do unqualifiedly. Our paint is used in every section of this country, and has become well and favorably known. It is already handled by many dealers, but having established its supremacy, and having a multitude of testimonials from our customers, we want it on sale in **EVERY CITY IN THE COUNTRY**, so that users of this material may not be delayed by sending to us for it. If no more than one pail, we want you to have that pail, and sell it to your most critical customer, on our positive guarantee that it will outspread and outlast any paint in the market under any and all conditions. And further, that owing to its great spreading quality, the expense in using it will be as low as the cheapest mineral paint. **WRITE US FOR PARTICULARS AND PRICES. WE WILL PUT YOU ON A PROFITABLE BASIS, AND ADD TO YOUR STOCK AN ARTICLE THAT WILL PLEASE YOUR TRADE.**

STEAM PLANTS.—Before purchasing any **FEED WATER HEATER and PURIFIER**, or deciding upon the adoption of any **System of Steam Heating**, kindly send us postal, and we will send one of our representatives, at our expense, to call upon you personally, in order to explain advantages which we guarantee over all others.

WEBSTER'S "VACUUM" FEED WATER HEATER AND PURIFIER.

Sizes from 30 to 2,500 horse-power carried in stock. Over 125,000 horse-power in daily use in the largest steam plants in the United States. *Send for Catalogue.* **CARDINAL POINTS.**—Highest temperature, purest feed water upon least quantity of exhaust steam, free exhaust to atmosphere, between engine and heater.

"WILLIAMES' VACUUM SYSTEM OF STEAM HEATING."

Without Back Pressure upon the Engine Guaranteed.—*Patent sustained in two Suits in the United States Circuit Court.* Adopted by 300 of the largest Factories, Mills, Electric Light Companies, Market Houses, Office Buildings, Schools, Theatres, Churches and Railroad Stations. *Send for Catalogue.*

ADVANTAGES.—Free exhaust to atmosphere, relief of back pressure, saving power, water of condensation, increasing efficiency of heating system, saving from 10 to 40 per ct. of fuel. Exact percentage can be determined after making examination of steam plant.—**ALL INFRINGERS WILL BE PROSECUTED.**

Can be attached to any steam plant. Furnished upon trial under guarantee. WARREN WEBSTER & Co., Main Office & Works, 491 N. 3d st., Phila'a.

THE WORLD'S CHAMPION

New Upright Self Feed

1891 Pattern $10 Post Drill.

This Drill is Double Back Geared, can be changed from slow to fast speed, weighs 120 pounds, drills from 1/8 to 1¼ inch hole, and to center of 14½-inch circle, designed for general blacksmith work. The diameter of the spindle is 1⅛ inch, length 13 inches, the screw having a run up and down of 4 inches. The crank can be shifted from shaft A to shaft B (or balance wheel shaft), thus increasing the power two and one-half times for heavy work. Shaft A for lighter work and faster speed. The change can be made in an instant from fast to slow speed. This Drill is supplied with an improved Automatic Self-feed. The drill is mounted on a hardwood 2-inch plank, 50 inches long, 6 inches wide, and not backed up by an extra addition of wood in order to increase the swing, which is often done to save iron and thus weakens the drill where it should be the strongest. The Drill is warranted in every respect and has the words cast thereon, "Every Drill Warranted." The spindle is bored to take ½-inch straight shank drills, but if specially ordered will be bored to take in 5/8 or 41-64, without extra charge.

Systematic Mineralogy, based on a natural classification, with a general introduction. By T. STERRY HUNT, M.A., LL.D. The author's aim is to reconcile the rival and hitherto opposed chemical and natural historical methods in mineralogy, showing that when rightly understood, chemical and physical characters are really dependent on each other and present two aspects of the same problem, which can be solved only by the consideration of both. He has devised and adopted a Latin momenclatnre and arranged the mineral kingdom in classes, orders, genera and species, the designations of the latter being binomical. 391 pages, cloth.....$5.00

For Sale by David Williams, 96-102 Reade St., N. Y.

THE WONDERFUL FORSTNER AUGER BIT?

If not, it will pay you to send for a sample 4-8 bit and price-list. Sent on receipt of 55 cents. It will bor Round, Oval and square Holes, and can not be equaled for fine carpentry, cabinet or pattern work. Discoun to dealers on application. FOR SALE BY ALL HARDWARE DEALERS.

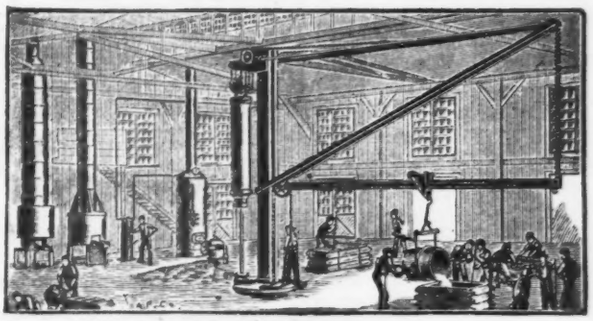
THE BRIDGEPORT GUN IMPLEMENT CO.,

Depot for Sales. 313 and 315 Broadway, New York.

THE Balanced "Steam-Hydraulic" Crane.

Blast Furnace Managers Mark This.

We are making lots of these Cranes for handling cinder, and we have never yet supplied a Crane that did not **SAVE IN ACTUAL WAGES $900 PER YEAR,** and very often twice that This equals a **CASH DIVIDEND OF 5 PER CENT. ON $18,000.** Not only does it make this saving in wages, but the cinder bank becomes a more desirable place to work, and there is no longer trouble in getting good men to work there.



Cut shows 5-ton Ridgway Crane in Foundry, Diamond State Iron Co., Wilmington, Del.

THE GREATEST FOUNDRY CRANE KNOWN.

Rolling Mill Managers Mark This.

We are furnishing these Cranes to the best mills in the land, and everybody who gets them say they save their cost in a few months. One man does the work of a dozen, and does it quick. Look at this card next week and see the list of mills using these Cranes.

In these days of **CLOSE PRICES** no concern can afford to throw money away in wages for slow hand-work, when a very little bit of steam can be so cheaply, so easily and so safely harnessed to do the work as in this wonderful Crane.

MARK THIS TOO.—We will any time furnish these Cranes free of all cost to you, and take for our pay one-half what they save you in actual wages.

The most successful, largest and wide-awake concerns in the land are putting in these Cranes. You must do likewise, if you expect to compete with them.

ELEVATORS.—We also build Elevators on this Steam-Hydraulic principle. They are the best Elevators made; never get out of order, and highly efficient. Send for Circulars.

CRAIG RIDGWAY & SON, COATESVILLE, PA.

THE WOODRUFF SYSTEM OF KEYING FOR MACHINERY

Does not require skilled labor to cut key way or fit key.

The peculiar way of inserting the key practically makes it part of the shaft.

A man will fit more than double the number of keys in a day than by the ordinary method.

Will save you from 50 to 75 % on the cost of your keying.

ENDORSED BY MECHANICS AND ENGINEERS.

Illustrated pamphlet containing a full description will be sent free on application.

THE WOODRUFF MFG. CO., Hartford, Conn.

IS THE STOVE PIPE UP,

And was the circumnambient atmosphere of a cerulean tint during the progress of this May day occupation? Has grim visaged war smothered his ruffled front? Then let us talk about **Bonnell's Nubian Iron Enamels,** the best blacks on earth or any place else; made in all grades from cheap dipping and boiler paint to high grade Bicycle, Electric and Railway blacks and every gallon guaranteed to suit the buyer or no pay. If you have been worrying along with ordinary asphaltum then you will appreciate **Nubian.** It's far superior, just as cheap and guaranteed.

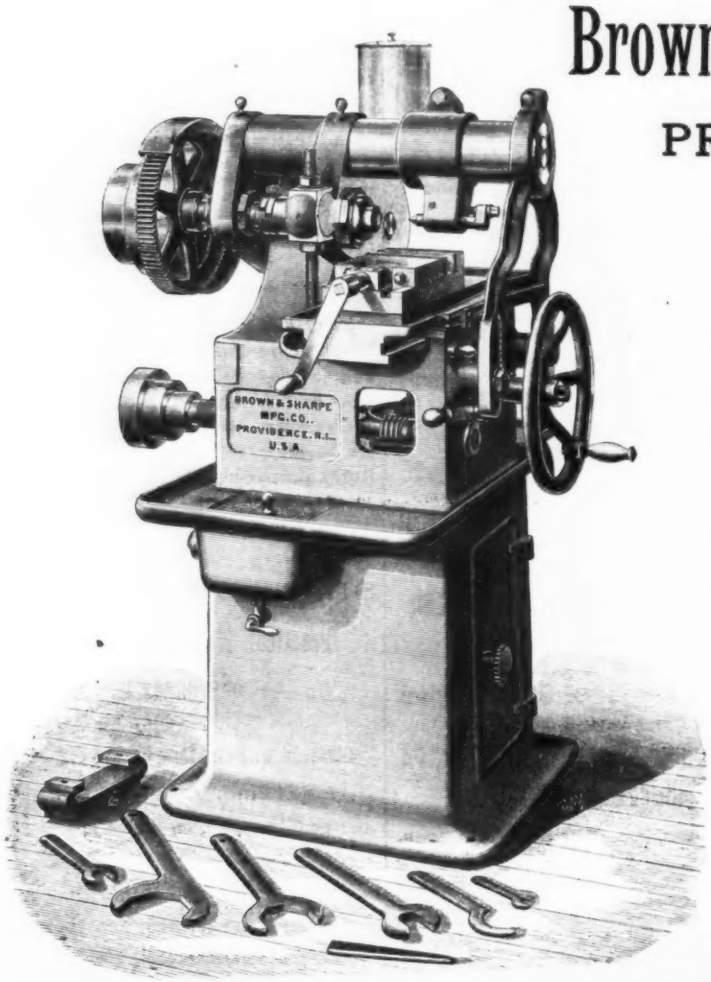
PROVIDENCE, R. I.



The Majority of Milling is Plain Milling.

In manufacturing small tools, parts of guns, sewing machines, typewriters, etc., the No. 2 Plain Milling Machine can be satisfactorily employed. It is powerful, quickly adjusted and conveniently operated.

The table is 28 inches long, 9 1-2 inches wide. The machine weighs 1950 lbs.

We have 86 Plain Milling Machines in use.

Catalogue mailed on Application.

SECOND-HAND TOOLS

CONN. VALLEY MFG. CO.,
Centerbrook, Conn.

A NEW COAL FIELD AND TIMBER DISTRICT.

The **OHIO EXTENSION** of the **NORFOLK & WESTERN RAILROAD** penetrates one of the most valuable coal and timber districts in the United States. The line of this extension is 193 miles in length, from Coal Grove, Ohio, via Kenova, W. Va., to Elkhorn, W. Va., of which 54 miles, to Dunlow, W. Va., is now opened for business and the entire line is under construction and will be completed early in the fall of 1892. It passes through virgin country abounding in gas, splint, cannel, steam, coking, and domestic coals and fire-clay; chestnut-oak, white-oak, beech and poplar timber. Those looking for advantageous sites for the location of saw-mills or tanneries and establishments for the manufacture of furniture, wagons, agricultural implements, wood-pulp, fire-brick, or manufactured iron articles, should investigate the resources of this new field. The new town of Kenova, W. Va., offers many advantages for the location of manufacturing establishments, also the territory opened up by the Norfolk & Western Railroad on the north bank of the Ohio River, between Kenova, W. Va., and Portsmouth, Ohio. For the manufacture of finished iron articles the district offers unequaled advantages, with supply of coal and Pocahontas coke on short hauls, and with the blast furnaces of the Ironton, Hanging Rock and Ashland district in close proximity. Favorable freight rates made upon raw materials to all manufacturing establishments on this line.
For further information as to freight rates, maps, names of parties to whom application should be made for coal leases, &c., apply to
JOHN J. ARCHER,
Div. Freight Agent, Columbus, O.
or CHAS. G. EDDY,
Vice-President, Roanoke, Va.

Wanted, Manufacturers.
FREE SITE, CASH BONUS.

To reliable manufacturing concerns who wish to change locations or start new ones. We have several desirable locations for *Rolling Mills, Nail Factories, Glass Works, Hardware Mfg. Plants*, in fact almost every line of manufacturing, in the cities and towns of the *Middle, Northwestern, Southwestern* and *Western States; substantial inducements to the right parties* We are *not bound* to *any locality* and will give *unbiased information* on application.
Write for proposition blank.

J. E. MULLEN, Trustee.

WANTED.

Western Rolling Mill, Nail Works or **other Manufacturers in Iron** or **Steel** to lease exclusive territory, for the manufacture and sale of a specialty in which there is a large profit. Demand unlimited. For particulars, address

"FRANKLIN,"
office of *The Iron Age*, 220 So. 4th St., Phila.

HARDWARE STOCK FOR SALE CHEAP.

The stock of goods in the old hardware stand at Waverly, N. Y., is offered for sale. The stock is reduced to low amount and is clean. The stand has had a large trade for upwards of 40 years and is well and favorably known for miles around. Building is very convenient and has the modern improvements, including large power elevator. This opening presents an opportunity to start up with a fresh stock, or to move an old stock from a crowded locality to this desirable point. Three railroad trunk lines pass through Waverly. Address

H. G. MERRIAM,
Waverly, Tioga Co., New York.

FOR SALE.

RARE OPPORTUNITY FOR THE RIGHT MAN.

Owing to the death of Edward Heath, Treasurer of the Malden Hardware Co., Malden, Mass., a city of 25,000 inhabitants, situated 4 miles from Boston, the stock, fixtures, tools and teams of the company are offered for sale. Stock will invoice about $10,000. Must be sold on or before June 1, 1892, to close estate. Apply to

CHARLES HEATH, President,
on the premises.

FOR SALE.

A thoroughly well assorted stock of Shelf Hardware, House Furnishings, Stoves, &c., located in a growing and thriving Illinois town of 25,000 inhabitants; stock $8,000 to $10,000. The town is noted for its manufactures and is surrounded by the finest agricultural lands in the State. The business well established and thriving. Address "LIGHT,"
office of *The Iron Age*, 96-102 Reade St., N. Y.

BUSINESS FOR SALE.—A thoroughly established manufacturing business in the metal line. Goods well known and selling to the best wholesale trade. This business is now paying, but present owners have other business to which must be given all their time and capital. Thoroughly competent practical man will stay with it if desired. About $15,000 required. Good chance for some town desiring manufacturing plant, as it can be easily removed. "LAFAYETTE," office of *The Iron Age*, 96-102 Reade St., New York.

FOR SALE.

An established retail hardware business in a live, beautiful, healthy and growing manufacturing city in the Northwest; fine modern store in a central location; business well established; stock about $25,000; splendid chance to step into a business already established, with opportunity to extend all one could wish (no trade for real estate). For further particulars, address "NORTHWEST," Box 331, office of *The Iron Age*, 96-102 Reade St., New York.

—: A :—

MANUFACTURING PROPERTY.

Splendidly located in a thriving Western City, lying adjoining main line of prominent railway. Every convenience of receiving and shipping over five railways; favorable freights, and floor space exceeding 100,000 feet. Sufficient extra land for additions. Running full with capacity of 150 H.-P. Would sell the whole with a business well-established for many years, or would form an association with good party for the manufacture of goods adapted more to spring and summer trade, the opposite of present output of fall and winter goods. We consider this an opportunity rarely offered. Would take half interest in a satisfactory connection with agricultural goods or similar class. Good reasons will be given for making this proposition. This party would be pleased to share the management of the business with an equal partner or retire the whole care of it if the association proves satisfactory.

"X. O. F.,"
office of *The Iron Age*, 96-102 Reade St., N. Y.

WANTED.

To communicate with the owners of a modern Coke Blast Furnace, who are open to a proposition to move it to the best location in the country,

L. K. HIRSCH,
549 Rookery, Chicago, Ill.

FOR SALE.

Sealed proposals will be received until noon of June 15, 1892, by W. F. Kyle, Manager for the Truetees of the Fieldhouse & Dutcher Mfg Co., 30 & 32 West Monroe St., Chicago, Ill., for the sale of the entire property of said Company, including accounts; or for the sale of the merchandise, machinery and fixtures, in whole or in part.

The amount of sales in 1890 and 1891, combined, exceeded $800,000. The business shows a considerable capital over liabilities.

The Trustees reserve the right to reject any or all proposals. The books, accounts, merchandise and other property will be exhibited to any responsible persons who may wish to submit proposals for purchase. Blank forms will be furnished for proposals. Proposals may be sent to Mr. W. F. Kyle at the above address, and will be forwarded to the Trustees at New York for acceptance or rejection by June 20.

The Trustees of
FIELDHOUSE & DUTCHER MFG. CO.

Can't I Do BUSINESS with YOU?
Write for my scheme.
First-Class References as to my ability and manner of doing this work. Address
"K. R. P.," Box 526,
office of *The Iron Age*, 96-102 Reade St., N. Y.

I AM advertising for and also by personal correspondence reaching every manufacturer of "SPECIALTIES" in the country—light salable articles that you can carry as "SIDE LINE," so that I expect to have at all times several good sellers that you may have your choice of. Send me your permanent address and I will write you full particulars of any new and desirable seller that I may have. You know there are many such continually coming to the front which it does not pay the manufacturer to put men on the road with. Just where to get the right men, and how, is a question with them many times. Of course most of these things pay commission, but I know of several parties who are paying stated salaries to good men to help introduce their goods. It won't cost you but TWO CENTS to give me your address, together with territory covered, line you are selling, and any other points that may be of interest. Your communications would be treated at all times as strictly confidential.

STANLEY G. LEONARD,
Box 425, Syracuse, N. Y.

WANTED.

Nail Plate Train, complete, two-high rolls will answer. Three stands, with Pinion housings. Also pair Rail Shears. Give size of housings and all particulars with price f. o. b. cars. 18 in. train preferred. Address
"NAIL PLATE TRAIN,"
office of *The Iron Age*, 96-102 Reade St., N. Y.

MANUFACTURERS.

I am after "SPECIALTIES" of all kinds, particularly small light articles that can be carried by traveling men as a "SIDE LINE," and am prepared at all times to place such goods upon the market in the hands of good men who will give them a share of their labor and attention. I also "CIRCULAR" the trade where desired, reaching the best class of Hardware trade in the entire UNITED STATES, or any State or combination of States. MAIL me sample of your article to be sold, write me *full* particulars in regard to *prices, terms,* freight, territory to be covered or exempt, &c., &c., your ideas as to seller's recompense, commission or salary, and how much in either case. Yours will have careful consideration and prompt reply.
Save my Address, for reference.

GEO. L. SMITH,
Box 414, Syracuse, N. Y.

WANTED.

Fluor-Spar.

ILLINOIS FLUOR-SPAR & LEAD CO.

SUCCESSORS TO

MULLIN'S

FLUOR-SPAR AND LEAD MINING CO.,

57 Board of Trade Building, Chicago, Ill.

This Company owns, at Minera City, on the Ohio River, the larges Mines of Fluor-Spar ever discov ered.

We are working a large force o miners; our new mills and tran railway are running, and we ar now prepared to furnish the pures Fluor-Spar in any quantities to Iro and Steel Manufacturers, to Smelter of Gold, Silver and Copper, and t Paint, Paper and Glass Makers.

Fluor-Spar is pronounced th most powerful of fluxes; it facili tates the reduction of the most re fractory materials. For Alkalies Clays and all Metallic Oxides it ha a remarkable solvent power; it re duces the melting point and save fuel; it diminishes the loss of metal saves labor and keeps the cupol clean; reacts strongly upon scaffold and cloggings.

One part of Fluor-Spar is mor effective than ten parts of Lime stone. Limestone is an enemy t iron; Fluor-Spar is a friend.

Directions for the proper use o Fluor-Spar given our patrons.

We ship Lump, Gravel, Crushe and Ground, in bulk or barrel.

EXPERTS IN MECHANICAL ENGINEERING.

Consulting Engineers, by the year or otherwise; Intricate work a specialty; Experienced help; Best of facilities; Electrical Aparatus of every description, large and small; Drawings, Patterns, Models, Tools, Gauges. In fact, entire plants for manufacturers furnished. Correspondence Solicited.

Connection of Transverse and other Strains. Roofs. Torsional Elasticity. Deflection of Beams. Modulus of Elasticity. Permanent Set. Impact. Collapse of Tubes. Factor of Safety. Fatigue of Metals. APPENDIX. By THOMAS BOX. 525 pages, 27 plates and upward of 150 tables, 8vo, cloth.....$7.25

A Journal of the Iron and Steel Institute, No. 2, 1891. Embraces proceedings Iron and Steel Institute, at their London meeting, October, 1891. Full report of the papers then presented and discussions thereof. Notes on iron and steel progress at home and abroad. Statistics of production and wages. Imports and exports. Articles on chemical analysis, physical properties, fuel, ores, etc. Cloth.....$6.00

Walden's Stove Trade Directory. Containing a list of the manufacturers of stoves, ranges and furnaces, classified under the heading of goods made. Also a list of stove manufacturers and dealers, house furnishings and tinware dealers in the principal cities, 1892-1893. Cloth.....$3.00

Brick for Street Pavements. An account of tests made of bricks and paving blocks, with a brief discussion of street pavements and the method of constructing them. By M. D. BURKE. 86 pages, paper.....$0.50

Mortars and Concretes of Antiquity and Modern Times. Read at the Twenty-Second Annual Convention of the American Institute of Architects. By ADOLF CLUSS, F.A.I.A. Pamphlet.....$0.25

An Elementary Course in Theory of Equations. By C. H. CHAPMAN, Ph.D., Associate in Mathematics in Johns Hopkins University. 12mo, cloth.....$1.50

The New York Building Law for 1892. Pamphlet.....$0.2

Record of Scientific Progress for the year 1892. Exhibiting the most important discoveries and improvements in all the branches of engineering, architecture and building, mining and metallurgy, the mechanic arts, industrial technology and the useful arts, photography, chemistry, medicine and surgery, printing, the generation, measurement, transmission and application of electricity, the telegraph and telephone, meteorology and aeronauty, astronomy, etc. By ROBERT GRIMSHAW, M.E., Ph.D. 372 pages, cloth.....$1.50

Pocket Companion. Containing useful information and tables appertaining to the use of wrought iron and steel as manufactured by Carnegie, Phipps & Co., Ltd., Pittsburgh, Pa. For engineers, architects and builders. 1892 edition. Edited by C. L. STROBEL, C.E., assisted by F. H. KINDL, C.E. Leather with flap, 334 pages.....$2.00

Dynamo-Electric Machinery. A Text Book for Students of Electro-Technology. By SILVANUS P. THOMPSON, D.Sc., B.A., F.R.S. It is nearly two years since the last edition of Thompson's Dynamo-Electric Machinery went out of print, since which time the author has been busily engaged in preparing an enlarged and revised edition. CONTENTS: Introduction; Historical Notes; Physical Theory of Dynamo-Electric Machines; Actions and Reactions in the Armature; Magnetic Principles and the Magnetic Properties of Iron; the Magnetic Circuit; Forms of Field-Magnets; Elementary Theory of the Dynamo, Magnetic and Separately-Excited Machines—Series Machines—Shunt Machines; Characteristic Curves; Constant Potential Dynamos; On Winding of Armatures—Theory of Connections; Practical Construction of Armatures; Commutators, Brushes and Brush-Holders; Mechanical Points in Design and Construction; Elements of Dynamo Design—Calculations of Windings; Arc-Lighting Dynamos; Examples of Modern Dynamos (continuous current); Miscellaneous Dynamos; Electric Motors (continuous current); Modern Forms of Continuous Current Motors; The Principles of Alternate Currents; Alternators; Alternate Current Motors; Transformers; Electric Transmission of Energy; Regulators for Dynamos; Testing Dynamos and Motors; Management of Dynamos. Appendix A.—Electric and Magnetic Units. Appendix B.—Wires for Winding Dynamos. Fourth edition, entirely rewritten, nearly 1000 large pages of text. Profusely illustrated, including 29 plates, $9.00

A Text-Book on Retaining Walls and Masonry Dams. This work is designed not only as a text-book for students, but also for the use of civil engineers. It clearly sets forth the methods of computing the thrust of earth against walls, and the investigation and design of walls and dams in the most economic manner. The principles and formulas are illustrated by numerous numerical examples. By Prof. MANSFIELD MERRIMAN, Lehigh University. 8vo, cloth.....$2.00

Small Talk About Business. A Banker's Business Hints for Men and Women. By A. E. RICE. 60 pages, cloth.....$0.60

Notes and Examples in Mechanics; with an appendix on the Graphical Statics of Mechanism. By IRVING P. CHURCH, C.E. This forms a companion volume to the writer's "Mechanics of Engineering" and contains various notes and many practical examples, both algebraic and numerical, serving to illustrate more fully the application of fundamental principles in mechanics of solids; together with a few paragraphs relating to the mechanics of materials and an appendix on the "Graphical Statics of Mechanism." 146 pages and plates, cloth.....$2.50

Practical Carriage Building. A collection of articles compiled from those contributed to the columns of *The Blacksmith and Wheelwright* during the past few years, and covering the entire range of the art of carriage building from the plan of a vehicle to its completion, illustrating and describing fully the sectional parts. Edited by M. T. RICHARDSON. Beginning with some remarks on the proper timbers to use, plans for a carriage shop are described and illustrated; then come the tools, floor, bench and wood-working appliances necessary for a successful shop. Following this is a chapter on wheels and the repairing of wheels, and then are described and illustrated mortises, laps, gather of wheels, plumb spoke, etc. Illustrated, Vol. I, 224 pages, cloth.....$1.00

Mineral and Railway Map of Southwest Virginia and Contiguous Territory. The position of Southwest Virginia, Eastern Tennessee, West North Carolina, East Kentucky, and part of West virginia ores, coal areas, furnaces, collieries, manufactures, railways, roads, streams, mountains, towns and their population, leading industries, agricultural and pastoral belts, and the scientific and economic geology; iron, manganese, coal, zinc, lead, copper, sulphur, tin, gold, marble, slate and lithographic stone, are all shown on Boyd's Map of the Mineral Resources and Railway Facilities of Southwest Virginia and Contiguous Territory. This map extends from East of Roanoke, Lynchburg, Staunton and Danville, westward to Knoxville, Asheville, Cumberland Gap and Ohio River, Kenova and Cincinnati: a region unexampled in the progress of its safe mineral developement. Map is on a scale of six miles to an inch for its greater part. On cloth, pocket form, 21st edition.....$5.00

Why Band Saws Break. Sixteen reasons and how to avoid them. Being instructions to filers on the care of large band-saw blades used in the manufacture of lumber. By JOSHUA OLDHAM. 90 pages, illustrated, cloth.....$1.00

Ways and Means for Machinists, Metal Workers, Model Makers, Watch and Tool Makers, Jewelers, Draftsmen, etc. Being a collection of hints and helps not found in books usually written for this class of artisans. By A. H. CLEAVES, M.E. 125 illustrations, 158 pages, cloth.....$1.00

Safety Valves: their History, Invention, Antecedants and Calculations. By W. B. LEVAN. Illustrated pocket-book style, cloth $1.50; leather.....$2.00

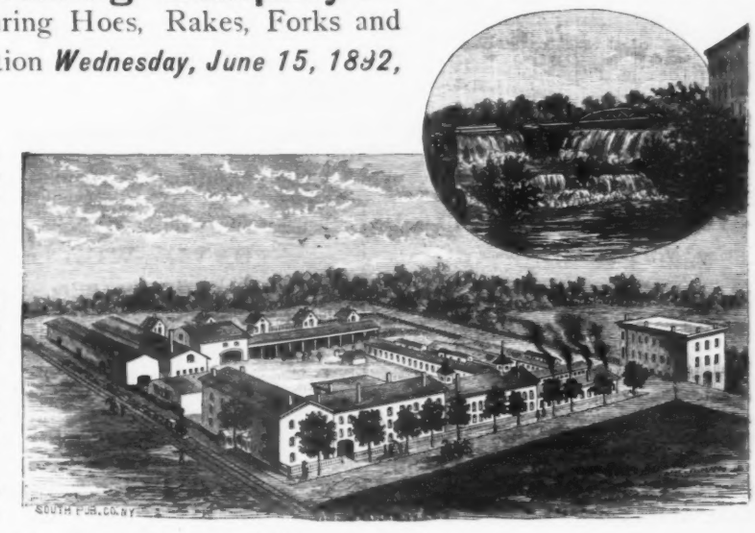
FOR SALE AT AUCTION.

The Auburn Manufacturing Company's Plant located at Auburn, N. Y., fully equipped for manufacturing Hoes, Rakes, Forks and Scythes, will be sold at public auction ***Wednesday, June 15, 1892,*** at two o'clock, on the premises.



The buildings surround a hollow square of several acres in extent, as shown in accompanying cut. The main buildings are substantially constructed of stone and brick, thoroughly equipped with fire extinguishing apparatus, and cover the entire frontage of the property, 350 feet.

It has magnificent water privileges, 300 Horse Power, supplemented by a modern Steam Plant of 250 Horse Power added in 1888, but scarcely used since then, as Water Power has been ample. Steam plant is in perfect condition.

The Plant is located on the line of the New York Central Railroad, as shown in cut, and but a few rods distant from Lehigh Valley Railroad, thus affording unequaled shipping facilities.

Auburn is a city of about 25,000 population, and has an excellent class of labor, recruited from the surrounding farming country.

Accurate map of the premises will be furnished on application.

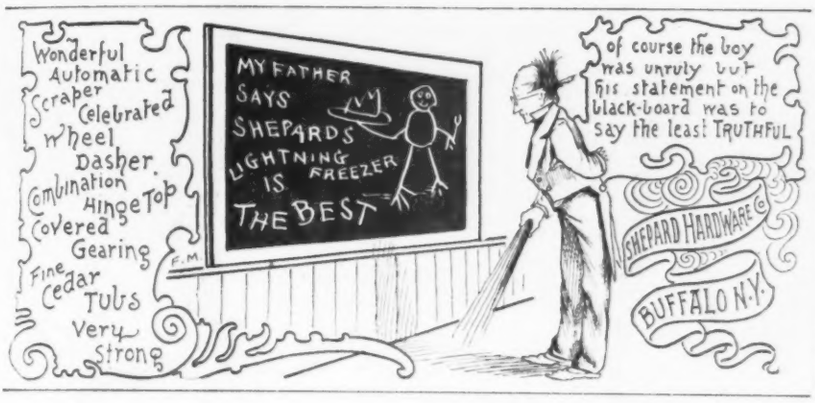
Cycling Honesty.

There are a good many bicycles of beauty, lightness, wear — The modern bicycle is well built, whether it be a Columbia or some other — perhaps the facts that there are more active Columbias than all other high-grade bicycles in America; that the Columbia factory, by heavy majority, is the largest and most complete in the world, a factory which does not know how to produce a low grade machine; the unanimous opinions of skilled experts; — altogether, may suggest that it is safer to buy a Columbia. Book about Columbias free on application to any Columbia agent, or sent by mail for two two-cent stamps. Pope Mfg. Co., 221 Columbus Avenue, Boston.



We are always anxious to secure live, responsible agents.

SYLPH CYCLES RUN EASY.

Perfection of cycle manufacture. Hollow tires good; spring frames better: Sylph combines both and is best. No need now to ride springless cycles or depend on tires alone for comfort. *Sylph Three-Part Spring Frame* destroys vibration without complication. Light, simple, strong. FOR DEALERS!

THE CELEBRATED

"PERFECTION"

Water Elevator and Purifying Pump.

The storage of water in cisterns and open wells is the method largely adopted throughout this country by the people for Drinking, Cooking and Bathing purposes. We have had an abundance of rainfall, all wells and cisterns are full, and such being the case we all know the water contained therein becomes FOUL and STAGNATED during the months of July, August and September. If you will place a "PERFECTION" PUMP on your well or cistern we GUARANTEE the water to become and remain as PURE as a MOUNTAIN STREAM. Try it and be convinced. It is the simplest structure for raising water on the Continent—guaranteed not to freeze.

The Perfection

Having no Valves, Tubes or Plungers to get out of order, no Wood Tubing to Pollute the water, no attachment below platform, never has to be primed, packed or thawed out. Guaranteed never to freeze; easiest pump operated. Over 140 000 in daily use.

We are now striping and decorating the "Perfection" in the finest manner possible.

Agents wanted in every town. Dealers write your jobbers for quotations. Be sure you get "The Perfection," take no other. For full information, circulars, catalogues, etc., address the manufacturers.

MALLEABLE BACK.

Notches in Casting permit the Blades to rock on the Rivet.

(SAMPLE, POST-PAID, 24c.)

Arranged to be held by Thumb and Little Finger (the natural way of holding a comb).

CAUTION.

This Comb is secured to us by Letters Patent No. 464,773, dated December 8th, 1891, and we have secured control of Patent No. 220,986, dated October 28th, 1879, issued to Paschal Plant, together with all accrued claims for infringement of said Letters Patent. We hereby CAUTION all parties against MAKING, SELLING or BUYING Curry Combs that in any manner infringe these Patents. The said Patent No. 220,986 is the BOTTOM PATENT to FLEXIBLE or SPRING Curry Combs. The "claim" thereof reads as follows: "As a new article of manufacture, a flexible Curry Comb formed of a toothed strip of metal or other suitable material, without a plate or back, and with a suitable handle attached directly to the strip, substantially as described." Parties MAKING, SELLING or BUYING FLEXIBLE or SPRING Curry Combs not licensed by us under the above-mentioned Patent are liable to damages, and we shall proceed against them as fast as possible.

THE RAVEN STOVE POLISH

Gives the results so long wished by stove manufacturers—namely, a **Jet Black Gloss** without the silver lustre that has always prevailed. We own our Graphite (Plumbago) mine in Sonora, Mexico. The celebrated Plombagina mine. Its product is a peculiarly black Graphite with high chemical purity." The graphite commonly used is lead color It makes our polishes **the best.**

All the large stove manufacturers are now using it.

DEALERS: Make your sample stoves attractive by using Raven Paste Polish, and sell our domestic packages to your trade.

Remember that a stove well blacked is half sold. Our claim is—the Cleanest, Blackest, and Glossiest in the world. Put up in Pails, Bottles, Boxes and Cakes. Correspondence invited.

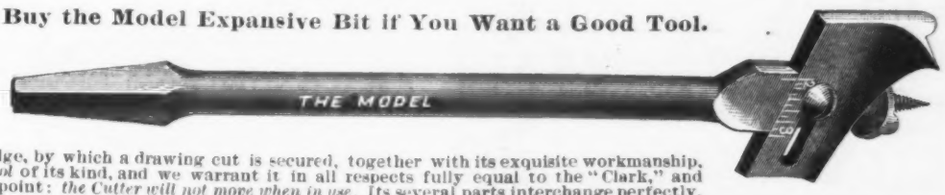
— INCORPORATED, —

Nos. 97 Chambers and 79 Reade Streets, New York.

Representing Leading American Hardware Manufacturers.

Sole Agents for the "W. A. Ives Co." celebrated brand of Augers, Auger Bits, Expansive Bits and other Boring Tools.

Buy the Model Expansive Bit if You Want a Good Tool.



THE superior excellence of this tool consists in the peculiar seat in which the Cutter is placed. The manner in which it is fitted into its seat, in which it is so firmly held as to be absolutely immovable in use, the curve of its cutting edge, by which a drawing cut is secured, together with its exquisite workmanship, all combine to make it a *Model Tool* of its kind, and we warrant it in all respects fully equal to the "Clark," and decidedly better in one important point: *the Cutter will not move when in use.* Its several parts interchange perfectly.

No. 2 GLOBE INCANDESCENT

THE BRAY FLY BOOK.

THE reputation of the BRAY FLY BOOK as the neatest and most practical Fly Book made is well established everywhere. The quickness and dispatch with which Flies of any size are placed within these books without coiling of the Snell or mutilation of the Fly makes its superiority over all other methods very easily recognized by all anglers. The Flies can be as readily detached when wanted. The leaves to which the Flies are attached will in the future be made of a new material of more durability and finish than before. The workmanship and material will be kept up to highest standard, and no effort will be spared to keep the BRAY FLY BOOK (as it now is) the BEST in the WORLD.

ALWAYS FIRM AND RIGID
WHEN ATTACHED

PERFECTION SAW HANDLE

THE ONLY PERFECT SAW HANDLE MADE.

Ely's Perfection Saw Handle

POINTS OF SUPERIORITY.

It has the double or drop handle, making it more convenient for high sawing.

It is attached to the saw by a loose rivet, tightened by a thumb screw on back of handle, which makes it as firm and rigid as though riveted to the saw. It is quickly detached by loosening the wing nut on back of handle

It has a square socket and shoulder for changing the position of saw for sawing standing timber, which is quickly done and easily adjusted by loosening wing nut and turning handle half around.

The attachment of the handle to the saw leaves sufficient room to place your hand directly back and in line with the saw, which will save 25 per cent. of the labor over other saw handles.

BEST POKE ON EARTH.

KRICK'S METALIC ADJUSTABLE POKE

Points of Superiority.

1st—It's ten times stronger than any wood poke

2d—The weather does not affect it.

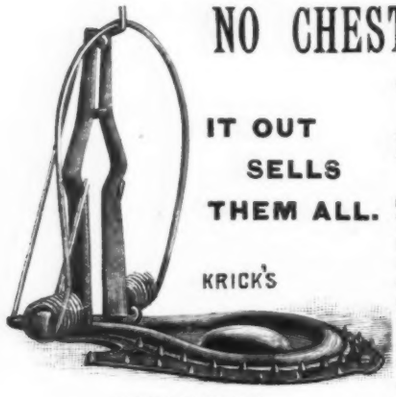
3d—Does not wear the mane or make the neck sore.

4th—The brail is always in front and does not come in contact with the legs and interfering in feeding.

5th—If brail breaks it can be replaced in five minutes.

6th—The only poke made adjustable to various sized necks.

7th—It will break cows of the habit of jumping or throwing down fences. Use on cow by sawing off brail to proper length.



DANDY TRAP

NO CHESTNUT BAIT TRAP!

IT OUT SELLS THEM ALL.

KRICK'S

The Animal does not have to pull a Bait to be Caught.

IT IS A PLATFORM TRAP.

When set at the hole or in runways the animal cannot pass without being caught. THE TOOTHED BASE gives it better holding properties than any other trap. Being made of malleable iron it cannot warp, split or rot as other bail traps do. The strike wire can be made stronger at any time by throwing ends of wires out of seats and bending them short backwards near the coils. The animal can be dumped without touching with the hands by throwing ends of bail wire out of seats.

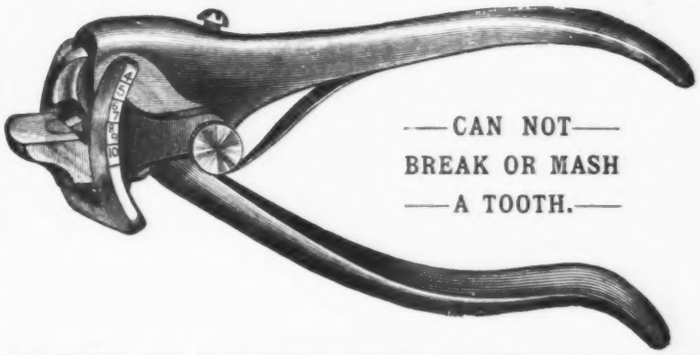
YOU CAN MAKE NO MISTAKE!

LLOYD ACME



—CAN NOT—
BREAK OR MASH
—A TOOTH.—

SAW SET.

A WOOD-BUTCHER CAN SET A SAW AS WELL AS A SAWYER.

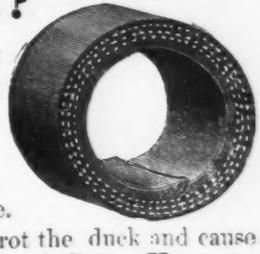
The Screw on the top of the Set prevents mashing the Tooth. The Gauze on the side assures the correct set, and the small Screw on the face of the Set gives the required bend to the tooth. All wearing parts are made of steel, strong and durable.

LIST: HAND SAW SETS, $15.00 PER DOZEN. CROSS CUT SAW SETS, $30.00 PER DOZEN.

NEW SEAMLESS TUBE

WHO HAS NOT HAD BAD HOSE?

OLD LAPPED TUBE



Who has not lost time, patience, money, by attempting settlement for such goods? **THE CAUSE**, in nine cases out of ten, is the lapped seam.

THE REMEDY is in buying our

PATENTED SEAMLESS-TUBE HOSE,

made by machinery, the tube run like lead pipe, through a die. There is no lapped tube, no seam, no crack, no defects: water cannot get through to rot the duck and cause the hose to burst. Made in all sizes and kinds of Garden, Engine, Steam, Fire, Brewers', Cotton Hose, etc.

$50 for sample bale containing
100 feet Buckeye (Black).
100 " Shield High Grade (Blk).
100 " High Pressure (Red).
50 " Shamrock (Green)
50 " Old Gold (Yellow).
100 " Cotton, Rubber Lined.
With couplings attached.
Or bale will be made up as desired at proportionate prices.

Order Sample Bale of our Seamless-Tube Hose—Best in World. Costs no more than ordinary lapped-seam hose. The different colors, Red, White, Black, Green and Yellow, make a fine window or sidewalk attraction.

SOLE AGENTS,

THE BRONSON SUPPLY CO.,

CLEVELAND AND NEW YORK, U. S. A.

Wrought Steel Hollow Ware.

"Empire" Cold Handle Steel Spiders.

PATENTED.

The "Empire" Cold Handle Spiders are made from cold rolled wrought steel of the highest grade and finish, and are stamped from a SINGLE PIECE, and polished perfectly smooth and bright. The thickness of the steel of which the Empire Spiders are made (No. 14 Standard gauge) is a guarantee that they cannot break, bend or warp. An important feature also is that they are made without rivets, and cannot leak or the handles become loose.

The handle is reinforced in an attractive manner with a cover made of heavy tin, making a hollow ventilated handle which keeps always cool and comfortable to the hand.

The Empire SPIDERS will be found on inspection the most perfect ever made and cannot fail to give satisfaction. Our 1890 Catalogue of Patented Specialties, Acme Fry Pans, and Edgar's Patent Stove Shovels, mailed on application.

PEERLESS ICE CREAM FREEZERS

Have a Double Action. There are no Triple or Quadruple Action Freezers.
The Peerless Crank can be used either side or top.
The Peerless Dasher prevents granulation of the Cream.
The Cream-pressing outer leaf of Dasher keeps the Scraper against the side.
The Action of the Peerless draws the air to the bottom, aerating the Cream.
The Peerless aerates and freezes uniformly.
The Peerless Can may be revolved after Dasher has been removed to harden Cream.
The Peerless Dasher is self-adjusting.
The Peerless is the only Freezer in the market for making Fruit Creams.

ARE YOU OPEN TO CONVICTION? IF SO, SEND US SAMPLE ORDER. OUR PRICES WILL BE SATISFACTORY.

DID YOU EVER STOP TO THINK

That the Cash-Drawer is the beginning of many a merchant's fortune and misfortune? That it must be protected just like your bank account? That we do not sell Cash Registers *on paper* and when you order try to sell a "better one"? The Sun Register is sold *on honor*; the Cathedral Gong Money Drawer *on its merits*, and our Coffee Mills and Rat Traps sell well *on the counter*. We make these goods at the rate of two per minute, our own patents, and don't imitate or follow.

The Jno. M. Waddel Mfg. Co.,
GREENFIELD, OHIO.

WHEN: Business hints for business men in business hours. Bound in attractive pamphlet form, with superior quality of paper and print. Price 25c. This little book, comprising a series of business maxims the result of wide experience and observation, should be read by every business man or clerk and all those engaged in commerce or trade. Successful merchants will here recognize, in condensed form, the principles upon which their prosperity has been based, and will find reminders and pointers which cannot fail to be an invaluable aid. Clerks, Tradesman, and those who have yet their way to pave, will find the essential facts which govern all permanent success, many of which to him are either unknown or not fully appreciated. Each paragraph is introduced by the title word WHEN. Sent, post-paid, on receipt of price by DAVID WILLIAMS, Publisher, 96-102 Reade St., New York.

THE CHAMPION CARRIAGE WRENCH

IS MADE OF

MALLEABLE IRON

Waranted Not to Break with Legitimate Use.

Fits Nuts on any ordinary Carriage or Wagon.

NO SCREWS OR THUMB NUTS

to adjust. A simple pressure of the finger opens the jaw, which adjusts itself to any Square Nut from $\frac{5}{8}$ in. to $1\frac{3}{4}$ ins.

EASIER TO OPERATE THAN ANY OTHER.

The handle being at right angles with the body forms a crank, allowing the nut to be turned off in the easiest and most natural manner with one hand.

THE NUT IS HELD FIRMLY

by the jaws, consequently it is not necessary to touch it with the fingers. No danger of falling in the dirt. No grit on the nut. No oil on the hands. When you are ready it goes on just as easy as it came off.

Payne's Business Educator.

600 pages, bound in cloth, $2.

Every business man should have some knowledge of the State and general laws of the country, especially those affecting the collection of accounts, rates of interest, &c. He should be able to draw up many of the simpler papers, such as leases, contracts, &c. He should be familiar with the different forms of legal papers used in business, and, above all, he should be an easy and pleasant letter-writer. All these points are carefully treated in Payne's Business Educator.

Among the subjects specially discussed are:

Commercial Correspondence.—Over 150 models of letters are given, covering every phase of business correspondence.

Legal Forms Used in Business.—Articles of copartnership; notice of dissolution, form of assignment; short form of deed; bill of sale; power of attorney; lease; surety; will; notes—promissory, negotiable, non-negotiable and demand; exchange—inland and foreign; acceptance; due bill; receipt; bills of lading; private cost marks, &c.

Dictionary of Mercantile Terms.—Giving a full and clear explanation of terms used in business.

Titles.—Official, military, scholastic, nava and professional titles used in the United States

Useful Hints for Measuring Land.

Legal Rates of Interest, foreign coin weights and measures compared with American standards.

Rules for Punctuation.

Rules of Order for deliberative assemblies and debating societies.

Interest Tables, and tables of weights and measures, &c.

How to Use a Typewriter, with lessons for practice.

Exercise in Practical Penmanship.

Laws and Forms.—An epitome of the laws of the United States and of the different States of the Union, which will be found invaluable to those who are forced to appeal to the law, as well as to that large class who wish to avoid it. The whole is alphabetically arranged, so as to make reference easy. Forms are given for a great number of legal papers, &c.

Dictionary of synonyms; marks of account; list of abbreviations; French, Spanish, Latin and Italian words and phrases, &c.

Making in all the most complete self-educator published.

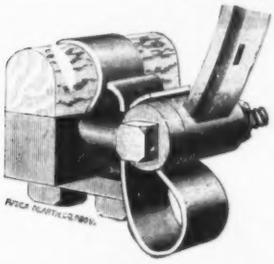
THE THILL COUPLING SPRING

MADE BY THE



SABIN MACHINE COMPANY, Montpelier, Vt.

Is unquestionably the **BEST METAL SPRING** made for the purpose of preventing the rattling of the Thills.

It is adapted to any coupling where rubbers are used. It does its work perfectly, and is so formed as not to wear the iron of the coupling, as it presents a flat, smooth surface to the bearing, and yet holds the shaft perfectly in place, and prevents all rattling.

It Outlasts many sets of rubbers and costs but a trifle more. It is easily adjusted. Made in four sizes, ⅞, 1, 1⅛ and 1¼ inch. Packed one dozen pairs in a box.

Send for Sample Dozen or Larger Quantities to

IMPROVED EDITION OF THE IRON AGE

HARDWARE PRICE BOOKS.

Arranged by R. R. WILLIAMS, Hardware Editor of the Iron Age.

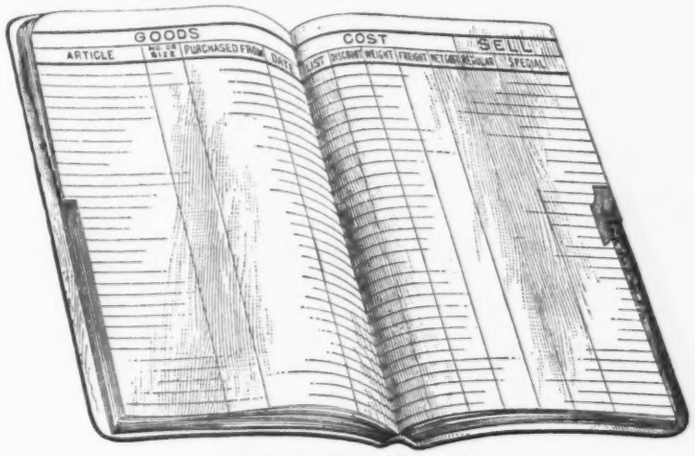
These Books are printed on paper of superior quality and bound in grain seal leather.

Columns are provided for the name and number or size, for noting from whom purchased, date of quotation or purchase, list and discount, and for entering freight expenses as an element of cost. Under the heading of selling prices, the regular and any special price or remarks in regard to the goods are given place. This book goes into considerable detail in describing the goods and cost prices. It has been arranged in accordance with the views of many Hardwaremen whose methods are careful and exact.

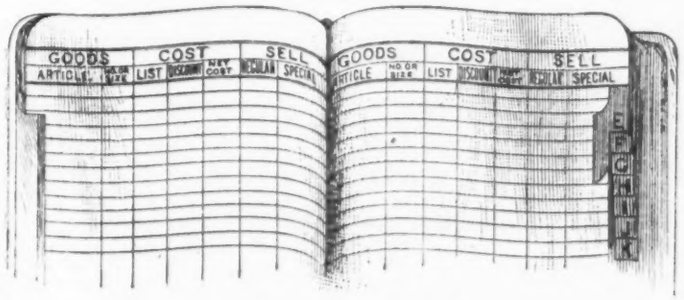
Size, 4 x 7 in.; grain seal leather.

FOUR EDITIONS:

A, 200 pages,	$1.00
A F, 200 pages with flap,	1.25
A 2, 400 pages,	1.50
A F 2, 400 pages with flap,	1.75



Hardware Price Book A.



Hardware Price Book B.

In this book each page is complete, and the record of prices does not, as in Book A, run across two pages. Thus it accommodates a larger range of goods with much less detail in the record. It is adapted for office or store use, and by the use of familiar abbreviations, sufficiently large for the convenient and concise record of prices.

Size, 4 x 7 in.; grain seal leather.

FOUR EDITIONS:

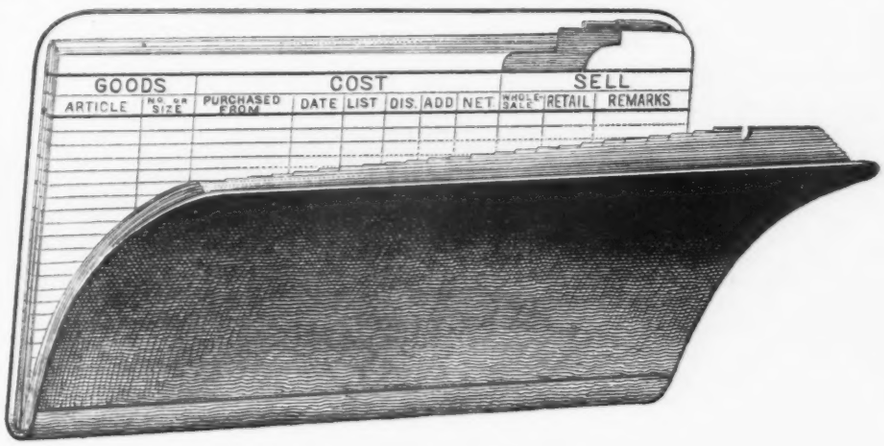
B, 200 pages	$1.00
B F, 200 pages with flap,	1.25
B 2, 400 pages,	1.50
B F 2, 400 pages with flap,	1.75

The headings in Book C run across the top, in a line parallel with the hinge. In this way a very complete record can be kept on a single page. The details of weight and freight contained in Book A are omitted, and a single column headed "Add" given for the insertion of freight or other expenses which it is desirable to include in the cost. Under the selling prices space is left for the wholesale price, the retail price, and also for any remarks in regard to cost of the goods, desirability of pushing them, or other matters.

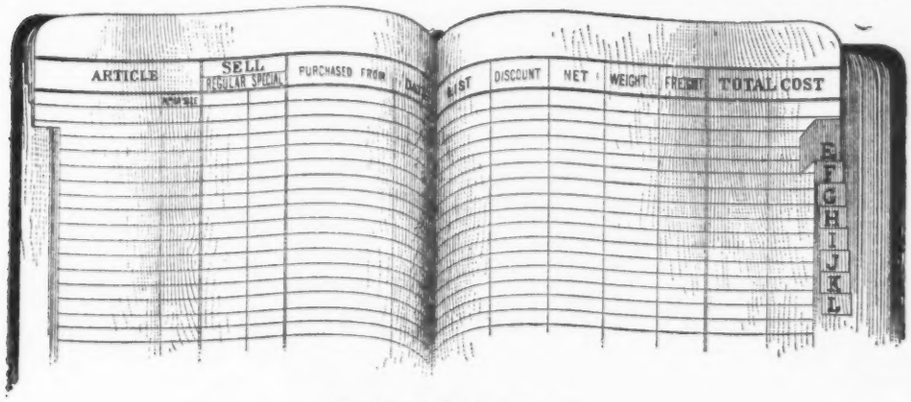
Size, 4½ x 7¾ in.; grain seal leather.

FOUR EDITIONS.

C, 200 pages,	$1.00
C F, 200 pages with flap,	1.25
C 2, 400 pages,	1.50
C F 2, 400 pages with flap,	1.75



Hardware Price Book C.



Hardware Price Book D.

Price Book D will recommend itself particularly for desk and store use, and for salesmen on the road.

The name of the article, its number or size and the selling price are the first to meet the eye on the left-hand page, as embodying information desired when the selling price is required. The other headings follow in convenient order, by which a detailed memorandum regarding the goods may be kept, the whole being seen at a glance. A number of pages at the back of the book are arranged for memoranda, which will be found a great convenience. This arrangement is adapted to the requirements of the trade in this direction.

Size 5¼ x 8 in.; grain seal leather.

FOUR EDITIONS.

D, 200 pages,	$2.00
D F, 200 pages, with flap,	2.50
D 2, 400 pages,	$3.00
D F 2, 400 pages, with flap,	3.50

Sent, post-paid, on receipt of price by **DAVID WILLIAMS Publisher, 96-102 Reade St., New York.**

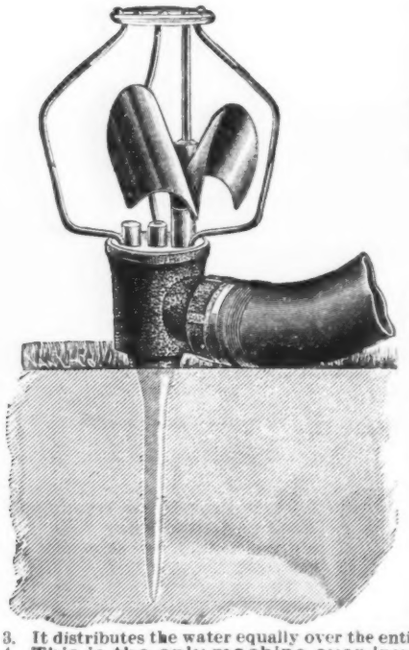
THE

Kilbourne & Jacobs Mfg. Co.,

COLUMBUS, O.



Here is something new. Have you seen it?

BONNETTE'S ARC LAWN SPRINKLER.

Patented Oct. 20, 1891.

This Sprinkler was invented by a **DRY GOODS MAN** in Bay City, Mich.

He noticed that when his neighbors set out their sprinklers, they wet all over the sidewalks as well as the lawns.

On going back and forth to the store he was often forced into the middle of the street to avoid a shower from the sprinkler. Ladies often ruined their dresses from this source.

It set him to thinking. Sprinklers should not be a nuisance. Could one be made that would sprinkle, if desired, in a half circle? He thought so. He commenced to work and experiment.

That was five years ago. It required lots of patience and there were many disappointments, but to-day,

NOTE THE RESULT.

Five good reasons why this is the best sprinkler to buy:

1. It will not clog up.
2. It will sprinkle a circle from 4 to 40 feet in diameter, according to the water pressure.
3. It distributes the water equally over the entire surface, wasting none around the base of the machine.
4. **This is the only machine ever invented that will sprinkle water in a half-circle,** thus preventing the wetting of walks while thoroughly sprinkling the lawn.
5. It can be changed from a circle to a half-circle, or *vice versa*, in five seconds.

We now claim to have the only perfect sprinkler in existence. It is simple, will not wear out nor clog up. Is well made and handsomely nickled, is boxed singly with full directions how to use. Its merits are, without question, pre-eminently superior to any other. Prices and samples sent upon application.

Coburn Trolley Track Mfg. Co., Holyoke, Mass.

Stocks and Dies.
Armstrong Mfg. Co., Bridgeport, Conn
Billings & Spencer Co., Hartford, Conn
Butterfield & Co., Derby Line, Vt.
Hart Mfg. Co., Cleveland, O.
Saunder's Sons, D., Yonkers, N. Y.
Wells Bros. & Co., Greenfield, Mass.
Wiley & Russell Mfg. Co., Greenfield, Mass.

Stove Linings.
Ostrander Fire Brick Co., Troy, N. Y.

Stove Pipe Thimbles.
Cheney, S. & Son, Manlius, N. Y.

Stove Polish.
Raven Stove Polish Co., Chicago, Ill.

Stoves, Oil, Vapor and Gasoline
Central Oilgas Stove Co., Boston, Mass.

Street Lamps.
Steam Gauge & Lantern Co., Syracuse, N. Y.

Strops.
Electric Cutlery Co., 91 Chambers, N. Y
J. R. Torrey & Co., Worcester, Mass.

Sulphuric Acid.
Matthiessen & Hegeler Zinc Co. La Salle, Ill.

(See Alphabetical Index, Page 114.)

Theatrical Hardware.
Clancy, J. R., Syracuse, N. Y.

Tack Hammers.
Richardson, J. C. & Co., Ridgway, Pa.

Tacks, Brads, Staples, &c.
Atlas Tack Corporation, Boston, Mass
A. Field & Sons, Taunton, Mass.
Cobb & Drew, Plymouth, Mass.
Disosway & Henderson, 165 Greenwich, N. Y.
National Screw & Tack Co., Cleveland Ohio.
Phillips, E. & Sons, South Hanover.
Plymouth Mills, Plymouth, Mass.
Trufant, W. E., Whitman, Mass.

Taps and Dies.
Butterfield & Co., Derby Line, Vt.
Manning, Maxwell & Moore, 111 Liberty, N. Y.
Wells Bros. & Co., Greenfield, Mass.
Wiley & Russell Mfg. Co., Greenfield, Mass.

Testing Machines.
Riehle Bros. Testing Mch. Co., Phila.

Testing Laboratories.
Riehle Bros. Testing Mch. Co., Philadelphia.

Thill Springs.
Frost Thill Spring Co., Boston, Mass.
Sabin Machine Co., Montpelier, Vt.

Tinning Process.
Flanders, W. T. & Co., Nashua, N. H.

Tire Cement.
Am. Trading Co., 182 Front, st., N. Y.

Toe Calks, Steel.
Burke, P. F., Boston, Mass.

Tool Handles.
Copeland Hardware Mfg. Co., Worcester, Mass.

Tools.
Atkins, E. C. & Co., Indianapolis, Ind.
Britton, Horace E., Stoughton, Mass.
Brown, R. H. & Co., New Haven, Conn.
Church & Sleight, 109 Fulton, N. Y.
Hatch & Holmes Mfg. Co., Bridgeport, Conn.
Jennings, C. E. & Co., 97 Chambers, N.Y.
Lape, W. E., Syracuse, N. Y.
Montgomery & Co., 105 Fulton St., N. Y.
Richardson, C. F., Athol, Mass.
Standard Tool Co., Athol, Mass.
Stanley Rule & Level Co., 29 Chambers,
Starrett, L. S., Athol, Mass.

Tools, Blacksmith and Wheelwrights.
Buffalo Forge Co., Buffalo, N. Y.
Champion Blower & Forge Co., Lancaster, Pa.

Plumb, Fayette R., Philadelphia, Pa.
Sliver Mfg. Co., Cleveland, O.

Tools, Steam and Gas Fitters'
Saunders' Sons, D., Yonkers, N. Y.

Torches, Oil and Gasolene.
Dangler Stove & Mfg. Co., Cleveland, O.

Transom Lifters.
Munger-Colton Mfg. Co., Chicago, Ill.
Wollensak, J. F., Chicago, Ill.

Tricycles.
Fay Mfg. Co., Elyria, O.

Trucks, *Manufacturers of.*
Boston & Lockport Block Co., Boston, Mass., and Lockport, N. Y.
Clark, G. P., Windsor Locks, Conn.
Lansing Wheelbarrow Co. Lansing Mich.

Tubes, Seamless Drawn Copper.
Ansonia Brass & Copper Co., 19 and 21 Cliff, N. Y.
Bloomsburg Brass & Copper Co., Bloomsburg, Pa.
Randolph & Clowes, Waterbury, Conn.

Tubes, Steel.
Graham Twist Drill & Chuck Co., Detroit, Mich.

Tumbling Barrels.
Henderson Bros., Waterbury, Conn.

Turnbuckles.
Carnegie, Phipps & Co., Ld., Pittsburgh, Pa.
Cleveland City Forge and Iron Co., Cleveland, O.
Merrill Bros., Brooklyn, E. D.

Twist Drills. *Makers of.*
Cleveland Twist Drill Co., Cleveland.
Morse Twist Drill & Machine Co., New Bedford, Mass.
Standard Tool Co., Cleveland.

Valves, Gas, Water and Steam.
Ashton Valve Co., Boston, Mass.
Chapman Valve Mfg Co., Boston.
Jenkins Bros., 71 John, N. Y.
Ludlow Valve Mfg. Co., Troy, N. Y.
Lunkenheimer Brass Mfg. Co., Cincinnati, Ohio.
McNab & Harlin Mfg. Co., 56 John N. Y
Mason Regulator Co., Boston, Mass.

Ventilator Appliances.
Howard & Morse, 45 Fulton, N. Y.

Vises.
Holland Mfg. Co., Erie, Pa.
Howard Iron Works, Buffalo, N. Y
Prentiss Vise Co., 44 Barclay N. Y.

Wagon Jacks.
Boston & Lockport Block Co., Boston Mass., and Lockport, N. Y.
Covert Mfg. Co., West Troy, N. Y.
Covert, E. Mfg. Co., Farmer Village, N.Y.

Washers.
Haskell, Wm. H. Co., Pawtucket, R. I.
Lanman, E. B., Columbus, Ohio.
Milton Mfg. Co., Milton, Pa.
Sternbergh, J. H. & Son, Reading, Pa.

Water Heaters.
Kemp, Clarence M., Baltimore, Md.

Water Purifiers.
Bradley & Co., Syracuse, N. Y.

Water and Steam.
Kennedy, D., 52 Cliff St., N. Y.

Well Boring Machines.
Oil Well Supply Co., Pittsburgh, Pa.

Wheelbarrows
Akron Tool Co., Akron, O.
Kilbourne & Jacobs Mfg. Co., Columbus, Ohio.
Lansing Wheelbarrow Co., Lansing, Mich.
Sidney Steel Scraper Co. Sidney, O.

White Lead.
Atlantic White Lead and Linseed Oil Co., 287 Pearl, N. Y.

Window Cord, *Makers of.*
Samson Cordage Works, Boston, Mass

Wire, *Manufacturers of.*
American Spiral Spring Co., Pittsburg, Pa.
Amer. Wire Nail Co., Anderson, Ind.
Continental Wire Co., St. Louis, Mo.
Eastwood Wire Mfg. Co., Belleville, N. J.
Gautier Steel Department of Cambria Iron Co., Johnstown, Pa.
Haley Mfg. Co., Concord, N. H.
Lambert & Bishop Wire Fence Co., Joliet, Ill.
Miller & Van Winkle, 102 Walker St., N. Y.
New Haven Wire Mfg. Co., New Haven, Conn.
Salem Wire Nail Co., Salem, O.
Trenton Iron Co., Trenton, N. J.
Washburn & Moen Mfg. Co., Worcester
Wetherell Bros., 93 Liberty St., N. Y.
Wolff, R. H. & Co., Ltd., 118th St. and Harlem River, N. Y.

Wire Cloth.
Barnum, E. T., Detroit, Mich.
Clinton Wire Cloth Co., Clinton, Mass.
Darby, Edward & Sons, Philadelphia.
Eastwood Wire Mfg. Co., Belleville, N. J.
Estey, W. S., 71 Fulton, N. Y.
Gilbert & Bennett Mfg. Co., 42 Cliff N. Y.
Howard & Morse, 45 Fulton, N. Y.
N. J. Wire Cloth Co., Trenton, N. J.
Reliance Wire Wks. Co., Milwaukee, Wis.
Scheeler & Sons, Buffalo, N. Y.
Wickwire Bros., Cortland, N. Y.
W. S. Tyler Wire Works Co., Clev'd.
Wright & Colton Wire Cloth Co., Worcester, Mass.

Wire Cloth Holders.
Hamilton-Rankin Hdw. Co., Arkansas City, Kan.

Wire Cutters.
Cronk Hanger Co., Elmira, N. Y.
King, J. M. & Co., Watertown, N. Y.

Wire Dies.
McFarland, Wm., Trenton, N. J.
Newton & Shipman, 83 John, N. Y.

Wire Door Mats.
Hartman Mfg. Co., Beaver Falls, Pa.
The Wire Goods Co., Worcester, Mass.

Wire Fences.—*See Fencing, Iron and Wire.*

Wire Goods, *Manufacturers of.*
Brooks, M. S. & Sons, Chester, Conn.
Darby, Edward & Sons, Phila.
Field-Lange Wire & Metal Co., St. Louis Mo.
Gilbert & Bennett Mfg. Co., N. Y.
E. Jenckes Mfg. Co., Pawtucket, R. I.
Ludlow-Saylor Wire Co., St. Louis.
Scheeler & Sons, Buffalo, N. Y.
Whitman & Barnes Mfg. Co., Syracuse, N. Y.
Wire Goods Co., Worcester, Mass.
Wickwire Bros, Cortland, N. Y.

Wire Machinery.
Am. Tool Wks., Cleveland, O.
Manville, E. J. Mch. Co., Waterbury, Conn.
Morgan Construction Co., Worcester Mass.

Wire Straightening and Cutting Machinery.
Adt, John & Son, New Haven, Conn.

Wire Nail and Tack Machines
Eckstein, Chas G & Co., 41 John N. Y

Wire Nails.
Amer. Wire Nail Co., Anderson, Ind.
Baackes Wire Nail Co., Cleveland, O,
Braddock Wire Co., Pittsburgh, Pa.
Field, A. & Sons, Taunton, Mass.

Whitney, A. R. & Co., New York City

Wire Rods, Steel.
Amer. Wire Nail Co., Anderson, Ind.
Illinois Steel Co., Chicago, Ill.
New Castle Wire Nail Co., New Castle Pa.
Washburn & Moen Mfg. Co., Worcester, Mass.
Whitney, A. R. & Co., 17 B'way, N. Y.
Wolff, R. H. & Co., Ltd., 118th Street and Harlem River, N. Y.

Wire Rope, Iron and Steel *Makers.*
Broderick & Bascom, St. Louis, Mo.
California Wire Works, San Francisco
Hazard Mfg. Co., Wilkesbarre, Pa.
A. Leschen & Sons Rope Co., St. Louis
Trenton Iron Co., Trenton, N. J.
Washburn & Moen Mfg. Co., Worcester Mass.
Williamsport Wire Rope Co., Williamsport, Pa.

Wood-Working Machinery.
Egan Co., Cincinnati, O.
Sebastian Lathe Co., Cincinnati, Ohio.
Sebastian, May & Co., Sidney, O.
Seneca Falls Mfg. Co., Seneca Falls, N. Y.

Wrenches, *Manufacturers of.*
American Saw Co. Trenton, N. J.
Bemis & Call Hardware & Tool Co. Springfield, Mass.
Billings, Spencer & Co., Hartford, Conn.
Capitol Mfg. Co., Chicago, Ills.
Coes Wrench Co., Worcester, Mass.
Goodell Co., Antrim, N. H.
Rhode Island Tool Co., Providence, R.I
Trimont Mfg. Co., Roxbury, Mass.
Williams, J. H., Brooklyn, N. Y.

Wringers.
Colby Wringer Co., Montpelier, Vt.

Zinc.
Edes, Edw. L., Plymouth, Mass.

(See Alphabetical Index, Page 114.)

THE IRON AGE.

The oldest paper in the world devoted to the interests of the Hardware, Iron and Metal Trades, and a standard authority on all matters relating to those branches of industry.

Bradley Hammers

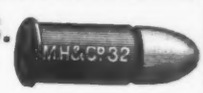
2000 IN USE.

FOR 20 YEARS these Hammers have been in the market, and during all that time have been acknowledged the very best. The material we use and our method of construction are the result of ripe experience, and not the jumped-at conclusions of amateurs. Send for circulars and price-lists.

BRADLEY & COMPANY,

SYRACUSE, N. Y.

Large Reduction in Prices.



FEBRUARY 15th.

A REVOLVER without a **LOADING GATE** is as useless all year round as a pair of **ICE CREEPERS** would be **IN JULY.**

BECAUSE all central fire cartridges are now made inside-lubricated, and will slip out of revolvers having no Loading Gate. All the X. L. Revolvers, both with Regular and Folding Hammers, have Loading Gates and Rebounding Locks.

We have largely increased our facilities for the manufacture of the X. L. Revolvers and H. & A. Automatic Ejecting Revolvers, and shall be able to fill all demands promptly this coming year. This is the best selling line ever put on the American market and retailers can double their money on these goods.

Our new illustrated catalogue, with reduced prices, will be ready on the 25th of February and will be sent upon request to any dealer.

HULBERT BROS. & CO.

Opposite Fifth Ave. Hotel, Formerly MERWIN, HULBERT & CO.,

WHEN.

Business Hints for Business Men in Business Hours. A series of practical hints and pointers of a business nature. By D. T. MALLETT. Pamphlet, 25 cents. Sent, postpaid, by **DAVID WILLIAMS, 96-102 Reade St., New York,**

The Art of Selling

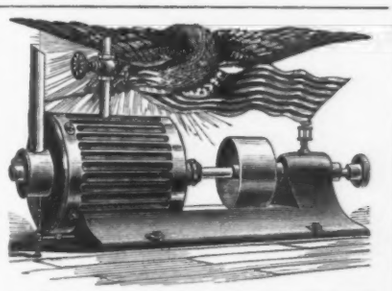
By F. B. GODDARD.

In this book the author lets the reader into the secrets of the accomplished and successful salesman, illustrates his tact and finesse and tells how he masters men. But beyond this, the work embraces much information which will be instructive and useful to all classes of business men, discusses fully the characteristic methods of conducting business to-day and makes an interesting application of character reading to the work of business negotiations.

Price, 50 Cents.

Sent, postpaid, on receipt of price, by

David Williams, 96-102 Reade St., N. Y.



AMERICAN HIGH SPEED ENGINE, built of any required size and power, for all stationary and marine purposes. Makes 1000 or more revolutions per minute. Has no dead centers. Unequaled regulation. No skilled engineer required! Cheap! Economical! Simple! Durable!

AMERICAN SCREW COMPANY

PROVIDENCE, R. I.

COLD FORGED PRODUCTS.

"Spur Pointed" Wood Screw.

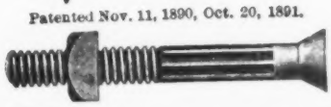
Patented May 10, July 19, 1887; Oct. 29, 1889; Aug. 19, Oct. 21, 1890; April 7, May 12, 1891.

ITS ADVANTAGES ARE:

Stronger than a cut screw.
Forged nick.
Requires the use of only one bit.
Inserted easier.
Increased holding power.
Centralized point.
Is cold forged, and entire surface has a metallic skin.

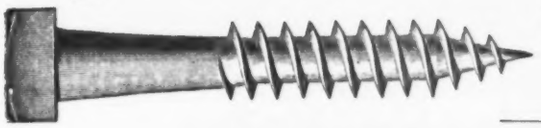
Samples Sent on Application.

Patented Nov. 11, 1890, Oct. 20, 1891.



FLUTED TIRE BOLTS.

SEND FOR SAMPLES.



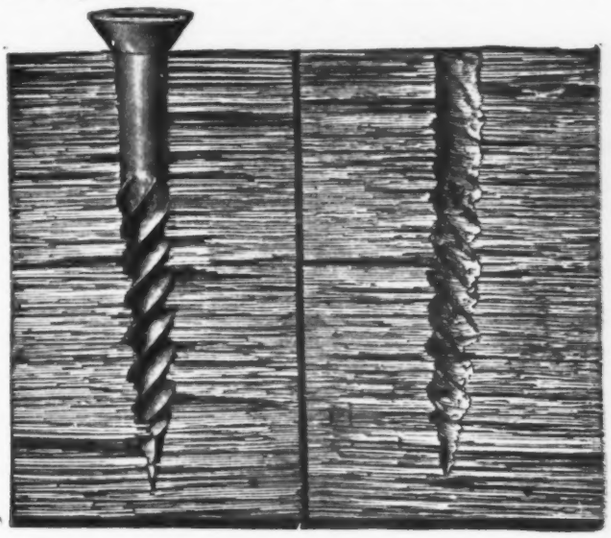
Cold Forged Coach Screws.

Patented May 10, July 19, '87; Oct. 29, '89; Aug. 19, Oct. 21, '90; Apr. 7, '91.

"ROGERS' DRIVE SCREWS."

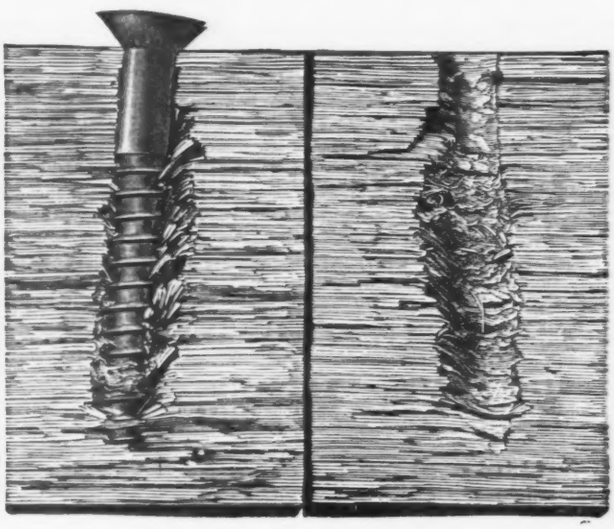
Patented May 10, 1887; July 19, 1887; July 10, 1888. Other patents pending.

List prices, same as common iron wood screws. Discount for Flat Heads, 82½%.



THE "ROGERS DRIVE SCREW,"

Driven with a hammer its entire length.



A COMMON CUT THREAD SCREW,

As ordinarily inserted, *i. e.*, driven two-thirds of its length with a hammer and the balance with a screw-driver. Fibres of the wood are necessarily broken, and holding power of screw much impaired.

Should be driven with a hammer its entire length.

1. Turns like a screw when driven with a hammer.
2. Holds stronger than a common screw as ordinarily inserted.
3. Does not break the fibres of the wood.
4. Cheaper than a common screw.
5. Is cold forged and has metallic skin over entire surface.

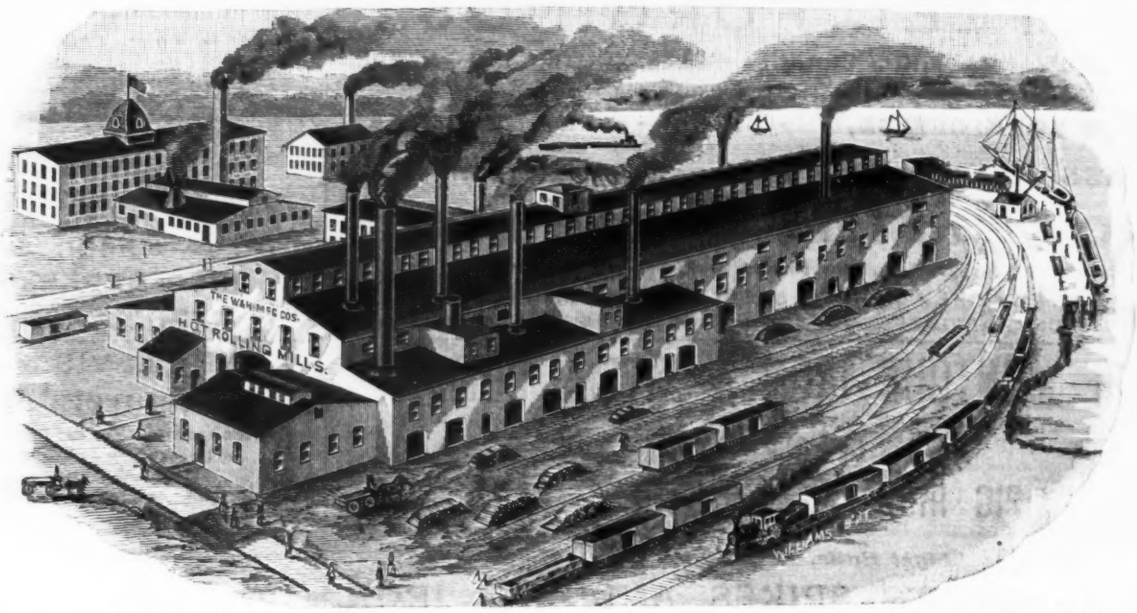
THE WILMOT & HOBBS M'F'G CO.

Largest Makers of Cold Rolled Sheet Steel in the World.

"SOFT" AND "EXTRA SOFT"

HOT ROLLED STEEL.



Having recently greatly increased our output by the purchase of the large plant of the Bridgeport Rolling Mill Co., shown in the above illustration,

WE ESPECIALLY SOLICIT ORDERS FOR

HOT ROLLED STRIP, PLATE AND BAR STEEL,

Also Special Shapes Rolled to Order,

and are prepared to make

PROMPT DELIVERIES AND LOW PRICES.

Depending upon sizes, quantity and quality needed.

ALSO THE CELEBRATED

COLD ROLLED SHEET AND STRIP STEEL

FOR PRESSED, STAMPED AND DRAWN WORK, ETC.

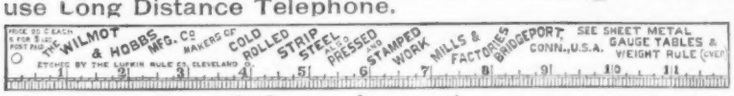
COLD ROLLING MILL.

UNEXCELLED BECAUSE OF ITS

SMOOTHNESS OF SURFACE,
ACCURACY OF GAUGE,
GENERAL UNIFORMITY,
GREAT DUCTILITY,
FREEDOM FROM GRIT.

Furnished in any width, ½ inch to 12 inches, and in lengths of 3 inches to 300 feet, also any degree of stiffness and quality of surface.

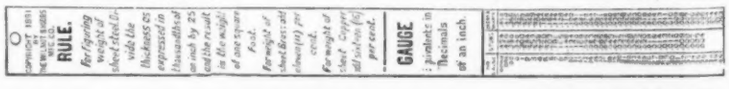
The Eastern Trade will find these Hot and Cold Rolling Mills extremely convenient, as they will not be subject to the long delays in transportation, etc., incidental to dealing with Western Mills, and Accuracy of Gauge and Width and Uniformity of Quality will always be maintained at the **Highest Standard of Excellence.** When in a hurry use Long Distance Telephone.



STEEL RULES

GIVEN AWAY.

If you use any of above, please send us this page of IRON AGE and a list of the material, mentioning size, quantity, quality generally ordered, and we will **MAIL A RULE FREE.**



BRIDGEPORT, ... CONN.

1¼ HOURS' RIDE FROM GRAND CENTRAL DEPOT, NEW YORK CITY, VIA. N. Y., N. H. & H. R. R.

GRAPHITE PAINT!

TO DEALERS:—That Graphite Paint is the best protecting covering for exposed surfaces whether metal or wood is becoming more surely known and demonstrated every day. No matter what the exposure may be, whether heat, brine, acid or ordinary weather conditions, nothing will resist and protect as Graphite (Plumbago) will. BUT IT MUST BE PURE. We have our own Graphite mine, the celebrated Plombagina mine, Sonora, Mexico, and are the only manufacturers that can guarantee absolute purity, and this we do unqualifiedly. Our paint is used in every section of this country, and has become well and favorably known. It is already handled by many dealers, but having established its supremacy, and having a multitude of testimonials from our customers we want it on sale in EVERY CITY IN THE COUNTRY, so that users of this material may not be delayed by sending to us for it. If no more than one pail, we want you to have that pail, and sell it to your most critical customer, on our positive guarantee that it will outspread and outlast any paint in the market under any and all conditions. And further, that owing to its great spreading quality, the expense in using it will be as low as the cheapest mineral paint. WRITE US FOR PARTICULARS AND PRICES. WE WILL PUT YOU ON A PROFITABLE BASIS, AND ADD TO YOUR STOCK AN ARTICLE THAT WILL PLEASE YOUR TRADE.

BLAST FURNACE CONSTRUCTION

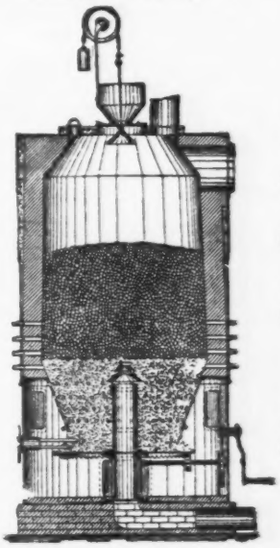
A SPECIALTY.

General Agents for Massick's and Crooke's Patent Fire Brick Stoves; Designs and Estimates for the construction of Blast Furnace Work, and for all kinds of Hot Blast Fire Brick or Pipe Stoves; and all other kinds of Brick Work pertaining to Steel Plants, Iron, Brick or Wooden Buildings, all kinds of Iron Construction in general.

☞ *We propose to put into successful operation all the plants we design and contract for*

PATENTED MARCH 19TH, 1889.

The Taylor Revolving



Bottom Gas Producer.

The best Producer for either Bituminous or Anthracite Coal or Lignite: absolutely continous in operation, as the fire is cleaned without stopping the flow of gas. Less labor required and less waste than in any other producer. Producer Gas for firing Lime, Brick and Pottery Kilns, Sugar House Char Kilns, Boilers, etc., etc.; also applicable to all regenerative furnaces. For illustrated descriptive pamphlet and all particulars address

R. D. WOOD & CO.,

400 Chestnut St., PHILADELPHIA, PA.

The Iron-Masters' LABORATORY.

Exclusively for the

Analysis of Ores of Iron, Pig and Manufactured Iron, Steels, Limestone, Clays, Slags and Coal for Practical Metallurgical Purposes.

339 Walnut St., Philadelphia.

With Branch at Warrenton, Virginia.

J. BLODGET BRITTON.

This laboratory was established in 1866, at the instance of a number of practical Iron Masters, expressly to afford prompt and reliable information upon the chemical composition of the substances above mentioned, for smelting and refining purposes, the object being to make it at once a convenient, practically useful, and comparatively inexpensive adjunct to the Furnace, Forge and Rolling Mill.

STEAM PLANTS.—Before purchasing any **FEED WATER HEATER and PURIFIER**, or deciding upon the adoption of any **System of Steam Heating**, kindly send us postal, and we will send one of our representatives, at our expense, to call upon you personally, in order to explain advantages which we guarantee over all others.

WEBSTER'S "VACUUM" FEED WATER HEATER AND PURIFIER.

Sizes from 30 to 2,500 horse-power carried in stock. Over 125,000 horse-power in daily use in the largest steam plants in the United States. *Send for Catalogue.* **CARDINAL POINTS.**—Highest temperature, purest feed water upon least quantity of exhaust steam, free exhaust to atmosphere, between engine and heater.

"WILLIAMES' VACUUM SYSTEM OF STEAM HEATING."

Without Back Pressure upon the Engine Guaranteed.—*Patent sustained in two Suits in the United States Circuit Court.* Adopted by 300 of the largest Factories, Mills, Electric Light Companies, Market Houses, Office Buildings, Schools, Theatres, Churches and Railroad Stations. *Send for Catalogue.* **ADVANTAGES.**—Free exhaust to atmosphere, relief of back pressure, saving power, water of condensation, increasing efficiency of heating system, saving from 10 to 40 per ct. of fuel. Exact percentage can be determined after making examination of steam plant.—**ALL INFRINGERS WILL BE PROSECUTED.**

Can be attached to any steam plant. Furnished upon trial under guarantee. WARREN WEBSTER & CO., Main Office & Works, 491 N. 3d st., Philad'a.

These Motors are running most successfully Machine Shops, Printing Presses, Elevators, Electric Lights, Planing Mills, Saws, Air Pumps, Box Factories, Carriage Works, Church Organs, Ventilating Fans, Water Pumps, Feed Cutters, Sewing Machines, Coffee, Spice and Drug Mills, Ice Cream Freezers, Jewelers' and Dentists' Tools, Etc., in all sections of the United States and Canada.

FACTORY ACCOUNTS.

By GARCKE and FELLS.

A handbook for accountants and manufacturers on the principles which regulate factory accounts and the methods by which these principles can be put into practice and made to serve their proper purposes in the economy of manufacture. Beginning with the development of the factory system, this book is a general treatise on the subject, including organization, management, cost, profit and loss, &c. The table of contents shows several hundred heads or topics treated, besides which are several appendices; among them that on the "Nomenclature of Machine Details" will be found of special interest. A "Glossary of Terms" and an index of 20 pages are aids which render the book still more available to the ordinary reader. It contains 51 specimens or models for books of account.

240 pages; 6 x 8¾ inches; cloth, - - - - $2.80.

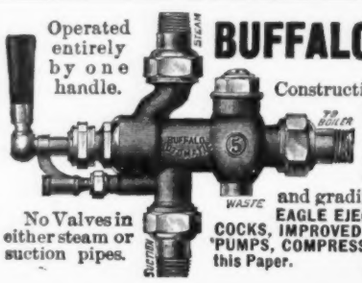
SHIPMAN ENGINE CO., - 224 Summer Street, Boston, Mass.

The Prospector's Field-Book and Guide in the Search for and the Easy Determination of Ores and other Useful Minerals. By Prof. H. S. OSBORN, LL.D. EXTRACT FROM THE PREFACE: In the following pages we have attempted to present such a view of the whole subject of prospecting for the useful minerals that any liberally educated reader may fully comprehend our meaning. We have therefore explained special terms where we have thought it convenient to use them, and where the technically educated student would not need an explanation. The table of contents and index have both been carefully prepared, and being very full, will make reference to any subject in the volume easy and satisfactory. 44 engravings. 175 pages. $1.50

For Sale by David Williams, 96-102 Reade St., N. Y

Operated entirely by one handle.



No Valves in either steam or suction pipes.

BUFFALO AUTOMATIC INJECTOR

A GRADING INJECTOR.

Construction and operation is such that water supply is always in proportion to supply of steam admitted and can be graded to feed continuously with steam from 20 to 140 pounds. Works perfectly whether lifting or taking supply from city pressure. Operated entirely by one handle, both in stopping and starting and grading supply of steam and water.

ALEXANDER BROS
BEST OAK BELTING
PHILADELPHIA.

What Paint Can Equal This?

Tin roofs painted with Dixon's Silica Graphite Paint nearly 20 years ago have not been repainted and the tin is as good to-day as when put on the roof.

Members of the Master House Painters' Association, speaking from their own experience, at their convention at Harrisburg, Pa., January, 1892, said that roofs painted with Graphite Paint would last 12 to 18 years.

Can we send you our circulars?

WINGS' PATENT

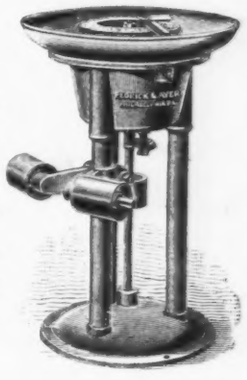
CENTRIFUGAL GRINDING MACHINES.

HORIZONTAL DOUBLE GRINDER.

This machine is adapted to machinists' tool grinding and carries two grinding wheels, one at each end of arbor.

The water is carried to wheels from tank by head force, and back again into tank by centrifugal force, keeping a continuous circulation as long as enough water is kept in tank to cover supply pipes.

UPRIGHT GRINDER.



On this machine the water is brought on to and carried over the surface of wheel and back to tank again by centrifugal force alone and so continuously as long as water is kept in tank.

The grinding face of wheel is slightly beveled to accommodate the grinding of long knives which have to lay across the wheel from one side to the other. It is designed for grinding all kinds of wood-working tools having straight edges like planes, chisels, knives, etc., and is also effective for grinding machinists' and kindred tools.

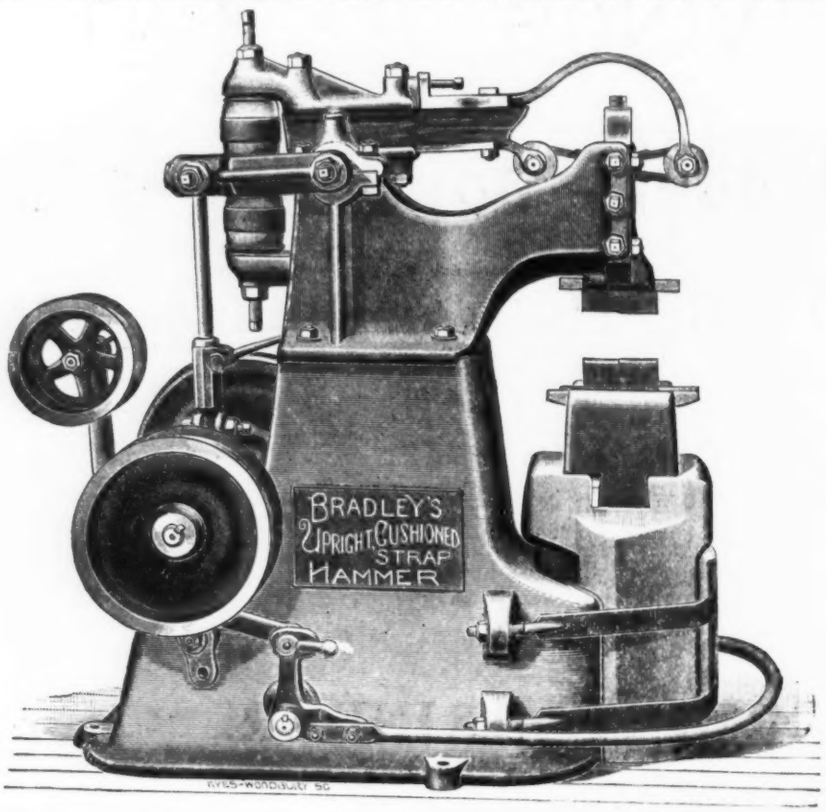
GOUGE AND CUTTER GRINDER.

This little machine is designed for grinding inside gouges, cutters and tools having concave cutting edges, and will grind all such tools to a true arc of a circle within its limits. It will be found more serviceable and effective than a whole gang of wheels mounted in the ordinary way. It supplies itself continuously with an abundant amount of water in the same manner as the Horizontal Double Grinder. This machine is made either single or double, as desired.

The above machines possess all the virtue of the emery wheel for rapid cutting and accurate work, and WITHOUT DRAWING OF TEMPER. They are guaranteed in every particular. Circulars and prices on application.

PEDRICK & AYER,

1001 and 1003 Hamilton St., Philadelphia, Pa.



BRADLEY HAMMERS.

When a manufacturer is considering the purchase of a power hammer, about the first thing to know is what is to be done with it.

Our experience as hammer makers extends over a period of 20 years, and we are well equipped to advise the proper size of hammer and also to judge approximately the quantity of work per day that may be produced by its use.

We are prepared to demonstrate that the BRADLEY is the best power hammer in the world for the uses we recommend it and can show that our manner of cushioning the blow prevents the jar that is so destructive to machinery of this class, and know that the rubber springs we use for this purpose cannot be equaled by any other material or method in efficiency, cheapness and durability.

Any mechanic can see that our steel centres, broad anti-friction bearings and features for quick adjustments are not approached in any other hammer in existence.

Each peculiar device that has tended to make the Bradley Hammers the best in the market is the product of ripe experience and not the immature conclusions of novices. Send for catalogue and price-list.

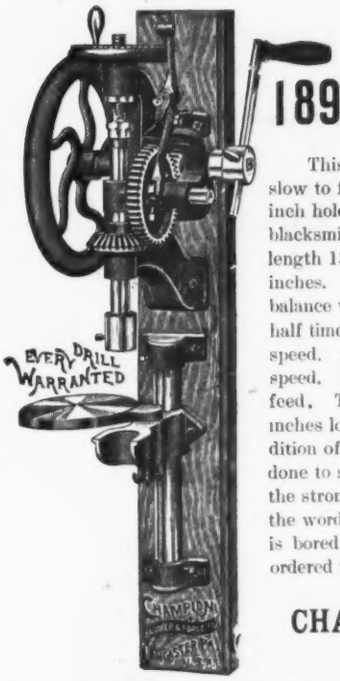
THE WORLD'S CHAMPION



New Upright Self Feed

1891 Pattern $10 Post Drill.

This Drill is Double Back Geared, can be changed from slow to fast speed, weighs 120 pounds, drills from $\frac{1}{8}$ to $1\frac{1}{4}$ inch hole, and to center of $14\frac{1}{2}$-inch circle, designed for general blacksmith work. The diameter of the spindle is $1\frac{1}{8}$ inch, length 13 inches, the screw having a run up and down of 4 inches. The crank can be shifted from shaft A to shaft B (or balance wheel shaft), thus increasing the power two and one-half times for heavy work. Shaft A for lighter work and faster speed. The change can be made in an instant from fast to slow speed. This Drill is supplied with an improved Automatic Self-feed. The drill is mounted on a hardwood 2-inch plank, 50 inches long, 6 inches wide, and not backed up by an extra addition of wood in order to increase the swing, which is often done to save iron and thus weakens the drill where it should be the strongest. The Drill is warranted in every respect and has the words cast thereon, "Every Drill Warranted." The spindle is bored to take $\frac{1}{2}$-inch straight shank drills, but if specially ordered will be bored to take in $\frac{5}{8}$ or 41-64, without extra charge.

CHAMPION BLOWER & FORGE CO.

LANCASTER, PA., U.A.S.

Cut shows 5-ton Ridgway Crane in Foundry, Diamond State Iron Co., Wilmington, Del.

Far Superior to Usual Hydraulic.

No pumps. No accumulator. No shocks. None of that everlasting bother with valves and packings. None of that awful waste of power. No freezing. Not touched from one year's end to the other.

Attached to any steam supply is ready for business at once. Uses so little steam it is never missed. The greenest help works it. Absolutely safe. Being balanced is easy on buildings and takes small foundation. So cheap any plant can use it. Always earns its cost in a few months.

In these days of close prices you can't afford to move goods by hand. The best plants are getting them. Look at the list. Only a new machine, too! It is the only kind of crane for you to get. It is safe to follow the most able and successful steel and iron makers. The largest concerns in Europe are also getting them from our Belgium factory. It is the Crane of Cranes.

THE GREATEST FOUNDRY CRANE KNOWN.

THE WOODRUFF SYSTEM OF KEYING FOR MACHINERY

Does not require skilled labor to cut key way or fit key.

The peculiar way of inserting the key practically makes it part of the shaft.

A man will fit more than double the number of keys in a day than by the ordinary method.

Will save you from 50 to 75 % on the cost of your keying.

ENDORSED BY MECHANICS AND ENGINEERS.

Illustrated pamphlet containing a full description will be sent free on application.

Fluor-Spar.

ILLINOIS FLUOR-SPAR & LEAD CO.

SUCCESSORS TO

MULLIN'S

FLUOR-SPAR AND LEAD MINING CO.,

57 Board of Trade Building, Chicago, Ill.

This Company owns, at Mineral City, on the Ohio River, the largest Mines of Fluor-Spar ever discovered.

We are working a large force of miners; our new mills and tram railway are running, and we are now prepared to furnish the purest Fluor-Spar in any quantities to Iron and Steel Manufacturers, to Smelters of Gold, Silver and Copper, and to Paint, Paper and Glass Makers.

Fluor-Spar is pronounced the most powerful of fluxes; it facilitates the reduction of the most refractory materials. For Alkalies, Clays and all Metallic Oxides it has a remarkable solvent power; it reduces the melting point and saves fuel; it diminishes the loss of metal, saves labor and keeps the cupola clean; reacts strongly upon scaffolds and cloggings.

One part of Fluor-Spar is more effective than ten parts of Limestone. Limestone is an enemy to iron; Fluor-Spar is a friend.

Directions for the proper use of Fluor-Spar given our patrons.

We ship Lump, Gravel, Crushed and Ground, in bulk or barrel.

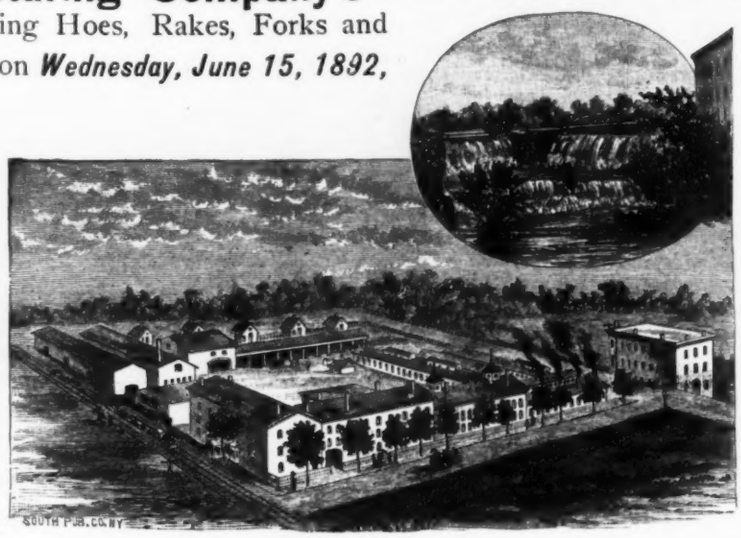
FOR SALE AT AUCTION.

The Auburn Manufacturing Company's Plant located at Auburn, N. Y., fully equipped for manufacturing Hoes, Rakes, Forks and Scythes, will be sold at public auction ***Wednesday, June 15, 1892,*** at two o'clock, on the premises.



The buildings surround a hollow square of several acres in extent, as shown in accompanying cut. The main buildings are substantially constructed of stone and brick, thoroughly equipped with fire extinguishing apparatus, and cover the entire frontage of the property, 350 feet.

It has magnificent water privileges, 300 Horse Power, supplemented by a modern Steam Plant of 250 Horse Power added in 1888, but scarcely used since then, as Water Power has been ample. Steam plant is in perfect condition.

The Plant is located on the line of the New York Central Railroad, as shown in cut, and but a few rods distant from Lehigh Valley Railroad, thus affording unequaled shipping facilities.

Auburn is a city of about 25,000 population, and has an excellent class of labor, recruited from the surrounding farming country.

Following the Sale of the Plant the Machinery and Personal Property will be sold. Description furnished on application.

Accurate map of the premises will be furnished on application.

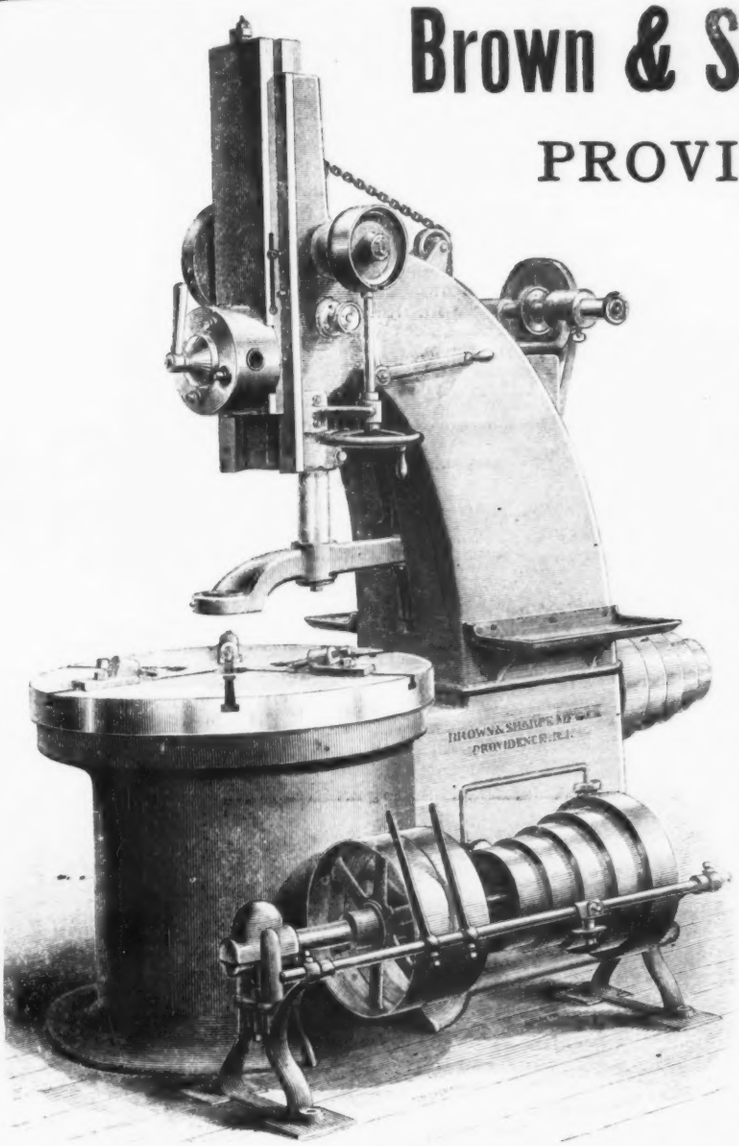
WHEN: Business hints for business men in business hours. Bound in attractive pamphlet form, with superior quality of paper and print. Price 25c. This little book, comprising a series of business maxims the result of wide experience and observation, should be read by every business man or clerk and all those engaged in commerce or trade. Successful merchants will here recognize, in condensed form, the principles upon which their prosperity has been based, and will find reminders and pointers which cannot fail to be an invaluable aid. Clerks, Tradesman, and those who have yet their way to pave, will find the essential facts which govern all permanent success, many of which to him are either unknown or not fully appreciated. Each paragraph is introduced by the title word WHEN. Sent, post-paid, on receipt of price by DAVID WILLIAMS, Publisher, 96-102 Reade St., New York.

Brown & Sharpe Mfg. Co.,

PROVIDENCE, R. I.



No. 2 Vertical Chucking Machine.

The spindle cannot wear out of line with the turret slides. The work is easily trued and fastened in place and the chips, falling through the center of the spindle to the floor, do not clog or dull the tools.

Weight, 4900 lbs

The machines and tools described in catalogue are usually kept in stock.

With a capacity for employing from 50 to 75 men.

CONN. VALLEY MFG. CO.,
Centerbrook, Conn.

A NEW COAL FIELD AND TIMBER DISTRICT.

The **OHIO EXTENSION** of the **NORFOLK & WESTERN RAILROAD** penetrates one of the most valuable coal and timber districts in the United States. The line of this extension is 193 miles in length, from Coal Grove, Ohio, via Kenova, W. Va., to Elkhorn, W. Va., of which 54 miles, to Dunlow, W. Va., is now opened for business and the entire line is under construction and will be completed early in the fall of 1892. It passes through virgin country abounding in gas, splint, cannel, steam, coking, and domestic coals and fire-clay; chestnut-oak, white-oak, beech and poplar timber. Those looking for advantageous sites for the location of saw-mills or tanneries and establishments for the manufacture of furniture, wagons, agricultural implements, wood-pulp, fire-brick, or manufactured iron articles, should investigate the resources of this new field. The new town of Kenova, W. Va., offers many advantages for the location of manufacturing establishments, also the territory opened up by the Norfolk & Western Railroad on the north bank of the Ohio River, between Kenova, W. Va., and Portsmouth, Ohio. For the manufacture of finished iron articles the district offers unequaled advantages, with supply of coal and Pocahontas coke on short hauls, and with the blast furnaces of the Ironton, Hanging Rock and Ashland district in close proximity. Favorable freight rates made upon raw materials to all manufacturing establishments on this line.

For further information as to freight rates, maps, names of parties to whom application should be made for coal leases, &c., apply to

JOHN J. ARCHER,
Div. Freight Agent, Columbus, O.
or CHAS. G. EDDY,
Vice-President, Roanoke, Va.

BRANFORD, CONN.,

With its beautiful harbor and its river, navigable for three miles, is one of the finest towns in the country to live in or to work in; special inducements will be offered by the Board of Trade to parties who contemplate establishing or relocating manufacturing plants; correspondence solicited.

CHARLES A. HOADLEY,
Corresponding Secretary.

Wheel, Axle and Iron Manufacturers and Capitalists.

Your attention is called to the following.

Two very valuable patents touching wheel and axle manufacturers and the iron trade are now offered for sale. One is an improvement in axle arms consisting of four concave depressions so arranged in the arm that they lessen friction and automatically lubricate it (the arm). The other is one of the most valuable patents ever issued. It gives to the owner a monopoly over a certain branch of business that has not been equaled in this century. This patent consists of a hub made from malleable iron, steel or other suitable metal, so made that in connection with an axle arm of suitable dimensions, &c., it does away with the projecting hubs of wheels that are now so common and annoying. It is no idle fancy to think and say that when this hub is introduced all others will disappear. Wheels made with this hub will be the nearest approach to perfection ever made in that line. To secure control of this patent is to secure a fortune. These patents will be disposed of singly or together, they will be sold outright or stock taken in a company organized for their manufacture. For further particulars address

PETER McMENAMIM,
273 Fifth St., Jersey City, N. J.

WILLIAM BURTIS, New Egypt, N. J.

WANTED.

Party to take $5000 to $10,000 worth of stock in a new enterprise and to undertake the general control and management of New York sales office at a satisfactory salary. Must know how to advertise and introduce new machinery. Address "H. S. B.," Box 62,
office of *The Iron Age*, 96-102 Reade St, N. Y.

FOR SALE.

Sealed proposals will be received until noon of June 15, 1892, by W. F. Kyle, Manager for the Trustees of the Fieldhouse & Dutcher Mfg Co., 30 & 32 West Monroe St., Chicago, Ill., for the sale of the entire property of said Company, including accounts; or for the sale of the merchandise, machinery and fixtures, in whole or in part.

The amount of sales in 1890 and 1891, combined, exceeded $800,000. The business shows a considerable capital over liabilities.

The Trustees reserve the right to reject any or all proposals. The books, accounts, merchandise and other property will be exhibited to any responsible persons who may wish to submit proposals for purchase. Blank forms will be furnished for proposals. Proposals may be sent to Mr. W F. Kyle at the above address, and will be forwarded to the Trustees at New York for acceptance or rejection by June 20.

The Trustees of

FIELDHOUSE & DUTCHER MFG. CO.

FOR SALE.

RARE OPPORTUNITY FOR THE RIGHT MAN.

Owing to the death of Edward Heath, Treasurer of the Malden Hardware Co., Malden, Mass., a city of 25,000 inhabitants, situated 4 miles from Boston, the stock, fixtures, tools and teams of the company are offered for sale Stock will invoice about $10,000. Must be sold on or before June 1, 1892, to close estate. Apply to

CHARLES HEATH, President,
on the premises.

FOR SALE.

A thoroughly well assorted stock of Shelf Hardware, House Furnishings, Stoves, &c., located in a growing and thriving Illinois town of 25,000 inhabitants; stock $8,000 to $10,000. The town is noted for its manufactures and is surrounded by the finest agricultural lands in the State. The business well established and thriving. Address "LIGHT,"
office of *The Iron Age*, 96-102 Reade St., N. Y.

BUSINESS FOR SALE.—A thoroughly established manufacturing business in the metal line. Goods well known and selling to the best wholesale trade. This business is now paying, but present owners have other business to which must be given all their time and capital. Thoroughly competent practical man will stay with it it desired. About $15,000 required. Good chance for some town desiring manufacturing plant, as it can be easily removed. "LAFAYETTE," office of *The Iron Age*, 96-102 Reade St., New York.

FOR SALE.

An established retail hardware business in a live, beautiful, healthy and growing manufacturing city in the Northwest; fine modern store in a central location; business well established; stock about $25,000; splendid chance to step into a business already established, with opportunity to extend all one could wish (no trade for real estate). For further particulars, address "NORTHWEST," Box 331, office of *The Iron Age*, 96-102 Reade St., New York.

HARDWARE STOCK FOR SALE CHEAP.

The stock of goods in the old hardware stand at Waverly, N. Y., is offered for sale. The stock is reduced to low amount and is clean. The stand has had a large trade for upwards of 40 years and is well and favorably known for miles around. Building is very convenient and has the modern improvements, including large power elevator. This opening presents an opportunity to start up with a fresh stock, or to move an old stock from a crowded locality to this desirable point. Three railroad trunk lines pass through Waverly. Address

H. G. MERRIAM,
Waverly, Tioga Co., New York.

TIN WORKS.

A firm of engineers in South Wales, closely associated with the trade, are prepared to supply all plans, specifications and estimates for the erection and conduct of tin works embracing all the latest improvements for economizing the cost of production, and also to contract for the supply and erection of the same. Reply in first instance to

"TIN WORKS,"
office of *The Iron Age*, 96-102 Reade St., N. Y.

WANTED.

One second-hand Crane 10 or 12 tons capacity, made of structural iron or steel, of the following dimensions: Mast 26 feet, jib 27 feet, with racking carriage on top. Name lowest price for cash. Address

"CRANE,"
office of *The Iron Age*, 96-102 Reade St., N. Y.

There are in the U. S.

13,000 Live Hardware Dealers.

To each of these I shall mail

An Elegant Prospectus of the New Book,

"Ideas for Hardware Merchants."

(Price, $1.00. Postpaid.)

The cost of mailing is as follows:

Selecting	13,000 Names	$52.00
Addressing	13,000 Envelopes	39.00
Cost of	13,000 Envelopes	26.00
Stamping	13,000 Envelopes	13.00
Assorting	13,000 Envelopes	26.00
Postage on	13,000 Envelopes	130.00
Printing	13,000 Circulars	65.00
Total, ...		$351.00

In this connection I will make the proposition to any Hardware Manufacturer who desires to circularize the entire trade to enclose his circular with mine at the low rate of only $5.00 per thousand names for as many thousand names as he desires to use.

This offer is for immediate acceptance. Address

D. T. MALLETT,

New Haven, Conn.

THE CHICAGO, MILWAUkee & St. Paul Railway Company desires to have the raw material on its 6150 miles of road in Illinois, Wisconsin, Northern Michigan, Iowa, Missouri, Minnesota, South Dakota and North Dakota utilized.

In addition to the vast agricultural resourses, its territory comprises Forests of Hard and Soft Wood, Mines of Iron and other Metals, Coal and other Minerals, Quarries, Clays of all kinds, Tanbark, Flax and other products. Water-powers (both river and artesian) are also still available.

A number of new factories have been induced to locate—largely through the instrumentality of this Company—at enterprising towns on its lines.

As the interest of the Company is to secure the location of industries at places where the surroundings will insure their permanent success, the information furnished a particular industry is pertinent and reliable.

The people on the whole System are one live and thriving community of business men in whose midst it is safe and profitable to settle. Local capital is being largely invested in local factories, and taken as a whole, the country through which the road runs is commanding attention as the coming industrial territory of the United States. Solid Concerns, Manufacturers, large or small, who thoroughly understand their business are sought for at suitable points on the road.

Individuals or companies wishing to embark capital in Western industry can find a profitable field.

For particulars relative to industrial advantages on the line, address

LUIS JACKSON,
Industrial Commissioner,
C., M. & St. P. R'y, 160 Adams St., Chicago, Ill.

Record of Scientific Progress for the year 1892. Exhibiting the most important discoveries and improvements in all the branches of engineering, architecture and building, mining and metallurgy, the mechanic arts, industrial technology and the useful arts, photography, chemistry, medicine and surgery, printing, the generation, measurement, transmission and application of electricity, the telegraph and telephone, meteorology and aeronauty, astronomy, etc. By ROBERT GRIMSHAW, M.E., Ph.D. 372 pages, cloth.....$1.50

Pocket Companion. Containing useful information and tables appertaining to the use of wrought iron and steel as manufactured by Carnegie, Phipps & Co., Ltd., Pittsburgh, Pa. For engineers, architects and builders. 1892 edition. Edited by C. L. STROBEL, C.E., assisted by F. H. KINDL, C.E. Leather with flap, 334 pages.....$2.00

Walden's Stove Trade Directory. Containing a list of the manufacturers of stoves, ranges and furnaces, classified under the heading of goods made. Also a list of stove manufacturers and dealers, house furnishings and tinware dealers in the principal cities, 1892-1893. Cloth.....$3.00

Brick for Street Pavements. An account of tests made of bricks and paving blocks, with a brief discussion of street pavements and the method of constructing them. By M. D. BURKE. 86 pages, paper.....$0.50

Mortars and Concretes of Antiquity and Modern Times. Read at the Twenty-Second Annual Convention of the American Institute of Architects. By ADOLF CLUSS, F.A.I.A. Pamphlet.....$0.25

Dynamo-Electric Machinery. A Text Book for Students of Electro-Technology. By SILVANUS P. THOMPSON, D.Sc., B.A., F.R.S. It is nearly two years since the last edition of Thompson's Dynamo-Electric Machinery went out of print, since which time the author has been busily engaged in preparing an enlarged and revised edition. CONTENTS: Introduction; Historical Notes; Physical Theory of Dynamo-Electric Machines; Actions and Reactions in the Armature; Magnetic Principles and the Magnetic Properties of Iron; the Magnetic Circuit; Forms of Field-Magnets; Elementary Theory of the Dynamo, Magnetic and Separately-Excited Machines—Series Machines—Shunt Machines; Characteristic Curves; Constant Potential Dynamos; On Winding of Armatures—Theory of Connections; Practical Construction of Armatures; Commutators, Brushes and Brush-Holders; Mechanical Points in Design and Construction; Elements of Dynamo Design—Calculations of Windings; Arc-Lighting Dynamos; Examples of Modern Dynamos (continuous current); Miscellaneous Dynamos; Electric Motors (continuous current); Modern Forms of Continuous Current Motors; The Principles of Alternate Currents; Alternators; Alternate Current Motors; Transformers; Electric Transmission of Energy; Regulators for Dynamos; Testing Dynamos and Motors; Management of Dynamos. Appendix A.—Electric and Magnetic Units. Appendix B.—Wires for Winding Dynamos. Fourth edition, entirely rewritten, nearly 1000 large pages of text. Profusely illustrated, including 29 plates. $9.00

A Text-Book on Retaining Walls and Masonry Dams. This work is designed not only as a text-book for students, but also for the use of civil engineers. It clearly sets forth the methods of computing the thrust of earth against walls, and the investigation and design of walls and dams in the most economic manner. The principles and formulas are illustrated by numerous numerical examples. By Prof. MANSFIELD MERRIMAN, Lehigh University. 8vo, cloth.....$2.00

Small Talk About Business. A Banker's Business Hints for Men and Women. By A. E. RICE. 60 pages, cloth.....$0.60

Notes and Examples in Mechanics; with an appendix on the Graphical Statics of Mechanism. By IRVING P. CHURCH, C.E. This forms a companion volume to the writer's "Mechanics of Engineering" and contains various notes and many practical examples, both algebraic and numerical, serving to illustrate more fully the application of fundamental principles in mechanics of solids; together with a few paragraphs relating to the mechanics of materials and an appendix on the "Graphical Statics of Mechanism." 146 pages and plates, cloth.....$2.00

Practical Carriage Building. A collection of articles compiled from those contributed to the columns of *The Blacksmith and Wheelwright* during the past few years, and covering the entire range of the art of carriage building from the plan of a vehicle to its completion, illustrating and describing fully the sectional parts. Edited by M. T. RICHARDSON. Beginning with some remarks on the proper timbers to use, plans for a carriage shop are described and illustrated; then come the tools, floor, bench and wood-working appliances necessary for a successful shop. Following this is a chapter on wheels and the repairing of wheels, and then are described and illustrated mortises, laps, gather of wheels, plumb spoke, etc. Illustrated, Vol. I, 224 pages, cloth.....$1.00

Safety Valves: their History, Invention, Antecedants and Calculations. By W. B. LEVAN. Illustrated pocket-book style, cloth $1.50; leather.....$2.00

Mineral and Railway Map of Southwest Virginia and Contiguous Territory. The position of Southwest Virginia, Eastern Tennessee, West North Carolina, East Kentucky, and part of West virginia ores, coal areas, furnaces, collieries, manufactures, railways, roads, streams, mountains, towns and their population, leading industries, agricultural and pastoral belts, and the scientific and economic geology; iron, manganese, coal, zinc, lead, copper, sulphur, tin, gold, marble, slate and lithographic stone, are all shown on Boyd's Map of the Mineral Resources and Railway Facilities of Southwest Virginia and Contiguous Territory. This map extends from East of Roanoke, Lynchburg, Staunton and Danville, westward to Knoxville, Asheville, Cumberland Gap and Ohio River, Kenova and Cincinnati: a region unexampled in the progress of its safe mineral developement. Map is on a scale of six miles to an inch for its greater part. On cloth, pocket form, 21st edition.....$5.00

Why Band Saws Break. Sixteen reasons and how to avoid them. Being instructions to filers on the care of large band-saw blades used in the manufacture of lumber. By JOSHUA OLDHAM. 90 pages, illustrated, cloth.....$1.00

Ways and Means for Machinists, Metal Workers, Model Makers, Watch and Tool Makers, Jewelers, Draftsmen, etc. Being a collection of hints and helps not found in books usually written for this class of artisans. By A. H. CLEAVES, M.E. 125 illustrations, 158 pages, cloth.....$1.00

Workshop Receipts. (Fifth Series.) In adding a fifth volume, the range of subjects has been widened, and the information conveyed in earlier volumes has been supplemented by the results of most recent investigations and experiments, thus bringing the whole series well up to date. CONTENTS: Diamond Cutting and Polishing; Label; Laboratory Apparatus; Cements and Lutes; Cooling, Copying, Dessicating, Distilling, Evaporating, Illuminating Agents; Filtering; Explosives; Fire proofing; Ink; Lacquers; Magic Lanterns; Electrics; Metal Work; Musical Instruments; Packing and Storing; Percolating; Preserving, Corrosion and Protection of Metal Surfaces; Pumps and Syphons; Water-proofing; Glass Manipulating; Modeling and Plaster Casting; Stereotyping; Tobacco Pipes; Taps; Tying and Splicing Tackle; Velocipedes; Repairing Books; Netting; Walking Sticks; Boat Building; Anemometers; Measuring Angles; Barometers; Camera Lucida; Dendrometers. 8vo, 440 pages, fully illustrated, cloth.....$2.00

The Electric Railway in Theory and Practice A complete treatise on the construction and operation of electric railways. By O. T. CROSBY and Dr. LOUIS BELL. Illustrated, cloth. New York, 1892.....$2.50

The Practical Catechism. A collection of questions on technical subjects, by manufacturers and others, and of answers thereto. By ROBERT GRIMSHAW, M.E., Ph.D. Treating of Miscellaneous engineering questions, and touching upon physical science, chemistry, etc. GENERAL TOPICS: Properties of Air; Alloys; Beams; Belts; Bricks; Building; Building Stones; Calculations; Cements; Chemical Processes; Coloring Metallic Objects; Combustion; Disinfectants; Fastenings; Fluxes; Foods; Foundry Practice; Fuels; Gas; Gear Wheels; Gravity; Hardening, Tempering and Annealing; Heating; Hydraulics; Iron and Steel; Limes, Mortars and Cements; Locomotives; Lubrications; Mechanical Processes; Metals in General; Millwrighting; Paints, Oils and Varnishes; Plants; Power; Railways; Ropes; Saws; Shafting; Solders; Strength of Materials; Sugars; Temperatures; Timber and Trees; Ventilation; Waters; Weights; Wines; Work; Miscellaneous. 296 pages, cloth.....$1.25

A Manual of the Steam Engine. A companion to the Manual of Steam Boilers. By Prof. ROBT. H. THURSTON. 2 vols, 8vo, cloth.....$12.00
PART I: History, Structure and Theory for Engineers and Technical Schools (advanced courses). Nearly 900 pages.....$7.50
PART II: Design, Construction and Operation for Engineers and Technical Schools (special courses in Steam Engineering). 934 pages.....$7.50

The Underground Haulage of Coal by Wire Ropes, including the system of Wire Rope Tramways as a means of Transportation for Mining Products. By WILHELM HILDENBRAND. 32 plates; 8vo, paper.....$1.50

IMPROVED EDITION OF THE IRON AGE

HARDWARE PRICE BOOKS.

Arranged by R. R. WILLIAMS, Hardware Editor of the Iron Age.

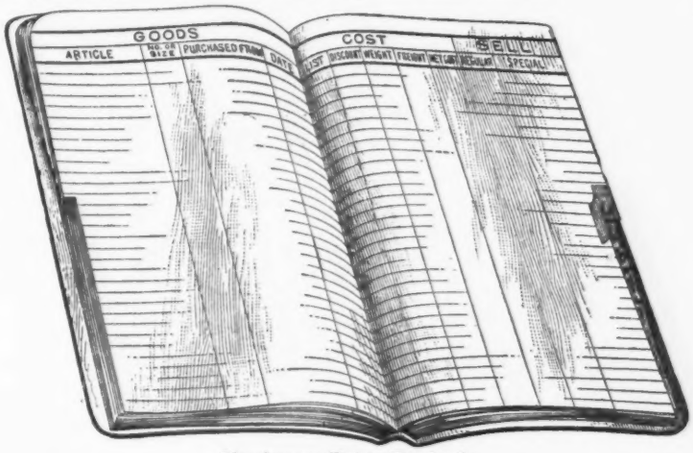
These Books are printed on paper of superior quality and bound in grain seal leather.

Columns are provided for the name and number or size, for noting from whom purchased, date of quotation or purchase, list and discount, and for entering freight expenses as an element of cost. Under the heading of selling prices, the regular and any special price or remarks in regard to the goods are given place. This book goes into considerable detail in describing the goods and cost prices. It has been arranged in accordance with the views of many Hardwaremen whose methods are careful and exact.

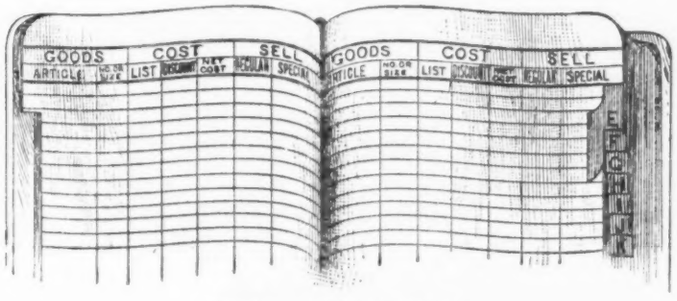
Size, 4 x 7 in.; grain seal leather.

FOUR EDITIONS:

A, 200 pages,	$1.00
A F, 200 pages with flap,	1.25
A 2, 400 pages,	1.50
A F 2, 400 pages with flap,	1.75



Hardware Price Book A.



Hardware Price Book B.

In this book each page is complete, and the record of prices does not, as in Book A, run across two pages. Thus it accommodates a larger range of goods with much less detail in the record. It is adapted for office or store use, and by the use of familiar abbreviations, sufficiently large for the convenient and concise record of prices.

Size, 4 x 7 in.; grain seal leather.

FOUR EDITIONS:

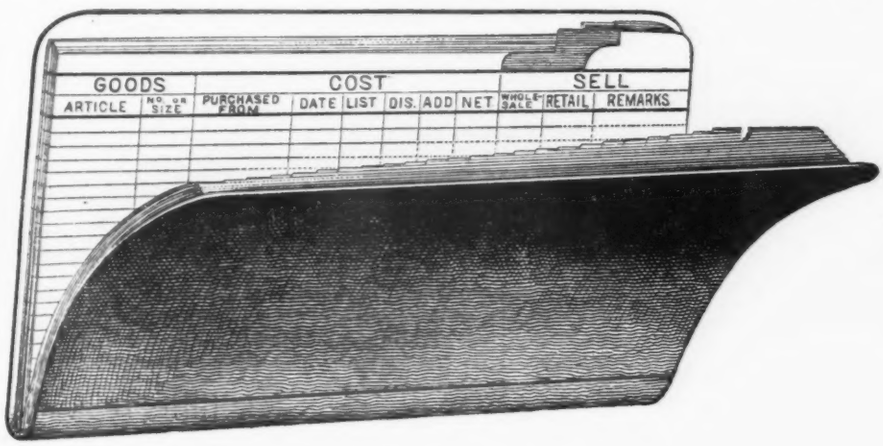
B, 200 pages	$1.00
B F, 200 pages with flap,	1.25
B 2, 400 pages,	1.50
B F 2, 400 pages with flap,	1.75

The headings in Book C run across the top, in a line parallel with the hinge. In this way a very complete record can be kept on a single page. The details of weight and freight contained in Book A are omitted, and a single column headed "Add" given for the insertion of freight or other expenses which it is desirable to include in the cost. Under the selling prices space is left for the wholesale price, the retail price, and also for any remarks in regard to cost of the goods, desirability of pushing them, or other matters.

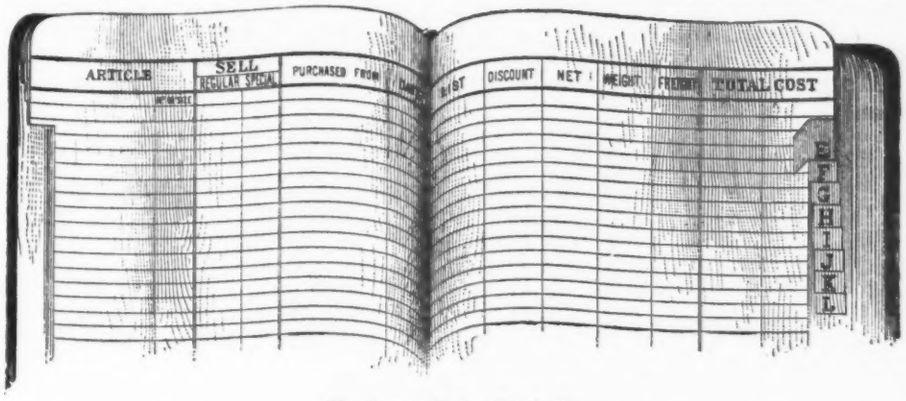
Size, 4½ x 7¾ in.; grain seal leather.

FOUR EDITIONS.

C, 200 pages,	$1.00
C F, 200 pages with flap,	1.25
C 2, 400 pages,	1.50
C F 2, 400 pages with flap,	1.75



Hardware Price Book C.



Hardware Price Book D.

Price Book D will recommend itself particularly for desk and store use, and for salesmen on the road.

The name of the article, its number or size and the selling price are the first to meet the eye on the left-hand page, as embodying information desired when the selling price is required. The other headings follow in convenient order, by which a detailed memorandum regarding the goods may be kept, the whole being seen at a glance. A number of pages at the back of the book are arranged for memoranda, which will be found a great convenience. This arrangement is adapted to the requirements of the trade in this direction. Size 5¼ x 8 in.: grain seal leather.

FOUR EDITIONS.

D, 200 pages,	$2.00
D F, 200 pages, with flap,	2.50
D 2, 400 pages.	$3.00
D F 2, 400 pages, with flap,	3.50

THE CELEBRATED

"PERFECTION"

Water Elevator and Purifying Pump.

The storage of water in cisterns and open wells is the method largely adopted throughout this country by the people for Drinking, Cooking and Bathing purposes. We have had an abundance of rainfall, all wells and cisterns are full, and such being the case we all know the water contained therein becomes FOUL and STAGNATED during the months of July, August and September. If you will place a "PERFECTION" PUMP on your well or cistern we GUARANTEE the water to become and remain as PURE as a MOUNTAIN STREAM. Try it and be convinced. It is the simplest structure for raising water on the Continent—guaranteed not to freeze.

The Perfection

Having no Valves, Tubes or Plungers to get out of order, no Wood Tubing to Pollute the water, no attachment below platform, never has to be primed, packed or thawed out. Guaranteed never to freeze; easiest pump operated. Over 140 000 in daily use.

We are now striping and decorating the "Perfection" in the finest manner possible.

Agents wanted in every town. Dealers write your jobbers for quotations. Be sure you get "The Perfection," take no other. For full information, circulars, catalogues, etc., address the manufacturers.

To apply this band place the ends of the hooks in the holes of the plyer and pull the band as tight as possible. Then turn the plyer half round, release the band and pound down the ends as illustrated in the cut. Extra parts sold separately. Boxes sell readily at 75 cents. LIBERAL discount to DEALERS. Send for full description.

C. E. HUDSON, - - - Leominster, Mass.

—THE IRON AGE—

HARDWARE PRICE BOOKS.

Arranged by R. R. WILLIAMS, Hardware Editor of The Iron Age.

THESE BOOKS are printed on paper of superior quality and bound in grain seal leather. They are all indexed through, care being taken to give each letter the proper amount of space for the accommodation of Hardware articles. Books A, B and C are issued in four editions: With 200 pages, price, $1.00; same with flap, $1.25; with 400 pages, $1.50; same with flap, $1.75. In the same manner book D has four editions, price, respectively, $2.00, $2.50, $3.00 and $3.50. Book E has but the one edition, priced at $5.00.

BOOK A.

Columns are provided for the name and number or size, for noting from whom purchased, date of quotation or purchase, list and discount, and for entering freight expenses as an element of cost. Under the heading of selling prices the regular and any special price or remarks in regard to the goods are given place This book goes into considerable detail in describing the goods and cost prices. It has been arranged in accordance with the views of many Hardwaremen whose methods are careful and exact. Size, 4 x 7 in.; grain seal leather.

BOOK B.

This book contains headings and spacings for article, No. or size, list, discount, net cost, regular, special. Each page is complete, and the record of prices does not, as in Book A, run across two pages. Thus it accommodates a larger range of goods with much less detail in the record. It is adapted for office or store use, and by the use of familiar abbreviations sufficiently large for the convenient and concise record of prices. Size, 4 x 7 in.; grain seal leather.

BOOK C.

The headings in book C run across the top, in a line parallel with the hinge. In this way a very complete record can be kept on a single page. The details of weight and freight contained in book A are omitted, and a single column headed "Add" given for the insertion of freight or other expenses which it is desirable to include in the cost. Under the selling prices space is left for the wholesale price, the retail price and also for any remarks in regard to cost of the goods, desirability of pushing them or other matters. Size 4½ x 7¾ in.; grain seal leather.

BOOK D.

Price Book D measures 5¼ x 8 inches, and will recommend itself particularly for desk and store use, and for salesmen on the road. It is strongly bound, and with a fine quality of heavy ledger paper, admitting of erasures and changes, and pages are numbered. The headings are conveniently arranged as follows:

Article. Number or Size. Regular Selling Price. Special Selling Price. Purchased from. Date of Quotation, Purchase or Invoice. List Price. Discount. Net Cost. Weight. Freight. Total Cost.

BOOK E.

This is a large book, measuring 7 x 10 inches, and contains 280 pages. The binding is strong and the paper of the best heavy quality. Each page is complete with the following headings properly spaced:

Article. No. or Size. List. Discount. Add. Cost. Sell. Mem.

The special feature is the multiple system of indexing employed by means of three parallel marginal rows, which run through the entire book. Each index tab gives the first two or three letters of hardware articles, enabling the user to refer at a single motion to any goods. Special care has been taken to make the index classification correct and to provide sufficient space for recording of prices. Forty pages are reserved for supplemental quotations, memoranda, tables, &c.

Sent, postpaid, on receipt of price by DAVID WILLIAMS, Publisher, 96-102 Reade St., New York.

THE RAVEN STOVE POLISH

Gives the results so long wished by stove manufacturers—namely, a **Jet Black Gloss** without the silver lustre that has always prevailed. We own our Graphite (Plumbago) mine in Sonora, Mexico. The celebrated Plombagina mine. Its product is a peculiarly black Graphite withhigh chemical purity. The graphite commonly used is lead color It makes our polishes **the best.**

All the large stove manufacturers are now using it.

DEALERS: Make your sample stoves attractive by using Raven Paste Polish, and sell our domestic packages to your trade.

Remember that a stove well blacked is half sold. Our claim is—the Cleanest, Blackest, and Glossiest in the world. Put up in Pails, Bottles, Boxes and Cakes. Correspondence invited.

NOT IN YOUR LINE?
IF YOU DO NOT SELL IT YOU SHOULD USE IT.

THE PERFECT PENCIL POINTER.

Will save about one-half your pencil bill.
It is a practical machine, not a toy.
The only "Perfect" machine for the purpose
Does better work than can be done in any other way.
Does not break or waste the lead. Saves time.
Prevents soiling the hands. Any one can use it.

The above cut shows the Pointer attached to the edge of a table and shows how to take hold of the carriage in using. The pencil revolves as it is moved along on the surface of a file, which is especially made for the purpose. The entire simplicity of the whole machine makes it little liable to get out of order. By use of the clamps it can be instantly attached to desk or table, and as quickly removed, or can be used when held in the hand. The material and workmanship are the best and **EVERY MACHINE FULLY WARRANTED.**

H. S. OSGOOD, Supt. American Express Co., Portland, Me., says:
We have had one of your Pencil Pointers in use for several months, and it has done its work rapidly and well. We never saw a pencil sharpener before that would sharpen a pencil. Yours will do it every time and do it well.

SELLERSVILLE NATIONAL BANK, Sellersville, Pa.
It suits me and does all that you represent.
C. R. ALTHOUSE, Cashier.

FIRST NATIONAL BANK, Watkins, N. Y.
This is the best thing of the kind I ever saw. One cannot break the lead while sharpening.

CANON CITY, COLORADO.
Your Perfect Pencil Pointer came to hand, and after a thorough trial proves to us that it is rightly named for it is "perfect" in every particular. We would not be without it for double the price.
A. M. HAWLEY, Cashier.

Make Money by Using this Machine.

You can get them of your stationer, or to introduce WE WILL SEND SAMPLE, EXPRESS PAID, on receipt of $1.25.

"Everybody Wants It."

"BECAUSE"

It is made from the very finest and selected stock.
It is free from all impurities.
It contains no acids.
It is pure, clean and bright.
It has a sweet and pleasant odor.
It will keep good any length of time, and in any climate.
It is preferred by all the leading Mechanics.
It is put up in the most convenient and attractive packages.
It will mend anything, and make it as good as new.
It costs no more than the other makes.

SURPLESS, DUNN & ALDER,

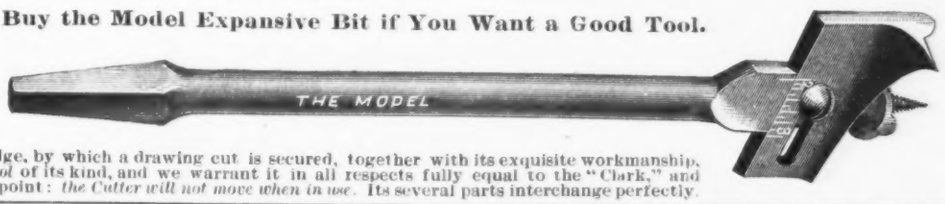
— INCORPORATED, —

Nos. 97 Chambers and 79 Reade Streets, New York.

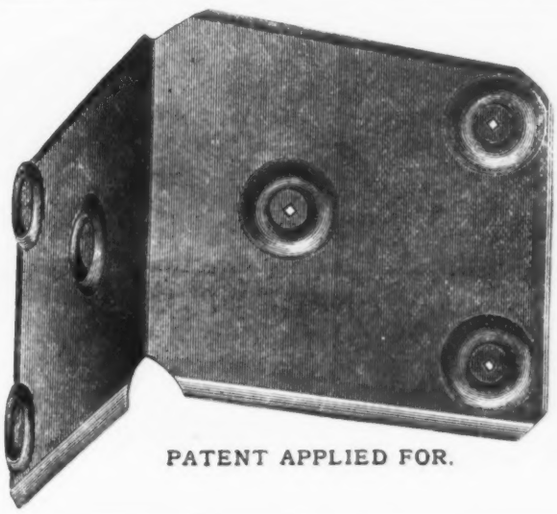
Representing Leading American Hardware Manufacturers.

Sole Agents for the "W. A. Ives Co." celebrated brand of Augers, Auger Bits, Expansive Bits and other Boring Tools.

Buy the Model Expansive Bit if You Want a Good Tool.



THE superior excellence of this tool consists in the peculiar seat in which the Cutter is placed. The manner in which it is fitted into its seat, in which it is so firmly held as to be absolutely immovable in use, the curve of its cutting edge, by which a drawing cut is secured, together with its exquisite workmanship, all combine to make it a *Model Tool* of its kind, and we warrant it in all respects fully equal to the "Clark," and decidedly better in one important point: *the Cutter will not move when in use.* Its several parts interchange perfectly.



PATENT APPLIED FOR.

CARY'S
FRUIT CRATE CORNER.

Also Applicable for Trunks, Trays and Packing Cases.

So constructed that the edges bind the wood very closely when nailed on, making a very rigid as well as handsome corner.

BLUE IMPROVED PROCESS LABEL

The Improved Process Glue Co., having purchased from The Le Page Co., all its patent rights, formulas, glue stock and material, and having secured control of its glue factory, machinery, etc., will continue the manufacture of Liquid Fish Glues in all the various grades heretofore offered by The Le Page Co., under the personal supervision of Mr. WM. N. LE PAGE, and under the Improved Process Patent issued October 26th, 1886. As is well known, the Improved Process by which these goods are made assures the highest strength with thorough uniformity as to quality, consistency and color. We call special attention to our **Improved Process Family Glues,** neatly put up for family use, and also to our **Improved Process Carriage Glue for wood-work,** put up in every variety of size and style. This Carriage Glue is undoubtedly the strongest and best glue for every variety of cabinet and wood-work, and has earned its high reputation. All our canned glues are put up with the **new patent cap** or fastening, patented January 22d, 1889, which has proved a great convenience and success. Our glues will be readily identified by our characteristic **Blue Label,** and the Trade-Mark shown at the head of this page. Send for Price-List. Messrs. TOWER & LYON will have charge of our New York office. Very truly yours,

THE IMPROVED PROCESS GLUE CO., New York Office, 95 Chambers St.

THE BRAY FLY BOOK.

THE reputation of the BRAY FLY BOOK as the neatest and most practical Fly Book made is well established everywhere. The quickness and dispatch with which Flies of any size are placed within these books without coiling of the Snell or mutilation of the Fly makes its superiority over all other methods very easily recognized by all anglers. The Flies can be as readily detached when wanted. The leaves to which the Flies are attached will in the future be made of a new material of more durability and finish than before. The workmanship and material will be kept up to highest standard, and no effort will be spared to keep the BRAY FLY BOOK (as it now is) the BEST in the WORLD.

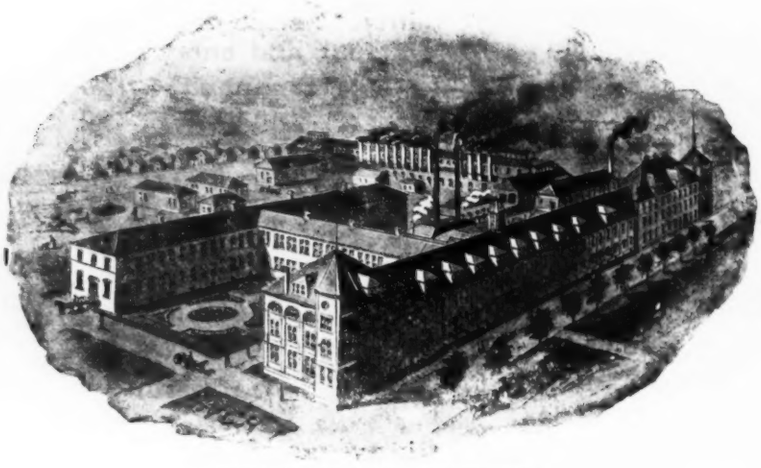
THE

National Cash Register Co.,

DAYTON, OHIO, U. S. A.

Devoted exclusively to the manufacture of

Cash and Autographic Registers.



THE NATIONAL FACTORY.

Capital invested, over $1,000,000.00.

86 Patents.

Employes in factory, 952.

A complete Register is made every 12 minutes.

We make 34 different kinds of Registers.

43,000 NATIONAL REGISTERS IN USE.

The No. 33 Is operated by writing the sale through an opening on a continuous strip of paper. This register is provided with a Combination Lock.

While the cash drawer is open, the paper cannot be moved; making it necessary to close the drawer after each sale.

We guarantee this register to be more durable and more effective than any other Autographic Register of its class, and all we ask for it is **$20.**

The No. 69 Is operated by small steel balls, which are put into a large hopper inside of the register. The pressing of a key allows the ball to drop into a V shaped conduit, which is so arranged that the proprietor can see at a glance the amount that has been registered during the day.

This register is guaranteed to be equal to any similar register of its class, and all we ask for it is **$25.**

Before ordering any kind of Autographic Register, see Our No. 33.

We Make all Kinds of Registers

AT THE FOLLOWING PRICES:

$15, $20, $25, $30, $50, $65, $75, $85, $100, $125, $150 $175, $200, $225 AND $250.

TO USERS OF OTHER MAKES OF CASH REGISTERS:

If you desire to exchange your Register for a National, we will make you a liberal allowance for it.

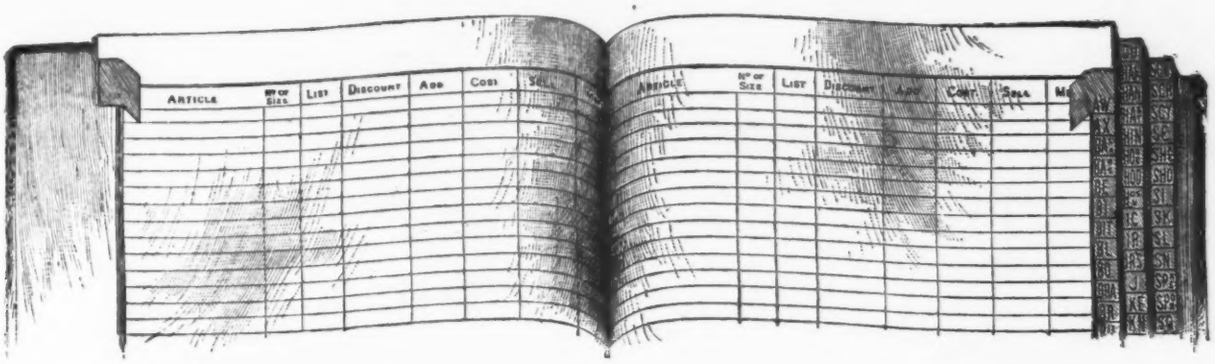
WRITE FOR PRICES.

The Iron Age Hardware Price Book E,

WITH MULTIPLE INDEX (Patent Pending).



SIZE.—The book is 7 x 10 inches (much larger than Price Books A, B, C or D), 280 pages.

PAPER.—The paper is the celebrated Crane's heavy ledger paper, tough and strong, permitting frequent changes and erasures.

BINDING.—The binding is of the very best quality—flexible seal grained leather with pocket.

INDEX.—By means of the arrangement shown in the cut the index applies to every page (except Supplement) and permits reference to any article at a single motion. This greatly facilitates the use of the book, avoiding the troublesome turning from page to page which is necessary in connection with other Price Books. It has been prepared with great care, and it is believed that it provides a place for every article in the Hardware line.

ARRANGEMENT.—The book is arranged to keep a complete record of prices on a single page, the width giving sufficient room.

SUPPLEMENT.—A 40-page Supplement is provided to give room for supplemental quotations, memoranda, tables, &c.

This book is issued in only one edition, **Price, $5.00.**

AD	CU	SCI
AN	HAL M	SCR
AU	HAN	SCY
AW	HAS T	SE
AX	HIN	SHA E
BAN	HOP E	SHO

Fac-Simile of Indexing.

Advantages of Multiple Index Price Book.

A SPECIAL feature of the book is the arrangement of the index characters, which instead of being alphabetical are arranged with special reference to the classification of Hardware goods, each index character giving the first two or three letters of the names of Hardware articles, as shown above.

The ease and convenience with which the book can be used is indicated in the following examples:

For Augers,	turn to	AU	For Chisels,	turn to	CHI	For Iron,	turn to	IR
" Apple Parers,	"	PA	" Cutlery,	"	CU	" Irons,	"	IR'S
" Saws,	"	SAW	" Cartridges,	"	CAR	" Shovels,	"	SHO
" Pumps,	"	PU L M	" Rules,	"	RU	" Grindstones,	"	GRI
" Bits,	"	BIT	" Locks,	"	LO	" Stones,	"	STO

Special care has been taken to make the classification as indicated in the index correct and comprehensive, making provision for all Hardware articles and giving sufficient space for the keeping and recording of prices. It is thought that every strictly Hardware article has its first two or three letters given, thus permitting immediate reference to it by a single motion.

It is, however, obvious if any articles are not directly designated by the index characters, that the index being alphabetical in its arrangement indicates the place where quotations on such articles should be recorded. The supplement, however, may be found useful for quotations on any outside goods which the Hardwareman may desire to keep prices on, while at the same time it may be used if necessary for any overflow of matter from the preceding pages, or to contain list prices or other matter relating to goods.

Hardware Classification.—A pamphlet containing a classification of the leading Hardware articles is furnished with the price book.

Standard Lists—In connection with this price book a set of *The Iron Age* STANDARD HARDWARE LISTS can be used with great advantage.

This price book, which has been prepared by R. R. Williams, Hardware Editor of *The Iron Age*, is presented to the attention of Hardwaremen in the confidence that it will be found a most valuable aid in keeping track of prices.

Wrought Steel Hollow Ware.

"Empire" Cold Handle Steel Spiders.

PATENTED.

The "Empire" Cold Handle Spiders are made from cold rolled wrought steel of the highest grade and finish, and are stamped from a SINGLE PIECE, and polished perfectly smooth and bright. The thickness of the steel of which the Empire Spiders are made (No. 14 Standard gauge) is a **guarantee** that they cannot **break, bend or warp.** An important feature also is that they are made **without rivets,** and **cannot leak** or the handles become loose.

The handle is reinforced in an attractive manner with a cover made of heavy tin, making a hollow ventilated handle which keeps always cool and comfortable to the hand.

The Empire SPIDERS will be found on inspection the most perfect ever made and cannot fail to give satisfaction. Our 1890 Catalogue of Patented Specialties, Acme Fry Pans, and Edgars' Patent Stove Shovels, mailed on application.

COLBY WRINGER COMPANY.

BUY THE STEEL EDGE DUST PAN,

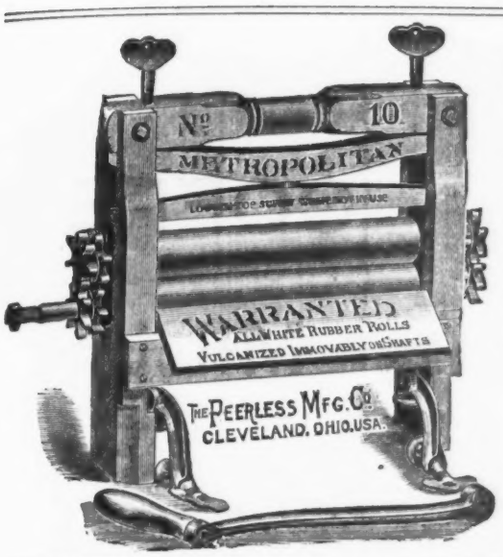
—SOLD BY—

ALL JOBBERS OF TINWARE AND HOUSE-FURNISHING GOODS.

—MANUFACTURED BY—

Steel Edge Stamping & Retinning Co.

89 STATE ST., BOSTON, MASS.



METROPOLITAN.

This differs from our other wood frame wringers of medium price in having malleable iron swinging clamps of a strong and improved pattern, that swing under the wringer, and a folding apron, allowing the machine to be closely packed for shipment, and it is preferred by many because of the small space it occupies in storage. It is a handsome, well proportioned machine, of hard maple frame, the wood being selected, free from defects and blemishes. Two top thumbscrews, metal journal boxes and oil cups combined, double gears, etc.

Furnished in natural wood or cherry stain without extra charge.

Write for Prices and Catalogue.

CLEVELAND, OHIO.

DID YOU EVER STOP TO THINK

That the Cash-Drawer is the beginning of many a merchant's fortune and misfortune? That it must be protected just like your bank account? That we do not sell Cash Registers *on paper* and when you order try to sell a "better one"? The Sun Register is sold *on honor*; the Cathedral Gong Money Drawer *on its merits*, and our Coffee Mills and Rat Traps sell well *on the counter*. We make these goods at the rate of two per minute, our own patents, and don't imitate or follow.

The EDGAR NUTMEG GRATER

THE EDGAR NUTMEG GRATER

POSITIVELY THE ONLY GOOD NUTMEG GRATER EVER MADE.

It is the old-fashioned Nutmeg Grater, with a carrier for HOLDING the Nutmeg, so attached as to move freely, forward and back, and from side to side, preventing the grated Nutmeg adhering to the surface of the Grater and bringing every part of its surface into use. Using this Grater, the Nutmeg can be grated to the merest shell without injury to the fingers or nails or dropping the Nutmeg. Its simplicity commends it. It is durable and economical and retails for 20 and 25 cents each. Liberal discount to the trade. Ask your jobber for the EDGAR NUTMEG GRATER.

SIDNEY SHEPARD & CO.,
BUFFALO, N. Y.

A DIFFICULT PROCESS MADE EASY
THE BUFFALO STEAM EGG POACHER
POACHES EGGS BY STEAM.

WHEN READY FOR THE TABLE THE EGGS ARE OF UNIFORM SHAPE AND INVITING APPEARANCE.

MAY BE TRANSFERRED TO TOAST OR PLATE WITHOUT DANGER OF BREAKING.

Mrs. Gen. Lew Wallace Says:
" Lifting the cover discloses the delicate morsel, the yolk gleaming in soft color through a cloud of transparent whiteness. Have ready the buttered toast; the eggs slip each from its own little cup easily as from the parent shell: a dish fit to set before a king. Easy to have a delicious luncheon with the aid of the bright utensil which makes cooking so easy, it seems to act with its own intelligence. In the sea of trouble awaiting the young housekeeper pushing out into unknown depths, the Buffalo Steam Egg Poacher will be found a sure thing to rest upon when all else fails."

THE NORWICH LOCK MFG. CO.,

OF ROANOKE, VA.

Roanoke Va., March 1, 1892.

Our new catalogue and price-list is now ready for distribution. It is a book of 404 pages, 10½ x 12½, printed on heavy paper, and contains illustrations and descriptions of a complete line of locks, knobs, keys, escutcheons, bell pulls, padlocks and builders' hardware.

A copy will be furnished without charge to any house whose purchases from us during the year 1891 amounted to $100 net, and will be sent with the first goods ordered, or by express, not prepaid. To others we make a charge of $5.00 per copy, which amount will be deducted from account as soon as same amounts to $50.00 net. The book is too large to be sent by mail.

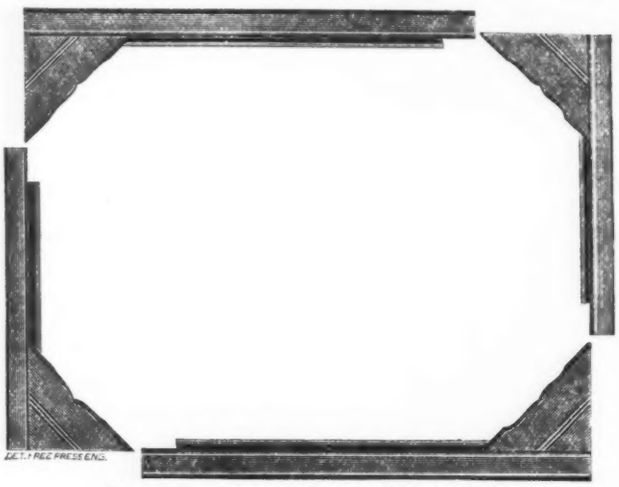
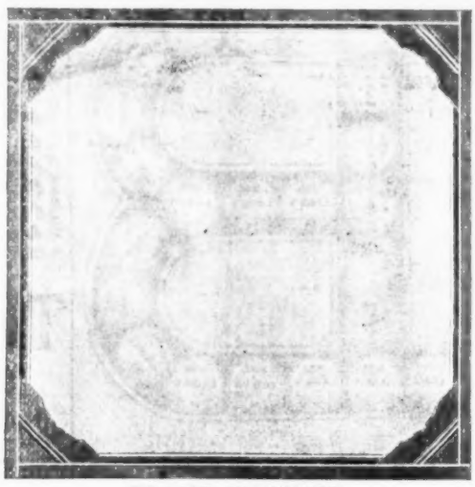
ROANOKE, VA.

PHILLIPS WINDOW SCREEN FRAMES.



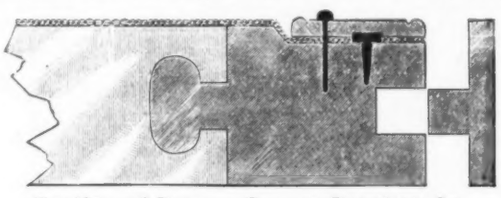
FRAME READY TO GO TOGETHER.



FRAME FINISHED.

Formerly we have never been able to make enough of these frames for our trade. This season we thought we would see if it were possible to do so. Our machines have been running for almost a year without a stop.

Notwithstanding our trade has been 50% larger than ever before, we now find ourselves with most of our back orders filled and a small stock, but good assortment, on hand. We expect to be able to make prompt shipments on frames from now on. For the benefit of those not familiar with our frame, we insert the above cuts and mention the following reasons why more Phillips Frames are sold than of any other: **They are Simplest, Lightest, Strongest, and the wire cloth is strained by fastening the molding (see sectional cut). The parts need not be fastened and can be used over again. Any man or boy with horse sense and a saw and hammer can use them and do good work.**



Section of Frame, Corner Bracket, &c.

If you haven't our catalogue of Screen Doors, Window Screens, &c., send for it. Would also be pleased to tell you about our **SCREENS MADE TO ORDER.**

THE GIANT PAD LOCK.

Centennial Award. "Superior in Every Respect

This is one of the best selling locks in the market, and affords the dealer a large profit. It is thoroughly and strongly made—of the best material—very handsome in appearance, and every Lock is warranted. Orders solicited.

THE GIANT METAL SASH CHAIN

is a substitute for cord in hanging weights to windows. It is manufactured by us only, and by automatic machinery, patented and owned exclusively by ourselves, and whereby we secure uniformity of construction and quality. We have been to great expense in producing a metal having all the qualities and conditions requisite for making suitable chain for this purpose, and to prevent other chain of the same pattern of link and of the same general appearance, but made from an inferior metal, being offered as the same thing, we patented the word "Giant" as a Trade-Mark, as applied to either metal or chain. Trade-Mark Registered April 16, 1878, and October 22, 1878, and our metal is therefore known in the market as "Giant Metal," and our chain as "Giant Metal Sash Chain."

ROSS' PNEUMATIC WHISTLE

For Sale by David Williams, 96-102 Reade St., N. Y

ALUMINUM METAL

BICYCLE PADLOCKS

ALUMINUM, being the lightest of metals (about one-fourth the weight of brass), and of a beautiful white color (somewhat similar to silver), susceptible of a very high polish which does not tarnish, and dims but little in handling, possessing qualities which render lubrication unnecessary, neither water nor salt and but few acids affecting it, and having great strength, is the ideal metal of which to make locks for Bicycles, etc.

We offer the only Aluminum Padlocks (fully protected by patents) on the market, as illustrated herewith, in a very handsome design, beautifully finished, and with such interior works as to render them perfectly secure and very durable.

The same lock made also in Bronze-Metal. Made in both metals either with a chain fourteen inches long, with solid ring on the end, or without chains.

Interior Mechanism Patented Jan. 26th, 1892, March 8th, 1892.

Patent dated June 7th, 1892, on Padlocks composed in whole or part of Aluminum or an alloy thereof.

POPULAR PRICED LOCKS.

Locks are Spring-Self-Locking, Spring-Shackle, with two Rolled Steel Keys, cut to each Lock. **Brass Lock with Chain weighs about one-quarter lb. Aluminum Lock with Chain about one ounce.** Further information gladly given by

THE E. COVERT MFG. CO.,

Farmer Village, N. Y., U. S. A.

We are the original makers of steel covered hangers and all others are imitations. Beware of infringements, as we shall protect our rights.

In our Steel Covered Hangers we have all the desirable features of the Best Hangers in the market, and with that we combine the cover for wheels SO NO ICE OR SNOW can reach the wheels, and making this cover as we do, we stiffen it so it is the strongest Hanger in the market, and we believe it is just perfect. Would be glad to have you try a small order and satisfy yourself.

Double-Braced  Steel Rail.

PATENTED JUNE 12, 1888.

This rail being double-braced and double-riveted is the strongest rail in the market. Being braced both ways it will not sag. The joint is made so it is perfectly solid. It comes complete and ready for use, requiring only screws and screw driver for any man or boy to put it up in short order. It can be used for any grooved wheel Hanger, and a heavy door will not make it spring or tremble. Guaranteed to hold a door weighing 2,000 pounds, and used in connection with our Anti-Friction Hanger will work perfectly on large small doors.

Cronk's Adjustable Stay Roller.

Made of wrought steel strap; cast block with slot adjusted by loosening bolt.

Cronk's Inside Adjustable Stay.

Is cheap, simple and durable, and much better than a cleat nailed on the floor for this avoids all friction and leaves no place for dirt to accumulate. $2.00 per doz. No inside door can be properly hung without this stay.

SCALES OF ALL KINDS.

Bemis & Call Hardware & Tool Co.

COMBINATION WRENCH.

Case-Hardened Throughout. Parts Interchangeable.

This wrench not only combines the superior qualities of a Gas Pipe Wrench but also all the requisite combinations of a regular Nut Wrench, thus making a combination which has no equal.

This Wrench can be Furnished with Long Nut or Sleeve.

No. 3 PIPE WRENCH.

The serrated jaws of the Wrench are interchangeable; that is, the same serrated plate may be used for either the stationary or sliding jaw, so that if one plate is broken another can be furnished adapted to either jaw without express designation. The slides, nuts and various parts are also interchangeable, thus easily repairing the Wrench at very small expense, and with as perfect practicability for further use as when the Wrench was new.

For Circulars and Price List, address

BEMIS & CALL HARDWARE & TOOL CO., Soringfield, Mass., U. S. A.

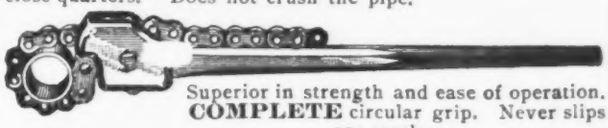
TRIMO PIPE WRENCH,

Forged Steel.

All parts interchangeable.

Grips firmly without loss of motion, in close quarters. Releases its hold readily. Does not crush the pipe.

TRIMO CHAIN PIPE WRENCH.



Superior in strength and ease of operation. COMPLETE circular grip. Never slips nor crushes.

JOHN C. KUPFERLE, St. Louis, Mo.

"RIVAL" PATENT Lawn Sprinkler.

Cheapest and Best in Use.

Agents Wanted. Liberal discount to buyers

The Spray from it covers upward of 1000 *sq. feet of lawn.* It is the only patent adjustable Sprinkler which is adaptable to any water pressure. Being made of brass, and having no revolving parts to wear out, or small opening to clog up, it can be operated with sandy or muddy water as well as clear, and will last for years. To operate, screw Sprinkler on end of hose, stick the rod into the ground in a vertical position, adjust the acorn to suit pressure and spray wanted and it is ready for use. It may be so regulated as to throw a spray *as coarse as rain* or *as fine as mist*, and will make one of the most beautiful fountains imaginable. It is unequaled in merit, requires no attention and is sold at a less price than any sprinkler in the market. Remember, the RIVAL is the only Sprinkler made by which the coarseness of the spray and the area to be wet can be regulated. They are packed 1 doz. in a box, and finished either plain or nickel-plated.

FULL SIZE.

¾ inch Regular Hydrant Thread, (or Pipe Thread to order) per doz. $7.50

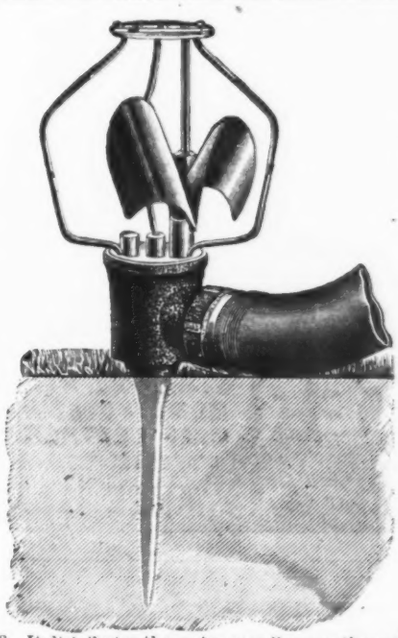
THE

Kilbourne & Jacobs Mfg. Co.,

COLUMBUS, O.



Here is something new. Have you seen it?

BONNETTE'S ARC LAWN SPRINKLER.

Patented Oct. 20, 1891.

This Sprinkler was invented by a **DRY GOODS MAN** in Bay City, Mich. He noticed that when his neighbors set out their sprinklers, they wet all over the sidewalks as well as the lawns.

On going back and forth to the store he was often forced into the middle of the street to avoid a shower from the sprinkler. Ladies often ruined their dresses from this source.

It set him to thinking. Sprinklers should not be a nuisance. Could one be made that would sprinkle, if desired, in a half circle? He thought so. He commenced to work and experiment.

That was five years ago. It required lots of patience and there were many disappointments, but to-day,

NOTE THE RESULT.

Five good reasons why this is the best sprinkler to buy:

1. It will not clog up.
2. It will sprinkle a circle from 4 to 40 feet in diameter, according to the water pressure.
3. It distributes the water equally over the entire surface, wasting none around the base of the machine.
4. **This is the only machine ever invented that will sprinkle water in a half-circle,** thus preventing the wetting of walks while thoroughlysprinkling the lawn.
5. It can be changed from a circle to a half-circle, or *vice versa*, in five seconds.

We now claim to have the only perfect sprinkler in existence. It is simple, will not wear out nor clog up. Is well made and handsomely nickled, is boxed singly with full directions how to use. Its merits are, without question, pre-eminently superior to any other. Prices and samples sent upon application.

Bradley Hammers

2000 IN USE.

FOR 20 YEARS these Hammers have been in the market, and during all that time have been acknowledged the very best. The material we use and our method of construction are the result of ripe experience, and not the jumped-at conclusions of amateurs. Send for circulars and price-lists.

BRADLEY & COMPANY,

SYRACUSE, N. Y.

Large Reduction in Prices.

FEBRUARY 15th.

A REVOLVER without a **LOADING GATE** is as useless all year round as a pair of **ICE CREEPERS** would be **IN JULY.**

BECAUSE all central fire cartridges are now made inside-lubricated, and will slip out of revolvers having no Loading Gate. All the X. L. Revolvers, both with Regular and Folding Hammers, have Loading Gates and Rebounding Locks.

We have largely increased our facilities for the manufacture of the X. L. Revolvers and H. & A. Automatic Ejecting Revolvers, and shall be able to fill all demands promptly this coming year. This is the best selling line ever put on the American market and retailers can double their money on these goods.

Our new illustrated catalogue, with reduced prices, will be ready on the 25th of February and will be sent upon request to any dealer.

HULBERT BROS. & CO,

Opposite Fifth Ave. Hotel. Formerly MERWIN, HULBERT & CO.,

26 West 23d Street, New York.

WHEN.

Business Hints for Business Men in Business Hours. A series of practical hints and pointers of a business nature. By D. T. MALLETT. Pamphlet, 25 cents. Sent, postpaid, by **DAVID WILLIAMS, 96-102 Reade St., New York,**

The Art of Selling

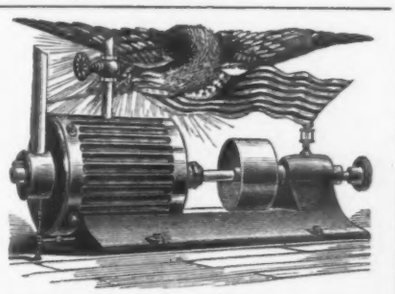
By F. B. GODDARD.

In this book the author lets the reader into the secrets of the accomplished and successful salesman, illustrates his tact and finesse and tells how he masters men. But beyond this, the work embraces much information which will be instructive and useful to all classes of business men, discusses fully the characteristic methods of conducting business to-day and makes an interesting application of character reading to the work of business negotiations.

Price, 50 Cents.

Sent, postpaid, on receipt of price, by

David Williams, 96-102 Reade St., N. Y.



AMERICAN HIGH SPEED ENGINE, built of any required size and power, for all stationary and marine purposes. Makes 1000 or more revolutions per minute. Has no dead centers. Unequaled regulation. No skilled engineer required! Cheap! Economical! Simple! Durable!

For further information and Illustrated Catalogue, call on or address: AMERICAN ENGINE Co., Bound Brook, N. J.

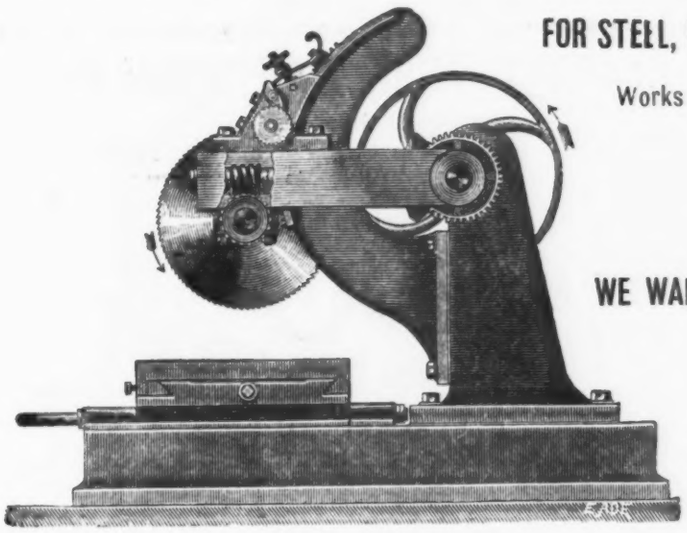
Cold Saws and Cold Sawing Machines



FOR STEEL, IRON AND OTHER METALS A SPECIALTY.

Works at Homewood Station, Pennsylvania Railroad,

PITTSBURGH, PA.

WE WARRANT
- Perfect workmanship,
- Wear and cost of operating reduced to minimum,
- Long life of saw-blade,
- Full contact of teeth,
- And best general results.

We build many different styles of machines adapted for all kinds of Cold Sawing. ALL are equipped with our SELF-REGULATING VARIABLE AUTOMATIC FEED, with advantages above mentioned.

THE COST IS THE SAME!

THE "HARTMAN" PATENT STEEL PICKET FENCE

Costs no more than an ordinary Wood Picket Fence that obstructs the view and will rot or fall apart in a short time. The "Hartman" Fence is artistic in design, protects the grounds without concealing them and is practically **everlasting.** It is the most popular fence made to-day, its sale exceeding that of all other patent fences combined. **Illustrated Catalogue with Prices and Testimonials Mailed free.**

AMERICAN SCREW COMPANY

PROVIDENCE, R. I.

COLD FORGED PRODUCTS.

"Spur Pointed" Wood Screw.

Patented May 10, July 19, 1887; Oct. 29, 1889; Aug. 19, Oct. 21, 1890; April 7, May 12, 1891.

ITS ADVANTAGES ARE:

Stronger than a cut screw.
Forged nick.
Requires the use of only one bit.
Inserted easier.
Increased holding power.
Centralized point.
Is cold forged, and entire surface has a metallic skin.

Samples Sent on Application.

Patented Nov. 11, 1890, Oct. 20, 1891.

FLUTED TIRE BOLTS.

SEND FOR SAMPLES.

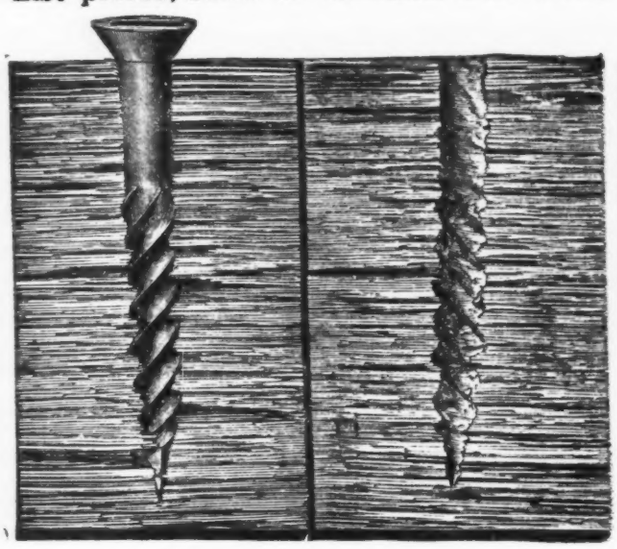
Cold Forged Coach Screws.

Patented May 10, July 19, '87; Oct. 29, '89; Aug. 19, Oct. 21, '90; Apr. 7, '91.

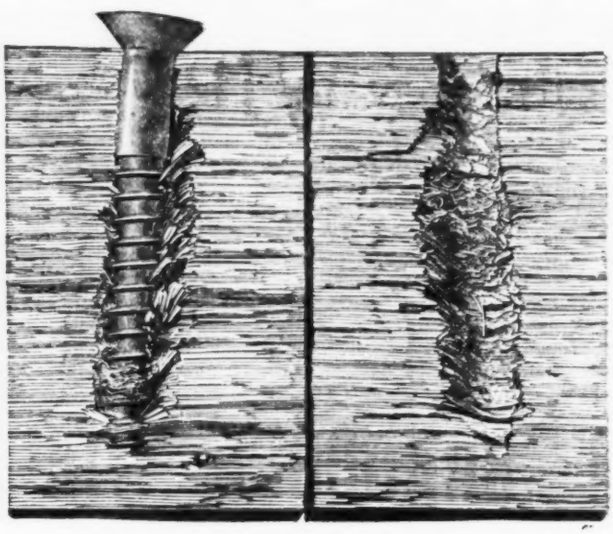
"ROGERS' DRIVE SCREWS."

Patented May 10, 1887; July 19, 1887; July 10, 1888. Other patents pending.

List prices, same as common iron wood screws. Discount for Flat Heads, 82½%



THE "ROGERS DRIVE SCREW,"
Driven with a hammer its entire length.



A COMMON CUT THREAD SCREW,
As ordinarily inserted, *i. e.*, driven two-thirds of its length with a hammer and the balance with a screw-driver. Fibres of the wood are necessarily broken, and holding power of screw much impaired.

Should be driven with a hammer its entire length.

1. Turns like a screw when driven with a hammer.
2. Holds stronger than a common screw as ordinarily inserted.
3. Does not break the fibres of the wood.
4. Cheaper than a common screw.
5. Is cold forged and has metallic skin over entire surface.

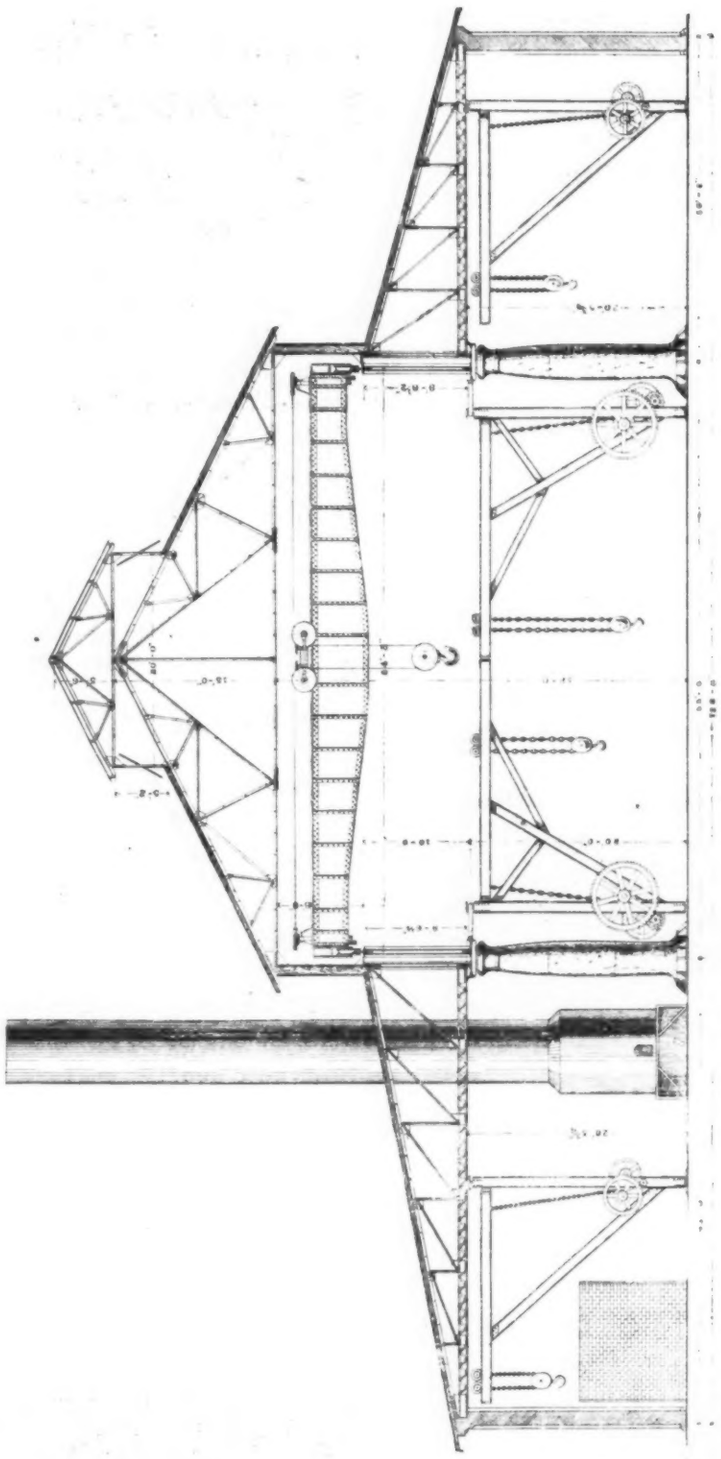
A Treatise on Fuel. By ARTHUR V. ABBOTT, C.E. Founded on the original treatise of C. Wm. Siemens, D.C.L. Illustrated, 132 pages, cloth, boards.....$0.50

For Sale by David Williams, 96-102 Reade St., N. Y

THE BERLIN IRON BRIDGE CO.,

Engineers, Architects and Builders in Iron.



The above illustration is taken direct from a drawing, and shows in cross section a Foundry Building designed and built by us for The Farrel Foundry & Machine Co., at Ansonia, Conn. The general dimensions are shown in the cut. The central portion is controlled by a 50-ton hydraulic crane, with a travel the full length of the Foundry. The wings are controlled by jib cranes, and there are also jib cranes in the central portion so arranged as to deliver from the traveling crane to the smaller jib cranes in the wings of the building.

and are prepared to make

PROMPT DELIVERIES AND LOW PRICES,

Depending upon sizes, quantity and quality needed.

ALSO THE CELEBRATED

COLD ROLLED SHEET AND STRIP STEEL

FOR PRESSED, STAMPED AND DRAWN WORK, ETC.

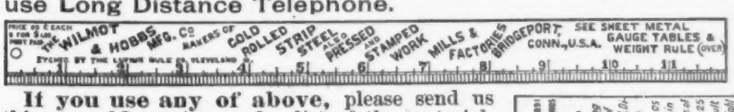
COLD ROLLING MILL.

UNEXCELLED BECAUSE OF ITS

SMOOTHNESS OF SURFACE,
ACCURACY OF GAUGE,
GENERAL UNIFORMITY,
GREAT DUCTILITY,
FREEDOM FROM GRIT.

Furnished in any width, ½ inch to 12 inches, and in lengths of 3 inches to 300 feet, also any degree of stiffness and quality of surface.

The Eastern Trade will find these Hot and Cold Rolling Mills extremely convenient, as they will not be subject to the long delays in transportation, etc., incidental to dealing with Western Mills, and Accuracy of Gauge and Width and Uniformity of Quality will always be maintained at the **Highest Standard of Excellence.** When in a hurry use Long Distance Telephone.



STEEL RULES

GIVEN AWAY.

If you use any of above, please send us this page of IRON AGE and a list of the material, mentioning size, quantity, quality generally ordered, and we will **MAIL A RULE FREE.**

WHEN: Business hints for business men in business hours. Bound in attractive pamphlet form, with superior quality of paper and print. Price 25c. This little book, comprising a series of business maxims the result of wide experience and observation, should be read by every business man or clerk and all those engaged in commerce or trade. Successful merchants will here recognize, in condensed form, the principles upon which their prosperity has been based, and will find reminders and pointers which cannot fail to be an invaluable aid. Clerks, Tradesman, and those who have yet their way to pave, will find the essential facts which govern all permanent success, many of which to him are either unknown or not fully appreciated. Each paragraph is introduced by the title word WHEN. Sent, post-paid, on receipt of price by DAVID WILLIAMS, Publisher, 96-102 Reade St., New York.

Chemical Analysis of Iron.

A Complete Account of all the Best Known Methods for the

Analysis of Iron, Steel, Pig Iron, Iron Ore, Limestone, Slag, Clay, Sand, Coal, Coke, and Furnace and Producer Gases.

SECOND EDITION.

—BY—

ANDREW ALEXANDER BLAIR,

Graduate United States Naval Academy, 1866; Chief Chemist United States Board appointed to Test Iron, Steel and other Metals, 1875; Chief Chemist United States Geological Survey and Tenth Census, 1880; Member American Philosophical Society, etc.

Handsomely Illustrated by 120 Outline Engravings on Wood. 8vo. 314 Pages. Half Morocco. $4.00.

The reputation which this book has so quickly won for itself among analytical chemists will certainly be increased by the improvements in the second edition. Every means has been taken to bring it up fully to the times, by incorporating all the new and improved methods, necessitating the addition of thirty pages of letterpress and nine new cuts.

"This work may, in fine, be pronounced a useful summary of a special and important department of analytical chemistry by an author of prolonged and wide practical experience."—*Chemical News*, London.

"Mr. Blair's is a standard work which will prove the chief guide of the young chemist, and a frequent guide to more experienced analysts."—*The Iron Age* New York.

"All iron chemists will find this book an excedingly useful laboratory companion."—*The Chemical Review*, London.

"It is thorough, accurate, and so complete, as to be practically exhaustive of the important subject of which it treats."—*Philadelphia Iron.*

Analysis of Ores of Iron Pig and Manufactured Iron, Steels, Limestone, Clays, Slags and Coal for Practical Metallurgical Purposes.

339 Walnut St., Philadelphia.

With Branch at Warrenton, Virginia.

J. BLODGET BRITTON.

This laboratory was established in 1866, at the instance of a number of practical Iron Masters, expressly to afford prompt and reliable information upon the chemical composition of the substances above mentioned, for smelting and refining purposes, the object being to make it at once a convenient, practically useful, and comparatively inexpensive adjunct to the Furnace, Forge and Rolling Mill.

M. V. SMITH & CO.,

METALLURGICAL

ENGINEERS and CONTRACTORS.

TIMES BUILDING, ROOM 706,

PITTSBURGH, PA.

We are prepared to enter into contracts for the construction of Rolling Mills and Steel Works complete (or any part thereof), Regenerative Furnaces, Reverberatory Furnaces and Artificial Gas Producers; also for Glass Melting Furnaces, Leers, Kilns and Annealing Furnaces, and Glass Works complete; also for the treatment of silver, zinc, copper, lead and tin.

We guarantee to place all work done by us in successful operation before payment is required.

The construction of Artificial Gas Plants is a special feature of our business.

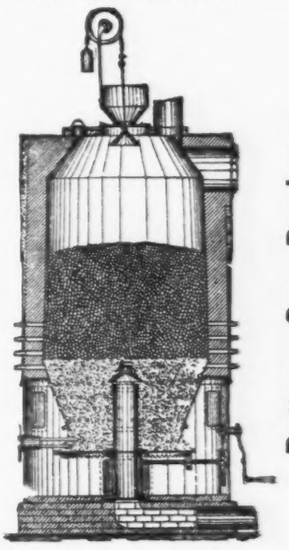
Fire Brick Stoves,

Designs and Estimates for the construction of Blast Furnace Work, and for all kinds of Hot Blast Fire Brick or Pipe Stoves; and all other kinds of Brick Work pertaining to Steel Plants, Iron, Brick or Wooden Buildings, all kinds of Iron Construction in general.

☞ ***We propose to put into successful operation all the plants we design and contract for.***

PATENTED MARCH 19TH, 1889.

The Taylor Revolving



Bottom Gas Producer.

The best Producer for either Bituminous or Anthracite Coal or Lignite: absolutely continous in operation, as the fire is cleaned without stopping the flow of gas. Less labor required and less waste than in any other producer. Producer Gas for firing Lime, Brick and Pottery Kilns, Sugar House Char Kilns, Boilers, etc., etc.; also applicable to all regenerative furnaces. For illustrated descriptive pamphlet and all particulars address

R. D. WOOD & CO.,

400 Chestnut St., PHILADELPHIA, PA.

Systematic Mineralogy, based on a natural classification, with a general introduction. By T. STERRY HUNT, M.A., LL.D. The author's aim is to reconcile the rival and hitherto opposed chemical and natural historical methods in mineralogy, showing that when rightly understood, chemical and physical characters are really dependent on each other and present two aspects of the same problem, which can be solved only by the consideration of both. He has devised and adopted a Latin momenclature and arranged the mineral kingdom in classes, orders, genera and species, the designations of the latter being binomical. 391 pages, cloth.....$5.00

GRAPHITE PAINT!

TO DEALERS:—That Graphite Paint is the best protecting covering for exposed surfaces whether metal or wood is becoming more surely known and demonstrated every day. No matter what the exposure may be, whether heat, brine, acid or ordinary weather conditions, nothing will resist and protect as Graphite (Plumbago) will. **BUT IT MUST BE PURE.** We have our own Graphite mine, the celebrated Plombagina mine, Sonora, Mexico, and are the only manufacturers that can guarantee absolute purity, and this we do unqualifiedly. Our paint is used in every section of this country, and has become well and favorably known. It is already handled by many dealers, but having established its supremacy, and having a multitude of testimonials from our customers we want it on sale in **EVERY CITY IN THE COUNTRY**, so that users of this material may not be delayed by sending to us for it. If no more than one pail, we want you to have that pail, and sell it to your most critical customer, on our positive guarantee that it will outspread and outlast any paint in the market under any and all conditions. And further, that owing to its great spreading quality, the expense in using it will be as low as the cheapest mineral paint. **WRITE US FOR PARTICULARS AND PRICES. WE WILL PUT YOU ON A PROFITABLE BASIS, AND ADD TO YOUR STOCK AN ARTICLE THAT WILL PLEASE YOUR TRADE.**

STEAM PLANTS.— Before purchasing any **FEED WATER HEATER and PURIFIER**, or deciding upon the adoption of any **System of Steam Heating**, kindly send us postal, and we will send one of our representatives, at our expense, to call upon you personally, in order to explain advantages which we guarantee over all others.

WEBSTER'S "VACUUM" FEED WATER HEATER AND PURIFIER.

Sizes from 30 to 2,500 horse-power carried in stock. Over 125,000 horse-power in daily use in the largest steam plants in the United States. *Send for Catalogue.* **CARDINAL POINTS.**—Highest temperature, purest feed water upon least quantity of exhaust steam, free exhaust to atmosphere, between engine and heater.

"WILLIAMES' VACUUM SYSTEM OF STEAM HEATING."

Without Back Pressure upon the Engine Guaranteed.—*Patent sustained in two Suits in the United States Circuit Court.* Adopted by 300 of the largest Factories, Mills, Electric Light Companies, Market Houses, Office Buildings, Schools, Theatres, Churches and Railroad Stations. *Send for Catalogue.*
ADVANTAGES.—Free exhaust to atmosphere, relief of back pressure, saving power, water of condensation, increasing efficiency of heating system, saving from 10 to 40 per ct. of fuel. Exact percentage can be determined after making examination of steam plant.—**ALL INFRINGERS WILL BE PROSECUTED.**

Can be attached to any steam plant. Furnished upon trial under guarantee. WARREN WEBSTER & CO., Main Office & Works, 491 N. 3d St., Philad'a.

FACTORY ACCOUNTS.

By GARCKE and FELLS.

A handbook for accountants and manufacturers on the principles which regulate factory accounts and the methods by which these principles can be put into practice and made to serve their proper purposes in the economy of manufacture. Beginning with the development of the factory system, this book is a general treatise on the subject, including organization, management, cost, profit and loss, &c. The table of contents shows several hundred heads or topics treated, besides which are several appendices; among them that on the "Nomenclature of Machine Details" will be found of special interest. A "Glossary of Terms" and an index of 20 pages are aids which render the book still more available to the ordinary reader. It contains 51 specimens or models for books of account.

240 pages; 6 x 8¾ inches; cloth, - - - - $2.80.

THE WORLD'S CHAMPION

New Upright Self Feed

1891 Pattern $10 Post Drill.

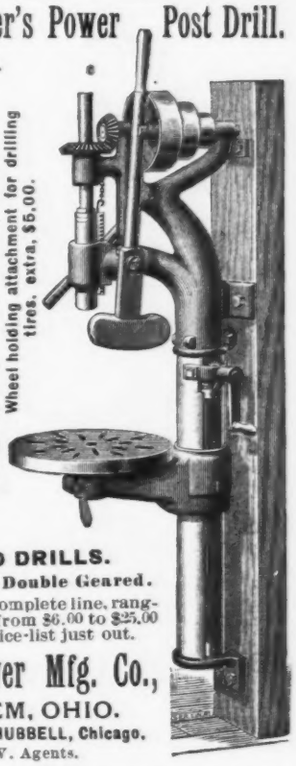
This Drill is Double Back Geared, can be changed from slow to fast speed, weighs 120 pounds, drills from ⅛ to 1¼ inch hole, and to center of 14½-inch circle, designed for general blacksmith work. The diameter of the spindle is 1⅛ inch, length 13 inches, the screw having a run up and down of 4 inches. The crank can be shifted from shaft A to shaft B (or balance wheel shaft), thus increasing the power two and one-half times for heavy work. Shaft A for lighter work and faster speed. The change can be made in an instant from fast to slow speed. This Drill is supplied with an improved Automatic Self-feed. The drill is mounted on a hardwood 2-inch plank, 50 inches long, 6 inches wide, and not backed up by an extra addition of wood in order to increase the swing, which is often done to save iron and thus weakens the drill where it should be the strongest. The Drill is warranted in every respect and has the words cast thereon, "Every Drill Warranted." The spindle is bored to take ½-inch straight shank drills, but if specially ordered will be bored to take in ⅝ or 41-64, without extra charge.

CHAMPION BLOWER & FORGE CO.

LANCASTER, PA., U.A.S.

Silver's Power Post Drill.

FIG. 727.



Has CUT GEARS, and is a thoroughly first-class tool in all respects. Dia. Column, 4½ in.; Dia. Spindle, 1 3-16 in., and bored No. 2 Morse Taper; Vertical Travel, 6 in.; Drills to centre 19 in. circle.

Weight, 325 lbs.; Price, $60.00.

Wheel holding attachment for drilling tires, extra, $5.00.

HAND DRILLS.

Single and Double Geared.

Large and complete line, ranging in price from $6.00 to $25.00 list. New price-list just out.

—ON—

FOUNDRY PRACTICE.

West.—American Foundry Practice. Treating of loam, dry sand and green sand molding, and containing a practical treatise upon the management of cupolas and the melting of iron. By THOMAS D. WEST, practical iron molder and foundry foreman. Fully illustrated. Eighth edition, revised. 408 pages; cloth..... $2.50

West.—Molder's Text Book, being Part II of American Foundry Practice. A practical treatise on molding, discussing the question of economy in casting and the arrangement of a foundry in regard to rapid work. Treating of cupolas, methods of firing, best means of securing perfect and sound castings, &c., being a continuation of Vol. I on this subject, and dealing with a class of work requiring more skill and greater care. By THOMAS D. WEST. With numerous illustrations. Fifth edition. 461 pages; cloth $2.50

Mullin. — Modern Molding and Pattern Making. A practical treatise upon pattern shop and foundry work. By JOSEPH P. MULLIN, M. E.; 257 pages; cloth; illustrated..... $2.50

Rose.—The Pattern Maker's Assistant. Embracing lathe work, branch work, core work, sweep work and practical gear constructions, the preparation and use of tools, together with a large collection of useful and valuable tables. Sixth edition. By JOSHUA ROSE, M. E.; illustrated with 250 engravings; 324 pages; cloth..... $2.50

Wylie.—Iron and Steel Founding. Illustrated with 30 diagrams. By C. WYLIE. Second edition, revised and enlarged; 324 pages, 8vo, cloth..... $2

Macfarlane.—Practical Notes on Pipe Founding. With 15 folding plates. By JAS. W. MACFARLANE. 8vo, cloth..... $4

Practical Iron Founding. A condensed account of the principles and practice of iron founding, both for the student and for the practical man, with principles stated and explained, and including the most recent practice, particularly as it relates to the two branches of machine molding and the melting of iron. Cloth, illustrated with over 100 engravings. $1.50

Larkin.—The Practical Brass and Iron Founders' Guide. A concise treatise on brass founding, molding, the metals and their alloys &c., to which are added recent improvements in the manufacture of iron, steel by the Bessemer process, &c. By JAMES LARKIN; fifth edition, revised, with extensive additions; 301 pages; cloth. $2.25

Kirk.—Founding of Metals. A treatise on the melting of iron, with a description of the founding of alloys, also of all the metal and mineral substances used in the art of founding. Collected from original sources. A practical guide for the construction and management of foundry cupolas and furnaces. Fifth edition. By EDWARD KIRK; 272 pages; cloth. ..$2.50

Graham.—Brass Founders' Manual. London (Weale's series). By WALTER GRAHAM; limp cloth..... $0.80

ELECTRICITY

IN THEORY AND PRACTICE,

—OR THE—

ELEMENTS OF ELECTRICAL ENGINEERING.

By LIEUT. BRADLEY A. FISKE, U. S. N.

270 8vo PAGES. 180 ILLUSTRATIONS.

$2.50 —PRICE— **$2.50**

This Book commends itself to Electricians and the Students of Electricity, because it aims to form a bridge between the many works written on the theory of electricity and the many works written on its practical applications.

TABLE OF CONTENTS:

CHAPTER.

I. MAGNETISM.
II. FRICTIONAL ELECTRICITY.
III. WORK AND POTENTIAL.
IV. VOLTAIC BATTERIES.
V. LAWS OF CURRENTS.
VI. SECONDARY or STORAGE BATTERIES
VII. THERMO-ELECTRIC BATTERIES.
VIII. ELECTRO-MAGNETISM.
IX. INDUCTION-CURRENTS.
X. ELECTRICAL MEASUREMENTS.
XI. TELEGRAPHY.
XII. THE TELEPHONE.
XIII. ELECTRIC LIGHT.
XIV. ELECTRIC MACHINES.
XV. ELECTRO MOTORS.
XVI. ELECTRIC DISTRIBUTION of POWER
XVII. METERS.
XVIII. ELECTRIC RAILWAYS.

HAVE YOU EVER HEARD OF

THE WONDERFUL FORSTNER AUCER BIT?

If not, it will pay you to send for a sample 4-8 bit and price-list. Sent on receipt of 55 cents. It will bore Round, Oval and square Holes, and can not be equaled for fine carpentry cabinet or pattern work. Discount to dealers on application. FOR SALE BY ALL HARDWARE DEALERS.

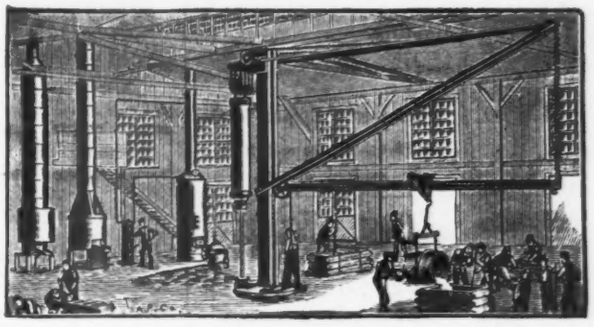
THE BRIDGEPORT GUN IMPLEMENT CO.,

Depot for Sales. 313 and 315 Broadway, New York.

THE Balanced "Steam-Hydraulic" Crane.

Blast Furnace Managers Mark This.

We are making lots of these Cranes for handling cinder, and we have never yet supplied a Crane that did not **SAVE IN ACTUAL WAGES $900 PER YEAR,** and very often twice that This equals a **CASH DIVIDEND OF 5 PER CENT. ON $18,000.** Not only does it make this saving in wages, but the cinder bank becomes a more desirable place to work, and there is no longer trouble in getting good men to work there.



Cut shows 5-ton Ridgway Crane in Foundry, Diamond State Iron Co., Wilmington, Del.

THE GREATEST FOUNDRY CRANE KNOWN.

Rolling Mill Managers Mark This.

We are furnishing these Cranes to the best mills in the land, and everybody who gets them say they save their cost in a few months. One man does the work of a dozen, and does it quick. Look at this card next week and see the list of mills using these Cranes.

In these days of **CLOSE PRICES** no concern can afford to throw money away in wages for slow hand-work, when a very little bit of steam can be so cheaply, so easily and so safely harnessed to do the work as in this wonderful Crane.

MARK THIS TOO.—We will any time furnish these Cranes free of all cost to you, and take for our pay one-half what they save you in actual wages.

The most successful, largest and wide-awake concerns in the land are putting in these Cranes. You must do likewise, if you expect to compete with them.

ELEVATORS.—We also build Elevators on this Steam-Hydraulic principle. They are the best Elevators made; never get out of order, and highly efficient. Send for Circulars.

CRAIG RIDGWAY & SON, COATESVILLE, PA.

THE WOODRUFF SYSTEM OF KEYING FOR MACHINERY

Does not require skilled labor to cut key way or fit key.

The peculiar way of inserting the key practically makes it part of the shaft.

A man will fit more than double the number of keys in a day than by the ordinary method.

Will save you from 50 to 75 % on the cost of your keying.

ENDORSED BY MECHANICS AND ENGINEERS.

Illustrated pamphlet containing a full description will be sent free on application.

THE WOODRUFF MFG. CO., Hartford, Conn.

IS THE STOVE PIPE UP,

And was the circumnambient atmosphere of a cerulean tint during the progress of this May day occupation? Has grim visaged war smothered his ruffled front? Then let us talk about **Bonnell's Nubian Iron Enamels,** the best blacks on earth or any place else; made in all grades from cheap dipping and boiler paint to high grade Bicycle, Electric and Railway blacks and every gallon guaranteed to suit the buyer or no pay. If you have been worrying along with ordinary asphaltum then you will appreciate **Nubian.** It's far superior, just as cheap and guaranteed.

HALL & CARPENTER, Phila., Pa.
BROWN, McCLURE & WALES, Boston, Mass.

SPECIAL TO MANUFACTURERS!!

Beautiful factory site in Buffalo, the City of Destiny, near all shipping stations. 170 x 900 feet; N. Y. C. R. R. switch full length of property. I will advance one-half money necessary for erection of permanent buildings.

E. G. FELTHOUSEN, Room 42,
534 Main St., Buffalo, N. Y.

—: A :—
MANUFACTURING PROPERTY.

Splendidly located in a thriving Western City, lying adjoining main line of prominent railway. Every convenience of receiving and shipping over five railways; favorable freights, and floor space exceeding 100,000 feet, sufficient extra land for additions. Running full with capacity of 150 H.-P. Would sell the whole with a business well-established for many years, or would form an association with good party for the manufacture of goods adapted more to spring and summer trade, the opposite of present output of fall and winter goods. We consider this an opportunity rarely offered. Would take half interest in a satisfactory connection with agricultural goods or similar class. Good reasons will be given for making this proposition. This party would be pleased to share the management of the business with an equal partner or retire the whole care of it if the association proves satisfactory.

"X. O. F.,"
office of *The Iron Age*, 96-102 Reade St., N. Y.

AUGER AND BIT FACTORY FOR SALE.

We offer for sale at a very low price our manufacturing business, located in the beautiful and growing village of Centerbrook, in the town of Essex, State of Connecticut. It has one of the best water-powers in the State. Good buildings, well fitted-up with special tools and machines for making Jennings' Bits, Expansive Bits and all other wood boring tools. With a capacity for employing from 50 to 75 men.

CONN. VALLEY MFG. CO.,
Centerbrook, Conn.

TO MANUFACTURERS.

The owner of a valuable Rolling Mill property could spare about 200 square feet of land with water power, and would lease or make other arrangements with suitable parties for its occupancy. The location, within 40 miles of Philadelphia, is in all respects a desirable one; population about 4000, from which an unusually intelligent class of labor could be secured.

For further particulars address

"K. C.,"
Box 1086,
Philadelphia, Pa.

A NEW COAL FIELD AND TIMBER DISTRICT.

The **OHIO EXTENSION** of the **NORFOLK & WESTERN RAILROAD** penetrates one of the most valuable coal and timber districts in the United States. The line of this extension is 193 miles in length, from Coal Grove, Ohio, via Kenova, W. Va., to Elkhorn, W. Va., of which 54 miles, to Dunlow, W. Va., is now opened for business and the entire line is under construction and will be completed early in the fall of 1892. It passes through virgin country abounding in gas, splint, cannel, steam, coking, and domestic coals and fire-clay; chestnut-oak, white-oak, beech and poplar timber. Those looking for advantageous sites for the location of saw-mills or tanneries and establishments for the manufacture of furniture, wagons, agricultural implements, wood-pulp, fire-brick, or manufactured iron articles, should investigate the resources of this new field. The new town of Kenova, W. Va., offers many advantages for the location of manufacturing establishments, also the territory opened up by the Norfolk & Western Railroad on the north bank of the Ohio River, between Kenova, W. Va., and Portsmouth, Ohio. For the manufacture of finished iron articles the district offers unequaled advantages, with supply of coal and Pocahontas coke on short hauls, and with the blast furnaces of the Ironton, Hanging Rock and Ashland district in close proximity. Favorable freight rates made upon raw materials to all manufacturing establishments on this line.

For further information as to freight rates, maps, names of parties to whom application should be made for coal leases, &c., apply to

JOHN J. ARCHER,
Div. Freight Agent, Columbus, O.
or CHAS. G. EDDY,
Vice-President, Roanoke, Va.

BRANFORD, CONN.,

With its beautiful harbor and its river, navigable for three miles, is one of the finest towns in the country to live in or to work in; special inducements will be offered by the Board of Trade to parties who contemplate establishing or relocating manufacturing plants; correspondence solicited.

CHARLES A. HOADLEY,
Corresponding Secretary.

MATTHEW GILL, JR.,
308 Walnut St., Philadelphia.

WANTED.

A modern first-class, second-hand Horizontal Engine, 40 to 60 H.-P., spot cash.

M. B. SCHENCK & CO.,
Meriden, Conn.

FOR SALE.

Sealed proposals will be received until noon of June 15, 1892, by W. F. Kyle, Manager for the Trustees of the Fieldhouse & Dutcher Mfg Co., 30 & 32 West Monroe St., Chicago, Ill., for the sale of the entire property of said Company, including accounts; or for the sale of the merchandise, machinery and fixtures, in whole or in part.

The amount of sales in 1890 and 1891, combined, exceeded $800,000. The business shows a considerable capital over liabilities.

The Trustees reserve the right to reject any or all proposals. The books, accounts, merchandise and other property will be exhibited to any responsible persons who may wish to submit proposals for purchase. Blank forms will be furnished for proposals. Proposals may be sent to Mr. W. F. Kyle at the above address, and will be forwarded to the Trustees at New York for acceptance or rejection by June 20.

The Trustees of
FIELDHOUSE & DUTCHER MFG. CO.

Lynchburg, Va.

FOR SALE.

A thoroughly well assorted stock of Shelf Hardware, House Furnishings, Stoves, &c., located in a growing and thriving Illinois town of 25,000 inhabitants; stock $8,000 to $10,000. The town is noted for its manufactures and is surrounded by the finest agricultural lands in the State. The business well established and thriving. Address "LIGHT," office of *The Iron Age*, 96-102 Reade St., N. Y.

THE CHICAGO, MILWAUKEE & St. Paul Railway Company desires to have the raw material on its 6150 miles of road in Illinois, Wisconsin, Northern Michigan, Iowa, Missouri, Minnesota, South Dakota and North Dakota utilized.

In addition to the vast agricultural resourses, its territory comprises Forests of Hard and Soft Wood, Mines of Iron and other Metals Coal and other Minerals, Quarries, Clays of all kinds, Tanbars, Flax and other products. Water-powers (both river and artesian) are also still available.

A number of new factories have been induced to locate—largely through the instrumentality of this Company—at enterprising towns on its lines.

As the interest of the Company is to secure the location of industries at places where the surroundings will insure their permanent success, the information furnished a particular industry is pertinent and reliable.

The people on the whole System are one live and thriving community of business men in whose midst it is safe and profitable to settle. Local capital is being largely invested in local factories, and taken as a whole, the country through which the road runs is commanding attention as the coming industrial territory of the United States. Solid Concerns, Manufacturers, large or small, who thoroughly understand their business are sought for at suitable points on the road.

Individuals or companies wishing to embark capital in Western industry can find a profitable field.

For particulars relative to industrial advantages on the line, address

LUIS JACKSON,
Industrial Commissioner,
C., M. & St. P. R'y, 160 Adams St., Chicago, Ill.

To Tube and Pipe Manufacturers and Capitalists.

The undersigned has invented machines and processes for making seamless tubes directly from molten steel, glass or fusible material of any kind. Has also invented machines and processes for making seamless tubes from billets or bars of steel or other granular metal. The machines, full working size, are all built, but the owner having insufficient means to complete the experiments in testing them, the cost of which ought not now to be large, desires the co-operation of some one who is looking for a chance to make money. Expert examination and investigation will prove the legitimacy and extensive value of the enterprise. I will treat only with principals who send me their full address and references as to financial standing. Address

Fluor-Spar.

ILLINOIS FLUOR-SPAR & LEAD CO.

SUCCESSORS TO

MULLIN'S

FLUOR-SPAR AND LEAD MINING CO.,

57 Board of Trade Building, Chicago, Ill.

This Company owns, at Mineral City, on the Ohio River, the largest Mines of Fluor-Spar ever discovered.

We are working a large force of miners; our new mills and tram railway are running, and we are now prepared to furnish the purest Fluor-Spar in any quantities to Iron and Steel Manufacturers, to Smelters of Gold, Silver and Copper, and to Paint, Paper and Glass Makers.

Fluor-Spar is pronounced the most powerful of fluxes; it facilitates the reduction of the most refractory materials. For Alkalies, Clays and all Metallic Oxides it has a remarkable solvent power; it reduces the melting point and saves fuel; it diminishes the loss of metal, saves labor and keeps the cupola clean; reacts strongly upon scaffolds and cloggings.

One part of Fluor-Spar is more effective than ten parts of Limestone. Limestone is an enemy to iron; Fluor-Spar is a friend.

Directions for the proper use of Fluor-Spar given our patrons.

We ship Lump, Gravel, Crushed and Ground, in bulk or barrel.

SITUATIONS WANTED

Undisplayed Advertisements for Situations Wanted not exceeding fifty words Fifty Cents each insertion. Additional words one cent each.

BY THOROUGHLY COMPETENT open-hearth Melter; five years' practical experience; desires to correspond with parties wishing to engage a capable man. Address "P. M.," office of *The Iron Age*, Room 509, Hamilton Building, Pittsburgh, Pa.

DAVID WILLIAMS,
Publisher and Bookseller,
96-102 Reade Street, New York.

IMPROVED EDITION OF THE IRON AGE

HARDWARE PRICE BOOKS.

Arranged by R. R. WILLIAMS, Hardware Editor of the Iron Age.

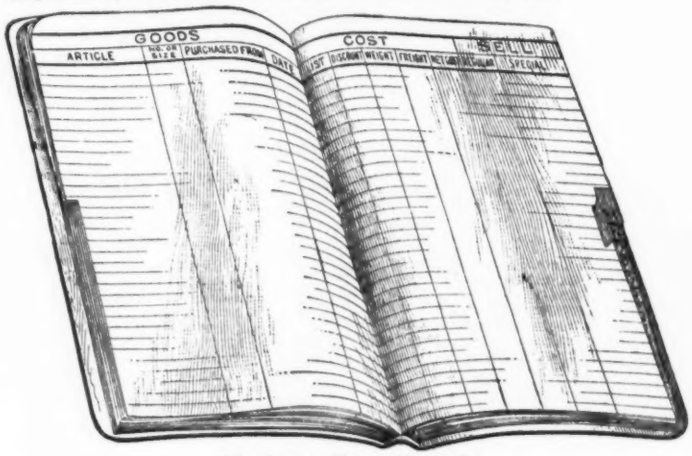
These Books are printed on paper of superior quality and bound in grain seal leather.

Columns are provided for the name and number or size, for noting from whom purchased, date of quotation or purchase, list and discount, and for entering freight expenses as an element of cost. Under the heading of selling prices, the regular and any special price or remarks in regard to the goods are given place. This book goes into considerable detail in describing the goods and cost prices. It has been arranged in accordance with the views of many Hardwaremen whose methods are careful and exact.

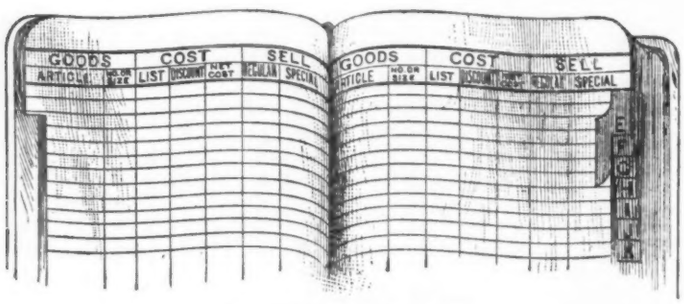
Size, 4 x 7 in.; grain seal leather.

FOUR EDITIONS:

A, 200 pages,	$1.00
A F, 200 pages with flap,	1.25
A 2, 400 pages,	1.50
A F 2, 400 pages with flap,	1.75



Hardware Price Book A.



Hardware Price Book B.

In this book each page is complete, and the record of prices does not, as in Book A, run across two pages. Thus it accommodates a larger range of goods with much less detail in the record. It is adapted for office or store use, and by the use of familiar abbreviations, sufficiently large for the convenient and concise record of prices.

Size, 4 x 7 in.; grain seal leather.

FOUR EDITIONS:

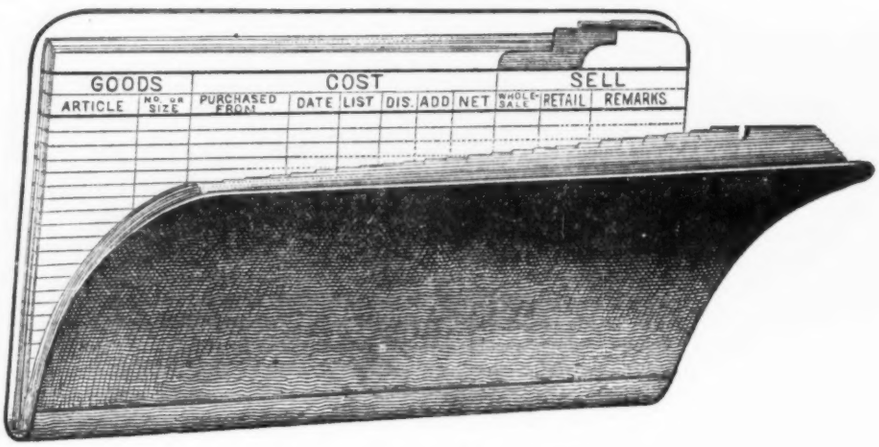
B, 200 pages	$1.00
B F, 200 pages with flap,	1.25
B 2, 400 pages,	1.50
B F 2, 400 pages with flap,	1.75

The headings in Book C run across the top, in a line parallel with the hinge. In this way a very complete record can be kept on a single page. The details of weight and freight contained in Book A are omitted, and a sing e column headed "Add" given for the insertion of freight or other expenses which it is desirable to include in the cost. Under the selling prices space is left for the wholesale price, the retail price, and also for any remarks in regard to cost of the goods, desirability of pushing them, or other matters.

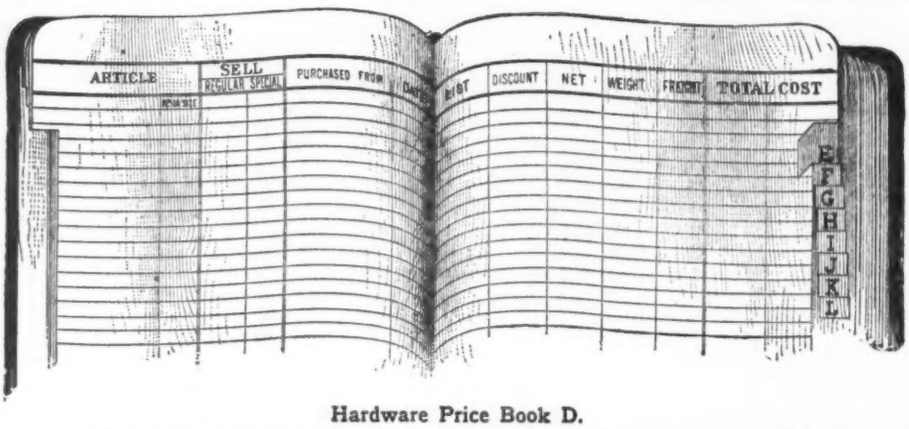
Size, 4½ x 7⅞ in.; grain seal leather.

FOUR EDITIONS.

C, 200 pages,	$1.00
C F, 200 pages with flap,	1.25
C 2, 400 pages,	1.50
C F 2, 400 pages with flap,	1.75



Hardware Price Book C.



Hardware Price Book D.

Price Book D will recommend itself particularly for desk and store use, and for salesmen on the road.

The name of the article, its number or size and the selling price are the first to meet the eye on the left-hand page, as embodying information desired when the selling price is required. The other headings follow in convenient order, by which a detailed memorandum regarding the goods may be kept, the whole being seen at a glance. A number of pages at the back of the book are arranged for memoranda, which will be found a great convenience. This arrangement is adapted to the requirements of the trade in this direction.

Size 5¼ x 8 in.; grain seal leather.

FOUR EDITIONS.

D, 200 pages,	$2.00	D 2, 400 pages.	$3.00
D F, 200 pages, with flap,	2.50	D F 2, 400 pages, with flap,	3.50

Sent, post-paid, on receipt of price by **DAVID WILLIAMS, Publisher, 96-102 Reade St., New York.**

BUFFALO BLACK-SMITH DRILLS

BUFFALO FORGE CO.,

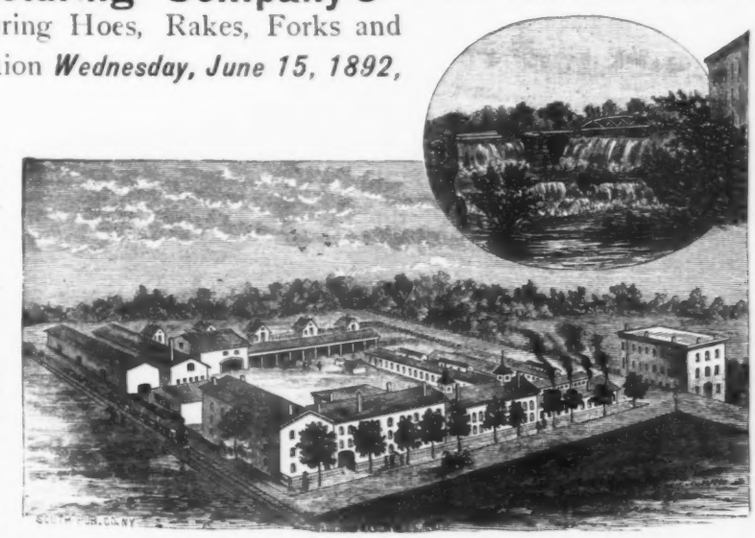
Philadelphia, Pa., 704 Arch St. Buffalo, N. Y.

Chicago, Ill., Room 1306 Auditorium Tower.

BUFFALO PUNCH AND SHEAR.

FOR SALE AT AUCTION.

The Auburn Manufacturing Company's Plant located at Auburn, N. Y., fully equipped for manufacturing Hoes, Rakes, Forks and Scythes, will be sold at public auction *Wednesday, June 15, 1892,* at two o'clock, on the premises.



The buildings surround a hollow square of several acres in extent, as shown in accompanying cut. The main buildings are substantially constructed of stone and brick, thoroughly equipped with fire extinguishing apparatus, and cover the entire frontage of the property, 350 feet.

It has magnificent water privileges, 300 Horse Power, supplemented by a modern Steam Plant of 250 Horse Power added in 1888, but scarcely used since then, as Water Power has been ample. Steam plant is in perfect condition.

The Plant is located on the line of the New York Central Railroad, as shown in cut, and but a few rods distant from Lehigh Valley Railroad, thus affording unequaled shipping facilities.

Auburn is a city of about 25,000 population, and has an excellent class of labor, recruited from the surrounding farming country.

Following the Sale of the Plant the Machinery and Personal Property will be sold. Description furnished on application.

Accurate map of the premises will be furnished on application.

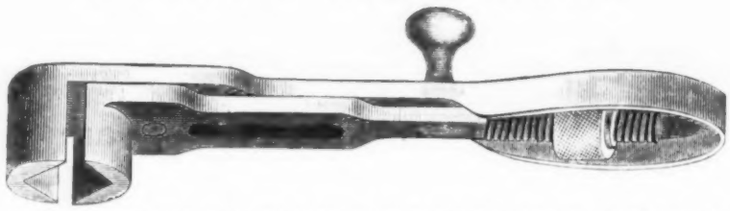
Price, each,	$4.00	$4.50	$5.00

ADJUSTABLE WAGON WRENCH.



Malleable Iron Wrench, adjustable from ¾ to 2 inches. By the aid of a spring the wrench takes hold of the nut with a tight grip, so that it cannot be shaken out. As seen in the cut, there is a knob on the back side which is used as a crank when the wrench is made fast to the nut.

Price per dozen..... $3.00

FOR DEALERS!

THE CELEBRATED

"PERFECTION"

Water Elevator and Purifying Pump.

The storage of water in cisterns and open wells is the method largely adopted throughout this country by the people for Drinking, Cooking and Bathing purposes. We have had an abundance of rainfall, all wells and cisterns are full, and such being the case we all know the water contained therein becomes FOUL and STAGNATED during the months of July, August and September. If you will place a "PERFECTION" PUMP on your well or cistern we GUARANTEE the water to become and remain as PURE as a MOUNTAIN STREAM. Try it and be convinced. It is the simplest structure for raising water on the Continent—guaranteed not to freeze.

The Perfection

Having no Valves, Tubes or Plungers to get out of order, no Wood Tubing to Pollute the water, no attachment below platform, never has to be primed, packed or thawed out. Guaranteed never to freeze; easiest pump operated. Over 140 000 in daily use.

We are now striping and decorating the "Perfection" in the finest manner possible.

Agents wanted in every town. Dealers write your jobbers for quotations. Be sure you get "The Perfection," take no other. For full information, circulars, catalogues, etc., address the manufacturers.

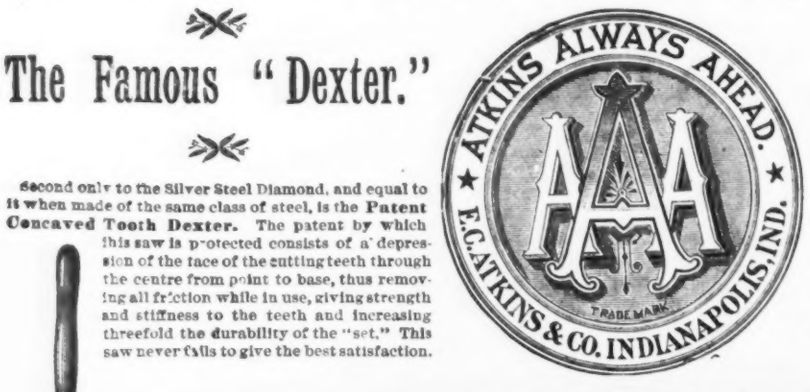
BOARDMAN & SON EAST HADDAM, CONN

E. C. ATKINS & CO., Indianapolis Indiana.

The Famous "Dexter."

Second only to the Silver Steel Diamond, and equal to it when made of the same class of steel, is the **Patent Concaved Tooth Dexter.** The patent by which this saw is protected consists of a depression of the face of the cutting teeth through the centre from point to base, thus removing all friction while in use, giving strength and stiffness to the teeth and increasing threefold the durability of the "set." This saw never fails to give the best satisfaction.



ATKINS'

Cross-Cut, Circular, Band and Gang

SAWS

Are Everywhere Recognized as the

Standard of Excellence.

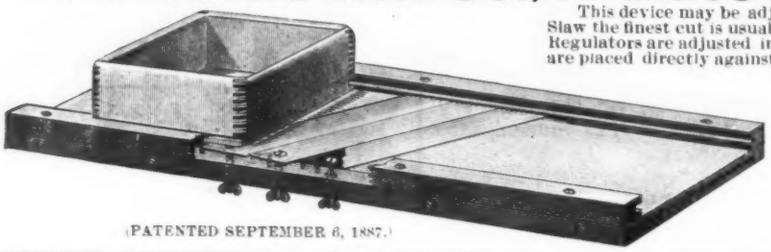
Western agency for Tanite Emery Wheel.

Ground substantially uniform gauge on the toothed edge, and any gauge required on the back.

PATENT ADJUSTABLE KNIFE KRAUT CUTTER.

MANUFACTURED BY

NATIONAL SAW CO., 96 and 98 Reade St., New York.



(PATENTED SEPTEMBER 6, 1887.)

This device may be adjusted to cut fine or coarse, as desired. For cutting Slaw the finest cut is usually the most desirable. To make the finest cut the Wire Regulators are adjusted in line with the Cutter, or in other words, these wires are placed directly against the back edge of the Cutters. To make the coarsest cut, the Regulators are turned until the leg comes against the side strip. If a medium cut is desired, the regulators are turned half way around: thus the desired cut may be obtained by the position of the Regulators. To change the position of the regulators, the bolts passing through the blades are first loosened, the regulators turned to the desired position and the bolts again tightened. To sharpen the blades, take out the retaining bolts, when the blades may be removed; after sharpening, the bolts are replaced, the Regulators adjusted to the desired cut and the bolts tightened.

THE RAVEN STOVE POLISH

Gives the results so long wished by stove manufacturers—namely, a **Jet Black Gloss** without the silver lustre that has always prevailed. We own our Graphite (Plumbago) mine in Sonora, Mexico. The celebrated Plombagina mine. Its product is a peculiarly black Graphite with high chemical purity. The graphite commonly used is lead color It makes our polishes **the best.**

All the large stove manufacturers are now using it.

DEALERS: Make your sample stoves attractive by using Raven Paste Polish, and sell our domestic packages to your trade.

Remember that a stove well blacked is half sold. Our claim is—the Cleanest, Blackest, and Glossiest in the world. Put up in Pails, Bottles, Boxes and Cakes. Correspondence invited.

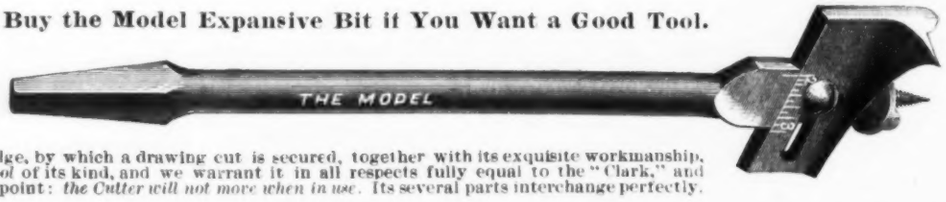
Representing Leading American Hardware Manufacturers.

Sole Agents for the "W. A. Ives Co." celebrated brand of Augers, Auger Bits, Expansive Bits and other Boring Tools.

Buy the Model Expansive Bit if You Want a Good Tool.



THE superior excellence of this tool consists in the peculiar seat in which the Cutter is placed. The manner in which it is fitted into its seat, in which it is so firmly held as to be absolutely immovable in use, the curve of its cutting edge, by which a drawing cut is secured, together with its exquisite workmanship, all combine to make it a *Model Tool* of its kind, and we warrant it in all respects fully equal to the "Clark," and decidedly better in one important point: *the Cutter will not move when in use.* Its several parts interchange perfectly.

THE BRAY FLY BOOK.

THE reputation of the BRAY FLY BOOK as the neatest and most practical Fly Book made is well established everywhere. The quickness and dispatch with which Flies of any size are placed within these books without coiling of the Snell or mutilation of the Fly makes its superiority over all other methods very easily recognized by all anglers. The Flies can be as readily detached when wanted. The leaves to which the Flies are attached will in the future be made of a new material of more durability and finish than before. The workmanship and material will be kept up to highest standard, and no effort will be spared to keep the BRAY FLY BOOK (as it now is) the BEST in the WORLD.

LIGHT YOUR DARK SHOPS CHEAPLY.

Give your men plenty of Light and they will do double work.

The Wall Torch has been used for several years as a means of illumination in **Mills, Foundries, Machine and Car Shops, Tunnels, Street Stands, Band Stands, Smith Shops,** etc.

While there are many cheap, inferior torches made which injure the sale of a good article, and condemn the **Torch** in general, our "Incandescent" Wall Torches are recognized as the best, and are now in use in the largest manufacturing establishments in the country giving **PERFECT SATISFACTION**, as is evidenced by the **DUPLICATE ORDERS** we receive from year to year.

They burn 150° Coal Oil, or 74° Naphtha, requiring a different burner for each.

In ordering be careful to state which is desired.

Price, for Single Torch, complete, $2 each.

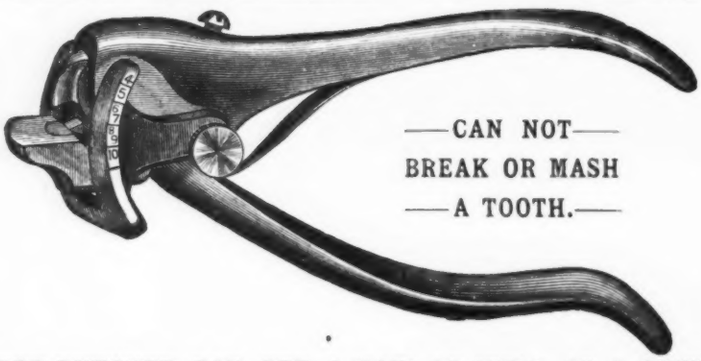
LLOYD ACME SAW SET.



—CAN NOT—
BREAK OR MASH
—A TOOTH.—

A WOOD-BUTCHER CAN SET A SAW AS WELL AS A SAWYER.

The Screw on the top of the Set prevents mashing the Tooth. The Gauge on the side assures the correct set, and the small Screw on the face of the Set gives the required bend to the tooth. All wearing parts are made of steel, strong and durable.

LIST: HAND SAW SETS, $15.00 PER DOZEN. CROSS CUT SAW SETS, $30.00 PER DOZEN.

NEW SEAMLESS TUBE

C.R.CO

WHO HAS NOT HAD BAD HOSE?

OLD LAPPED TUBE

Who has not lost time, patience, money, by attempting settlement for such goods? **THE CAUSE,** in nine cases out of ten, is the lapped seam.

THE REMEDY is in buying our

PATENTED SEAMLESS-TUBE HOSE,

made by machinery, the tube run like lead pipe, through a die. There is no lapped tube, no seam, no crack, no defects: water cannot get through to rot the duck and cause the hose to burst. Made in all sizes and kinds of Garden, Engine, Steam, Fire, Brewers', Cotton Hose, etc.

$50 for sample bale containing
100 feet Buckeye (Black).
100 " Shield High Grade (Blk).
100 " High Pressure (Red).
50 " Shamrock (Green)
50 " Old Gold (Yellow).
100 " Cotton, Rubber Lined.
With couplings attached.
Or bale will be made up as desired at proportionate prices.

Order Sample Bale of our Seamless-Tube Hose—Best in World. Costs no more than ordinary lapped-seam hose. The different colors, Red, White, Black, Green and Yellow, make a fine window or sidewalk attraction.

Wrought Steel Hollow Ware.

"Empire" Cold Handle Steel Spiders.

PATENTED.

The "Empire" Cold Handle Spiders are made from cold rolled wrought steel of the highest grade and finish, and are stamped from a SINGLE PIECE, and polished perfectly smooth and bright. The thickness of the steel of which the Empire Spiders are made (No. 14 Standard gauge) is a guarantee that they cannot break, bend or warp. An important feature also is that they are made without rivets, and cannot leak or the handles become loose.

The handle is reinforced in an attractive manner with a cover made of heavy tin, making a hollow ventilated handle which keeps always cool and comfortable to the hand.

The Empire SPIDERS will be found on inspection the most perfect ever made and cannot fail to give satisfaction. Our 1890 Catalogue of Patented Specialties, Acme Fry Pans, and Edgars' Patent Stove Shovels, mailed on application.

NOT IN YOUR LINE?

IF YOU DO NOT SELL IT YOU SHOULD USE IT.

THE PERFECT PENCIL POINTER.

Will save about one-half your pencil bill.
It is a practical machine, not a toy.
The only "Perfect" machine for the purpose
Does better work than can be done in any other way.
Does not break or waste the lead. Saves time.
Prevents soiling the hands. Any one can use it.

The above cut shows the Pointer attached to the edge of a table and shows how to take hold of the carriage in using. The pencil revolves as it is moved along on the surface of a file, which is especially made for the purpose. The entire simplicity of the whole machine makes it little liable to get out of order. By use of the clamps it can be instantly attached to desk or table, and as quickly removed, or can be used when held in the hand. The material and workmanship are the best and **EVERY MACHINE FULLY WARRANTED.**

H. S. OSGOOD, Supt. American Express Co., Portland, Me., says:

We have had one of your Pencil Pointers in use for several months, and it has done its work rapidly and well. We never saw a pencil sharpener before that would sharpen a pencil. Yours will do it every time and do it well.

SELLERSVILLE NATIONAL BANK, Sellersville, Pa.

It suits me and does all that you represent.

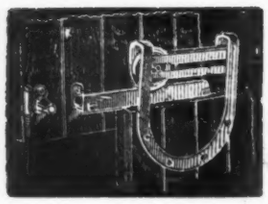
Lane's Measuring Faucet.



LANE'S PATENT STEEL DOOR HANGER.

The most perfect Anti-Friction Hanger in the Market, because

It is made of steel throughout, except the wheel, which has a steel axle. It will not break. It is practically free from wear. It is almost noiseless in action. It requires no oil. It has a broad bearing on the door, and keeps in line. It is by far the most durable. It may be used with any track. It is always in order. **LANE'S PATENT TRACK** is made of steel and is easily put in position. Catches and holds no snow or ice. Door hung thereon cannot jump the track. Is not subject to decay. Requires no fitting, but is ready at once. May be used with hangers of other manufacture. Send for circulars.

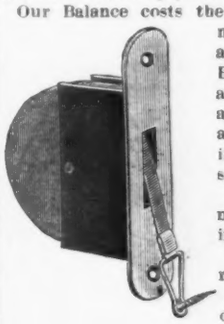
BRASS, GALVANIZED & SHIP CHANDLERY HARDWARE.

A Pronounced Success

BY LEADING ARCHITECTS.

This is not a Complicated Combination of Steel Ribbon, Pulleys, Attachments and Weights. Our Balance costs the consumer half the money and lasts twice as long. Requires no Box Frames. Can be applied to old as well as new windows, exactly counterbalancing the weight of the sash.



Steel Frame Aluminum Tape. Practically indestructible.

Every Balance warranted.

Ask for Pullman and don't confuse ours with imitations.

THE PULLMAN SASH BALANCE CO., Rochester, N. Y.

Perfection Sash Balance

Trade-Mark.

The only perfect device for balancing sash. Can be applied to any window frame and is particularly adapted for repair work as well as new buildings.

Each balance is fully warranted for ten years.

PERFECTION SASH BALANCE CO.,

ROCHESTER, N. Y.

"FISH" SASH LOCK.

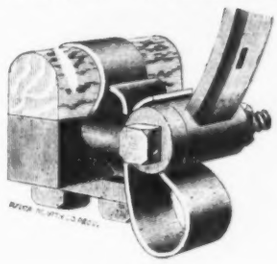
ADJUSTS ITSELF TO UNEVEN TRACK.

THE THILL COUPLING SPRING



MADE BY THE

SABIN MACHINE COMPANY, Montpelier, Vt.

Is unquestionably the BEST METAL SPRING made for the purpose of preventing the rattling of the Thills.

It is adapted to any coupling where rubbers are used. It does its work perfectly, and is so formed as not to wear the iron of the coupling, as it presents a flat, smooth surface to the bearing, and yet holds the shaft perfectly in place, and prevents all rattling.

It Outlasts many sets of rubbers and costs but a trifle more. It is easily adjusted. Made in four sizes, ⅞, 1, 1⅛ and 1¼ inch. Packed one dozen pairs in a box.

Send for Sample Dozen or Larger Quantities to

COMBINATION WRENCH.

Case-Hardened Throughout. Parts Interchangeable.

This wrench not only combines the superior qualities of a Gas Pipe Wrench but also all the requisite combinations of a regular Nut Wrench, thus making a combination which has no equal.

This Wrench can be Furnished with Long Nut or Sleeve.

No. 3 PIPE WRENCH.

The serrated jaws of the Wrench are interchangeable; that is, the same serrated plate may be used for either the stationary or sliding jaw, so that if one plate is broken another can be furnished adapted to either jaw without express designation. The slides, nuts and various parts are also interchangeable, thus easily repairing the Wrench at very small expense, and with as perfect practicability for further use as when the Wrench was new.

For Circulars and Price List, address

BEMIS & CALL HARDWARE & TOOL CO., Springfield, Mass., U. S. A.

TRIMO PIPE WRENCH,

Forged Steel.

All parts interchangeable.

Grips firmly without loss of motion, in close quarters. Releases its hold readily. Does not crush the pipe. Causes no trouble

Bradley Hammers

2000 IN USE.

FOR 20 YEARS these Hammers have been in the market, and during all that time have been acknowledged the very best. The material we use and our method of construction are the result of ripe experience, and not the jumped-at conclusions of amateurs. Send for circulars and price-lists.

BRADLEY & COMPANY,

SYRACUSE, N. Y.

Large Reduction in Prices.

FEBRUARY 15th.

A REVOLVER without a **LOADING GATE** is as useless all year round as a pair of **ICE CREEPERS** would be **IN JULY.**

BECAUSE all central fire cartridges are now made inside-lubricated, and will slip out of revolvers having no Loading Gate. All the X. L. Revolvers, both with Regular and Folding Hammers, have Loading Gates and Rebounding Locks.

We have largely increased our facilities for the manufacture of the X. L. Revolvers and H. & A. Automatic Ejecting Revolvers, and shall be able to fill all demands promptly this coming year. This is the best selling line ever put on the American market and retailers can double their money on these goods.

Our new illustrated catalogue, with reduced prices, will be ready on the 25th of February and will be sent upon request to any dealer.

HULBERT BROS. & CO,

Opposite Fifth Ave. Hotel, Formerly **MERWIN, HULBERT & CO.,**

WHEN.

Business Hints for Business Men in Business Hours. A series of practical hints and pointers of a business nature. By D. T. MALLETT. Pamphlet, 25 cents. Sent, postpaid, by **DAVID WILLIAMS, 96-102 Reade St., New York,**

The Art of Selling

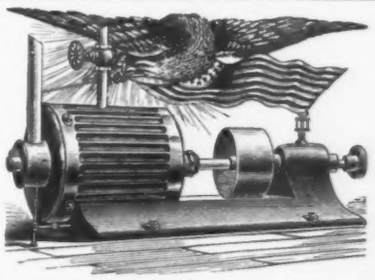
By F. B. GODDARD.

In this book the author lets the reader into the secrets of the accomplished and successful salesman, illustrates his tact and finesse and tells how he masters men. But beyond this, the work embraces much information which will be instructive and useful to all classes of business men, discusses fully the characteristic methods of conducting business to-day and makes an interesting application of character reading to the work of business negotiations.

Price, 50 Cents.

Sent, postpaid, on receipt of price, by

David Williams, 96-102 Reade St., N. Y.



AMERICAN HIGH SPEED ENGINE, built of any required size and power, for all stationary and marine purposes. Makes 1000 or more revolutions per minute. Has no dead centers. Unequaled regulation. No skilled engineer required! Cheap! Economical! Simple! Durable!

AMERICAN SCREW COMPANY

PROVIDENCE, R. I.

COLD FORGED PRODUCTS.

"Spur Pointed" Wood Screw.

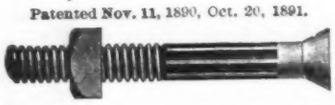
Patented May 10, July 19, 1887; Oct. 29, 1889; Aug. 19, Oct. 21, 1890; April 7, May 12, 1891.

ITS ADVANTAGES ARE:

Stronger than a cut screw.
Forged nick.
Requires the use of only one bit.
Inserted easier.
Increased holding power.
Centralized point.
Is cold forged, and entire surface has a metallic skin.

Samples Sent on Application.

Patented Nov. 11, 1890, Oct. 20, 1891.



FLUTED TIRE BOLTS.

SEND FOR SAMPLES.

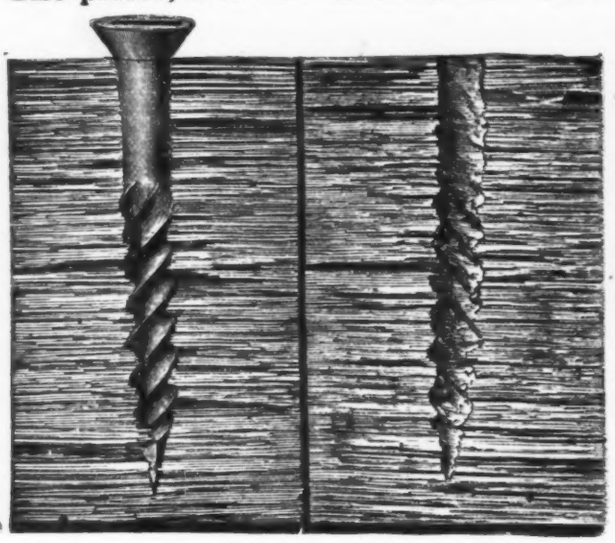
Cold Forged Coach Screws.

Patented May 10, July 19, '87; Oct. 29, '89; Aug. 19, Oct. 21, '90; Apr. 7, '91.

"ROGERS' DRIVE SCREWS."

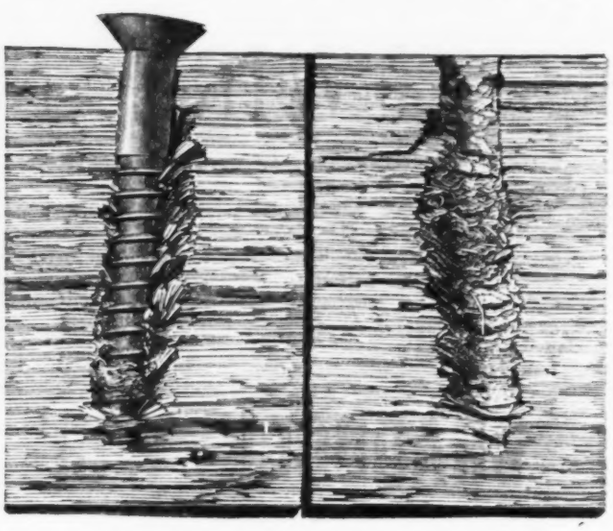
Patented May 10, 1887; July 19, 1887; July 10, 1888. Other patents pending.

List prices, same as common iron wood screws. Discount for Flat Heads, 82½%



THE "ROGERS DRIVE SCREW,"

Driven with a hammer its entire length.



A COMMON CUT THREAD SCREW,

As ordinarily inserted, *i. e.*, driven two-thirds of its length with a hammer and the balance with a screw-driver. Fibres of the wood are necessarily broken, and holding power of screw much impaired.

Should be driven with a hammer its entire length.

1. Turns like a screw when driven with a hammer.
2. Holds stronger than a common screw as ordinarily inserted.
3. Does not break the fibres of the wood.
4. Cheaper than a common screw.
5. Is cold forged and has metallic skin over entire surface.

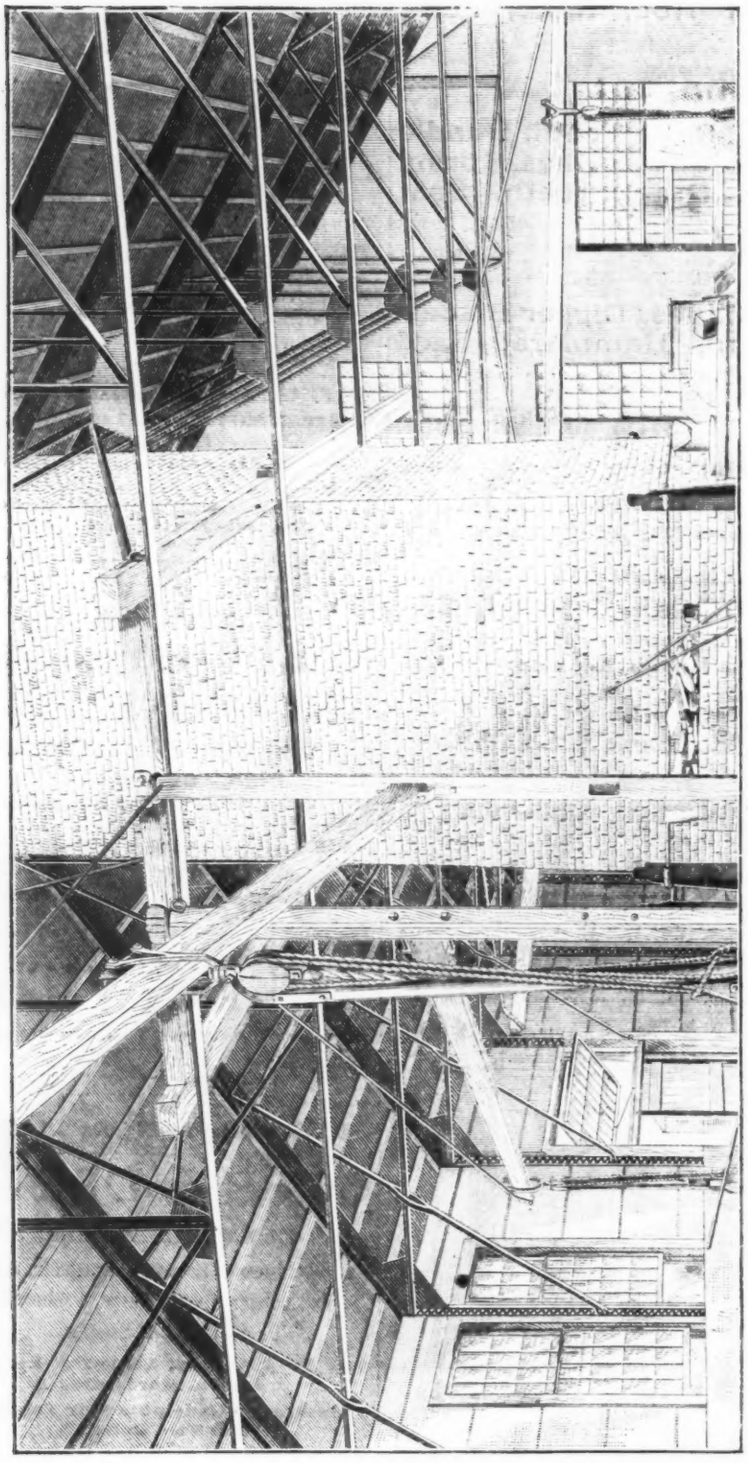
A Treatise on Fuel. By ARTHUR V. ABBOTT, C.E. Founded on the original treatise of C. Wm. Siemens, D.C.L. Illustrated, 132 pages, cloth. boards $0.50

For Sale by David Williams, 96-102 Reade St., N. Y

THE BERLIN IRON BRIDGE CO.,

Engineers, Architects and Builders in Iron.



The above illustration is taken direct from a photograph, and shows the interior construction of an Iron Casting Shop designed and built by us for The Waterbury Brass Co., at Waterbury, Conn. The building is 52 ft. in width by 110 ft. in length, and built entirely of iron; that is, iron sides and iron roof. The danger from fire in a brass casting shop is very great, and a construction of this kind eliminates this danger entirely.

Office and Works, No. 5 Railroad Avenue,

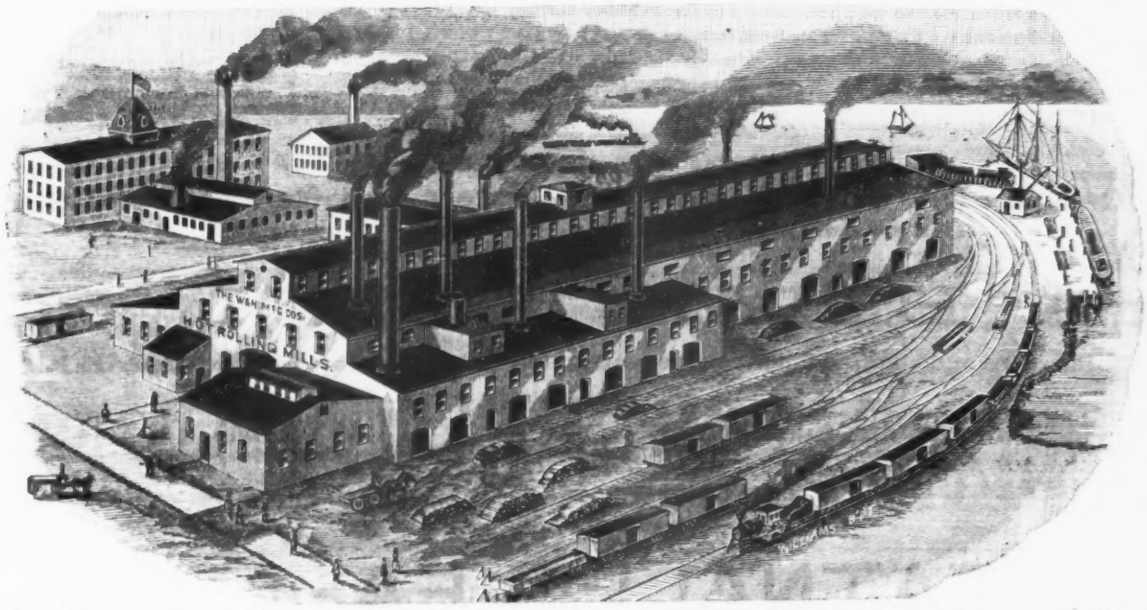
THE WILMOT & HOBBS M'F'G CO.

Largest Makers of Cold Rolled Sheet Steel in the World.

"SOFT" AND "EXTRA SOFT"

HOT ROLLED STEEL.



Having recently greatly increased our output by the purchase of the large plant of the Bridgeport Rolling Mill Co., shown in the above illustration,

WE ESPECIALLY SOLICIT ORDERS FOR

HOT ROLLED STRIP, PLATE AND BAR STEEL,

Also Special Shapes Rolled to Order,

and are prepared to make

PROMPT DELIVERIES AND LOW PRICES.

Depending upon sizes, quantity and quality needed.

ALSO THE CELEBRATED

COLD ROLLED SHEET AND STRIP STEEL

FOR PRESSED, STAMPED AND DRAWN WORK, ETC.

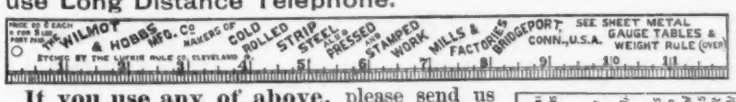
COLD ROLLING MILL.

UNEXCELLED BECAUSE OF ITS

SMOOTHNESS OF SURFACE,
ACCURACY OF GAUGE,
GENERAL UNIFORMITY,
GREAT DUCTILITY,
FREEDOM FROM GRIT.

Furnished in any width, ½ inch to 12 inches, and in lengths of 3 inches to 300 feet, also any degree of stiffness and quality of surface.

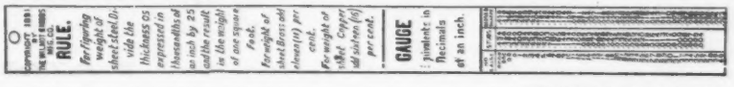
The Eastern Trade will find these Hot and Cold Rolling Mills extremely convenient, as they will not be subject to the long delays in transportation, etc., incidental to dealing with Western Mills, and Accuracy of Gauge and Width and Uniformity of Quality will always be maintained at the **Highest Standard of Excellence.** When in a hurry use Long Distance Telephone.



STEEL RULES

GIVEN AWAY.

If you use any of above, please send us this page of IRON AGE and a list of the material, mentioning size, quantity, quality generally ordered, and we will **MAIL A RULE FREE.**



BRIDGEPORT, - - - - - CONN.

1¼ HOURS' RIDE FROM GRAND CENTRAL DEPOT, NEW YORK CITY, VIA. N. Y., N. H. & H. R. R.

ESTABLISHED IN 1848. **SINGER, NIMICK & CO., Ltd.** PITTSBURGH, PA.

—MANUFACTURERS OF ALL KINDS OF—

Hammered and Rolled STEEL. Warranted Equal to any Produced.

HIGH GRADE SPECIAL Crucible Tool Cast Steel, for all purposes requiring the **very finest** quality.

Chemical Analysis of Iron.

A Complete Account of all the Best Known Methods for the

Analysis of Iron, Steel, Pig Iron, Iron Ore, Limestone, Slag, Clay, Sand, Coal, Coke, and Furnace and Producer Gases.

SECOND EDITION.

—BY—

ANDREW ALEXANDER BLAIR,

Graduate United States Naval Academy, 1866; Chief Chemist United States Board appointed to Test Iron, Steel and other Metals, 1875; Chief Chemist United States Geological Survey and Tenth Census, 1880; Member American Philosophical Society, etc.

Handsomely Illustrated by 120 Outline Engravings on Wood. 8vo. 314 Pages. Half Morocco. $4.00.

The reputation which this book has so quickly won for itself among analytical chemists will certainly be increased by the improvements in the second edition. Every means has been taken to bring it up fully to the times, by incorporating all the new and improved methods, necessitating the addition of thirty pages of letterpress and nine new cuts.

"This work may, in fine, be pronounced a useful summary of a special and important department of analytical chemistry by an author of prolonged and wide practical experience."—*Chemical News*, London.

"Mr. Blair's is a standard work which will prove the chief guide of the young chemist, and a frequent guide to more experienced analysts."—*The Iron Age* New York.

"All iron chemists will find this book an exceedingly useful laboratory companion."—*The Chemical Review*, London.

"It is thorough, accurate, and so complete, as to be practically exhaustive of the important subject of which it treats."—*Philadelphia Iron.*

GRAPHITE PAINT!

TO DEALERS:—That Graphite Paint is the best protecting covering for exposed surfaces whether metal or wood is becoming more surely known and demonstrated every day. No matter what the exposure may be, whether heat, brine, acid or ordinary weather conditions, nothing will resist and protect as Graphite (Plumbago) will. **BUT IT MUST BE PURE.** We have our own Graphite mine, the celebrated Plombagina mine, Sonora, Mexico, and are the only manufacturers that can guarantee absolute purity, and this we do unqualifiedly. Our paint is used in every section of this country, and has become well and favorably known. It is already handled by many dealers, but having established its supremacy, and having a multitude of testimonials from our customers, we want it on sale in **EVERY CITY IN THE COUNTRY,** so that users of this material may not be delayed by sending to us for it. If no more than one pail, we want you to have that pail, and sell it to your most critical customer, on our positive guarantee that it will outspread and outlast any paint in the market under any and all conditions. And further, that owing to its great spreading quality, the expense in using it will be as low as the cheapest mineral paint. **WRITE US FOR PARTICULARS AND PRICES. WE WILL PUT YOU ON A PROFITABLE BASIS, AND ADD TO YOUR STOCK AN ARTICLE THAT WILL PLEASE YOUR TRADE.**

STEAM PLANTS.—Before purchasing any **FEED WATER HEATER and PURIFIER**, or deciding upon the adoption of any **System of Steam Heating**, kindly send us postal, and we will send one of our representatives, at our expense, to call upon you personally, in order to explain advantages which we guarantee over all others.

WEBSTER'S "VACUUM" FEED WATER HEATER AND PURIFIER.

Sizes from 30 to 2,500 horse-power carried in stock. Over 125,000 horse-power in daily use in the largest steam plants in the United States. *Send for Catalogue.* **CARDINAL POINTS.**—Highest temperature, purest feed water upon least quantity of exhaust steam, free exhaust to atmosphere, between engine and heater.

"WILLIAMES' VACUUM SYSTEM OF STEAM HEATING."

Without Back Pressure upon the Engine Guaranteed.—*Patent sustained in two Suits in the United States Circuit Court.* Adopted by 300 of the largest Factories, Mills, Electric Light Companies, Market Houses, Office Buildings, Schools, Theatres, Churches and Railroad Stations. *Send for Catalogue.* **ADVANTAGES.**—Free exhaust to atmosphere, relief of back pressure, saving power, water of condensation, increasing efficiency of heating system, saving from 10 to 40 per ct. of fuel. Exact percentage can be determined after making examination of steam plant.—**ALL INFRINGERS WILL BE PROSECUTED.**

Can be attached to any steam plant. Furnished upon trial under guarantee. WARREN WEBSTER & CO., Main Office & Works, 491 N. 3d st., Philad'a.

What Paint Can Equal This?

Tin roofs painted with Dixon's Silica Graphite Paint nearly 20 years ago have not been repainted and the tin is as good to-day as when put on the roof.

Members of the Master House Painters' Association, speaking from their own experience, at their convention at Harrisburg, Pa., January, 1892, said that roofs painted with Graphite Paint would last 12 to 18 years.

Can we send you our circulars?

SPINNING LATHES Nos. 4, 5 and 6.

These Lathes are for spinning, burnishing, trimming and wiring such work as is produced by the Drawing Presses, where such spinning is necessary. They are also used for hand spinning from the flat and when intended for that purpose a T rest is provided, instead of the compound rest.

The Lathes are built in the most substantial manner, with hammered steel spindles, bronze metal boxes, and heavy compound slide rests. They are supplied either right or left handed as desired, and for either outside or inside spinning. Iron cones are supplied unless wood cones are specially ordered. The hardened steel burnishing roll is provided with anti-friction bearings to prevent heating.

By use of the tilting rest all but the largest articles can be spun, trimmed and wired at one setting. A countershaft, with tight and loose pulleys and cone, is provided with each lathe.

No. of Lathe.	No. 4	No. 5.	No. 6.
Price of lathe and countershaft, without compound rest, burnisher, trimming or wiring attachment	$125.00	$140.00	$260.00
Compound rest	100.00	125.00	150.00
Anti-friction burnisher	35.00	40.00	40.00
Trimming attachment	30.00	35.00	35.00
Wiring attachment	10.00	10.00	10.00
Tilting rest alone	25.00	25.00	30.00
Price complete as above	$325.00	$375.00	$525.00
Weight, about	850 lbs.	1,200 lbs.	3,000 lbs.
Length of bed	54 ins.	70 ins.	76 ins.
Swing over bed	20 ins.	22 ins.	30 ins.
Swing over rest	13 ins	15 ins.	21 ins.
Diameter of cones	5 7/8 & 10 ins.	6, 8 & 10 ins.	8, 11, 14, 17 ins.
Face of cones	2¼ ins	3 ins.	4 ins.
Diameter of T. and L. pulleys on countershaft	12 ins.	12 ins.	16 ins.
Width of T. and L. pulleys on countershaft	3 ins.	3 ins.	5 ins.
Speed of countershaft per minute	300 rev	250 rev.	200 rev.

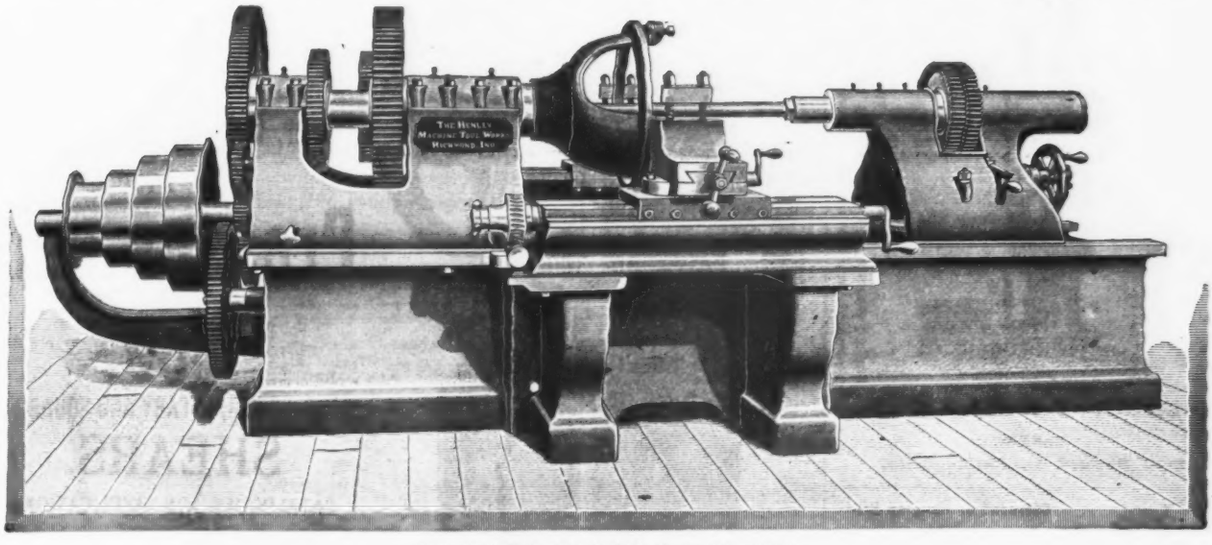
PULLEY LATHES



Patented Feb. 17, 1891; June 14, 1887.

This cut represents the 42-inch Lathe. The 60-inch Lathe is of same design, but much heavier throughout. The 30-inch Lathe is of same general construction, with the bed supported on feet at each end.

These Lathes are especially designed for Simultaneously Boring and Turning Pulleys, both straight and crowning face, Cone Pulleys, Gear Blanks, and a variety of other work.

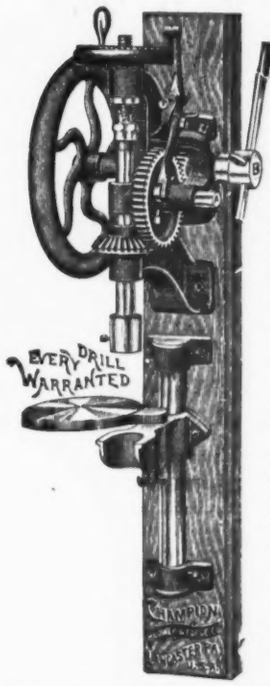
THE WORLD'S CHAMPION



New Upright Self Feed

1891 Pattern $10 Post Drill.

This Drill is Double Back Geared, can be changed from slow to fast speed, weighs 120 pounds, drills from ⅛ to 1¼ inch hole, and to center of 14½-inch circle, designed for general blacksmith work. The diameter of the spindle is 1⅛ inch, length 13 inches, the screw having a run up and down of 4 inches. The crank can be shifted from shaft A to shaft B (or balance wheel shaft), thus increasing the power two and one-half times for heavy work. Shaft A for lighter work and faster speed. The change can be made in an instant from fast to slow speed. This Drill is supplied with an improved Automatic Self-feed. The drill is mounted on a hardwood 2-inch plank, 50 inches long, 6 inches wide, and not backed up by an extra addition of wood in order to increase the swing, which is often done to save iron and thus weakens the drill where it should be the strongest. The Drill is warranted in every respect and has the words cast thereon, "Every Drill Warranted." The spindle is bored to take ½-inch straight shank drills, but if specially ordered will be bored to take in ⅝ or 41-64, without extra charge.

Systematic Mineralogy, based on a natural classification, with a general introduction. By T. STERRY HUNT, M.A., LL.D. The author's aim is to reconcile the rival and hitherto opposed chemical and natural historical methods in mineralogy, showing that when rightly understood, chemical and physical characters are really dependent on each other and present two aspects of the same problem, which can be solved only by the consideration of both. He has devised and adopted a Latin nomenclature and arranged the mineral kingdom in classes, orders, genera and species, the designations of the latter being binomical. 391 pages, cloth..... $5.00

Cut shows 5-ton Ridgway Crane in Foundry, Diamond State Iron Co., Wilmington, Del.

Far Superior to Usual Hydraulic.

No pumps. No accumulator. No shocks. None of that everlasting bother with valves and packings. None of that awful waste of power. No freezing. Not touched from one year's end to the other.

Attached to any steam supply is ready for business at once. Uses so little steam it is never missed. The greenest help works it. Absolutely safe. Being balanced is easy on buildings and takes small foundation. So cheap any plant can use it. Always earns its cost in a few months.

In these days of close prices you can't a" ord to move goods by hand. The best plants are getting them. Look at the list. Only a new machine, too! It is the only kind of crane for you to get. It is safe to follow the most able and successful steel and iron makers. The largest concerns in Europe are also getting them from our Belgium factory. It is the Crane of Cranes.

THE GREATEST FOUNDRY CRANE KNOWN.

THE WOODRUFF SYSTEM OF KEYING FOR MACHINERY

Does not require skilled labor to cut key way or fit key.

The peculiar way of inserting the key practically makes it part of the shaft.

A man will fit more than double the number of keys in a day than by the ordinary method.

Will save you from 50 to 75 % on the cost of your keying.

ENDORSED BY MECHANICS AND ENGINEERS.

Illustrated pamphlet containing a full description will be sent free on application.

NEW RIVER MINERAL CO.,
Ivanhoe, Wythe Co., Va.

A NEW COAL FIELD AND TIMBER DISTRICT.

The **OHIO EXTENSION** of the **NORFOLK & WESTERN RAILROAD** penetrates one of the most valuable coal and timber districts in the United States. The line of this extension is 193 miles in length, from Coal Grove, Ohio, via Kenova, W. Va., to Elkhorn, W. Va., of which 54 miles, to Dunlow, W. Va., is now opened for business and the entire line is under construction and will be completed early in the fall of 1892. It passes through virgin country abounding in gas, splint, cannel, steam, coking, and domestic coals and fire-clay; chestnut-oak, white-oak, beech and poplar timber. Those looking for advantageous sites for the location of saw-mills or tanneries and establishments for the manufacture of furniture, wagons, agricultural implements, wood-pulp, fire-brick, or manufactured iron articles, should investigate the resources of this new field. The new town of Kenova, W. Va., offers many advantages for the location of manufacturing establishments, also the territory opened up by the Norfolk & Western Railroad on the north bank of the Ohio River, between Kenova, W. Va., and Portsmouth, Ohio. For the manufacture of finished iron articles the district offers unequaled advantages, with supply of coal and Pocahontas coke on short hauls, and with the blast furnaces of the Ironton, Hanging Rock and Ashland district in close proximity. Favorable freight rates made upon raw materials to all manufacturing establishments on this line.

For further information as to freight rates, maps, names of parties to whom application should be made for coal leases, &c., apply to

JOHN J. ARCHER,
Div. Freight Agent, Columbus, O.
or CHAS. G. EDDY,
Vice-President, Roanoke, Va.

BRANFORD, CONN.,

With its beautiful harbor and its river, navigable for three miles, is one of the finest towns in the country to live in or to work in; special inducements will be offered by the Board of Trade to parties who contemplate establishing or relocating manufacturing plants; correspondence solicited.

CHARLES A. HOADLEY,
Corresponding Secretary.

Manufacturing Plants

WANTED.

Lemont, Ill., desires the location of factories and manufacturing industries, and is prepared to offer inducements for the locations of such establishments. Cheap coal, good R. R. and Canal shipping facilities, &c. Address

H. S. NORTON,
Box No. 2, Lemont, Ill.

FOR SALE.

Sealed proposals will be received until noon of June 15, 1892, by W. F. Kyle, Manager for the Trustees of the Fieldhouse & Dutcher Mfg. Co., 30 & 32 West Monroe St., Chicago, Ill., for the sale of the entire property of said Company, including accounts; or for the sale of the merchandise, machinery and fixtures, in whole or in part.

The amount of sales in 1890 and 1891, combined, exceeded $800,000. The business shows a considerable capital over liabilities.

The Trustees reserve the right to reject any or all proposals. The books, accounts, merchandise and other property will be exhibited to any responsible persons who may wish to submit proposals for purchase. Blank forms will be furnished for proposals. Proposals may be sent to Mr. W. F. Kyle at the above address, and will be forwarded to the Trustees at New York for acceptance or rejection by June 20.

The Trustees of
FIELDHOUSE & DUTCHER MFG. CO.

NOTICE TO JAIL BUILDERS.

Sealed bids will be received at the office of the County Clerk of Monroe County, Michigan, at Monroe, Michigan, until 1.30 P.M. of Wednesday, June 29th, 1892, for the erection and completion of a county jail, to be built upon a site now owned by said county, upon which is now a Sheriff's residence, to which is to be attached the jail structure now advertised for.

Each bidder shall submit with his bid complete plans and specifications of the building which he proposes to erect, which shall include all necessary steel and iron, cells and all equipments and attachments to render the building complete and ready for occupancy.

The bids shall be for the entire work as a whole, covering all plans furnished, the erection and completion of the same ready for occupancy with all the cells and appurtenances complete, and all expenses of whatever name and nature.

No bid will be considered which exceeds the sum of eight thousand dollars ($8000)

The board reserves the right to reject any and all bids. The successful bidder will be required to give bonds in the sum of the contract.

Bids will be opened by the Board of Supervisors on June 29th, 1892, at 1.30 P.M.

Bids should be sealed and endorsed "Proposals for Jail," and addressed to the undersigned.

C. H. CALDWELL,
County Clerk, Monroe, Michigan.

MANUFACTURERS.

I am after "SPECIALTIES" of all kinds, particularly small, light articles that can be carried by traveling men as a "SIDE LINE," and am prepared at all times to place such goods upon the market in the hands of good men who will give them a share of their labor and attention. I also "CIRCULAR" the trade where desired, reaching the best class of Hardware trade in the entire UNITED STATES, or any State or combination of States. MAIL me sample of your article to be sold, write me *full* particulars in regard to *prices, terms*, freight, territory to be covered or exempt, &c., &c., your ideas as to seller's recompense, commission or salary, and how much in either case. Yours will have careful consideration and prompt reply.

Save my Address, for reference.

GEO. L. SMITH,
Box 414, Syracuse, N. Y.

I AM advertising for and also by personal correspondence reaching every manufacturer of "SPECIALTIES" in the country light salable articles that you can carry as "SIDE LINE," so that I expect to have at all times several good sellers that you may have your choice of. Send me your permanent address and I will write you full particulars of any new and desirable seller that I may have. You know there are many such continually coming to the front which it does not pay the manufacturer to put men on the road with. Just where to get the right men, and how, is a question with them many times. Of course most of these things pay commission, but I know of several parties who are paying stated salaries to good men to help introduce their goods. It won't cost you but TWO CENTS to give me your address, together with territory covered line you are selling, and any other points that may be of interest. Your communications would be treated at all times as strictly confidential.

STANLEY G. LEONARD,
Box 425, Syracuse, N. Y.

FOR SALE

SITUATIONS WANTED.

Undisplayed Advertisements for Situations Wanted not exceeding fifty words Fifty Cents each insertion. Additional words one cent each.

BY YOUNG MAN (26), college graduate, Junior Member American Society of Mechanical Engineers; machine shop practice, three years draftsman, technical school knowledge of chemistry; opening in any part of the country where there is chance of advancement. Address LOCK BOX 606, Andover, Mass.

A LIVE MAN of 45, experienced accountant, business manager and skillful financier, desires an engagement for factory or general business management, with a concern in the metal manufacturing line, that is in it to stay; New York or vicinity preferred. Address JOHN ANDERSON, No 100 Henry st., Brooklyn, N. Y.

A YOUNG MAN with nine years' experience in general and builders' hardware, acquainted with builders and architects, wishes a position as salesman; best of references. Address "B. and A.," Box 616, office of *The Iron Age*, 96-102 Reade St., New York.

TWO YOUNG Hardware men, through 17 years' experience well acquainted with German, English and domestic goods, wish to represent in Chicago manufacturers and importers of hardware and cutlery. We will sell your goods and do honest work in the World's Fair City, if you can deliver the goods and quote prices. Address "M. & H.," office of *The Iron Age*, 59 Dearborn St., Chicago, Ill.

BY AN ENGLISHMAN (44), an engagement in the states as foreman molder; six years' charge of men; well up in engine and machinery molding both in loam and sand; good references and testimonials. Address W. M. STEVENS, 127 Mortimer St., Trowbridge Wilts, England.

BY A TRAVELING Salesman desiring to make a change the first of the year, to represent a manufacturer of machine tools or a large dealer in machinery supplies; have had 15 years' experience as a machinist with two (2) years' experience upon the road. Address "MACHINE TOOLS," office of *The Iron Age*, 96-102 Reade St., New York.

SHIP AND MARINE ENGINE BUILDERS.—Engagement wanted by mechanical engineer (39), unusually well up in steam, steam engines, boilers, &c.; thoroughly practical designer and constructor, good estimator and mathematician, unexceptionable references for character and ability; command of French and Spanish; looks for permanency with prospects of advancement on merit. "MARINE," Box 69, office of *The Iron Age*, 96-102 Reade St., N. Y.

EXPERIENCED and successful Traveling salesman of good address, well acquainted with hardware jobbers, railroad trade, implement and machine manufacturers of Chicago and tributary territory, desires the representation of some line where attention and vigorous work will be appreciated; small salary and commission preferred; first-class references. Address "W.," office of *The Iron Age*, 59 Dearborn St., Chicago.

TECHNICALLY EDUCATED gentleman, with vast experience in technical and business matters in this country and Europe, and thoroughly familiar with three modern languages, who can produce the very best of references, desires a position in Europe as agent for American business house or manager of estate. Address "EUROPE" office of *The Iron Age*, 220 South Fourth street, Philadelphia, Pa.

POSITION as Superintendent is desired by a practical man by July 1 in manufactory making locks and builders' hardware a specialty; 25 years' experience; can give satisfactory references as to ability to handle men and material economically; understands the business in all its branches; salary moderate. Address "H. L.," Box 616, office of *The Iron Age*, 96-102 Reade street, New York.

BY THOROUGHLY COMPETENT open-hearth Melter; five years' practical experience; desires to correspond with parties wishing to engage a capable man. Address "P. M.," office of *The Iron Age*, Room 509, Hamilton Building, Pittsburgh, Pa.

BY A MECHANICAL Engineer and machinist has had charge of work for 15 years past; had experience with wire rope traction, engine, pump and general machine work, including experimental and model work, drawing, designing &c.; Brooklyn or New York preferred. "H.L." Box 69 office of *The Iron Age*, 96-102 Reade St., New York.

I AM 29 years of age, married; have been ten years with present employers (wholesale hardware), four years as head bookkeeper; have first-class references and would like situation where a good business training will be of service. Address FRED. H. ROSS, 97 Erie avenue, Hamilton, Canada.

AS SUPERINTENDENT of an iron or steel mill; have had over 20 years' experience in erecting and operating both; can furnish very best of references as to ability to plan, erect and operate; would accept position as assistant superintendent in large mill. Address "DRAKE," office of *The Iron Age*, 96-102 Reade street, New York.

A COMPETENT Patent Solicitor and searcher in testing validity of patents offers his services to a substantial firm or corporation, preferably in New York City, to attend to their patent affairs and, as time permitted, to otherwise confidentially assist in business management. Address "GOODWIN, office of *The Iron Age*, 96-102 Reade street, New York.

AN AMERICAN GENTLEMAN, who will reside in the principal European cities, after July 15th, for the period of one year or ten, desires to act as agent for the sale of American products; the best of American references as to financial responsibility, character and ability will be furnished. Address "EUROPEAN," Box 69, office of *The Iron Age*, 96-102 Reade St., New York.

BY A MAN having thorough knowledge of the tube business, with a large experience in management of mills making highest grades of boiler tubes and pipe; also in designing, constructing and operating gas, oil or coal furnaces; also has experience in management of rolling mills; references. Address "TUBES," office of *The Iron Age*, Room 509, Hamilton Building, Pittsburgh, Pa.

STEEL SALESMAN; a gentleman who has had 15 years' experience in the manufacture of crucible, Bessemer and open-hearth steels, also special steels, and who is thoroughly familiar with the needs of consumers, would like an engagement with manufacturing or mercantile firm as salesman; has not occupied position as salesman. Address "STEEL EXPERT," office of *The Iron Age*, 96-102 Reade street, New York.

MECHANICAL ENGINEER, graduate, 31 years, with 9 years' practical experience, mainly in marine engineering in all its details, wants position; speaks French. Address R. BERGGREN, 423 Trenton avenue, Camden, N. J.

SUPERINTENDENT.—A member of American Society of Mechanical Engineers, who has had 20 years' practical experience as follows: machinist, head draughtsman, erector of steam plants, engineering, estimating, contracting and office work and superintendent of large engine works, is available for responsible position as manager, superintendent or assistant of manufacturing establishment. Address "MULLACH," Box 33, office of *The Iron Age*, 96-102 Reade Street, New York.

AS SUPERINTENDENT of Wire Mill; all latest methods of handling the following thoroughly understood: galvanizing wire, cloth and netting, brass, copper, iron and steel of every description, crucible and spring steel a specialty; every detail of wire nail business; mills failing to pay preferred; can build mills from foundation; unexceptionable testimonials furnished. Address "WIRE," office of *The Iron Age* 59 Dearborn St. Chicago.

A YOUNG MAN of good habits and 15 years' experience in the rod mill business is open for engagement; best of references furnished and especially in copper. Address "ENGAGEMENT," 526, office of *The Iron Age*, 96-102 Reade St., New York.

BY A THOROUGH practical rolling mill Manager for iron and steel products; can make high grades of either; can utilize old rails or scrap to advantage; is highly endorsed by late employers and A1 references for ability, sobriety and integrity. Address "V. IRON AND STEEL," P. O. Box 523, Pittsburgh, Pa.

AN EXPERIENCED Traveling man (married), now connected with a prominent Western jobbing concern, wishes position as manager or buyer of a hardware house, into which he can place some money and a big amount of energy; prefers Texas or the far West. Address "C. B.," Box 62, office of *The Iron Age*, 96-102 Reade St., New York.

HATHAWAY FENCE WIRE.

Pat. Nov. 19, 1889.

Strong.  Durable.

Handsome. Cheap.

Above Cut is One-half Actual Size.

This strand is made of the best quality of galvanized steel wire, is one and three-fourths inches wide, much wider than any other, and consequently is easily seen by stock, and it is not possible for them to be injured by it, as with barbed wire. It is a great seller, and if you have not yet had any of it, send for a sample lot to

Old Reliable

HARDWARE PRICE BOOKS.

Send for new Illustrated Circular.

BUELL LAMBERSON,

PORTLAND, OREGON

IMPROVED EDITION OF THE IRON AGE

HARDWARE PRICE BOOKS.

Arranged by R. R. WILLIAMS, Hardware Editor of the Iron Age.

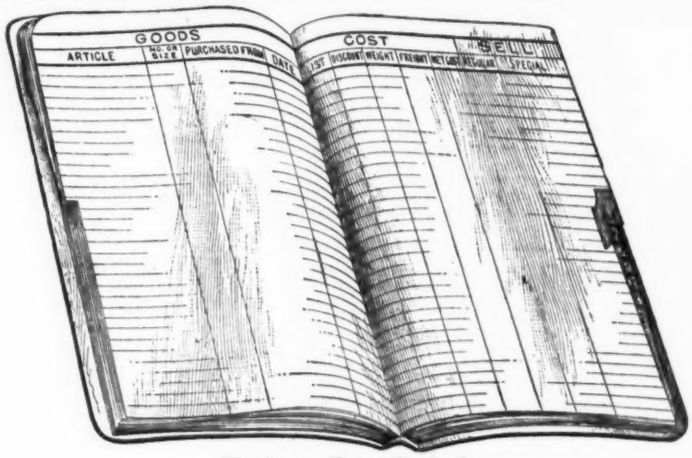
These Books are printed on paper of superior quality and bound in grain seal leather.

Columns are provided for the name and number or size, for noting from whom purchased, date of quotation or purchase, list and discount, and for entering freight expenses as an element of cost. Under the heading of selling prices, the regular and any special price or remarks in regard to the goods are given place. This book goes into considerable detail in describing the goods and cost prices. It has been arranged in accordance with the views of many Hardwaremen whose methods are careful and exact.

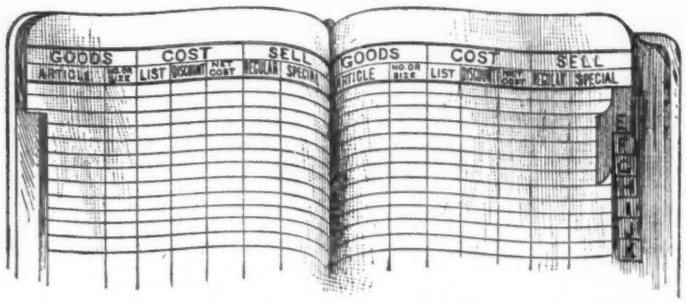
Size, 4 x 7 in.; grain seal leather.

FOUR EDITIONS:

A, 200 pages,	$1.00
A F, 200 pages with flap,	1.25
A 2, 400 pages,	1.50
A F 2, 400 pages with flap,	1.75



Hardware Price Book A.



Hardware Price Book B.

In this book each page is complete, and the record of prices does not, as in Book A, run across two pages. Thus it accommodates a larger range of goods with much less detail in the record. It is adapted for office or store use, and by the use of familiar abbreviations, sufficiently large for the convenient and concise record of prices.

Size, 4 x 7 in.; grain seal leather.

FOUR EDITIONS:

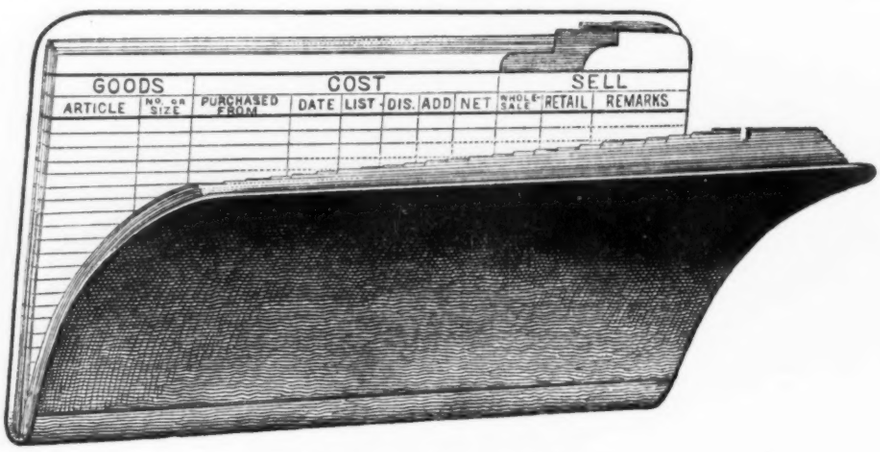
B, 200 pages	$1.00
B F, 200 pages with flap,	1.25
B 2, 400 pages,	1.50
B F 2, 400 pages with flap,	1.75

The headings in Book C run across the top, in a line parallel with the hinge. In this way a very complete record can be kept on a single page. The details of weight and freight contained in Book A are omitted, and a sing e column headed "Add" given for the insertion of freight or other expenses which it is desirable to include in the cost. Under the selling prices space is left for the wholesale price, the retail price, and also for any remarks in regard to cost of the goods, desirability of pushing them, or other matters.

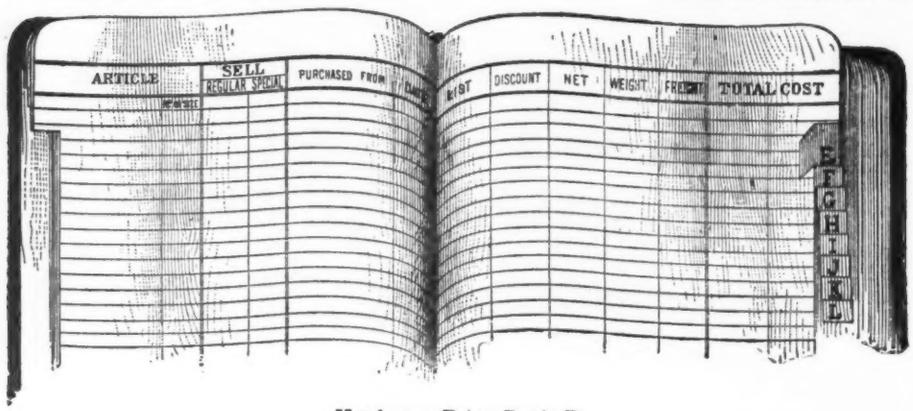
Size, 4½ x 7¾ in.; grain seal leather.

FOUR EDITIONS.

C, 200 pages,	$1.00
C F, 200 pages with flap,	1.25
C 2, 400 pages,	1.50
C F 2, 400 pages with flap,	1.75



Hardware Price Book C.



Hardware Price Book D.

Price Book D will recommend itself particularly for desk and store use, and for salesmen on the road.

The name of the article, its number or size and the selling price are the first to meet the eye on the left-hand page, as embodying information desired when the selling price is required. The other headings follow in convenient order, by which a detailed memorandum regarding the goods may be kept, the whole being seen at a glance. A number of pages at the back of the book are arranged for memoranda, which will be found a great convenience. This arrangement is adapted to the requirements of the trade in this direction. Size 5¼ x 8 in.: grain seal leather.

FOUR EDITIONS.

D, 200 pages,	$2.00	D 2, 400 pages.	$3.00
D F, 200 pages, with flap,	2.50	D F 2, 400 pages, with flap,	3.50

Sent, post-paid, on receipt of price by **DAVID WILLIAMS, Publisher, 96-102 Reade St., New York.**

Fluor-Spar.

ILLINOIS FLUOR-SPAR & LEAD CO.

SUCCESSORS TO

MULLIN'S

FLUOR-SPAR AND LEAD MINING CO.,

57 Board of Trade Building, Chicago, Ill.

This Company owns, at Mineral City, on the Ohio River, the largest Mines of Fluor-Spar ever discovered.

We are working a large force of miners; our new mills and tram railway are running, and we are now prepared to furnish the purest Fluor-Spar in any quantities to Iron and Steel Manufacturers, to Smelters of Gold, Silver and Copper, and to Paint, Paper and Glass Makers.

Fluor-Spar is pronounced the most powerful of fluxes; it facilitates the reduction of the most refractory materials. For Alkalies, Clays and all Metallic Oxides it has a remarkable solvent power; it reduces the melting point and saves fuel; it diminishes the loss of metal, saves labor and keeps the cupola clean; reacts strongly upon scaffolds and cloggings.

One part of Fluor-Spar is more effective than ten parts of Limestone. Limestone is an enemy to iron; Fluor-Spar is a friend.

Directions for the proper use of Fluor-Spar given our patrons.

We ship Lump, Gravel, Crushed and Ground, in bulk or barrel.

HOLLANDS MFG. CO., · ERIE, PA.

No More Leaky Sky Lights

Or Slipping and Breaking of Glass in Green Houses or Farmer's Sash. You can save money and glass by using the

PATENT GLAZIER Twin Points.

THESE POINTS are far superior to the old mode of setting glass, as they will hold each pane in place, preventing the glass from slipping and causing binding and cracking. Each box contains 500 rights and 500 lefts. We also make a tool for driving the points. **Price. 35c a Box. Driver, 15c. A Liberal Discount to the Trade.**

These points are kept by all prominent Hardware, Paint, Oil, Seedsmen, and Florist Supply Stores in the country. If you do not find them, send postal for a free sample, or send 60 cents for 1 package and 1 driver by mail, post paid to any part of the U. S.

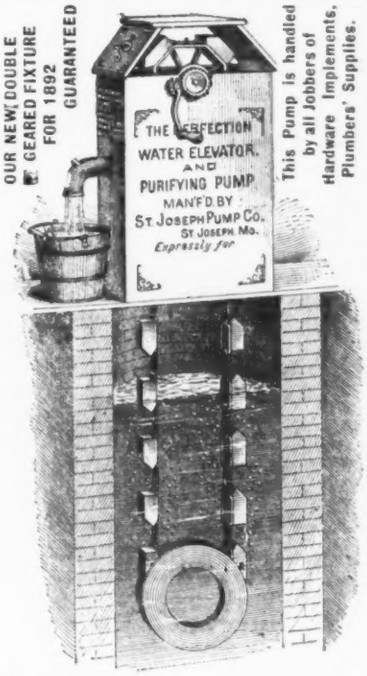
OUR NEW DOUBLE GEARED FIXTURE FOR 1892 GUARANTEED



This Pump is handled by all Jobbers of Hardware Implements, Plumbers' Supplies.

$1.000 for any Bucket Pump that will equal the "Perfection" in neatness, workmanship or durability. It is the only Bucket Pump on earth, where the chain or buckets are made of strictly one piece of **BLACK OPEN HEARTH STEEL AND FREE FROM SOLDERING**, being folded by double lap seams and the entire product galvanized after construction.

THE CELEBRATED

"PERFECTION"

Water Elevator and Purifying Pump.

The storage of water in cisterns and open wells is the method largely adopted throughout this country for Drinking, Cooking and Bathing purposes. We have had an abundance of rainfall, wells and cisterns are full, the water contained therein becomes FOUL and STAGNATED during the months of July, August and September. If you will place a "PERFECTION" PUMP on well or cistern we GUARANTEE the water to become and remain as PURE as a MOUNTAIN STREAM. It is the simplest structure for raising water on the Continent—guaranteed not to freeze.

The Perfection

Having no Valves, Tubes or Plungers to get out of order, no Wood Tubing to Pollute the water, no attachment below platform, never has to be primed, packed or thawed out; easiest pump operated. Over 140 000 in daily use.

We are now striping and decorating the "Perfection" in the finest manner possible.

Agents wanted in every town. Dealers, write your jobbers for quotations. Be sure you get "The Perfection," take no other. For full information, circulars, catalogues, etc., address the manufacturers,

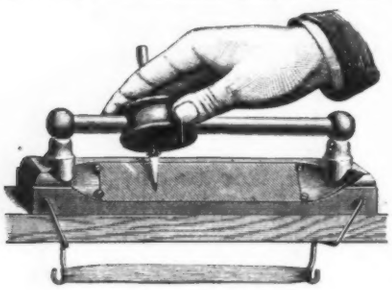
FOR SALE BY ALL DEALERS IN HARDWARE, CUTLERY AND FANCY GOODS.



NOT IN YOUR LINE?

IF YOU DO NOT SELL IT YOU SHOULD USE IT.

THE PERFECT PENCIL POINTER.

Will save about one-half your pencil bill.
It is a practical machine, not a toy.
The only "Perfect" machine for the purpose
Does better work than can be done in any other way.
Does not break or waste the lead. Saves time.
Prevents soiling the hands. Any one can use it.

The above cut shows the Pointer attached to the edge of a table and shows how to take hold of the carriage in using. The pencil revolves as it is moved along on the surface of a file, which is especially made for the purpose. The entire simplicity of the whole machine makes it little liable to get out of order. By use of the clamps it can be instantly attached to desk or table, and as quickly removed, or can be used when held in the hand. The material and workmanship are the best and **EVERY MACHINE FULLY WARRANTED.**

H. S. OSGOOD, Supt. American Express Co., Portland, Me., says:

We have had one of your Pencil Pointers in use for several months, and it has done its work rapidly and well. We never saw a pencil sharpener before that would sharpen a pencil. Yours will do it every time and do it well.

SELLERSVILLE NATIONAL BANK, Sellersville, Pa.

It suits me and does all that you represent.

C. R. ALTHOUSE, Cashier.

FIRST NATIONAL BANK, Watkins, N. Y.

This is the best thing of the kind I ever saw. One cannot break the lead while sharpening.

CANON CITY, COLORADO.

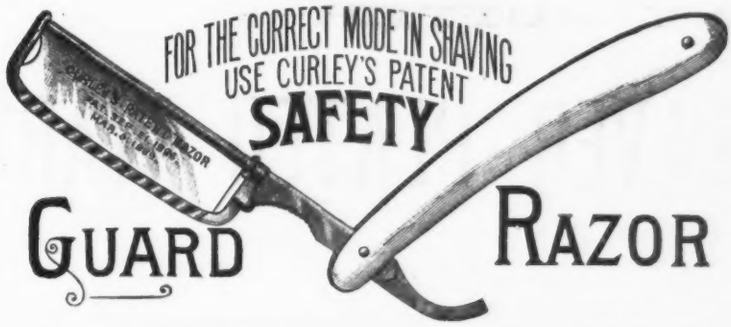
Your Perfect Pencil Pointer came to hand, and after a thorough trial proves to us that it is rightly named for it is "perfect" in every particular. We would not be without it for double the price.

A. M. HAWLEY, Cashier.

Make Money by Using this Machine.

You can get them of your stationer, or to introduce WE WILL SEND SAMPLE, EXPRESS PAID, on receipt of $1.25.

GOODELL CO., Manufacturers, Antrim N. H.



This improvement permits correct shaving; therefore no irritation is caused and the most inexperienced can shave with perfect safety.

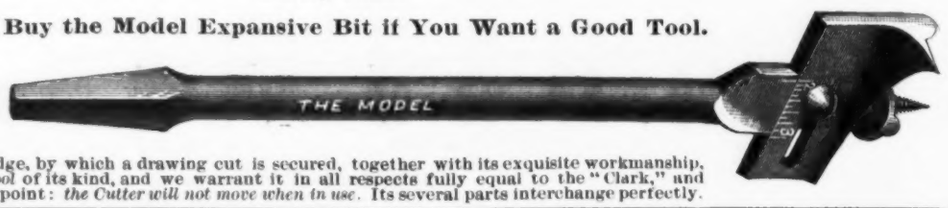
— INCORPORATED, —

Nos. 97 Chambers and 79 Reade Streets, New York.

Representing Leading American Hardware Manufacturers.

Sole Agents for the "W. A. Ives Co." celebrated brand of Augers, Auger Bits, Expansive Bits and other Boring Tools.

Buy the Model Expansive Bit if You Want a Good Tool.



THE superior excellence of this tool consists in the peculiar seat in which the Cutter is placed. The manner in which it is fitted into its seat, in which it is so firmly held as to be absolutely immovable in use, the curve of its cutting edge, by which a drawing cut is secured, together with its exquisite workmanship, all combine to make it a *Model Tool* of its kind, and we warrant it in all respects fully equal to the "Clark," and decidedly better in one important point: *the Cutter will not move when in use.* Its several parts interchange perfectly.

Cronk's Patent Wire Cutter AND Bender.

This surpasses any Plier in the market for Cutting and Bending Wire, and can also be used in place of Hill's Hog Ringer. Is especially adapted to farmers' use in building Wire Fence, &c.

Our reasons for claiming that we have the best Pliers in the market are:

FIRST.—We use the best Tool Steel and they are nicely finished.

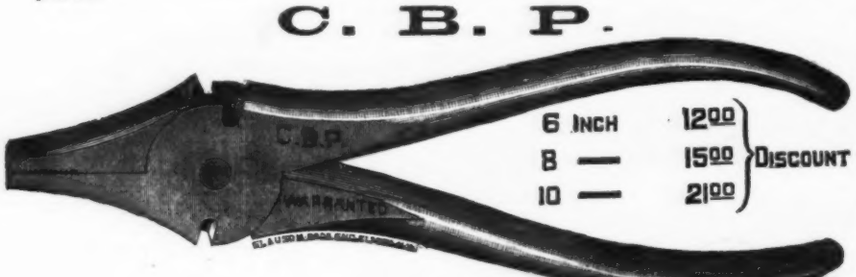
SECOND.—We combine both Flat and Round-Nosed Pliers in one; the concave and convex circles between the handles are used for bending wire in any desired shape.

THIRD.—The cupping in the Nose is used for pulling tacks, brads or nails, and can also be used in place of Hill's Hog Ringer.

FOURTH.—We can cut Barbed Wire, Barb Belt or any kind of Wire used for Fencing purposes. We also claim that we have the only Plier made that the Cutting Jaws cannot be broken.

By passing the Wire through the Pliers it makes a very handy cut and also holds the Wire after it is cut.

C. B. P.



What we claim for this plier it that it is made from best quality tool steel and is made heavier and stronger than any plier of its kind in the market and the finish is first-class. Also they are made so the jaws are parallel when used on wire from 9 to 14 gauge and will hold the wire solid.

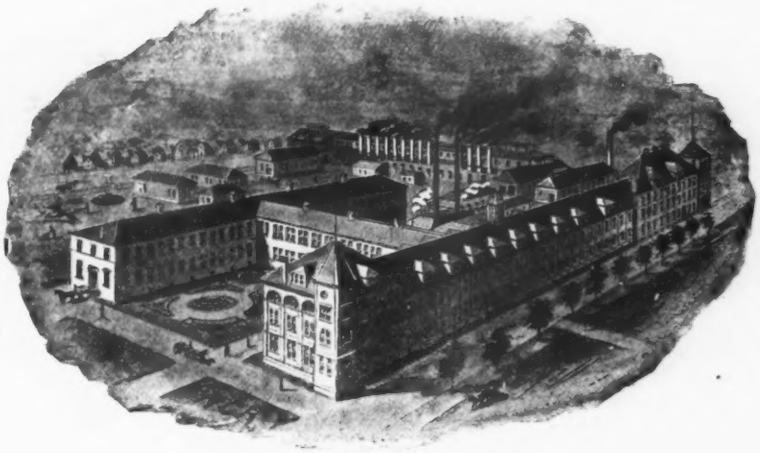
—THE—

National Cash Register Co.,

DAYTON, OHIO, U. S. A.

Devoted exclusively to the manufacture of

Cash and Autographic Registers.



THE NATIONAL FACTORY.

Capital invested, over $1,000,000.00.

86 Patents.

Employes in factory, 952.

A complete Register is made every 12 minutes.

We make 34 different kinds of Registers.

43,000 NATIONAL REGISTERS IN USE.

The No. 33 Is operated by writing the sale through an opening on a continuous strip of paper. This register is provided with a Combination Lock.

While the cash drawer is open, the paper cannot be moved; making it necessary to close the drawer after each sale.

We guarantee this register to be more durable and more effective than any other Autographic Register of its class, and all we ask for it is **$20.**

The No. 69 Is operated by small steel balls, which are put into a large hopper inside of the register. The pressing of a key allows the ball to drop into a V shaped conduit, which is so arranged that the proprietor can see at a glance the amount that has been registered during the day.

This register is guaranteed to be equal to any similar register of its class, and all we ask for it is **$25.**

Before ordering any kind of Autographic Register, see Our No. 33.

We Make all Kinds of Registers

AT THE FOLLOWING PRICES:

$15, $20, $25, $30, $50, $65, $75, $85, $100, $125, $150 $175, $200, $225 AND $250.

TO USERS OF OTHER MAKES OF CASH REGISTERS:

If you desire to exchange your Register for a National, we will make you a liberal allowance for it.

JOHN J. TOWER, of Tower & Lyon, New York, President. C. E. HUBBARD, Boston Treasurer.

BLUE IMPROVED PROCESS LABEL

The Improved Process Glue Co., having purchased from The Le Page Co., all its patent rights, formulas, glue stock and material, and having secured control of its glue factory, machinery, etc., will continue the manufacture of Liquid Fish Glues in all the various grades heretofore offered by The Le Page Co., under the personal supervision of Mr. WM. N. LE PAGE, and under the Improved Process Patent issued October 26th, 1886. As is well known, the Improved Process by which these goods are made assures the highest strength with thorough uniformity as to quality, consistency and color. We call special attention to our **Improved Process Family Glues,** neatly put up for family use, and also to our **Improved Process Carriage Glue for wood-work,** put up in every variety of size and style. This Carriage Glue is undoubtedly the strongest and best glue for every variety of cabinet and wood-work, and has earned its high reputation. All our canned glues are put up with the **new patent cap** or fastening, patented January 22d, 1889, which has proved a great convenience and success. Our glues will be readily identified by our characteristic **Blue Label,** and the Trade-Mark shown at the head of this page. Send for Price-List. Messrs. TOWER & LYON will have charge of our New York office. Very truly yours,

THE IMPROVED PROCESS GLUE CO., New York Office, 95 Chambers St.

THE BRAY FLY BOOK.

THE reputation of the BRAY FLY BOOK as the neatest and most practical Fly Book made is well established everywhere. The quickness and dispatch with which Flies of any size are placed within these books without coiling of the Snell or mutilation of the Fly makes its superiority over all other methods very easily recognized by all anglers. The Flies can be as readily detached when wanted. The leaves to which the Flies are attached will in the future be made of a new material of more durability and finish than before. The workmanship and material will be kept up to highest standard, and no effort will be spared to keep the BRAY FLY BOOK (as it now is) the BEST in the WORLD.

CAUTION.

This Comb is secured to us by Letters Patent No. 464,773, dated December 8th, 1891, and we have secured control of Patent No. 220,986, dated October 28th, 1879, issued to Paschal Plant, together with all accrued claims for infringement of said Letters Patent. We hereby CAUTION all parties against MAKING, SELLING or BUYING Curry Combs that in any manner infringe these Patents. The said Patent No. 220,986 is the BOTTOM PATENT to FLEXIBLE or SPRING Curry Combs. The "claim" thereof reads as follows: "As a new article of manufacture, a flexible Curry Comb formed of a toothed strip of metal or other suitable material, without a plate or back, and with a suitable handle attached directly to the strip, substantially as described." Parties MAKING, SELLING or BUYING FLEXIBLE or SPRING Curry Combs not licensed by us under the above-mentioned Patent are liable to damages, and we shall proceed against them as fast as possible.

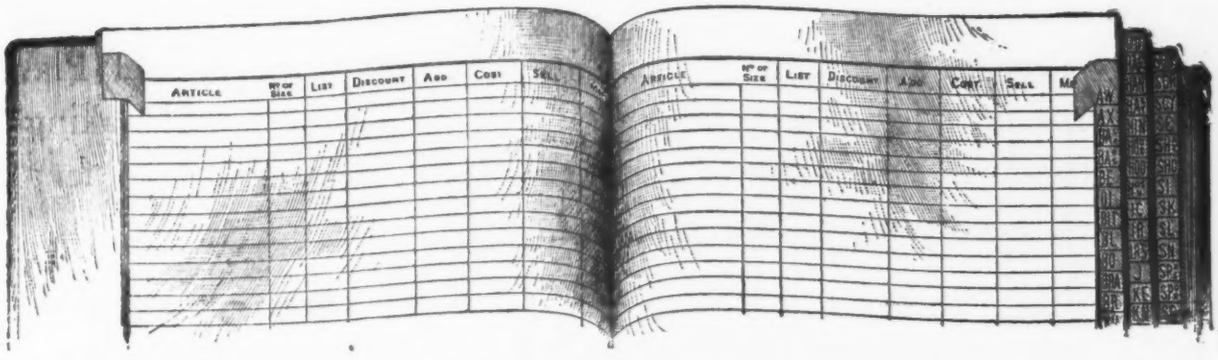
The Iron Age Hardware Price Book E,

WITH MULTIPLE INDEX (Patent Pending).



SIZE.—The book is 7 x 10 inches (much larger than Price Books A, B, C or D), 280 pages.

PAPER.—The paper is the celebrated Crane's heavy ledger paper, tough and strong, permitting frequent changes and erasures.

BINDING.—The binding is of the very best quality—flexible seal grained leather with pocket.

INDEX.—By means of the arrangement shown in the cut the index applies to every page (except Supplement) and permits reference to any article at a single motion. This greatly facilitates the use of the book, avoiding the troublesome turning from page to page which is necessary in connection with other Price Books. It has been prepared with great care, and it is believed that it provides a place for every article in the Hardware line.

ARRANGEMENT.—The book is arranged to keep a complete record of prices on a single page, the width giving sufficient room.

SUPPLEMENT.—A 40-page Supplement is provided to give room for supplemental quotations, memoranda, tables, &c.

This book is issued in only one edition, **Price, $5.00.**

AD	CU	SC
AN	HAM	SCR
AU	HAN	SCY
AW	HAT	SE
AX	HIN	SHE
BAN	HOE	SHO

Fac-Simile of Indexing.

Advantages of Multiple Index Price Book.

A SPECIAL feature of the book is the arrangement of the index characters, which instead of being alphabetical are arranged with special reference to the classification of Hardware goods, each index character giving the first two or three letters of the names of Hardware articles, as shown above.

The ease and convenience with which the book can be used is indicated in the following examples:

For Augers,	turn to	AU	For Chisels,	turn to	CHI	For Iron,	turn to	IR
" Apple Parers,	"	PA	" Cutlery,	"	CU	" Irons,	"	IR'S
" Saws,	"	SAW	" Cartridges,	"	CAR	" Shovels,	"	SHO
" Pumps,	"	PUM	" Rules,	"	RU	" Grindstones,	"	GRI
" Bits,	"	BIT	" Locks,	"	LO	" Stones,	"	STO

Special care has been taken to make the classification as indicated in the index correct and comprehensive, making provision for all Hardware articles and giving sufficient space for the keeping and recording of prices. It is thought that every strictly Hardware article has its first two or three letters given, thus permitting immediate reference to it by a single motion.

It is, however, obvious if any articles are not directly designated by the index characters, that the index being alphabetical in its arrangement indicates the place where quotations on such articles should be recorded. The supplement, however, may be found useful for quotations on any outside goods which the Hardwareman may desire to keep prices on, while at the same time it may be used if necessary for any overflow of matter from the preceding pages, or to contain list prices or other matter relating to goods.

Hardware Classification.—A pamphlet containing a classification of the leading Hardware articles is furnished with the price book.

Standard Lists—In connection with this price book a set of *The Iron Age* STANDARD HARDWARE LISTS can be used with great advantage.

This price book, which has been prepared by R. R. Williams, Hardware Editor of *The Iron Age*, is presented to the attention of Hardwaremen in the confidence that it will be found a most valuable aid in keeping track of prices.

Sent, Postpaid, on Receipt of Price, by

—A TOOTH.—

A WOOD-BUTCHER CAN SET A SAW AS WELL AS A SAWYER.

The Screw on the top of the Set prevents mashing the Tooth. The Gauge on the side assures the correct set, and the small Screw on the face of the Set gives the required bend to the tooth. All wearing parts are made of steel, strong and durable.

LIST: HAND SAW SETS, $15.00 PER DOZEN. CROSS CUT SAW SETS, $30.00 PER DOZEN.

METROPOLITAN.

This differs from our other wood frame wringers of medium price in having malleable iron swinging clamps of a strong and improved pattern, that swing under the wringer, and a folding apron, allowing the machine to be closely packed for shipment, and it is preferred by many because of the small space it occupies in storage. It is a handsome, well proportioned machine, of hard maple frame, the wood being selected, free from defects and blemishes. Two top thumbscrews, metal journal boxes and oil cups combined, double gears, etc.

Furnished in natural wood or cherry stain without extra charge.

Wrought Steel Hollow Ware.

"Empire" Cold Handle Steel Spiders.

PATENTED.

The "Empire" Cold Handle Spiders are made from cold rolled wrought steel of the highest grade and finish, and are stamped from a SINGLE PIECE, and polished perfectly smooth and bright. The thickness of the steel of which the Empire Spiders are made (No. 14 Standard gauge) is a guarantee that they cannot break, bend or warp. An important feature also is that they are made without rivets, and cannot leak or the handles become loose.

The handle is reinforced in an attractive manner with a cover made of heavy tin, making a hollow ventilated handle which keeps always cool and comfortable to the hand.

The Empire SPIDERS will be found on inspection the most perfect ever made and cannot fail to give satisfaction. Our 1890 Catalogue of Patented Specialties, Acme Fry Pans, and Edgars' Patent Stove Shovels, mailed on application.

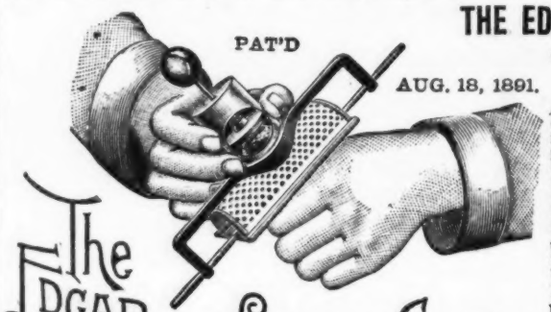
THE EDGAR NUTMEG GRATER



The EDGAR NUTMEG GRATER

POSITIVELY THE ONLY GOOD NUTMEG GRATER EVER MADE.

It is the old-fashioned Nutmeg Grater, with a carrier for HOLDING the Nutmeg, so attached as to move freely, forward and back, and from side to side, preventing the grated Nutmeg adhering to the surface of the Grater and bringing every part of its surface into use. Using this Grater, the Nutmeg can be grated to the merest shell without injury to the fingers or nails or dropping the Nutmeg. Its simplicity commends it. It is durable and economical and retails for 20 and 25 cents each. Liberal discount to the trade. Ask your jobber for the EDGAR NUTMEG GRATER.

"RIVAL" PATENT Lawn Sprinkler.

Cheapest and Best in Use.

Agents Wanted. Liberal discount to buyers

¾ Inch Regular Hydrant Thread, or Pipe Thread to Order) per doz. $7.50
1 Inch, Reg. Gas Pipe Thread, " " 12.00
1½ Sample Sprinkler sent prepaid on receipt of 60 cents

The Spray from it covers upward of 1000 sq. feet of lawn. It is the only patent adjustable Sprinkler which is adaptable to any water pressure. Being made of brass, and having no revolving parts to wear out, or small opening to clog up, it can be operated with sandy or muddy water as well as clear, and will last for years. To operate, screw Sprinkler on end of hose, stick the rod into the ground in a vertical position, adjust the acorn to suit pressure and spray wanted and it is ready for use. It may be so regulated as to throw a spray as coarse as rain or as fine as mist, and will make one of the most beautiful fountains imaginable. It is unequaled in merit, requires no attention and is sold at a less price than any sprinkler in the market. Remember, the RIVAL is the only Sprinkler made by which the coarseness of the spray and the area to be wet can be regulated. They are packed 1 doz. in a box, and finished either plain or nickel-plated.

FULL SIZE.

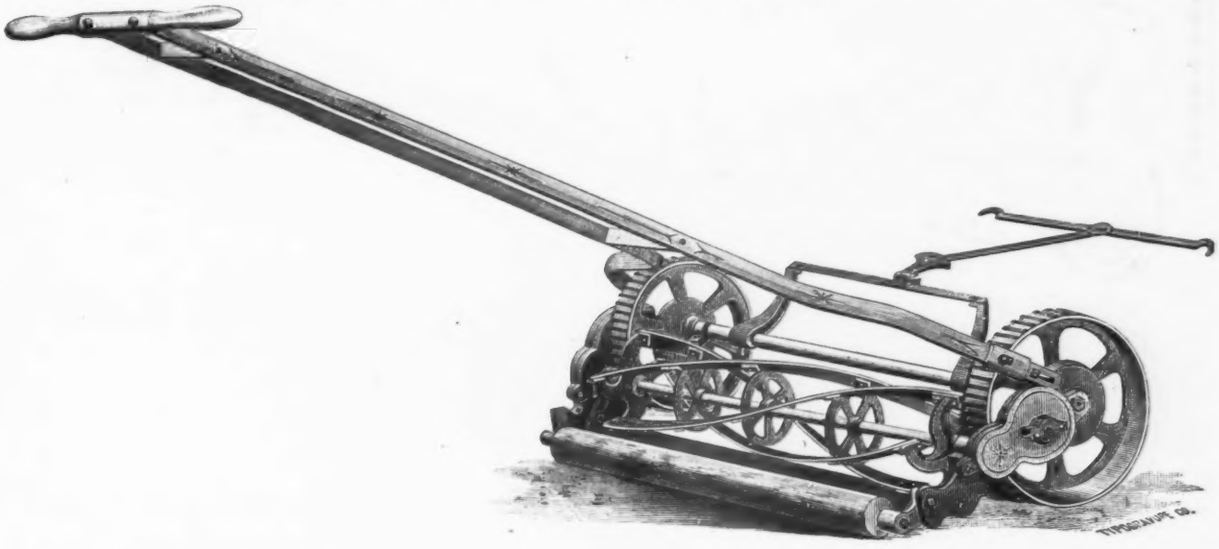
NEW PONY MOWER

25-INCH CUT. WEIGHT 110 POUNDS.



Can be used with pony and boy to guide, or one man to pull and boy to guide. An excellent mower. Nothing like it in the market.

List Price, $50.00. Discount to Trade.

Also Pennsylvania, Continental, Great American and New Quaker City Lawn Mowers.

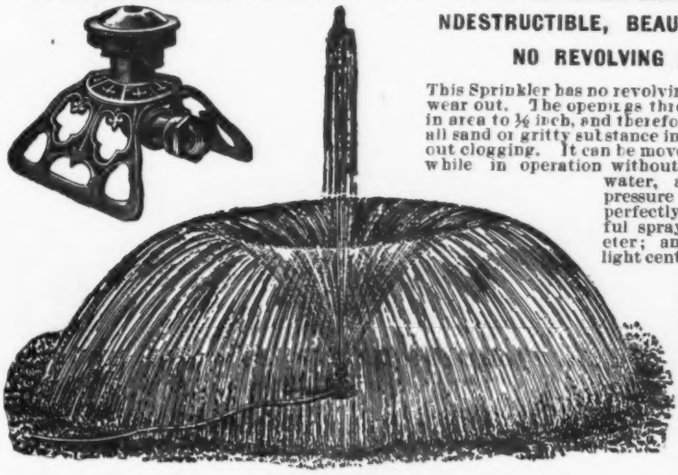
SUPPLEE HARDWARE COMPANY, Philadelphia.

HENLEY'S LAWN MOWERS

First-class high grade machines, made of the best materials. Neat, symmetrical, strong, durable and unexcelled in construction and ease of operation. Does perfect work. For prices address

M. C. HENLEY, Sole Mfr., Richmond, Ind. U. S. A.

CACTUS LAWN SPRINKLER.



NDESTRUCTIBLE, BEAUTIFUL, CHEAP.

NO REVOLVING PARTS.

This Sprinkler has no revolving parts to leak or wear out. The openings throughout are equal in area to ⅜ inch, and therefore will pass freely all sand or gritty substance in the water without clogging. It can be moved about the lawn while in operation without turning off the water, and with a low pressure will distribute a perfectly even and beautiful spray 30 feet in diameter; and in addition a light center fountain spray 15 to 18 feet in height. It is recommended as the most durable, beautiful and cheapest Sprinkler in the market and is guaranteed to give entire satisfaction to any purchaser. For sale by all dealers.

Manufactured by **ETTE & HENCER MFG. CO., St. Louis, Mo.**

THE ART OF SELLING.

By F. B. GODDARD. 12mo, Fexible Cloth, 50 Cents.

In this book the author lets the reader into the ecrets of the accomplished and successful salesman, illustrates his tact and finesse, and tells how he masters men: but beyond this, the work embraces much information which will be instructive and useful to all classes of business men. Besides suggestions to buyers, it contains chapters on "Changes in Business Conditions and Methods," "Salesmen's Compensation," "Retail Merchants and Salesmen," "Saleswomen," "How to Read Character," with a collection of clearly and tersely put important Legal Principles and Decisions Governing Sales. Sent, post-paid, upon receipt of price, by

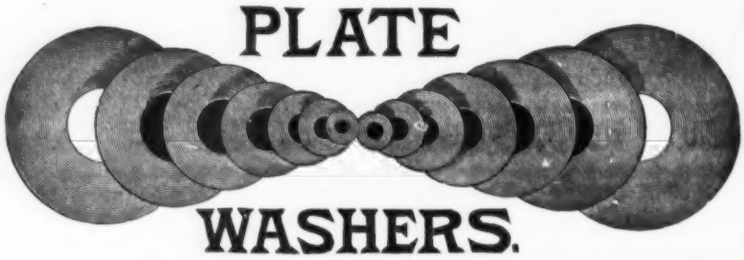
PLATE WASHERS.



SUPERIOR QUALITY.

We operate our own Rolling Mills, and cut these Washers from new plate, rolled expressly for the purpose.

LOWEST PRICES.

We have Special Machinery designed and patented by S. J. Shimer & Sons, with Automatic Feed, cutting from four to six Washers at every stroke.

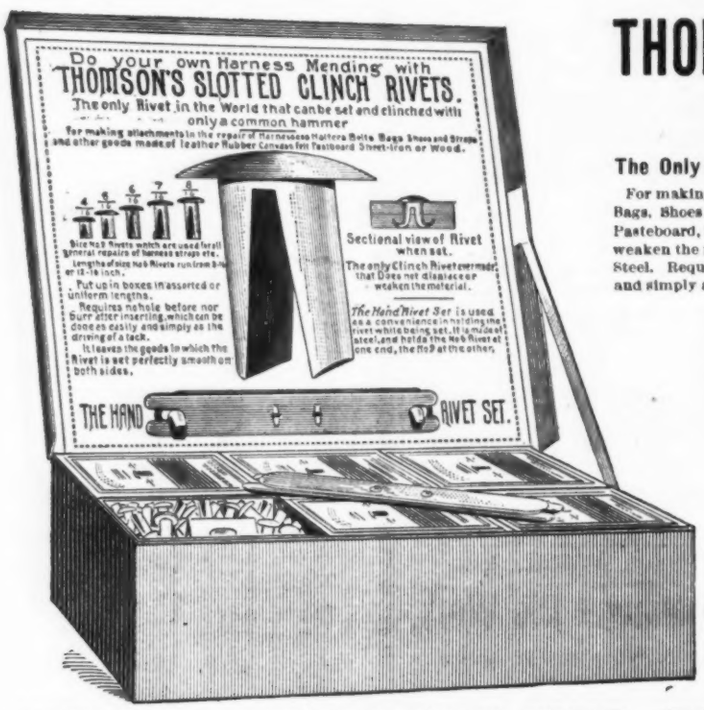
EVERY WASHER IS PERFECTLY FLAT WITH HOLE IN TRUE CENTRE.

All standard sizes kept in stock. Irregular or odd sizes made promptly to order.

E. B. LANMAN, Columbus, Ohio. WROUGHT WASHERS

All Standard Sizes, Regular or Odd, to Order.

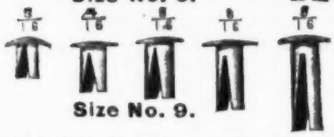
In 200 lb. Kegs or Card Board boxes, convenient for JOBBERS.



THOMSON'S BIFURCATED or SLOTTED RIVETS.

The Only Rivet in the World that Can be Set Without a Machine.

For making attachments in the manufacture or repair of Harnesses, Halters, Belts, Bags, Shoes and Straps, and other goods made of Leather, Rubber, Canvas, Felt, Pasteboard, Sheet Iron or Wood. The only Clinch Rivet that does not displace or weaken the material. It is tough and very strong, being made from solid Annealed Steel. Requires no hole before, nor burr after inserting, which can be done as easily and simply as the driving of a tack.



The above cuts of Rivets are each actual size and length. Neatly put up in Cartons of 12 Boxes, each box containing 100 Rivets. Japanned or Coppered.

Goods can be had from all the large Hardware and Saddlery Hardware Jobbers in the country.

Bradley Hammers

2000 IN USE.

FOR 20 YEARS these Hammers have been in the market, and during all that time have been acknowledged the very best. The material we use and our method of construction are the result of ripe experience, and not the jumped-at conclusions of amateurs. Send for circulars and price-lists.

BRADLEY & COMPANY,

SYRACUSE, N. Y.

Large Reduction in Prices.

FEBRUARY 15th.

A REVOLVER without a **LOADING GATE** is as useless all year 'round as a pair of **ICE CREEPERS** would be **IN JULY.**

BECAUSE all central fire cartridges are now made inside-lubricated, and will slip out of revolvers having no Loading Gate. All the *X. L.* Revolvers, both with Regular and Folding Hammers, have Loading Gates and Rebounding Locks.

We have largely increased our facilities for the manufacture of the *X. L.* Revolvers and H. & A. Automatic Ejecting Revolvers, and shall be able to fill all demands promptly this coming year. This is the best selling line ever put on the American market and retailers can double their money on these goods.

Our new illustrated catalogue, with reduced prices, will be ready on the 25th of February and will be sent upon request to any dealer.

WHEN.

Business Hints for Business Men in Business Hours. A series of practical hints and pointers of a business nature. By D. T. MALLETT. Pamphlet, 25 cents. Sent, postpaid, by **DAVID WILLIAMS, 96-102 Reade St., New York,**

The Art of Selling

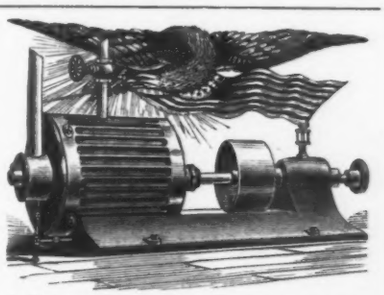
By F. B. GODDARD.

In this book the author lets the reader into the secrets of the accomplished and successful salesman, illustrates his tact and finesse and tells how he masters men. But beyond this, the work embraces much information which will be instructive and useful to all classes of business men, discusses fully the characteristic methods of conducting business to-day and makes an interesting application of character reading to the work of business negotiations.

Price, 50 Cents.

Sent, postpaid, on receipt of price, by

David Williams, 96-102 Reade St., N. Y.



AMERICAN HIGH SPEED ENGINE, built of any required size and power, for all stationary and marine purposes. Makes 1000 or more revolutions per minute. Has no dead centers. Unequaled regulation. No skilled engineer required! Cheap! Economical! Simple! Durable!

AMERICAN SCREW COMPANY

PROVIDENCE, R. I.

COLD FORGED PRODUCTS.

"Spur Pointed" Wood Screw.

Patented May 10, July 19, 1887; Oct. 29, 1889; Aug. 19, Oct. 21, 1890; April 7, May 12, 1891.

ITS ADVANTAGES ARE:

Stronger than a cut screw.
Forged nick.
Requires the use of only one bit.
Inserted easier.
Increased holding power.
Centralized point.
Is cold forged, and entire surface has a metallic skin.

Samples Sent on Application.

Patented Nov. 11, 1890, Oct. 20, 1891.

FLUTED TIRE BOLTS.

SEND FOR SAMPLES.

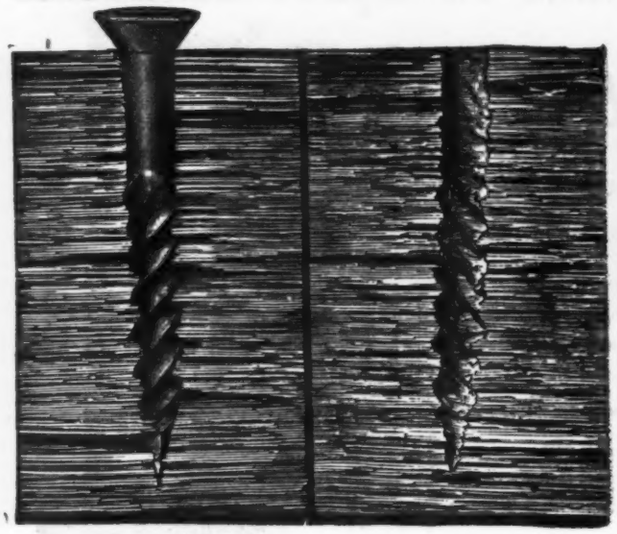
Cold Forged Coach Screws.

Patented May 10, July 19, '87; Oct. 29, '89; Aug. 19, Oct. 21, '90; Apr. 7, '91.

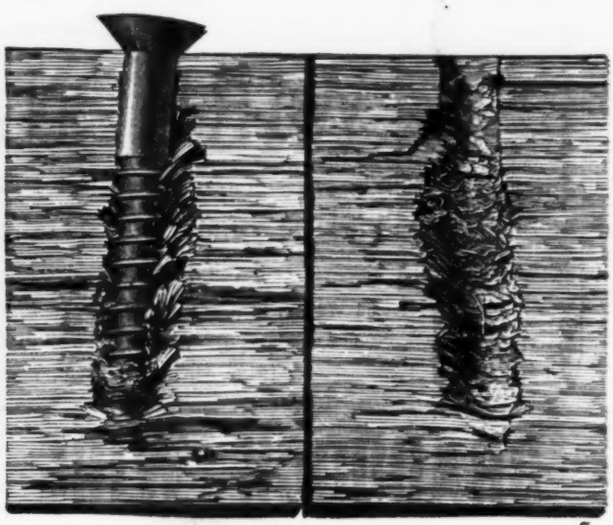
"ROGERS' DRIVE SCREWS."

Patented May 10, 1887; July 19, 1887; July 10, 1888. Other patents pending.

List prices, same as common iron wood screws. Discount for Flat Heads, 82½%.



THE "ROGERS DRIVE SCREW,"
Driven with a hammer its entire length.



A COMMON CUT THREAD SCREW,
As ordinarily inserted, *i. e.*, driven two-thirds of its length with a hammer and the balance with a screw-driver. Fibres of the wood are necessarily broken, and holding power of screw much impaired.

Should be driven with a hammer its entire length.

1. Turns like a screw when driven with a hammer.
2. Holds stronger than a common screw as ordinarily inserted.
3. Does not break the fibres of the wood.
4. Cheaper than a common screw.
5. Is cold forged and has metallic skin over entire surface.

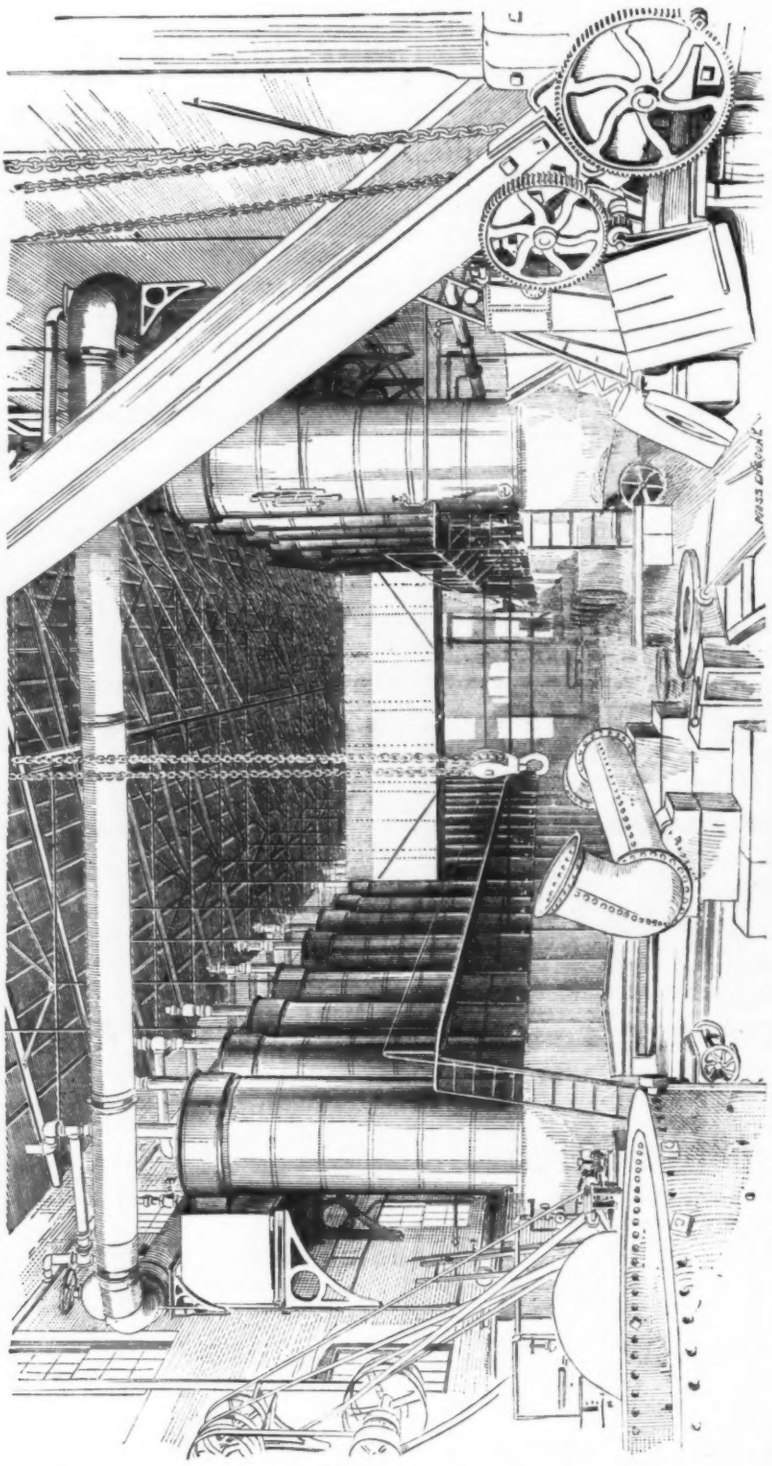
A Treatise on Fuel. By ARTHUR V. ABBOTT, C.E. Founded on the original treatise of C. Wm. Siemens, D.C.L. Illustrated, 132 pages, cloth, boards..... $0.50
For Sale by David Williams, 96-102 Reade St., N. Y.

THE BERLIN IRON BRIDGE CO.,

Engineers, Architects and Builders in Iron.



The above illustration is taken direct from a photograph, and shows the interior of a Boiler Shop, the roof of which was designed and built by us for The Amoskeag Mfg. Co., at Manchester, N. H. The building is 75 ft in width by 275 ft. in length; the walls being made of brick, and the roof being made of iron—iron trusses, iron purlins and covered with corrugated iron, so that there is absolutely no wood-work anywhere about the building which can take fire. For Boiler Rooms this construction particularly commends itself.

Office and Works, No. 5 Railroad Avenue,

EAST BERLIN, CONN.

LAFLIN & RAND POWDER CO.

New York Office, 29 Murray St.

WHEN: Business hints for business men in business hours. Bound in attractive pamphlet form, with superior quality of paper and print. Price 25c. This little book, comprising a series of business maxims the result of wide experience and observation, should be read by every business man or clerk and all those engaged in commerce or trade. Successful merchants will here recognize, in condensed form, the principles upon which their prosperity has been based, and will find reminders and pointers which cannot fail to be an invaluable aid. Clerks, Tradesman, and those who have yet their way to pave, will find the essential facts which govern all permanent success, many of which to him are either unknown or not fully appreciated. Each paragraph is introduced by the title word WHEN. Sent, post-paid, on receipt of price by DAVID WILLIAMS, Publisher, 96-102 Reade St., New York.

IRON CASTINGS TO ORDER.

Small and Large Grey (or common) Iron Castings of uncommonly fine quality. Four large Cupolas run daily. Castings soft, smooth and strong. Prices very Low.

We make Castings for all purposes, such as Builders' and Domestic Hardware, Electrical work, Piano and Organ, Wringer, Furniture, Lamp and Chandelier and Agricultural Implement Castings, Grates, Furnace and Machinery Castings, &c., &c. *If you buy any, write us,* stating quantities. Send samples if possible.

Chemical Analysis of Iron.

A Complete Account of all the Best Known Methods for the

Analysis of Iron, Steel, Pig Iron, Iron Ore, Limestone, Slag, Clay, Sand, Coal, Coke, and Furnace and Producer Gases.

SECOND EDITION.

——BY——

ANDREW ALEXANDER BLAIR,

Graduate United States Naval Academy, 1866; Chief Chemist United States Board appointed to Test Iron, Steel and other Metals, 1875; Chief Chemist United States Geological Survey and Tenth Census, 1880; Member American Philosophical Society, etc.

Handsomely Illustrated by 120 Outline Engravings on Wood. 8vo. 314 Pages. Half Morocco. $4.00.

The reputation which this book has so quickly won for itself among analytical chemists will certainly be increased by the improvements in the second edition. Every means has been taken to bring it up fully to the times, by incorporating all the new and improved methods, necessitating the addition of thirty pages of letterpress and nine new cuts.

"This work may, in fine, be pronounced a useful summary of a special and important department of analytical chemistry by an author of prolonged and wide practical experience."—*Chemical News*, London.

"Mr. Blair's is a standard work which will prove the chief guide of the young chemist, and a frequent guide to more experienced analysts."—*The Iron Age* New York.

"All iron chemists will find this book an exceedingly useful laboratory companion."—*The Chemical Review*, London.

"It is thorough, accurate, and so complete, as to be practically exhaustive of the important subject of which it treats."—*Philadelphia Iron.*

GRAPHITE PAINT!

TO DEALERS:—That Graphite Paint is the best protecting covering for exposed surfaces whether metal or wood is becoming more surely known and demonstrated every day. No matter what the exposure may be, whether heat, brine, acid or ordinary weather conditions, nothing will resist and protect as Graphite (Plumbago) will. **BUT IT MUST BE PURE.** We have our own Graphite mine, the celebrated Plombagina mine, Sonora, Mexico, and are the only manufacturers that can guarantee absolute purity, and this we do unqualifiedly. Our paint is used in every section of this country, and has become well and favorably known. It is already handled by many dealers, but having established its supremacy, and having a multitude of testimonials from our customers we want it on sale in **EVERY CITY IN THE COUNTRY**, so that users of this material may not be delayed by sending to us for it. If no more than one pail, we want you to have that pail, and sell it to your most critical customer, on our positive guarantee that it will outspread and outlast any paint in the market under any and all conditions. And further, that owing to its great surreading quality, the expense in using it will be as low as the cheapest mineral paint. **WRITE US FOR PARTICULARS AND PRICES. WE WILL PUT YOU ON A PROFITABLE BASIS, AND ADD TO YOUR STOCK AN ARTICLE THAT WILL PLEASE YOUR TRADE.**

STEAM PLANTS.— Before purchasing any **FEED WATER HEATER and PURIFIER**, or deciding upon the adoption of any **System of Steam Heating**, kindly send us postal, and we will send one of our representatives, at our expense, to call upon you personally, in order to explain advantages which we guarantee over all others.

WEBSTER'S "VACUUM" FEED WATER HEATER AND PURIFIER.

Sizes from 30 to 2,500 horse-power carried in stock. Over 125,000 horse-power in daily use in the largest steam plants in the United States. *Send for Catalogue.* **CARDINAL POINTS.**—Highest temperature, purest feed water upon least quantity of exhaust steam, free exhaust to atmosphere, between engine and heater.

"WILLIAMES' VACUUM SYSTEM OF STEAM HEATING."

Without Back Pressure upon the Engine Guaranteed.—*Patent sustained in two Suits in the United States Circuit Court.* Adopted by 300 of the largest Factories, Mills, Electric Light Companies, Market Houses, Office Buildings, Schools, Theatres, Churches and Railroad Stations. *Send for Catalogue.*
ADVANTAGES.—Free exhaust to atmosphere, relief of back pressure, saving power, water of condensation, increasing efficiency of heating system, saving from 10 to 40 per ct. of fuel. Exact percentage can be determined after making examination of steam plant.—**ALL INFRINGERS WILL BE PROSECUTED.**

Can be attached to any steam plant. Furnished upon trial under guarantee. WARREN WEBSTER & CO., Main Office & Works, 491 N. 3d St., Philad'a.

FACTORY ACCOUNTS.

By GARCKE and FELLS.

A handbook for accountants and manufacturers on the principles which regulate factory accounts and the methods by which these principles can be put into practice and made to serve their proper purposes in the economy of manufacture. Beginning with the development of the factory system, this book is a general treatise on the subject, including organization, management, cost, profit and loss, &c. The table of contents shows several hundred heads or topics treated, besides which are several appendices; among them that on the "Nomenclature of Machine Details" will be found of special interest. A "Glossary of Terms" and an index of 20 pages are aids which render the book still more available to the ordinary reader. It contains 51 specimens or models for books of account.

240 pages; 6 x 8¾ inches; cloth, - - - - $2.80.

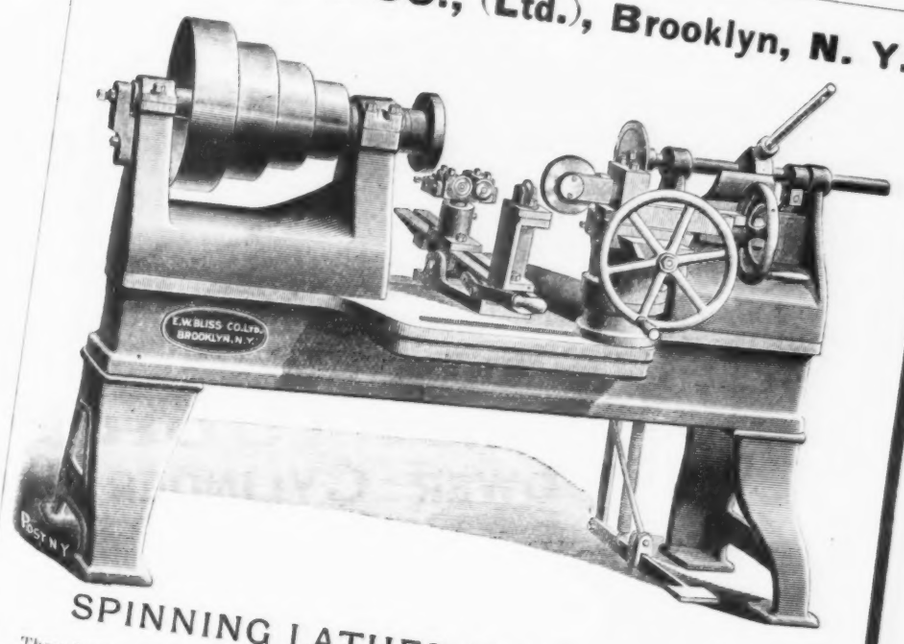
E. W. BLISS CO., (Ltd.), Brooklyn, N. Y.



SPINNING LATHES Nos. 4, 5 and 6.

These Lathes are for spinning, burnishing, trimming and wiring such work as is produced by the Drawing Presses, where such spinning is necessary. They are also used for hand spinning from the flat and when intended for that purpose a T rest is provided, instead of the compound rest.

The Lathes are built in the most substantial manner, with hammered steel spindles, bronze metal boxes, and heavy compound slide rests. They are supplied either right or left handed as desired, and for either outside or inside spinning. Iron cones are supplied unless wood cones are specially ordered. The hardened steel burnishing roll is provided with anti-friction bearings to prevent heating.

By use of the tilting rest all but the largest articles can be spun, trimmed and wired at one setting. A countershaft, with tight and loose pulleys and cone, is provided with each lathe.

No. of Lathe.	No. 4	No. 5.	No. 6.
Price of lathe and countershaft, without compound rest, burnisher, trimming or wiring attachment.	$125.00	$140.00	$260.00
Compound rest	100.00	125.00	150.00
Anti-friction burnisher	35.00	40.00	40.00
Trimming attachment	30.00	35.00	35.00
Wiring attachment	10.00	10.00	10.00
Tilting rest alone	25.00	25.00	30.00
Price complete as above	$325.00	$375.00	$525.00
Weight, about	850 lbs.	1,200 lbs.	3,000 lbs.
Length of bed	54 ins.	50 ins.	76 ins.
Swing over bed	20 ins.	22 ins.	30 ins.
Swing over rest	13 ins	15 ins.	21 ins.
Diameter of cones	5 7⅛ & 10 ins	6, 8 & 10 ins.	8, 11, 14, 17 ins.
Face of cones	2⅝ ins	3 ins.	4 ins.
Diameter of T. and L. pulleys on countershaft	12 ins.	12 ins.	16 ins.

BOOKS

—ON—

Mechanical and Steam Engineering.

Grimshaw.—The Steam Boiler Catechism. A practical book for steam engineers, and for firemen, owners and makers of boilers of any kind. Covering the properties of steam and of fuels and the theory and practice of designing, constructing, setting, connecting, testing, firing and repairing. By ROBT. GRIMSHAW, M. E. 401 pages; cloth.....$2

Thurston.—Stationary Steam Engines. Especially adapted to electric lighting purposes. Treating of the development of steam engines—the principles of construction and economy, with description of moderate speed and high speed engines. By Prof. R. H. THURSTON. Fourth edition; 177 pages; cloth.....$1.50

Edwards.—The English and American Mechanic. An every-day handbook for the workshop and factory, containing several thousand receipts, rules and tables indispensable to the mechanic, the artisan and the manufacturer. By B. FRANK VAN CLEVE. A new enlarged edition by EMORY EDWARDS, M.E. 476 pages, illustrated; cloth.....$2

Pray, Jr.—Twenty Years with the Indicator. Being a practical text book for the engineer or the student, with no complex formulæ. By THOMAS PRAY, JR., consulting, constructing, civil and mechanical engineer, &c. Newly arranged; complete in one volume; 284 pages; cloth.....$2.50

Edwards.—Modern American Locomotive Engines, their Design, Construction and Management. A practical work for practical men. By EMORY EDWARDS, M.E. Illustrated by 78 engravings; 388 pages; cloth.....$2

Porter.—Richards' Steam Engine Indicator. A treatise on the development and application of force in the steam engine. Fourth edition, revised and enlarged. By C. T. PORTER. 273 pages; 20 plates; cloth...$3

Wood.—Thermo-Dynamics, Heat Motors, and Refrigerating Machines. By PROF. DE VOLSON WOOD. Third edition, revised and enlarged; 452 pages; cloth.....$4

Edwards.—The American Steam Engineer. Theoretical and practical, with examples of the latest and most approved American practice in the design and construction of steam engines and boilers of every description. For the use of engineers, machinists, boiler makers and students. By EMORY EDWARDS, M.E. Illustrated by 77 engravings; 419 pages; cloth.....$2.50

Thurston.—Steam Boiler Explo- sions in Theory and Practice. By Prof. R. H. THURSTON. Second edition; illustrated; cloth.....$1.50

Cromwell.—A Treatise on Tooth- ed Gearing. Containing complete instructions of designing, drawing and constructing spur wheels, bevel wheels, lantern gear, screw gear, worms, &c., and the proper formation of tooth profiles. For the use of machinists, pattern makers, draftsmen, designers, scientific schools, &c. With many plates. By J. HOWARD CROMWELL, Ph.B. Third edition; 245 pages; cloth.....$1.50

Haswell.—Mechanics' and Engi- neers' Pocket Book. By CHAS. H. HASWELL. Fifty-fifth edition; 956 pages; leather....$4

Templeton.—Mechanic's, Mill- wright's and Engineer's Pocket Companion. With American additions. By W. TEMPLETON. Leather; tuck.....$2

THE WORLD'S CHAMPION

New Upright Self Feed

1891 Pattern $10 Post Drill.

This Drill is Double Back Geared, can be changed from slow to fast speed, weighs 120 pounds, drills from ⅛ to 1¼ inch hole, and to center of 14½-inch circle, designed for general blacksmith work. The diameter of the spindle is 1⅛ inch, length 13 inches, the screw having a run up and down of 4 inches. The crank can be shifted from shaft A to shaft B (or balance wheel shaft), thus increasing the power two and one-half times for heavy work. Shaft A for lighter work and faster speed. The change can be made in an instant from fast to slow speed. This Drill is supplied with an improved Automatic Self-feed. The drill is mounted on a hardwood 2-inch plank, 50 inches long, 6 inches wide, and not backed up by an extra addition of wood in order to increase the swing, which is often done to save iron and thus weakens the drill where it should be the strongest. The Drill is warranted in every respect and has the words cast thereon, "Every Drill Warranted." The spindle is bored to take ½-inch straight shank drills, but if specially ordered will be bored to take in ⅝ or 41-64, without extra charge.

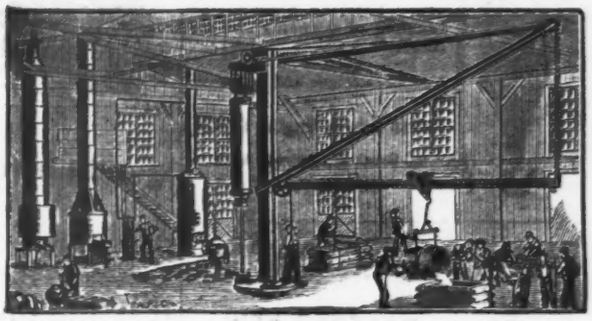
THE BRIDGEPORT GUN IMPLEMENT CO.,

Depot for Sales. 313 and 315 Broadway, New York.

THE Balanced "Steam-Hydraulic" Crane.

Blast Furnace Managers Mark This.

We are making lots of these Cranes for handling cinder, and we have never yet supplied a Crane that did not **SAVE IN ACTUAL WAGES $900 PER YEAR,** and very often twice that This equals a **CASH DIVIDEND OF 5 PER CENT. ON $18,000.** Not only does it make this saving in wages, but the cinder bank becomes a more desirable place to work, and there is no longer trouble in getting good men to work there



Cut shows 5-ton Ridgway Crane in Foundry, Diamond State Iron Co., Wilmington, Del.

THE GREATEST FOUNDRY CRANE KNOWN.

Rolling Mill Managers Mark This.

We are furnishing these Cranes to the best mills in the land, and everybody who gets them say they save their cost in a few months. One man does the work of a dozen, and does it quick. Look at this card next week and see the list of mills using these Cranes.

In these days of **CLOSE PRICES** no concern can afford to throw money away in wages for slow hand-work, when a very little bit of steam can be so cheaply, so easily and so safely harnessed to do the work as in this wonderful Crane.

MARK THIS TOO.—We will any time furnish these Cranes free of all cost to you, and take for our pay one-half what they save you in actual wages.

The most successful, largest and wide-awake concerns in the land are putting in these Cranes. You must do likewise, if you expect to compete with them.

ELEVATORS.—We also build Elevators on this Steam-Hydraulic principle. They are the best Elevators made; never get out of order, and highly efficient. Send for Circulars.

CRAIG RIDGWAY & SON, COATESVILLE, PA.

THE WOODRUFF SYSTEM OF KEYING FOR MACHINERY

Does not require skilled labor to cut key way or fit key.

The peculiar way of inserting the key practically makes it part of the shaft.

A man will fit more than double the number of keys in a day than by the ordinary method.

Will save you from 50 to 75 ℅ on the cost of your keying.

ENDORSED BY MECHANICS AND ENGINEERS.

Fluor-Spar.

ILLINOIS FLUOR-SPAR & LEAD CO

SUCCESSORS TO
MULLIN'S
FLUOR-SPAR AND LEAD MINING CO.,
57 Board of Trade Building, Chicago, Ill.

This Company owns, at Miners City, on the Ohio River, the largest Mines of Fluor-Spar ever discovered.

We are working a large force of miners; our new mills and tram railway are running, and we are now prepared to furnish the purest Fluor-Spar in any quantities to Iron and Steel Manufacturers, to Smelters of Gold, Silver and Copper, and to Paint, Paper and Glass Makers.

Fluor-Spar is pronounced the most powerful of fluxes; it facilitates the reduction of the most refractory materials. For Alkalies, Clays and all Metallic Oxides it has a remarkable solvent power; it reduces the melting point and saves fuel; it diminishes the loss of metal, saves labor and keeps the cupola clean; reacts strongly upon scaffolds and cloggings.

One part of Fluor-Spar is more effective than ten parts of Limestone. Limestone is an enemy to iron; Fluor-Spar is a friend.

Directions for the proper use of Fluor-Spar given our patrons.

We ship Lump, Gravel, Crushed and Ground, in bulk or barrel.

One man can lift two to three times as fast as with any other self-holding chain hoist. Spur gearing in connection with the automatic brake holds the load at any place, reducing friction to a minimum. The hoist has two speeds, is built strong and durable and guaranteed to give satisfaction. Cheaper than any other reliable hoist.

D

"IDEAS for Hardware Merchants."

JUST PUBLISHED.

PRICE $1.00, POSTPAID.

This novel book is the only book ever written especially for Hardware men, and every Hardware Merchant will find it of decided help and of intrinsic value. It tells **How to Advertise** a Hardware Store. **How to Dress** a Hardware Store Window. **How to Select** Seasonable Goods and **How to Display** them to best Advantage. **How to Make** a Success with Hardware. **How to Compete** with "Department Stores." **How to Turn** a Credit Business into a Cash Business. **How to Avoid** Bad Debts and Increase Trade. **How to Secure** Low Quotations from Jobbers and Manufacturers. **How to Arrange** the Fixtures in a Hardware Store. **How to Treat** and Manage Clerks. **How to Keep** your Accounts with the least labor. **How to Systematize** your business and arrange its Details. **How to Arrange** Price-Lists. **How to Meet** close Competitors and **How to be Enterprising. How to Properly** proportion Store Expenses, and thousands of practical hints for Hardware Merchants.

"Ideas for Hardware Merchants"
Sent postpaid upon receipt of price.

Brown & Sharpe Mfg. Co.,

Providence, R. I.

NO. 4.

Plain Milling Machine,

Takes the place of the No. 1 Universal Milling Machine when it is not desired to cut spirals or use an index head.

The overhanging arm supports the outer end of the cutter arbor, either on a centre or a bushing, and may be rigidly connected with the knee by an arm brace. The saddle rests directly upon the knee, and has a movement of 6 3-4 inches in line with the spindle. The platen is 32 inches long, 7 inches wide, and can be lowered 18 1-2 inches from the centre of the spindle. It has an automatic feed of 20 inches. Weight, 1,850 pounds.

Machine Tools on exhibition at 23 South Canal Street, Chicago, Ill.

RICHARD ECCLES, Auburn, N. Y.

A NEW COAL FIELD AND TIMBER DISTRICT.

The **OHIO EXTENSION** of the **NORFOLK & WESTERN RAILROAD** penetrates one of the most valuable coal and timber districts in the United States. The line of this extension is 193 miles in length, from Coal Grove, Ohio, via Kenova, W. Va., to Elkhorn, W. Va., of which 54 miles, to Dunlow, W. Va., is now opened for business and the entire line is under construction and will be completed early in the fall of 1892 It passes through virgin country abounding in gas, splint, cannel, steam, coking, and domestic coals and fire-clay; chestnut-oak, white-oak, beech and poplar timber. Those looking for advantageous sites for the location of saw-mills or tanneries and establishments for the manufacture of furniture, wagons, agricultural implements, wood-pulp, fire-brick, or manufactured iron articles, should investigate the resources of this new field. The new town of Kenova, W. Va., offers many advantages for the location of manufacturing establishments, also the territory opened up by the Norfolk & Western Railroad on the north bank of the Ohio River, between Kenova, W. Va., and Portsmouth, Ohio. For the manufacture of finished iron articles the district offers unequaled advantages, with supply of coal and Pocahontas coke on short hauls, and with the blast furnaces of the Ironton, Hanging Rock and Ashland district in close proximity Favorable freight rates made upon raw materials to all manufacturing establishments on this line.

For further information as to freight rates, maps, names of parties to whom application should be made for coal leases, &c., apply to

JOHN J. ARCHER,
Div. Freight Agent, Columbus, O.
or CHAS. G. EDDY,
Vice-President, Roanoke, Va.

BRANFORD, CONN.,

With its beautiful harbor and its river, navigable for three miles, is one of the finest towns in the country to live in or to work in; special inducements will be offered by the Board of Trade to parties who contemplate establishing or relocating manufacturing plants; correspondence solicited.
CHARLES A. HOADLEY,
Corresponding Secretary

—:A:—
MANUFACTURING PROPERTY.

Splendidly located in a thriving Western City, lying adjoining main line of prominent railway. Every convenience of receiving and shipping over five railways; favorable freights, and floor space exceeding 100,000 feet, sufficient extra land for additions. Running full with capacity of 150 H. P. Would sell the whole with a business well-established for many years, or would form an association with good party for the manufacture of goods adapted more to spring and summer trade, the opposite of present output of fall and winter goods. We consider this an opportunity rarely offered. Would take half interest in a satisfactory connection with agricultural goods or similar class. Good reasons will be given for making this proposition. This party would be pleased to share the management of the business with an equal partner or retire the whole care of it if the association proves satisfactory.
"X. O. F.,"
office of *The Iron Age*, 96-102 Reade St., N. Y.

FOR SALE.

A Tack and Small Nail Factory, consisting of ten Reed Machines with automatic feeders; six Blanchards; two Wire Nail Machines one large, one small; two Double-Point Tack Machines; one Glazier-Point Machine; one Heel Nail Machine; one Chopper, 36-inch knives, one Slitter; two Tumblers; two Grindstones; Engine Lathe, 15-inch swing; Drill Press, 20-in swing. Also all shafting, pulleys, belting and necessary appliances for running the plant. Located within 100 yards of a rolling mill that will furnish material very low. This machinery is practically new. Patterns for each machine. The whole will be sold at a very low price.
THE STANLEY TACK WORKS,
Belleville, Ill.

NOTICE TO JAIL BUILDERS.

Sealed bids will be received at the office of the County Clerk of Monroe County, Michigan, at Monroe, Michigan, until 1.30 P. M. of Wednesday, June 29th, 1892, for the erection and completion of a county jail, to be built upon a site now owned by said county, upon which is now a Sheriff's residence, to which is to be attached the jail structure now advertised for.

Each bidder shall submit with his bid complete plans and specifications of the building which he proposes to erect, which shall include all necessary steel and iron, cells and all equipments and attachments to render the building complete and ready for occupancy.

The bids shall be for the entire work as a whole, covering all plans furnished, the erection and completion of the same ready for occupancy with all the cells and appurtenances complete, and all expenses of whatever name and nature.

No bid will be considered which exceeds the sum of eight thousand dollars ($8000)

The board reserves the right to reject any and all bids. The successful bidder will be required to give bonds in the sum of the contract.

Bids will be opened by the Board of Supervisors on June 29th, 1892, at 1.30 P.M.

Bids should be sealed and endorsed "Proposals for Jail," and addressed to the undersigned.

C. H. CALDWELL,
County Clerk, Monroe, Michigan.

THE EDWARD P. ALLIS CO.,
Milwaukee, Wis.

To Tube and Pipe Manufacturers, Steel Mill Owners and Capitalists

The undersigned has invented machines and processes for making seamless tubes directly from molten steel, glass or fusible material of any kind. Has also invented machines and processes for making seamless tubes from billets or bars of steel or other granular metal. The machines, full working size, are all built, but the owner having insufficient means to complete the experiments in testing them, the cost of which ought not now to be large, desires the co-operation of some one who is looking for a chance to make money. Expert examination and investigation will prove the legitimacy and extensive value of the enterprise. I will treat only with principals who send me their full address and references as to financial standing. Address

"V. B.," care Carrier 24, Boston, Mass.

THE LATEST BOOKS.

Ideas for Hardware Merchants. By D. T. MALLETT. CONTENTS: Starting a Hardware Store; What Hardware Dealers may Sell; Hints about Inventory; Behind the Desk; Ratio of Expenses to Sales; Retail Advertising; System in the Store; The Use of a Store Window; The Holiday Trade in Hardware; John Jones Jr.; The Successful Merchant; Parable of a Foolish Trader; Cordiality Between Competitors; Commercial Value of a Smile; More about Advertising; Business Education; Fable of the Magnet; Why One Merchant Failed; The Other Half; Cash or Credit; Don't Get Into a Rut; The Value of Price-Lists; A Store Library; Books for Hardware Men; Advertisements of Leading Manufacturers. Paper bound $1.00

Annual Statistical Report of the American Iron and Steel Association for 1892. 80 pages, cloth $3.00

Miner's Pocket Book; a reference book for miners, mine surveyors, geologists mineralogists, millmen, assayers and metal merchants all over the world. By C. G. W. LOCK. 472 pages, 16mo, flexible leather..... $5.00

The Metal Worker Essays on House Heating by Steam, Hot Water and Hot Air, with introduction and tabular comparisons. Second edition, revised. To which has been added a selection from the Letters of Criticism on the Essays as originally published in *The Metal Worker* and a chapter on Proportioning Radiating Surfaces by JOHN J. HOGAN. Arranged for publication by A. O. KITTREDGE, Editor of *The Metal Worker, Carpentry and Building*, &c. Author of the "The Metal Worker Pattern Book," "Practical Estimator," &c. 407 pages, 7x9½ inches. Handsomely bound in cloth. One volume.. ..... $3.00

Valve Gears for Steam Engines. This book is intended to give engineering students instruction in the theory and practice of designing valve gears for steam engines. With the vast number of valves and gears in use at the present time, an exhaustive treatment in a text-book appears out of place; the author's aim is rather to give the learner a firm grasp of the principles and some facility in their application. Each type discussed is illustrated by one or more examples selected from good practice. By CECIL H. PEABODY. 8vo, cloth, $2.50

Dana's System of Mineralogy. By E. S. DANA. Sixth edition, entirely rewritten and enlarged. 1137 pages, cloth..... $12.50

A Dictionary of Electrical Words, Terms and Phrases. Although a comparatively short time has elapsed since the original issue of the work, the rapid growth of electrical science has induced a second edition, which is practically a new work based on the same general plan as the original. Its character is encyclopedic, endeavor being made to define electrical words, terms and phrases, and at the same time to give a brief statement of the principles of science involved in the definition. The system of cross references renders it possible to use the dictionary as a text-book. By EDWIN J. HOUSTON. Second edition, rewritten and enlarged. 562 pages, cloth..... $5.00

Miner's Pocket-Book, a reference book for miners, mine surveyors, geologists, mineralogists, millmen, assayers, metallurgists and metal merchants all over the world. SYNOPSIS OF CONTENTS: Motive Power; Transmitting Power; Prospecting; Tools; Drilling; Blasting; Shaft Sinking; Pumping; Ventilating; Lighting; Coal Cutting; Hauling and Hoisting; Ore Dressing; Mine Surveying; Assaying; Glossary. With numerous tables, and a complete index. By C. G. WARNFORD LOCK. 472 pages, illustrated, flexible leather..... $5.00

Practical Electrics. A universal handy-book on every day electrical matters, including connections, bells, batteries, alarms, carbons, induction intensity and resistance coils, dynamo electric machines, fire risks, measuring microphones, motors, phonographs, storage and telephones. Fourth edition, 8vo, cloth..... $0.75

Treatise on the Working and Management of Steam Boilers and Engines, Shafting, Gear and Machinery. CONTENTS: Introduction, Vertical and Horizontal Boilers; Brick Work Setting for Boilers; Boiler Houses and Working of Boilers; Fitting of Boilers and Method of Working; Engines; Foundations of Engines and Engine Houses; Shafting and Gear to drive Machinery in Mills and Factories. Revised, enlarged, and partly rewritten. By FREDERICK COLVER, M. Inst. C. E. Second edition, 108 pages, 12mo, cloth, $1.50

Blasting; a handbook for the use of engineers and others engaged in mining, tunneling, quarrying, &c. By O. GUTTMANN. 190 pages, 8vo, cloth, $4.25

Blowpipe Analysis. By J. LANDAUER. Authorised English translation by J. TAYLOR. Second edition, revised and enlarged. 173 pages, 12mo, cloth..... $1.10

Irrigation Canals, and other Irrigation Works. By P. J. FLYNN. Illustrated, 8vo, cloth..... $8.00

THE HORIZONTAL BORING MACHINE

has been our chief study for the past four years.

About fifty of our machines are now in use. We have striven to meet our customers' needs, and we have altered and improved our designs with every batch of machines. Our customers say that ours is the simplest and most complete of all the horizontal boring machines made. We think that they are right; and, as we manufacture the machines with especial tools, we can sell them at such prices that no well equipped machine shop can afford to be without one. Send for particulars to the

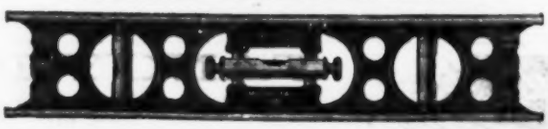
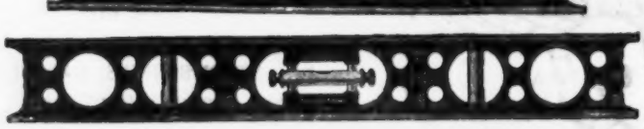
GOODELL'S PATENT IRON LEVEL.

No. 23.



No. 24.



No. 25.

No. 26.

These Levels are entirely new, both in design and construction. The improvement for which we shall ask letters patent consists in the ingenious method of adjusting the glasses, which is done by loosening one screw and tightening another. The points of these screws strike the case which holds the bubble glass near the end, one being on the upper and the other on the lower side. The stocks are japanned, while all the trimmings are burnished Brass or Nickel-plated.

PRICES.

No. 20 — 4-inch	Right Angle Triangle Level	per doz	$9.00

LePage's Liquid Glue

MENDS EVERYTHING.

Every Dealer Should Carry it in Stock.

It is the Standard of Excellence and the Strongest Adhesive known.

Liberal advertising and legitimate methods have created a demand for

LEPAGE'S GLUE,

which its unequaled merit is continually increasing.

IT CONTAINS NO ACID.

IT SELLS FASTEST

AND IT IS

THE BEST.

Order a sample assortment and secure free a handsome Display Stand for your counter.

Beware of Infringements and Accept no Substitutes.

☞ You have no time to waste in fruitless efforts to convince your customers that something else is as good as "Le Page's."

——MANUFACTURED ONLY BY——

No More Leaky Sky Lights

Or Slipping and Breaking of Glass in Green Houses or Farmer's Sash. You can save money and glass by using the

PATENT GLAZIER Twin Points.

THESE POINTS are far superior to the old mode of setting glass, as they will hold each pane in place, preventing the glass from slipping and causing binding and cracking. Each box contains 500 rights and 500 lefts. We also make a tool for driving the points. **Price, 35c a Box. Driver, 15c. A Liberal Discount to the Trade.**

These points are kept by all prominent Hardware, Paint, Oil, Seedsmen, and Florist Supply Stores in the country. If you do not find them, send postal for a free sample, or send 60 cents for 1 package and 1 driver by mail, post paid to any part of the U. S.

H. W. EAMES CO., Milford, Mass

IT PAYS. Nothing about a Hardware Store looks so well as clean shelves and the goods neatly boxed with a fresh sample on the front. Customers are attracted by such a display of care, and notice and buy things that would ordinarily go without notice. The Boxes are inexpensive, save the goods, make a big show for a small investment and help the salesmen. Send to

JESSE JONES & CO., Philadelphia

for Catalogue of prices, styles and references.

Box Straps.

Without waste. Absolutely no waste ends. Two holes punched near each end, and then groups of 3 holes about every 3 inches. Japanned black to prevent rusting. $1.00 per bundle of 300 feet. No razor edges to cut the bands.

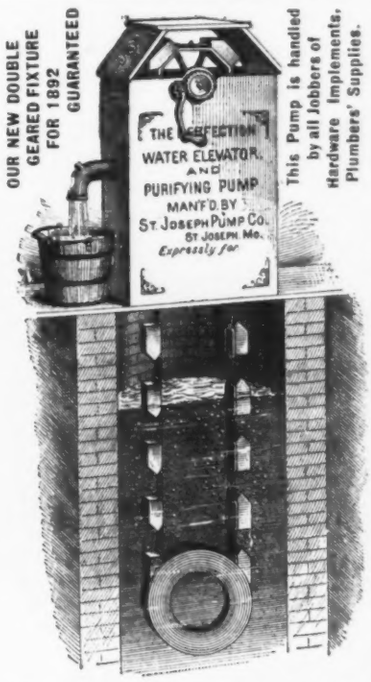
Agents for Southern Territory.



$1.000 for any Bucket Pump that will equal the "Perfection" in neatness, workmanship or durability. It is the only Bucket Pump on earth, where the chain or buckets are made of strictly one piece of **BLACK OPEN HEARTH STEEL AND FREE FROM SOLDERING,** being folded by double lap seams and the entire product galvanized after construction.

THE CELEBRATED

"PERFECTION"

Water Elevator and Purifying Pump.

The storage of water in cisterns and open wells is the method largely adopted throughout this country for Drinking, Cooking and Bathing purposes. We have had an abundance of rainfall, wells and cisterns are full, the water contained therein becomes FOUL and STAGNATED during the months of July, August and September. If you will place a "PERFECTION" PUMP on well or cistern we GUARANTEE the water to become and remain as PURE as a MOUNTAIN STREAM. It is the simplest structure for raising water on the Continent—guaranteed not to freeze.

The Perfection

Having no Valves, Tubes or Plungers to get out of order, no Wood Tubing to Pollute the water, no attachment below platform, never has to be primed, packed or thawed out; easiest pump operated. Over 140,000 in daily use.

We are now striping and decorating the "Perfection" in the finest manner possible.

Agents wanted in every town. Dealers, write your jobbers for quotations. Be sure you get "The Perfection," take no other. For full information, circulars, catalogues, etc., address the manufacturers,

St. Joseph Pump Co., St. Joseph Mo., U.S.A.

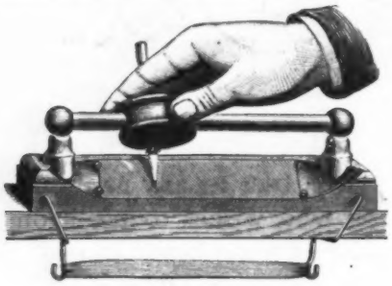
FOR SALE BY ALL DEALERS IN HARDWARE, CUTLERY AND FANCY GOODS.



NOT IN YOUR LINE?

IF YOU DO NOT SELL IT YOU SHOULD USE IT.

THE PERFECT PENCIL POINTER.

Will save about one-half your pencil bill.
It is a practical machine, not a toy.
The only "Perfect" machine for the purpose
Does better work than can be done in any other way.
Does not break or waste the lead. Saves time.
Prevents soiling the hands. Any one can use it.

The above cut shows the Pointer attached to the edge of a table and shows how to take hold of the carriage in using. The pencil revolves as it is moved along on the surface of a file, which is especially made for the purpose. The entire simplicity of the whole machine makes it little liable to get out of order. By use of the clamps it can be instantly attached to desk or table, and as quickly removed, or can be used when held in the hand. The material and workmanship are the best and **EVERY MACHINE FULLY WARRANTED.**

H. S. OSGOOD, Supt. American Express Co., Portland, Me., says:
We have had one of your Pencil Pointers in use for several months, and it has done its work rapidly and well. We never saw a pencil sharpener before that would sharpen a pencil. Yours will do it every time and do it well.

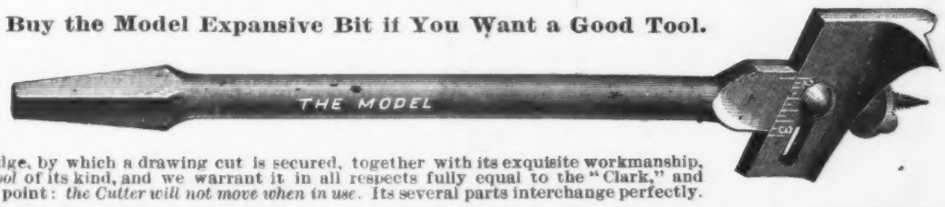
Representing Leading American Hardware Manufacturers.

Sole Agents for the "W. A. Ives Co." celebrated brand of Augers, Auger Bits, Expansive Bits and other Boring Tools.

Buy the Model Expansive Bit if You Want a Good Tool.



THE superior excellence of this tool consists in the peculiar seat in which the Cutter is placed. The manner in which it is fitted into its seat, in which it is so firmly held as to be absolutely immovable in use, the curve of its cutting edge, by which a drawing cut is secured, together with its exquisite workmanship, all combine to make it a *Model Tool* of its kind, and we warrant it in all respects fully equal to the "Clark," and decidedly better in one important point: *the Cutter will not move when in use.* Its several parts interchange perfectly.

The Bridgeport Chain Co.'s Triumph Chain, made into Halters, Traces, Cow Ties, Tie-outs, Kennel Chains, &c.; also cut to lengths for manufacturers' use.

The cut represents the exact size of 6/0.

Thirteen Sizes made, 6/0 being the Largest.

THE BRAY FLY BOOK.

THE reputation of the BRAY FLY BOOK as the neatest and most practical Fly Book made is well established everywhere. The quickness and dispatch with which Flies of any size are placed within these books without coiling of the Snell or mutilation of the Fly makes its superiority over all other methods very easily recognized by all anglers. The Flies can be as readily detached when wanted. The leaves to which the Flies are attached will in the future be made of a new material of more durability and finish than before. The workmanship and material will be kept up to highest standard, and no effort will be spared to keep the BRAY FLY BOOK (as it now is) the BEST in the WORLD.

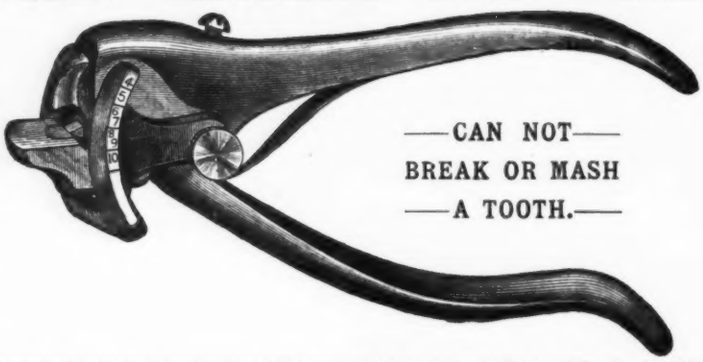
LLOYD ACME SAW SET.



—CAN NOT—
BREAK OR MASH
—A TOOTH.—

A WOOD-BUTCHER CAN SET A SAW AS WELL AS A SAWYER.

The Screw on the top of the Set prevents mashing the Tooth. The Gauge on the side assures the correct set, and the small Screw on the face of the Set gives the required bend to the tooth. All wearing parts are made of steel, strong and durable.

LIST: HAND SAW SETS, $15.00 PER DOZEN. CROSS CUT SAW SETS, $30.00 PER DOZEN.

WHO HAS NOT HAD BAD HOSE?

NEW SEAMLESS TUBE

OLD LAPPED TUBE

Who has not lost time, patience, money, by attempting settlement for such goods? **THE CAUSE**, in nine cases out of ten, is the lapped seam.

THE REMEDY is in buying our

PATENTED SEAMLESS-TUBE HOSE,

made by machinery, the tube run like lead pipe, through a die. There is no lapped tube, no seam, no crack, no defects: water cannot get through to rot the duck and cause the hose to burst. Made in all sizes and kinds of Garden, Engine, Steam, Fire, Brewers', Cotton Hose, etc.

$50 for sample bale containing
100 feet Buckeye (Black).
100 " Shield High Grade (Blk).
100 " High Pressure (Red).
50 " Shamrock (Green).
50 " Old Gold (Yellow).
100 " Cotton, Rubber Lined.
With couplings attached.
Or bale will be made up as desired at proportionate prices.

Order Sample Bale of our Seamless-Tube Hose—Best in World. Costs no more than ordinary lapped-seam hose. The different colors, Red, White, Black, Green and Yellow, make a fine window or sidewalk attraction.

Wrought Steel Hollow Ware.

"Empire" Cold Handle Steel Spiders.

PATENTED.

The "Empire" Cold Handle Spiders are made from cold rolled wrought steel of the highest grade and finish, and are stamped from a SINGLE PIECE, and polished perfectly smooth and bright. The thickness of the steel of which the Empire Spiders are made (No. 14 Standard gauge) is a guarantee that they cannot break, bend or warp. An important feature also is that they are made without rivets, and cannot leak or the handles become loose.

The handle is reinforced in an attractive manner with a cover made of heavy tin, making a hollow ventilated handle which keeps always cool and comfortable to the hand.

The Empire SPIDERS will be found on inspection the most perfect ever made and cannot fail to give satisfaction. Our 1890 Catalogue of Patented Specialties, Acme Fry Pans, and Edgars' Patent Stove Shovels, mailed on application.

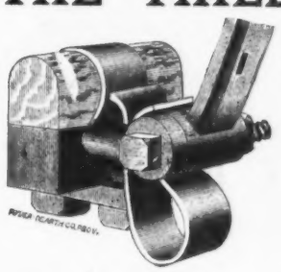
THE THILL COUPLING SPRING



MADE BY THE

SABIN MACHINE COMPANY, Montpelier, Vt.

Is unquestionably the BEST METAL SPRING made for the purpose of preventing the rattling of the Thills.

It is adapted to any coupling where rubbers are used. It does its work perfectly, and is so formed as not to wear the iron of the coupling, as it presents a flat, smooth surface to the bearing, and yet holds the shaft perfectly in place, and prevents all rattling.

It Outlasts many sets of rubbers and costs but a trifle more. It is easily adjusted. Made in four sizes, ⅞, 1, 1⅛ and 1¼ inch. Packed one dozen pairs in a box.

Send for Sample Dozen or Larger Quantities to

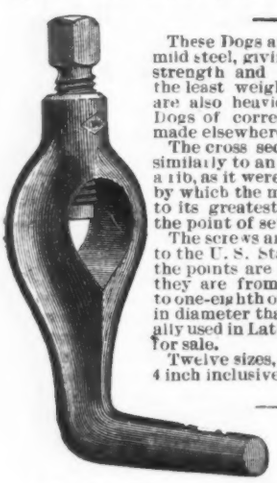
Blocks furnished equipped with grips if desired.
Dean-Whiting Elevator Co.,
140 Union St.,
WORCESTER, MASS.

DROP-FORCED
STEEL LATHE DOGS.



These Dogs are forged from mild steel, giving the greatest strength and toughness for the least weight, while they are also heavier than other Dogs of corresponding sizes made elsewhere.
The cross section is shaped similarly to an ogee, forming a rib, as it were, on the back, by which the metal is utilized to its greatest advantage at the point of severest strain.
The screws are made of steel to the U. S. Standard Gauge; the points are hardened, and they are from one-sixteenth to one-eighth of an inch larger in diameter than those generally used in Lathe Dogs offered for sale.
Twelve sizes, from ⅜ inch to 4 inch inclusive.

COMBINATION WRENCH.

Case-Hardened Throughout. Parts Interchangeable.

This wrench not only combines the superior qualities of a Gas Pipe Wrench but also all the requisite combinations of a regular Nut Wrench, thus making a combination which has no equal.

This Wrench can be Furnished with Long Nut or Sleeve.

No. 3 PIPE WRENCH.

The serrated jaws of the Wrench are interchangeable; that is, the same serrated plate may be used for either the stationary or sliding jaw, so that if one plate is broken another can be furnished adapted to either jaw without express designation. The slides, nuts and various parts are also interchangeable, thus easily repairing the Wrench at very small expense, and with as perfect practicability for further use as when the Wrench was new.

For Circulars and Price List, address

BEMIS & CALL HARDWARE & TOOL CO., Springfield, Mass., U. S. A.

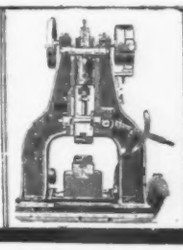
SINGLE AND DOUBLE STANDARD



WHEN.

Business Hints for Business Men in Business Hours. A series of practical hints and pointers of a business nature. By D. T. MALLETT. Pamphlet, 25 cents. Sent, postpaid, by **DAVID WILLIAMS, 96-102 Reade St., New York,**

The Art of Selling

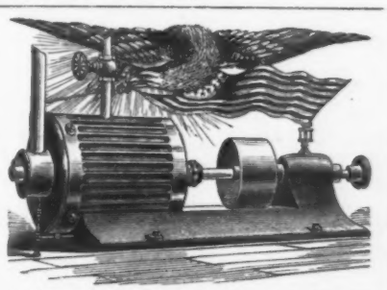
By F. B. GODDARD.

In this book the author lets the reader into the secrets of the accomplished and successful salesman, illustrates his tact and finesse and tells how he masters men. But beyond this, the work embraces much information which will be instructive and useful to all classes of business men, discusses fully the characteristic methods of conducting business to-day and makes an interesting application of character reading to the work of business negotiations.

Price, 50 Cents.

Sent, postpaid, on receipt of price, by

David Williams, 96-102 Reade St., N. Y.



AMERICAN HIGH SPEED ENGINE, built of any required size and power, for all stationary and marine purposes. Makes 1000 or more revolutions per minute. Has no dead centers. Unequaled regulation. No skilled engineer required! Cheap! Economical! Simple! Durable!

For further information and Illustrated Catalogue, call on or address: AMERICAN ENGINE CO., Bound Brook, N. J.

Stanley's Patent Duplex Levels.

These Levels have the ordinary form of leveling-glass, set in the top surface of the Stock; and an additional leveling-glass is set in the side, at the opposite end from the Plumb.

Both glasses are protected by Brass Discs; can be seen from either side; and are inserted in the Level, with the least possible removal of wood from the Stock.

No. 25. Duplex Plumb and Level, Mahogany.....$2 00
No. 30. Duplex Plumb and Level, Cherry..... 1 50

Manufactured by STANLEY RULE & LEVEL CO., New Britain, Conn.

AMERICAN SCREW COMPANY

PROVIDENCE, R. I.

COLD FORGED PRODUCTS.

"Spur Pointed" Wood Screw.

Patented May 10, July 19, 1887; Oct. 29, 1889; Aug. 19, Oct. 21, 1890; April 7, May 12, 1891.

ITS ADVANTAGES ARE:

Stronger than a cut screw.
Forged nick.
Requires the use of only one bit.
Inserted easier.
Increased holding power.
Centralized point.
Is cold forged, and entire surface has a metallic skin.

Samples Sent on Application.

Patented Nov. 11, 1890, Oct. 20, 1891.

FLUTED TIRE BOLTS.

SEND FOR SAMPLES.

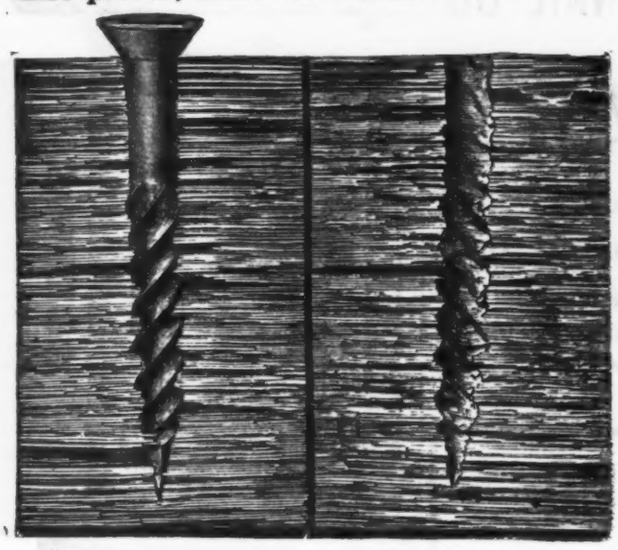
Cold Forged Coach Screws.

Patented May 10, July 19, '87; Oct. 29, '89; Aug. 19, Oct. 21, '90; Apr. 7, '91.

"ROGERS' DRIVE SCREWS."

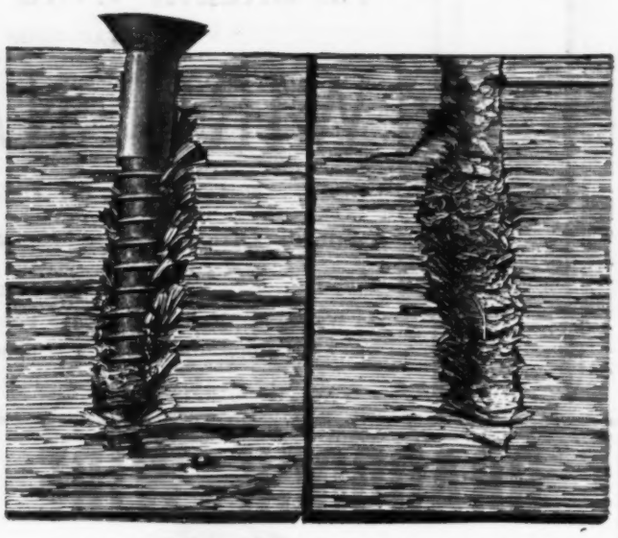
Patented May 10, 1887; July 19, 1887; July 10, 1888. Other patents pending.

List prices, same as common iron wood screws. Discount for Flat Heads, 82½%



THE "ROGERS DRIVE SCREW,"

Driven with a hammer its entire length.



A COMMON CUT THREAD SCREW,

As ordinarily inserted, *i. e.*, driven two-thirds of its length with a hammer and the balance with a screw-driver. Fibres of the wood are necessarily broken, and holding power of screw much impaired.

Should be driven with a hammer its entire length.

1. Turns like a screw when driven with a hammer.
2. Holds stronger than a common screw as ordinarily inserted.
3. Does not break the fibres of the wood.
4. Cheaper than a common screw.
5. Is cold forged and has metallic skin over entire surface.

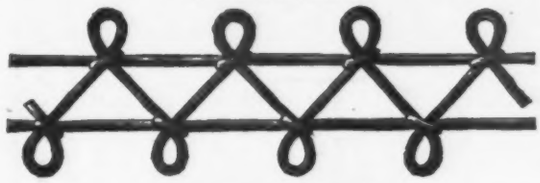
HATHAWAY FENCE WIRE.

Pat. Nov. 19, 1889.

Strong. Handsome.



Durable. Cheap

Above Cut is One-half Actual Size.

This strand is made of the best quality of galvanized steel wire, is one and three-fourths inches wide, much wider than any other, and consequently is easily seen by stock, and it is not possible for them to be injured by it, as with barbed wire. It is a great seller, and if you have not yet had any of it, send for a sample lot to

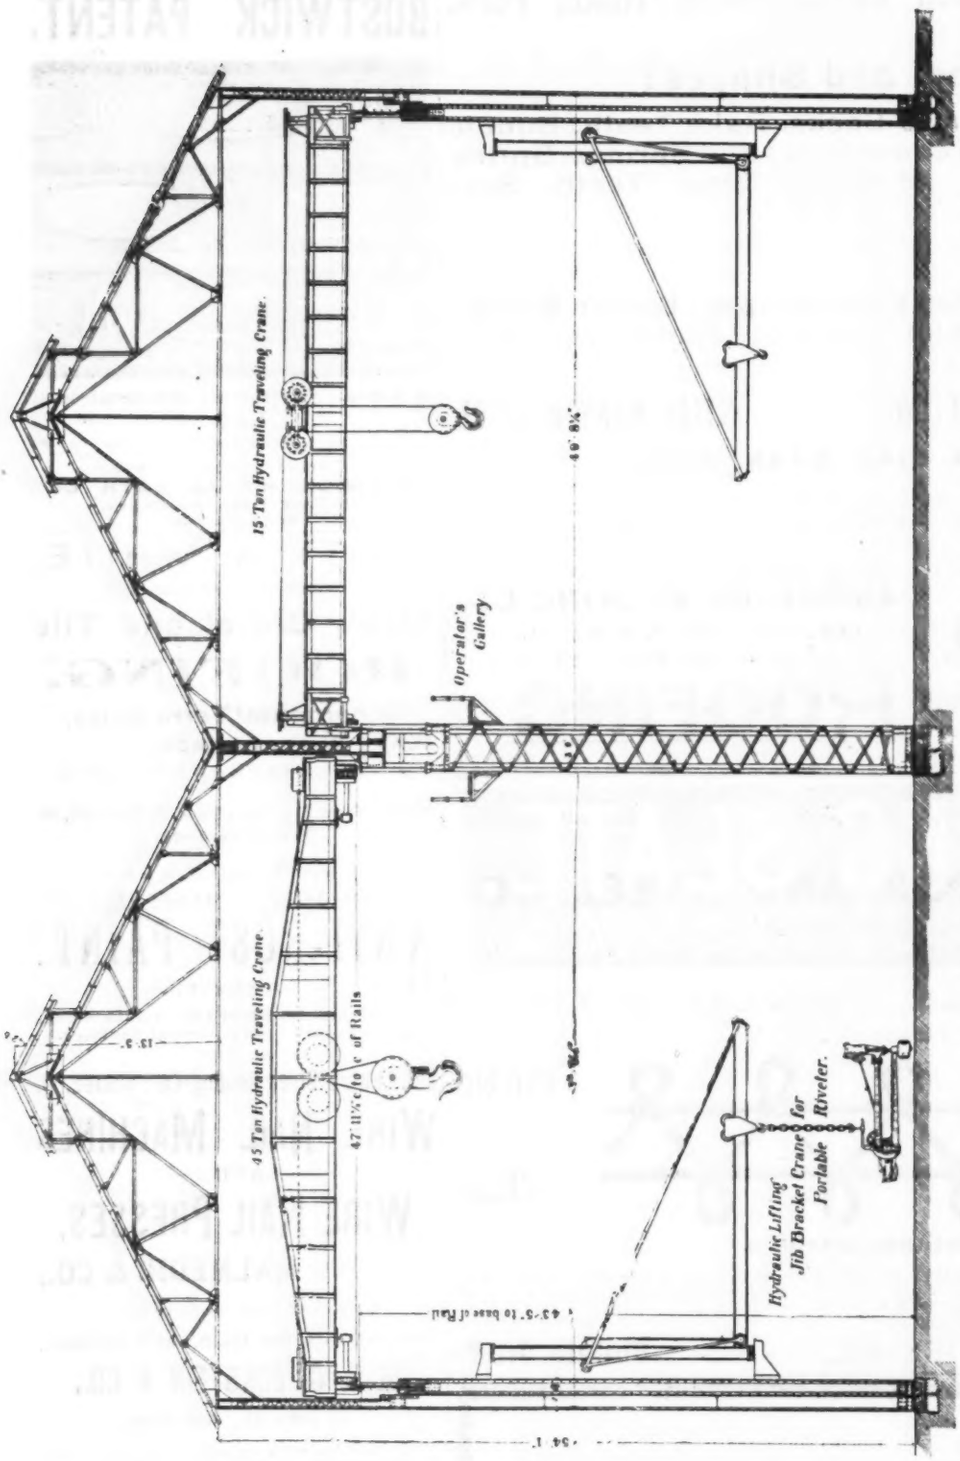
THE BERLIN IRON BRIDGE CO.,

Engineers, Architects and Builders in Iron.



The above illustration, taken from a drawing, shows in cross section a Boiler House designed and built by us for The Newport News Ship Building & Dry Dock Co., at Newport News, Va. The general dimensions of the building are shown in the above illustration. The length is 300 ft. One-half of the building is controlled by two 15-ton hydraulic traveling cranes, and the other half of the building is controlled by one 45-ton hydraulic traveling crane. There are also numerous hydraulic jib cranes located in the different parts of the building. The extreme height of the building is on account of moving boilers over one another, from one part of the building to the other. This is probably the best designed and equipped Boiler Shop in the world. The framework of the building is entirely of iron, with a light brick wall on the outside between the iron posts. A skylight extends the full length of the lantern or ventilator.

Office and Works, No. 5 Railroad Avenue,

EAST BERLIN, CONN.

WHEN: Business hints for business men in business hours. Bound in attractive pamphlet form, with superior quality of paper and print. Price 25c. This little book, comprising a series of business maxims the result of wide experience and observation, should be read by every business man or clerk and all those engaged in commerce or trade. Successful merchants will here recognize, in condensed form, the principles upon which their prosperity has been based, and will find reminders and pointers which cannot fail to be an invaluable aid. Clerks, Tradesman, and those who have yet their way to pave, will find the essential facts which govern all permanent success, many of which to him are either unknown or not fully appreciated. Each paragraph is introduced by the title word WHEN. Sent, post-paid, on receipt of price by DAVID WILLIAMS, Publisher, 96-102 Reade St., New York.

BLAST FURNACE CONSTRUCTION

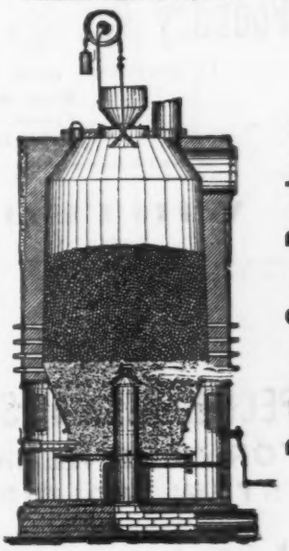
A SPECIALTY.

General Agents for Massick's and Crooke's Patent Fire Brick Stoves; Designs and Estimates for the construction of Blast Furnace Work, and for all kinds of Hot Blast Fire Brick or Pipe Stoves; and all other kinds of Brick Work pertaining to Steel Plants, Iron, Brick or Wooden Buildings, all kinds of Iron Construction in general.

☞ ***We propose to put into successful operation all the plants we design and contract for***

PATENTED MARCH 19TH, 1889.

The Taylor Revolving



Bottom Gas Producer.

The best Producer for either Bituminous or Anthracite Coal or Lignite: absolutely continous in operation, as the fire is cleaned without stopping the flow of gas. Less labor required and less waste than in any other producer. Producer Gas for firing Lime, Brick and Pottery Kilns, Sugar House Char Kilns, Boilers, etc., etc.; also applicable to all regenerative furnaces. For illustrated descriptive pamphlet and all particulars address

GRAPHITE PAINT!

TO DEALERS:—That Graphite Paint is the best protecting covering for exposed surfaces whether metal or wood is becoming more surely known and demonstrated every day. No matter what the exposure may be, whether heat, brine, acid or ordinary weather conditions, nothing will resist and protect as Graphite (Plumbago) will. **BUT IT MUST BE PURE.** We have our own Graphite mine, the celebrated Plombagina mine, Sonora, Mexico, and are the only manufacturers that can guarantee absolute purity, and this we do unqualifiedly. Our paint is used in every section of this country, and has become well and favorably known. It is already handled by many dealers, but having established its supremacy, and having a multitude of testimonials from our customers, we want it on sale in **EVERY CITY IN THE COUNTRY,** so that users of this material may not be delayed by sending to us for it. If no more than one pail, we want you to have that pail, and sell it to your most critical customer, on our positive guarantee that it will outspread and outlast any paint in the market under any and all conditions. And further, that owing to its great spreading quality, the expense in using it will be as low as the cheapest mineral paint. **WRITE US FOR PARTICULARS AND PRICES. WE WILL PUT YOU ON A PROFITABLE BASIS, AND ADD TO YOUR STOCK AN ARTICLE THAT WILL PLEASE YOUR TRADE.**

STEAM PLANTS.—Before purchasing any **FEED WATER HEATER and PURIFIER**, or deciding upon the adoption of any **System of Steam Heating**, kindly send us postal, and we will send one of our representatives, at our expense, to call upon you personally, in order to explain advantages which we guarantee over all others.

WEBSTER'S "VACUUM" FEED WATER HEATER AND PURIFIER.

Sizes from 30 to 2,500 horse-power carried in stock. Over 125,000 horse-power in daily use in the largest steam plants in the United States. *Send for Catalogue.* **CARDINAL POINTS.**—Highest temperature, purest feed water upon least quantity of exhaust steam, free exhaust to atmosphere, between engine and heater.

"WILLIAMES' VACUUM SYSTEM OF STEAM HEATING."

Without Back Pressure upon the Engine Guaranteed.—*Patent sustained in two Suits in the United States Circuit Court.* Adopted by 300 of the largest Factories, Mills, Electric Light Companies, Market Houses, Office Buildings, Schools, Theatres, Churches and Railroad Stations. *Send for Catalogue.*
ADVANTAGES.—Free exhaust to atmosphere, relief of back pressure, saving power, water of condensation, increasing efficiency of heating system, saving from 10 to 40 per ct. of fuel. Exact percentage can be determined after making examination of steam plant.—**ALL INFRINGERS WILL BE PROSECUTED.**

Can be attached to any steam plant. Furnished upon trial under guarantee. WARREN WEBSTER & CO., Main Office & Works, 491 N. 3d St., Philad'a.

FACTORY ACCOUNTS.

By GARCKE and FELLS.

A handbook for accountants and manufacturers on the principles which regulate factory accounts and the methods by which these principles can be put into practice and made to serve their proper purposes in the economy of manufacture. Beginning with the development of the factory system, this book is a general treatise on the subject, including organization, management, cost, profit and loss, &c. The table of contents shows several hundred heads or topics treated, besides which are several appendices; among them that on the "Nomenclature of Machine Details" will be found of special interest. A "Glossary of Terms" and an index of 20 pages are aids which render the book still more available to the ordinary reader. It contains 51 specimens or models for books of account.

240 pages; 6 x 8¾ inches; cloth, - - - - $2.80.

FOUNDRY PRACTICE.

West.—American Foundry Practice. Treating of loam, dry sand and green sand molding, and containing a practical treatise upon the management of cupolas and the melting of iron. By THOMAS D. WEST, practical iron molder and foundry foreman. Fully illustrated. Eighth edition, revised. 408 pages; cloth... .....$2.50

West.—Molder's Text Book, being Part II of American Foundry Practice. A practical treatise on molding, discussing the question of economy in casting and the arrangement of a foundry in regard to rapid work. Treating of cupolas, methods of firing, best means of securing perfect and sound castings, &c., being a continuation of Vol. I on this subject, and dealing with a class of work requiring more skill and greater care. By THOMAS D. WEST. With numerous illustrations. Fifth edition. 461 pages; cloth $2.50

Mullin. — Modern Molding and Pattern Making. A practical treatise upon pattern shop and foundry work. By JOSEPH P. MULLIN, M. E.; 257 pages; cloth; illustrated..... $2.50

Rose.—The Pattern Maker's Assistant. Embracing lathe work, branch work, core work, sweep work and practical gear constructions, the preparation and use of tools, together with a large collection of useful and valuable tables. Sixth edition. By JOSHUA ROSE, M. E.; illustrated with 250 engravings; 324 pages; cloth.... ....$2.50

Wylie.—Iron and Steel Founding. Illustrated with 39 diagrams. By C. WYLIE. Second edition, revised and enlarged; 324 pages, 8vo, cloth..... ..... $2

Macfarlane.—Practical Notes on Pipe Founding. With 15 folding plates. By JAS. W. MACFARLANE. 8vo, cloth.....$4

Practical Iron Founding. A condensed account of the principles and practice of iron founding, both for the student and for the practical man, with principles stated and explained, and including the most recent practice, particularly as it relates to the two branches of machine molding and the melting of iron. Cloth, illustrated with over 100 engravings. $1.50

Larkin.—The Practical Brass and Iron Founders' Guide. A concise treatise on brass founding, molding, the metals and their alloys &c., to which are added recent improvements in the manufacture of iron, steel by the Bessemer process, &c. By JAMES LARKIN; fifth edition, revised, with extensive additions; 301 pages; cloth. $2.25

Kirk.—Founding of Metals. A treatise on the melting of iron, with a description of the founding of alloys, also of all the metal and mineral substances used in the art of founding. Collected from original sources. A practical guide for the construction and management of foundry cupolas and furnaces. Fifth edition. By EDWARD KIRK; 272 pages; cloth. ..$2.50

Graham.—Brass Founders' Manual. London (Weale's series). By WALTER GRAHAM; limp cloth..... .. ..$0.80

A Word About Paint.

Dixon's Graphite Paint has now been in the market about 25 years.

It has been exposed to the burning heats of the south and the freezing blasts of the north

It has withstood the salt and corroding air of the ocean, and the sulphurous gases of smelting works, where every other paint utterly failed.

It is on record that roofs well painted with Dixon's Graphite Paint have not required repainting for nearly 20 years.

There is a good reason for all this. Our Circulars on Paints and Painting explain it.

JOSEPH DIXON CRUCIBLE CO., JERSEY CITY, N. J.

BOOKS

—ON—

Mechanical and Steam Engineering.

Grimshaw.—The Steam Boiler Catechism. A practical book for steam engineers, and for firemen, owners and makers of boilers of any kind. Covering the properties of steam and of fuels and the theory and practice of designing, constructing, setting, connecting, testing, firing and repairing. By ROBT. GRIMSHAW, M E. 401 pages; cloth $2

Thurston.—Stationary Steam Engines. Especially adapted to electric lighting purposes. Treating of the development of steam engines—the principles of construction and economy, with description of moderate speed and high speed engines. By Prof. R. H. THURSTON. Fourth edition; 177 pages; cloth.... ....$1.50

Edwards.—The English and American Mechanic. An every-day handbook for the workshop and factory, containing several thousand receipts, rules and tables indispensable to the mechanic, the artisan and the manufacturer By R. FRANK VAN CLEVE. A new enlarged edition by EMORY EDWARDS, M.E. 476 pages, illustrated; cloth $2

Pray, Jr.—Twenty Years with the Indicator. Being a practical text book for the engineer or the student, with no complex formulæ. By THOMAS PRAY, JR., consulting, constructing, civil and mechanical engineer, &c. Newly arranged; complete in one volume; 284 pages; cloth $2.50

Edwards. — Modern American Locomotive Engines, their Design, Construction and Management. A practical work for practical men. By EMORY EDWARDS, M.E Illustrated by 78 engravings; 383 pages; cloth..... .. .. $2

Porter.—Richards' Steam Engine Indicator. A treatise on the development and application of force in the steam engine. Fourth edition, revised and enlarged. By C. T. PORTER. 273 pages; 20 plates; cloth...$3

Wood.—Thermo-Dynamics, Heat Motors, and Refrigerating Machines. By PROF. DE VOLSON WOOD. Third edition, revised and enlarged; 452 pages; cloth.....$4

Edwards.—The American Steam Engineer. Theoretical and practical, with examples of the latest and most approved American practice in the design and construction of steam engines and boilers of every description. For the use of engineers, machinists, boiler makers and students By EMORY EDWARDS, M.E. Illustrated by 77 engravings; 419 pages; cloth.....$2.50

Thurston.—Steam Boiler Explo- sions in Theory and Practice. By Prof. R. H. THURSTON. Second edition; illustrated; cloth..... .....$1.50

Cromwell.—A Treatise on Tooth- ed Gearing. Containing complete instructions of designing, drawing and constructing spur wheels, bevel wheels, lantern gear, screw gear, worms, &c , and the proper formation of tooth profiles. For the use of machinists, pattern makers, draftsmen, designers, scientific schools, &c. With many plates. By J. HOWARD CROMWELL, Ph.B. Third edition; 245 pages; cloth.....$1.50

Haswell.—Mechanics' and Engi- neers' Pocket Book. By CHAS. H. HASWELL. Fifty-fifth edition; 956 pages; leather....$4

Templeton.—Mechanic's, Mill- wright's and Engineer's Pocket Companion. With American additions. By W. TEMPLETON. Leather; tuck $2

Sent, post-paid, upon receipt of price, by

DAVID WILLIAMS,

Publisher and Bookseller,

96-102 Reade St., New York.

THE WORLD'S CHAMPION

New Upright Self Feed

1891 Pattern $10 Post Drill.

This Drill is Double Back Geared, can be changed from slow to fast speed, weighs 120 pounds, drills from 1/8 to 1¼ inch hole, and to center of 14½-inch circle, designed for general blacksmith work. The diameter of the spindle is 1⅛ inch, length 13 inches, the screw having a run up and down of 4 inches. The crank can be shifted from shaft A to shaft B (or balance wheel shaft), thus increasing the power two and one-half times for heavy work. Shaft A for lighter work and faster speed. The change can be made in an instant from fast to slow speed. This Drill is supplied with an improved Automatic Self-feed. The drill is mounted on a hardwood 2-inch plank, 50 inches long, 6 inches wide, and not backed up by an extra addition of wood in order to increase the swing, which is often done to save iron and thus weakens the drill where it should be the strongest. The Drill is warranted in every respect and has the words cast thereon, "Every Drill Warranted." The spindle is bored to take ½-inch straight shank drills, but if specially ordered will be bored to take in 5/8 or 41-64, without extra charge.

J. G. SPEIDEL,

READING, PA.,

Patentee and Manufacturer of the celebrated

Economic Safety Hoist.

One man can lift two to three times as fast as with any other self-holding chain hoist. Spur gearing in connection with the automatic brake holds the load at any place, reducing friction to a minimum. The hoist has two speeds, is built strong and durable and guaranteed to give satisfaction. Cheaper than any other reliable hoist.

Cut shows 5-ton Ridgway Crane in Foundry, Diamond State Iron Co., Wilmington, Del.

Far Superior to Usual Hydraulic.

No pumps. No accumulator. No shocks. None of that everlasting bother with valves and packings. None of that awful waste of power. No freezing. Not touched from one year's end to the other.

Attached to any steam supply is ready for business at once. Uses so little steam it is never missed. The greenest help works it. Absolutely safe. Being balanced is easy on buildings and takes small foundation. So cheap any plant can use it. Always earns its cost in a few months.

In these days of close prices you can't afford to move goods by hand. The best plants are getting them. Look at the list. Only a new machine, too! It is the only kind of crane for you to get. It is safe to follow the most able and successful steel and iron makers. The largest concerns in Europe are also getting them from our Belgium factory. It is the Crane of Cranes.

THE GREATEST FOUNDRY CRANE KNOWN.

THE WOODRUFF SYSTEM OF KEYING FOR MACHINERY

Does not require skilled labor to cut key way or fit key.

The peculiar way of inserting the key practically makes it part of the shaft.

A man will fit more than double the number of keys in a day than by the ordinary method.

Will save you from 50 to 75 % on the cost of your keying.

ENDORSED BY MECHANICS AND ENGINEERS.

Illustrated pamphlet containing a full description will be sent free on application.

ILLINOIS FLUOR-SPAR & LEAD CO.

SUCCESSORS TO

MULLIN'S

FLUOR-SPAR AND LEAD MINING CO.,

57 Board of Trade Building, Chicago, Ill.

This Company owns, at Mineral City, on the Ohio River, the largest Mines of Fluor-Spar ever discovered.

We are working a large force of miners; our new mills and tram railway are running, and we are now prepared to furnish the purest Fluor-Spar in any quantities to Iron and Steel Manufacturers, to Smelters of Gold, Silver and Copper, and to Paint, Paper and Glass Makers.

Fluor-Spar is pronounced the most powerful of fluxes; it facilitates the reduction of the most refractory materials. For Alkalies, Clays and all Metallic Oxides it has a remarkable solvent power; it reduces the melting point and saves fuel; it diminishes the loss of metal, saves labor and keeps the cupola clean; reacts strongly upon scaffolds and cloggings.

One part of Fluor-Spar is more effective than ten parts of Limestone. Limestone is an enemy to iron; Fluor-Spar is a friend.

Directions for the proper use of Fluor-Spar given our patrons.

We ship Lump, Gravel, Crushed and Ground, in bulk or barrel.

PILLAR PRESS.

This illustration represents one of our own design, which is especially intended for blanking, piercing, drawing and performing various kinds of similar work. For strength it is unequaled, as the strain comes in direct line through the center of its up rights. The bearings of the shaft are sufficiently large and of good length, while the clutch, connection and slide are the same as those previously described in the Open Back Presses, all of which are specially fitted to render it substantially a desirable Pillar Press.

A Ratchet or Friction Roll Feed can be applied when desired

CLARK & COWLES, Plainville, Conn., Manufacturers of Clock Trimmings, Rivets, Springs, &c.

A NEW COAL FIELD AND TIMBER DISTRICT.

The **OHIO EXTENSION** of the **NORFOLK & WESTERN RAILROAD** penetrates one of the most valuable coal and timber districts in the United States. The line of this extension is 193 miles in length, from Coal Grove, Ohio, via Kenova, W. Va., to Elkhorn, W. Va., of which 54 miles, to Dunlow, W. Va., is now opened for business and the entire line is under construction and will be completed early in the fall of 1892. It passes through virgin country abounding in gas, splint, cannel, steam, coking, and domestic coals and fire-clay; chestnut-oak, white-oak, beech and poplar timber. Those looking for advantageous sites for the location of saw-mills or tanneries and establishments for the manufacture of furniture, wagons, agricultural implements, wood-pulp, fire-brick, or manufactured iron articles, should investigate the resources of this new field. The new town of Kenova, W. Va., offers many advantages for the location of manufacturing establishments, also the territory opened up by the Norfolk & Western Railroad on the north bank of the Ohio River, between Kenova, W. Va., and Portsmouth, Ohio. For the manufacture of finished iron articles the district offers unequaled advantages, with supply of coal and Pocahontas coke on short hauls, and with the blast furnaces of the Ironton, Hanging Rock and Ashland district in close proximity. Favorable freight rates made upon raw materials to all manufacturing establishments on this line.

For further information as to freight rates, maps, names of parties to whom application should be made for coal leases, &c., apply to

JOHN J. ARCHER,
Div. Freight Agent, Columbus, O.
or CHAS. G. EDDY,
Vice-President, Roanoke, Va.

BRANFORD, CONN.,

With its beautiful harbor and its river, navigable for three miles, is one of the finest towns in the country to live in or to work in; special inducements will be offered by the Board of Trade to parties who contemplate establishing or relocating manufacturing plants; correspondence solicited.

CHARLES A. HOADLEY,
Corresponding Secretary

Blinn's Tin, Sheet-Iron and Copper Plate Worker

A New, Revised and Enlarged Edition, from New Type, with New Engravings.

One of the Most Popular Technical Books ever published in the United States.

A PRACTICAL WORKSHOP COMPANION
—FOR—

TIN, SHEET-IRON
—AND—
COPPER-PLATE WORKERS.

Containing rules for describing various kinds of Patterns used by Tin, Sheet-Iron and Copper-Plate Workers. Practical Geometry. Mensuration of Surfaces and Solids: Tables of the Weights and Strengths of Metals and other Materials; Tables of Areas and Circumferences of Circles; Composition of Metallic Alloys and Solders, with numerous valuable Receipts and Manipulations for every-day use in the workshop. By Leroy J. Blinn, Master Mechanic. A new, revised and enlarged edition, printed from new type, and with 170 newly engraved illustrations.

In one volume, 12mo, 296 pages, price $2.50, free of postage to any address in the world.

☞ It having been found necessary to make a new set of electrotype plates and new engravings of this most popular book—the old ones having been worn out by actual use—it was determined to have the book re-edited and to add to it, in the different departments, new, recent and necessary matter. All of the old illustrations of patterns have been retained, and new ones have been added. The portion treating of metallic alloys and solders has been entirely re written, so as to have a more systematic arrangement, and to bring it at least with the best modern practice in this interesting and important field. In all the other departments new matter has been added, every effort having been made to render the entire work, in the future, if possible, even more useful to the tin, sheet-iron and copper-plate worker than in the past.

ABSTRACT OF CONTENTS.

Rules for Describing Patterns; Practical Geometry; Mensuration of Surfaces; Mensuration of Solids, and Capacities of Bodies; Tables of Weights, &c.; Tables of the Circumference of Circles and of the Areas of Circles; Rules for Rendering the Tables Useful; Sizes of Tinware; Capacity of Cylinders, and various other Useful Tables and Information; Practical Receipts, Varnishes, Lacquers, Cements, Metallic Alloys, Miscellaneous Receipts; Strength of Materials, with Tables. Index.

AN EXPERIENCED Traveling man (married), now connected with a prominent Western jobbing concern, wishes position as manager or buyer of a hardware house, into which he can place some money and a big amount of energy; prefers Texas or the far West. Address "C. B.," Box 62, office of *The Iron Age*, 96-102 Reade St, New York.

BY A GENTLEMAN of 25 years' experience in iron and steel business and a very extensive acquaintance, to represent some Eastern house in Pittsburgh and vicinity; manufacturing interest preferred; only part of the time available and compensation accordingly. Address "W. A. H.," Box 111, Pittsburgh, Pa.

BY AN OPEN-HEARTH Steel Melter; first-class man; is experienced in making steel for steel castings, Address "G. G.," Lock Box 459, Homestead, Pa.

TO REPRESENT in St. Paul, Minneapolis and the Northwest by an established agency, lines of hardware, staple and specialties. Address "ST. PAUL," office of *The Iron Age*, 59 Dearborn St., Chicago.

A COMPETENT Patent Solicitor and searcher in testing validity of patents offers his services to a substantial firm or corporation, preferably in New York City, to attend to their patent affairs and, as time permitted, to otherwise confidentially assist in business management. Address GOODWIN, office of *The Iron Age*, 96-102 Reade street, New York.

I AM 29 years of age, married; have been ten years with present employers (wholesale hardware), four years as head bookkeeper; have first-class references and would like situation where a good business training will be of service. Address FRED. H. ROSS, 97 Erie avenue, Hamilton, Canada.

TWO YOUNG Hardware men, through 17 years' experience well acquainted with German, English and domestic goods, wish to represent in Chicago manufacturers and importers of hardware and cutlery. We will sell your goods and do honest work in the World's Fair City, if you can deliver the goods and quote prices. Address "M. & H.," office of *The Iron Age*, 59 Dearborn St., Chicago, Ill.

THE LATEST BOOKS.

Ideas for Hardware Merchants. By D. T. MALLETT. CONTENTS: Starting a Hardware Store; What Hardware Dealers may Sell; Hints about Inventory; Behind the Desk; Ratio of Expenses to Sales; Retail Advertising; System in the Store; The Use of a Store Window; The Holiday Trade in Hardware; John Jones Jr.; The Successful Merchant; Parable of a Foolish Trader; Cordiality Between Competitors; Commercial Value of a Smile; More about Advertising; Business Education; Fable of the Magnet; Why One Merchant Failed; The Other Half; Cash or Credit; Don't Get Into a Rut; The Value of Price-Lists; A Store Library; Books for Hardware Men; Advertisements of Leading Manufacturers. Paper bound $1.00

Annual Statistical Report of the American Iron and Steel Association for 1892. 80 pages, cloth $3.00

Miner's Pocket Book; a reference book for miners, mine surveyors, geologists mineralogists, millmen, assayers and metal merchants all over the world. By C. G. W. LOCK. 472 pages, 16mo, flexible leather.....$5.00

The Metal Worker Essays on House Heating by Steam, Hot Water and Hot Air, with introduction and tabular comparisons. Second edition, revised. To which has been added a selection from the Letters of Criticism on the Essays as originally published in *The Metal Worker* and a chapter on Proportioning Radiating Surfaces by JOHN J. HOGAN. Arranged for publication by A. O. KITTREDGE, Editor of *The Metal Worker, Carpentry and Building*, &c. Author of the "The Metal Worker Pattern Book," "Practical Estimator," &c. 407 pages, 7x9½ inches. Handsomely bound in cloth. One volume.. .....$3.00

Valve Gears for Steam Engines. This book is intended to give engineering students instruction in the theory and practice of designing valve gears for steam engines. With the vast number of valves and gears in use at the present time, an exhaustive treatment in a text-book appears out of place; the author's aim is rather to give the learner a firm grasp of the principles and some facility in their application. Each type discussed is illustrated by one or more examples selected from good practice. By CECIL H. PEABODY. 8vo, cloth, $2.50

Dana's System of Mineralogy. By E. S. DANA. Sixth edition, entirely rewritten and enlarged. 1197 pages, cloth.....$12.50

A Dictionary of Electrical Words, Terms and Phrases. Although a comparatively short time has elapsed since the original issue of the work, the rapid growth of electrical science has induced a second edition, which is practically a new work based on the same general plan as the original. Its character is encyclopedic, endeavor being made to define electrical words, terms and phrases, and at the same time to give a brief statement of the principles of science involved in the definition. The system of cross references renders it possible to use the dictionary as a text-book. By EDWIN J. HOUSTON. Second edition, rewritten and enlarged. 562 pages, cloth.....$5.00

Miner's Pocket-Book, a reference book for miners, mine surveyors, geologists, mineralogists, millmen, assayers, metallurgists and metal merchants all over the world. SYNOPSIS OF CONTENTS: Motive Power; Transmitting Power; Prospecting; Tools; Drilling; Blasting; Shaft Sinking; Pumping; Ventilating; Lighting; Coal Cutting; Hauling and Hoisting; Ore Dressing; Mine Surveying; Assaying; Glossary. With numerous tables, and a complete index. By C. G. WARNFORD LOCK. 472 pages, illustrated, flexible leather.....$5.00

Practical Electrics. A universal handy-book on every day electrical matters, including connections, bells, batteries, alarms, carbons, induction intensity and resistance coils, dynamo electric machines, fire risks, measuring microphones, motors, phonographs, storage and telephones. Fourth edition, 8vo, cloth.....$0.75

Treatise on the Working and Management of Steam Boilers and Engines, Shafting, Gear and Machinery. CONTENTS: Introduction, Vertical and Horizontal Boilers; Brick Work Setting for Boilers; Boiler Houses and Working of Boilers; Fitting of Boilers and Method of Working; Engines; Foundations of Engines and Engine Houses; Shafting and Gear to drive Machinery in Mills and Factories. Revised, enlarged, and partly rewritten. By FREDERICK COLYER, M. Inst. C. E. Second edition, 108 pages, 12mo, cloth, $1.50

Blasting; a handbook for the use of engineers and others engaged in mining, tunneling, quarrying, &c. By O. GUTTMANN. 190 pages, 8vo, cloth, $4.25

Blowpipe Analysis. By J. LANDAUER. Authorised English translation by J. TAYLOR. Second edition, revised and enlarged. 173 pages, 12mo, cloth.....$1.10

Irrigation Canals, and other Irrigation Works. By P. J. FLYNN. Illustrated, 8vo, cloth.....$8.00

The Beam; or, Technical Elements of Girder Construction. By W. L. BAKER. 222 pages, 8vo, cloth.....$1.60

The Drainage of Habitable Dwellings. By W. LEE BEARDMORE. 80 pages, 12mo, cloth.....$1.50

House Drainage; a handbook for architects and building inspectors. By G. A. T. MIDDLETON. 70 pages, 19 plates and diagrams, 8vo.....$1.25

Water Pipe Discharge Diagrams, showing the relation between the diameters, gradients and discharges of water pipes; together with other diagrams giving the proper weights and thicknesses of pipes for various pressures. E. BROUGH TAYLOR and G. M. TAYLOR. Large folio, oblong, cloth.$5.00

The Prospector's Field-Book and Guide in the Search for and the Easy Determination of Ores and other Useful Minerals. By Prof. H. S. OSBORN, LL.D. EXTRACT FROM THE PREFACE: In the following pages we have attempted to present such a view of the whole subject of prospecting for the useful minerals that any liberally educated reader may fully comprehend our meaning. We have therefore explained special terms where we have thought it convenient to use them, and where the technically educated student would not need an explanation. The table of contents and index have both been carefully prepared, and being very full, will make reference to any subject in the volume easy and satisfactory. 44 engravings. 175 pages .$1.50

Brick for Street Pavements. An account of tests made of bricks and paving blocks, with a brief discussion of street pavements and the method of constructing them. By M. D. BURKE. 8vo, paper. Cincinnati, 1892.....$1.00

Treatise on the Working and Management of Steam Boilers and Engines, Shaftings, Gear and Machinery. By FREDERICK COLYER. Second edition, revised, enlarged and partly rewritten. 12mo, cloth.....$1.50

The Maintenance of Macadamized Roads. CONTENTS: Construction of Roads; Road Materials; Composition of Road-Coating; Draft, Wheels and Weight on Them; Wear; Measurement of Traffic and Wear; Consumption of Materials; Sweeping and Scraping; Drainage; Watering; Repairs beyond Ordinary Maintenance; Manual Labor; Proportion of Expenditure on Materials and Labor; Cost of Road Maintenance; Road Surveyor's Duties; Repairs by Contract; Road Management. By THOMAS CODRINGTON. 186 pages, 8vo, cloth, $3.00

How to Run Engines and Boilers. Practical instructions for young engineers and steam users. By E. P. WATSON. 125 pages, illustrated, 12mo, cloth.....$1.50

Cooley's Cyclopedia of Practical Receipts. New edition (1892). By WM. (ED.) NORTH. 2 vols., 1800 pages, 371 illustrations, 8vo, cloth.....$17.00

Continental Electric Light Central Stations. With notes of methods in actual practice for distributing electricity in towns. By K. HEDGES. 210 pages, 25 folding plates and 153 illustrations, 4to, cloth.....$6.00

A Practical Treatise on the Strength of Materials, including their elasticity and resistance to impact. CONTENTS: Tensile Strain. Riveted Joints. Cohesion Applied to Pipes. Strength of Chain, Ropes, etc. Shearing Strain, Crushing Strain. Strength of Pillars. Connection of Pillars with Transverse Strain. Wrinkling Strain. Transverse Strain. "Similar" Beams. Connection of Transverse and other Strains. Roofs. Torsional Elasticity. Deflection of Beams. Modulus of Elasticity. Permanent Set. Impact. Collapse of Tubes. Factor of Safety. Fatigue of Metals. APPENDIX. By THOMAS BOX. 525 pages, 27 plates and upward of 150 tables, 8vo, cloth $7.25

A Journal of the Iron and Steel Institute, No. 2, 1891. Embraces proceedings Iron and Steel Institute, at their London meeting, October, 1891. Full report of the papers then presented and discussions thereof. Notes on iron and steel progress at home and abroad. Statistics of production and wages. Imports and exports. Articles on chemical analysis, physical properties, fuel, ores, etc. Cloth $6.00

An Elementary Course in Theory of Equations. By C. H. CHAPMAN, Ph.D., Associate in Mathematics in Johns Hopkins University. 12mo, cloth.. .....$1.50

Pocket Companion. Containing useful information and tables appertaining to the use of wrought iron and steel as manufactured by Carnegie, Phipps & Co., Ltd., Pittsburgh, Pa. 730 MARKET STREET, PHILADELPHIA.
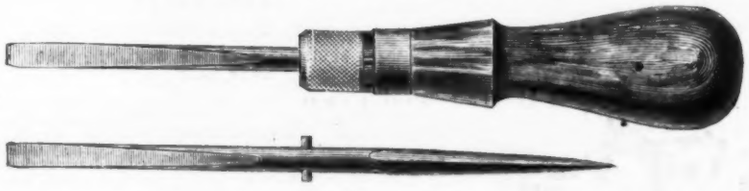
87 BEEKMAN STREET, NEW YORK.
149 MILK STREET, BOSTON.
182 LAKE STREET, CHICAGO.

No. 2 RATCHET SCREW-DRIVER.

This is a Single Pall Ratchet Screw-Driver. Like the No. 1, it drives a screw in or out with the ratchet, or may be made stationary. The whole length is eleven inches. The Handle is cocobola, both bit and handle highly polished, and the bit nickel-plated as well as the metal part of the handle.

Price, with one Bit..... $12.00 per dozen.

DUPLEX SCREW-DRIVER, No. 1.



Generally when a Screw-Driver is used, some tool is wanted to make a hole for the screw. This Square Reamer on the reverse end of the driver is better for that purpose than a gimlet or any other tool. The tool can be turned around instantly so as to use either end. It is hand-forged, carefully tempered, polished and nickel-plated. The handle is cocobola polished, with a nickel-plated chuck. This is entirely new, and we judge will be a popular tool.

Price, complete..... $6.00 per dozen.
" for Bits alone to fit Handle..... 1.80 "

THE CELEBRATED

"PERFECTION"

Water Elevator and Purifying Pump.

The storage of water in cisterns and open wells is the method largely adopted throughout this country for Drinking, Cooking and Bathing purposes. We have had an abundance of rainfall, wells and cisterns are full, the water contained therein becomes FOUL and STAGNATED during the months of July, August and September. If you will place a "PERFECTION" PUMP on well or cistern we GUARANTEE the water to become and remain as PURE as a MOUNTAIN STREAM. It is the simplest structure for raising water on the Continent—guaranteed not to freeze.

The Perfection

Having no Valves, Tubes or Plungers to get out of order, no Wood Tubing to Pollute the water, no attachment below platform, never has to be primed, packed or thawed out; easiest pump operated. Over 140,000 in daily use.

We are now striping and decorating the "Perfection" in the finest manner possible.

Agents wanted in every town. Dealers, write your jobbers for quotations. Be sure you get "The Perfection," take no other. For full information, circulars, catalogues, etc., address the manufacturers,

IT is made of best quality Galvanized Iron, which will not rust nor accumulate filth.

IT only weighs one-half pound to the foot, wet or dry, while wood tubing saturated with water weighs six pounds or more per foot.

IT will last longer than wood tubing.

IT will not freeze in any climate.

IT can be attached to any make of curb.

We also manufacture a Galvanized (all) Iron Curb. Address

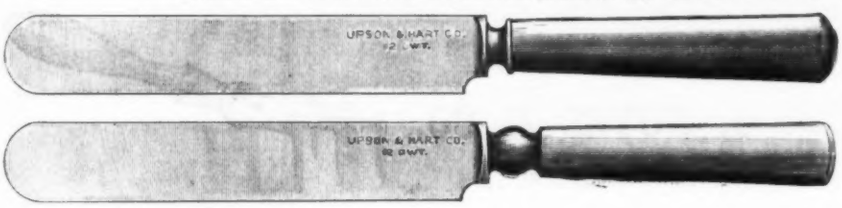
THE UPSON & HART CO., - - Unionville, Conn.,

MANUFACTURERS OF

FLAT WARE IN NICKEL, SILVER AND STEEL.



Our new departure is manufacturing knives and forks in solid 25 per cent. nickel silver, warranted to last a lifetime. The cutting qualities are equal to steel, and they never need replating.

Under a new process we can manufacture goods at a lower cost than any other manufacturer in this country. We have the largest line of solid steel goods for silver platers, such as Knives, Forks, Fruit Knives, Nut Picks and Nut Cracks, Carver Sets, Pie Knives, Button Hooks, and the largest line of Hair Crimpers to be found in the market

A practical means of rapidly reaching absolutely accurate results without the mental wear of computing.

LADD'S DISCOUNT BOOK.

SURPLESS, DUNN & ALDER,

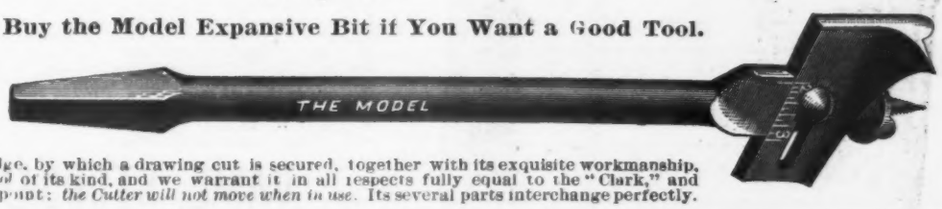
— INCORPORATED, —

Nos. 97 Chambers and 79 Reade Streets, New York.

Representing Leading American Hardware Manufacturers.

Sole Agents for the "W. A. Ives Co." celebrated brand of Augers, Auger Bits, Expansive Bits and other Boring Tools.

Buy the Model Expansive Bit if You Want a Good Tool.



THE superior excellence of this tool consists in the peculiar seat in which the Cutter is placed. The manner in which it is fitted into its seat, in which it is so firmly held as to be absolutely immovable in use, the curve of its cutting edge, by which a drawing cut is secured, together with its exquisite workmanship, all combine to make it a *Model Tool* of its kind, and we warrant it in all respects fully equal to the "Clark," and decidedly better in one important point: *the Cutter will not move when in use.* Its several parts interchange perfectly.

The Bridgeport Chain Co.'s Triumph Chain, made into Halters, Traces, Cow Ties, Tie-outs, Kennel Chains, &c.; also cut to lengths for manufacturers' use.

The cut represents the exact size of 6/0.

Thirteen Sizes made, 6/0 being the Largest.

THE BRAY FLY BOOK.

THE reputation of the BRAY FLY BOOK as the neatest and most practical Fly Book made is well established everywhere. The quickness and dispatch with which Flies of any size are placed within these books without coiling of the Snell or mutilation of the Fly makes its superiority over all other methods very easily recognized by all anglers. The Flies can be as readily detached when wanted. The leaves to which the Flies are attached will in the future be made of a new material of more durability and finish than before. The workmanship and material will be kept up to highest standard, and no effort will be spared to keep the BRAY FLY BOOK (as it now is) the BEST in the WORLD.

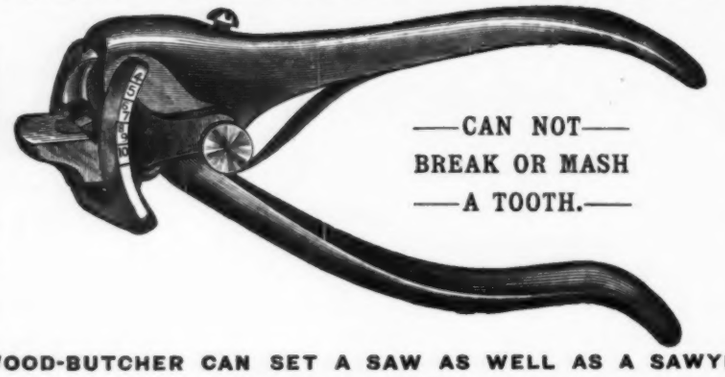
LLOYD ACME SAW SET.



—CAN NOT—
BREAK OR MASH
—A TOOTH.—

A WOOD-BUTCHER CAN SET A SAW AS WELL AS A SAWYER.

The Screw on the top of the Set prevents mashing the Tooth. The Gauge on the side assures the correct set, and the small Screw on the face of the Set gives the required bend to the tooth. All wearing parts are made of steel, strong and durable.

LIST: HAND SAW SETS, $15.00 PER DOZEN. CROSS CUT SAW SETS, $30.00 PER DOZEN.

METROPOLITAN.

This differs from our other wood frame wringers of medium price in having malleable iron swinging clamps of a strong and improved pattern, that swing under the wringer, and a folding apron, allowing the machine to be closely packed for shipment, and it is preferred by many because of the small space it occupies in storage. It is a handsome, well proportioned machine, of hard maple frame, the wood being selected, free from defects and blemishes. Two top thumbscrews, metal journal boxes and oil cups combined, double gears, etc.

Furnished in natural wood or cherry stain without extra charge.

Write for Prices and Catalogue.

Wrought Steel Hollow Ware.

"Empire" Cold Handle Steel Spiders.

PATENTED.

The "Empire" Cold Handle Spiders are made from cold rolled wrought steel of the highest grade and finish, and are stamped from a SINGLE PIECE, and polished perfectly smooth and bright. The thickness of the steel of which the Empire Spiders are made (No. 14 Standard gauge) is a guarantee that they cannot break, bend or warp. An important feature also is that they are made without rivets, and cannot leak or the handles become loose.

The handle is reinforced in an attractive manner with a cover made of heavy tin, making a hollow ventilated handle which keeps always cool and comfortable to the hand.

The Empire SPIDERS will be found on inspection the most perfect ever made and cannot fail to give satisfaction. Our 1890 Catalogue of Patented Specialties, Acme Fry Pans, and Edgars' Patent Stove Shovels, mailed on application.

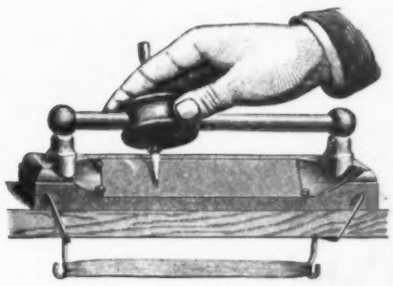
COFFEE MILLS



NOT IN YOUR LINE?
IF YOU DO NOT SELL IT YOU SHOULD USE IT.

THE PERFECT PENCIL POINTER.

Will save about one-half your pencil bill.
It is a practical machine, not a toy.
The only "Perfect" machine for the purpose
Does better work than can be done in any other way.
Does not break or waste the lead. Saves time.
Prevents soiling the hands. Any one can use it.

The above cut shows the Pointer attached to the edge of a table and shows how to take hold of the carriage in using. The pencil revolves as it is moved along on the surface of a file, which is especially made for the purpose. The entire simplicity of the whole machine makes it little liable to get out of order. By use of the clamps it can be instantly attached to desk or table, and as quickly removed, or can be used when held in the hand. The material and workmanship are the best and **EVERY MACHINE FULLY WARRANTED.**

H. S. OSGOOD, Supt. American Express Co., Portland, Me., says:
We have had one of your Pencil Pointers in use for several months, and it has done its work rapidly and well. We never saw a pencil sharpener before that would sharpen a pencil. Yours will do it every time and do it well.

SELLERSVILLE NATIONAL BANK, Sellersville, Pa.
It suits me and does all that you represent.
C. R. ALTHOUSE, Cashier.

FIRST NATIONAL BANK, Watkins, N. Y.
This is the best thing of the kind I ever saw. One cannot break the lead while sharpening.

CANON CITY, COLORADO.
Your Perfect Pencil Pointer came to hand, and after a thorough trial proves to us that it is rightly named for it is "perfect" in every particular. We would not be without it for double the price.
A. M. HAWLEY, Cashier.

Make Money by Using this Machine.

You can get them of your stationer, or to introduce WE WILL SEND SAMPLE, EXPRESS PAID, on receipt of $1.25.

catches from *ten to thirty* rats in one night; one man reports *six hundred* in eighteen days; another *eighty* in twenty-four hours. Beware of imitations, get the genuine "*Marty*" trap, see that my name is on each trap before buying. A great seller and pays a good profit. Write for prices to **A. W. PAINE,** 20 Dock Square Boston, Mass.

BRANFORD LOCK WORKS.

The Yale & Towne Mfg. Company, Lessee.

THE TRADE

is hereby informed that on and after July 1, 1892, the products and business of the BRANFORD LOCK WORKS will be controlled and handled by THE YALE & TOWNE MANUFACTURING COMPANY, under the terms of a contract recently executed.

CUSTOMERS,

especially those of the BRANFORD LOCK WORKS, are informed that hereafter full lines of Branford goods will be carried in stock at the branch houses of

The Yale & Towne Mfg. Co.

IN

NEW YORK, CHICAGO, PHILADELPHIA and BOSTON.

Orders of the larger kinds will be filled directly from the Branford Works, especial care being given to correct and prompt deliveries. Smaller assorted orders will be filled from our stocks, as above.

We hope to retain all previous customers of the BRANFORD LOCK WORKS, and to interest our other customers in these goods, which have heretofore borne an excellent reputation, the character of which it is intended shall be fully maintained.

AMERICAN STAMPING CO.

IMPROVED EDITION OF THE IRON AGE

HARDWARE PRICE BOOKS.

Arranged by R. R. WILLIAMS, Hardware Editor of the Iron Age.

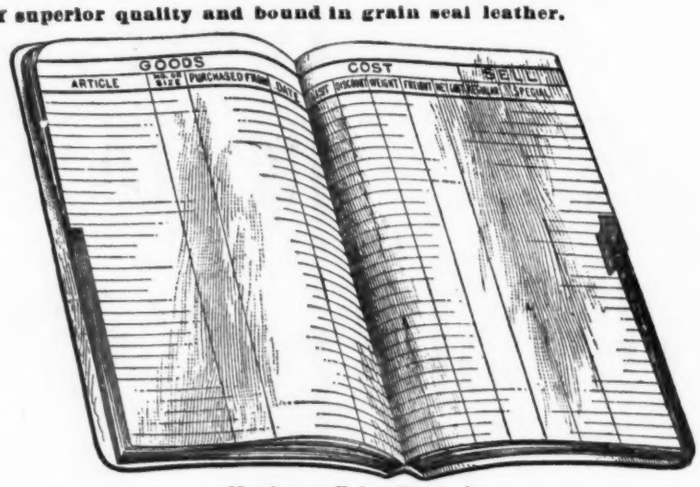
These Books are printed on paper of superior quality and bound in grain seal leather.

Columns are provided for the name and number or size, for noting from whom purchased, date of quotation or purchase, list and discount, and for entering freight expenses as an element of cost. Under the heading of selling prices, the regular and any special price or remarks in regard to the goods are given place. This book goes into considerable detail in describing the goods and cost prices. It has been arranged in accordance with the views of many Hardwaremen whose methods are careful and exact.

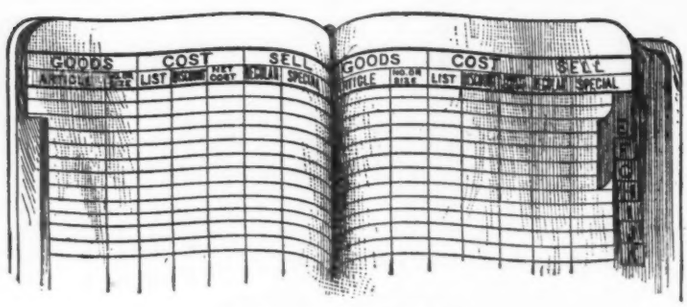
Size, 4 x 7 in.; grain seal leather.

FOUR EDITIONS:

A, 200 pages,	$1.00
A F, 200 pages with flap,	1.25
A 2, 400 pages,	1.50
A F 2, 400 pages with flap,	1.75



Hardware Price Book A.



Hardware Price Book B.

In this book each page is complete, and the record of prices does not, as in Book A, run across two pages. Thus it accommodates a larger range of goods with much less detail in the record. It is adapted for office or store use, and by the use of familiar abbreviations, sufficiently large for the convenient and concise record of prices.

Size, 4 x 7 in.; grain seal leather.

FOUR EDITIONS:

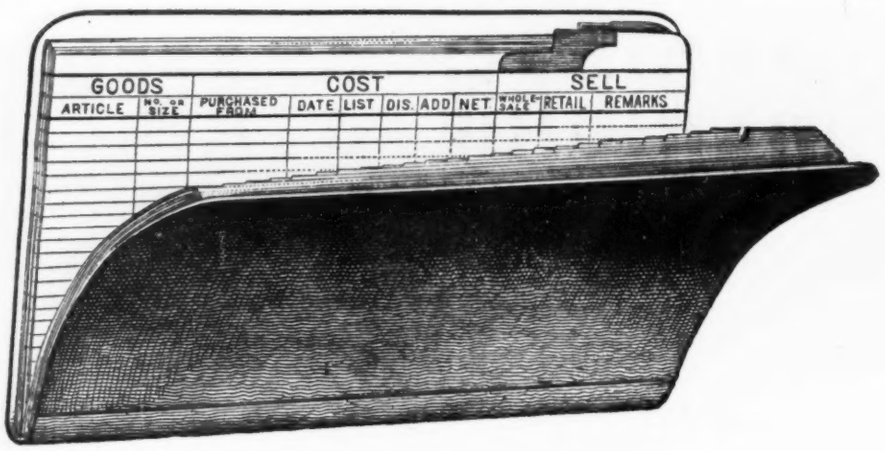
B, 200 pages	$1.00
B F, 200 pages with flap,	1.25
B 2, 400 pages,	1.50
B F 2, 400 pages with flap,	1.75

The headings in Book C run across the top, in a line parallel with the hinge. In this way a very complete record can be kept on a single page. The details of weight and freight contained in Book A are omitted, and a single column headed "Add" given for the insertion of freight or other expenses which it is desirable to include in the cost. Under the selling prices space is left for the wholesale price, the retail price, and also for any remarks in regard to cost of the goods, desirability of pushing them, or other matters.

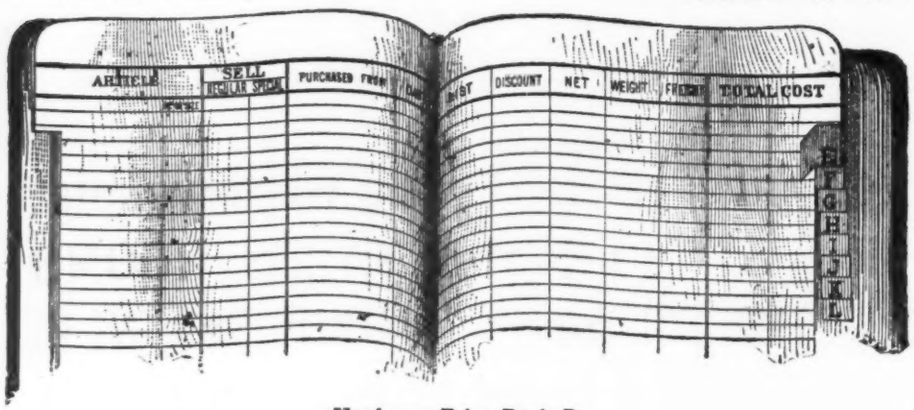
Size, 4½ x 7¾ in.; grain seal leather.

FOUR EDITIONS.

C, 200 pages,	$1.00
C F, 200 pages with flap,	1.25
C 2, 400 pages,	1.50
C F 2, 400 pages with flap,	1.75



Hardware Price Book C.



Hardware Price Book D.

Price Book D will recommend itself particularly for desk and store use, and for salesmen on the road.

The name of the article, its number or size and the selling price are the first to meet the eye on the left-hand page, as embodying information desired when the selling price is required. The other headings follow in convenient order, by which a detailed memorandum regarding the goods may be kept, the whole being seen at a glance. A number of pages at the back of the book are arranged for memoranda, which will be found a great convenience. This arrangement is adapted to the requirements of the trade in this direction.

Size 5¼ x 8 in.; grain seal leather.

FOUR EDITIONS.

D, 200 pages,	$2.00
D F, 200 pages, with flap,	2.50
D 2, 400 pages.	$3.00
D F 2, 400 pages, with flap,	3.50

Sent, post-paid, on receipt of price by **DAVID WILLIAMS, Publisher, 96-102 Reade St., New York.**

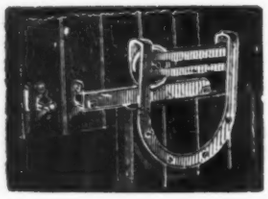
THE SWIFT MILL.

ESTABLISHED 1845.

The annexed cut shows one of the many styles of Coffee Mills of our manufacture, especially adapted to Grocers' use and all retailers of coffee. They are highly ornamental and workmanship of the very best. We make more than 30 styles.

Lane's Measuring Faucet.



LANE'S PATENT STEEL DOOR HANGER.

The most perfect Anti-Friction Hanger in the Market, because

It is made of steel throughout, except the wheel, which has a steel axle. It will not break. It is practically free from wear. It is almost noiseless in action. It requires no oil. It has a broad bearing on the door, and keeps in line. It is by far the most durable. It may be used with any track. It is always in order. **LANE'S PATENT TRACK** is made of steel and is easily put in position. Catches and holds no snow or ice. Door hung thereon cannot jump the track. Is not subject to decay. Requires no fitting, but is ready at once. May be used with hangers of other manufacture. Send for circulars.

Manufactured by LANE BROS., Poughkeepsie, N. Y.

JOHN H. GRAHAM & CO., General Agents, 113 Chambers Street, NEW YORK.

WHY USE WOODEN OR HEAVY STEEL BLOCKS

WHEN THE STEEL AND IRON

TACKLE BLOCKS

—MADE BY—

The Cleveland Block Co.

CLEVELAND, OHIO, U. S. A.,

ARE BETTER IN EVERY WAY.

No waste material. Every ounce of weight in the line of strength. No clumsy outside straps or bolts. As light as wooden blocks and vastly more durable. They wear, but never break. Sheaves interchangeable.

General Agents: Topping & Fox, 96 Chambers Street, New York. The H. Channon Co., 22 Market Street, Chicago.

New England Agents, - Dodge, Haley & Co., 212 High Street, Boston.

THE STEEL TACKLE BLOCKS

MANUFACTURED BY THE

BOSTON & LOCKPORT BLOCK CO.,

Lockport, N. Y., and Boston, Mass.,

—ARE THE—

Strongest, Lightest, and most Durable Blocks made.

Note the superior strength gained by the encircling outside strap, with bolts and steel pin passing through both plates and straps. Edges rounded to protect the rope.

H. B. NEWHALL CO., 105 Chambers St., N. Y.
C. H. GURNEY CO., Chicago, Ill. } Agents.

SCALES OF ALL KINDS.

Bemis & Call Hardware & Tool Co.

COMBINATION WRENCH.

Case-Hardened Throughout. Parts Interchangeable.

This wrench not only combines the superior qualities of a Gas Pipe Wrench but also all the requisite combinations of a regular Nut Wrench, thus making a combination which has no equal.

This Wrench can be Furnished with Long Nut or Sleeve.

No. 3 PIPE WRENCH.

The serrated jaws of the Wrench are interchangeable; that is, the same serrated plate may be used for either the stationary or sliding jaw, so that if one plate is broken another can be furnished adapted to either jaw without express designation. The slides, nuts and various parts are also interchangeable, thus easily repairing the Wrench at very small expense, and with as perfect practicability for further use as when the Wrench was new. For Circulars and Price List, address

BEMIS & CALL HARDWARE & TOOL CO., Springfield, Mass., U. S. A.

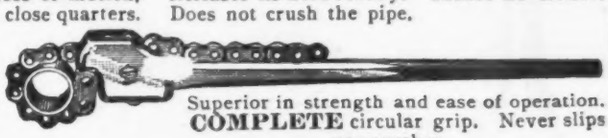
TRIMO PIPE WRENCH,

Forged Steel.

All parts Interchangeable.

Grips firmly without loss of motion, in close quarters. Releases its hold readily. Does not crush the pipe. Causes no trouble

TRIMO CHAIN PIPE WRENCH.



Superior in strength and ease of operation. COMPLETE circular grip. Never slips nor crushes.

THE GREAT AMERICAN LAWN MOWER.

REAR CUT. INCASED GEAR.

Patent Cylinder Knives and Enos' Patent Yielding Bed Knife, making it the most durable Mower of this pattern on the market.

CLOSED WIPER.

Made in 5 Sizes, 10, 12, 14, 16 and 18 inches.

Also manufacturers of Pennsylvania, Continental, New Quaker City Lawn Mowers, Horse and Pony Mowers and Grass Catchers.

☞ There is no question for doubt that the manufacturers of these Mowers manufacture double the quantity of Lawn Mowers of any other manufacturer in the known world, and have not made their reputation from price alone, but from the Quality of mowers turned out.

SUPPLEE HARDWARE CO., - PHILADELPHIA.

CACTUS LAWN SPRINKLER.

INDESTRUCTIBLE, BEAUTIFUL, CHEAP.

NO REVOLVING PARTS.

This Sprinkler has no revolving parts to leak or wear out. The openings throughout are equal in area to ½ inch, and therefore will pass freely all sand or gritty substance in the water without clogging. It can be moved about the lawn while in operation without turning off the water, and with a low pressure will distribute a perfectly even and beautiful spray 30 feet in diameter; and in addition a light center fountain spray 15 to 18 feet in height. It is recommended as the most durable, beautiful and cheapest Sprinkler in the market and is guaranteed to give entire satisfaction to any purchaser. For sale by all dealers.

Oilers.
Hammer & Co., Branford, Conn.
Williams H. A. Mfg. Co., Boston, Mass

(See Alphabetical Index, Page 108.)

Oil and Grease Cups.
Lunkenheimer Brass Mfg. Co., Cincinnati, Ohio.
Seibert Cylinder Oil Cup Co., Boston, Mass.

Oil Stones.
Chase, Geo., 107th & Harlem R.,
Pike Mfg. Co., Pike Station, N. H.

Ore Roasters.
Davis-Colby Ore Roaster Co., Phila.

Ores.
Wister, Francis, Philadelphia, Pa.

Ox Shoes.
Scranton Forging Co., Scranton, Pa.
Woodruff, Walter W. & Sons, Mt. Carmel, Conn.

Packing.
Billington, Jas. H. & Co., Phila., Pa.
Greene Tweed & Co., 83 Chambers St., N. Y. Belting & Packing Co. Ltd, N. Y.

Padlocks.
Ames Sword Co., Chicopee, Mass.
Fraim, E. T., Lancaster, Pa.
Hillebrand & Wolf, Phila., Pa.
Slaymaker, Barry & Co., Lancaster, Pa.

Paint.
Canton Steel Roofing Co., Canton, O.
Dixon, Jos. Crucible Co., Jersey City, N. J.
U. S. Graphite Co., Saginaw, Mich.

Paint Burners.
Dangler Stove & Mfg. Co., Cleveland, O.

Patent Solicitors.
Ashley, J. A., Washington, D. C.
Dudley, W. U. & Co. Washington, D. C.
Gooch, C. J., Washington, D. C.
Howson & Howson, Phila. & Wash'gton.
Wister, J. Wm., Washington, D. C.
Stocking, E. B., Washington, D. C.

Pattern Letters.
Wells, Heber, 8 Spruce St., N. Y.

Pencil Sharpeners.
Goodel Co., Antrim, N. H.

Perforated Metal.
Clinton Wire Cloth Co., Clinton, Mass.
Harrington & King Perforating Co. Chicago, Ill.

Phosphor Bronze.
Phosphor Bronze Smelting Co., Limited, 512 Arch, Philadelphia.

Phosphor Tin.
Halk & Naumann, 516 Pearl, N. Y.

Photographic Plates.
Carbutt, Jno., Philadelphia, Pa.

Picks and Mattocks.
Plumb, Fayette R., Philadelphia, Pa.

Picture Cord, Wire.
Tate & Co., Malden, Mass.

Pig Iron.
Mann, Edwin R., Philadelphia, Pa.
Montour Iron & Steel Co., Danville, Pa.
Naylor & Co., 45 Wall, N. Y.
Pickands, Brown & Co., Chicago, Ill.
Pilling & Crane, Philadelphia, Pa.

Pig Iron Storage.
Am. Pig Iron Storage Warrant Co., 44 Wall, N. Y.

Pipe, Bent.
National Pipe Bending Co., New Haven

Pipe Cutters.
Bignall & Keeler Mfg. Co., St. Louis, Mo.
Pancoast & Mauls, Philadelphia.
Saunder's Sons, D., Yonkers, N. Y.

Pipe Grips.
Prentiss Vise Co., 44 Barclay, N. Y.

Pipes, Fittings, &c., *Makers of.*
McNab & Harlin Mfg. Co., N. Y.

Pipe, Water and Gas. *Makers of*
Cumberland Nail & Iron Co., Phila., Pa.
Donaldson Iron Co., Emaus, Pa.
Kellogg Seamless Tube Mfg. Co., Findlay, Ohio.
Wood, R. D. & Co., Phila.

Plane Irons, *Manufacturers of.*
Buck Bros., Millbury, Mass.

Planes, *Manufacturers of.*
Stanley Rule & Level Co., N. Y.

Plate Bending Rolls.
Wickes Bros., Saginaw, (E. S.), Mich.

Plated Ware.
Upson & Hart Co., Unionville, Conn.

Plate, Iron and Steel, *Mfrs of*
Alan Wood Co., Philadelphia.
Ætna Iron & Steel Co., Bridgeport, O.
Lukens Iron & Steel Co., Coatesville, Pa.
Moorhead-McLean Co., Pittsburgh, Pa.
McIlvain & Sons, Reading, Pa.
Pottstown Iron Co., Pottstown, Pa.
Pottsville Iron & Steel Co., Pottsville, Pa.
Singer, Nimick & Co., Pittsburgh, Pa.
The Mahoning Valley Iron Co., Youngstown, O.
Wellman Iron & Steel Co., Thurlow, Pa.
Alan Wood Co., Philadelphia.

Plating, Nickel, Brass and Bronze.
Angus, C. B., Albany, N. Y.

Plumbago.
Chicago Foundry Supply Co., Chicago, Ill.
U. S. Graphite Co., Saginaw, Mich.

Polishing Machines.
Watson & Stillman, 204 E. 43d, N. Y.

Polishing Wheel.
La Massena, C. E. & Co., Newark, N. J.

Post Hole Diggers.
Kohler, F. E. & Co., Canton, O.
Wister, L. & R. & Co., Philadelphia, Pa.

Poultry Nettings.
Barnum, E. T., Detroit, Mich.
Gilbert & Bennett Mfg. Co., 42 Cliff St., N. Y.
N. J. Wire Cloth Co., Trenton, N. J.
"Silver Finish."
Wright & Colton Wire Cloth Co. Worcester, Mass

Powder.
Laflin & Rand Powder Co., 29 Murray

Power Hammers.
Beaudry Tool Co., Boston, Mass.
Bradley & Co., Syracuse, N. Y.
Belden Mach. Co., New Haven, Conn.
Dienelt & Eisenhardt, Philadelphia.
Hackney Hammer Co., Cleveland, O.
Jenkins & Lingle, Bellefonte, Pa.
Long & Allstatter Co., Hamilton, Ohio.

Power Punches and Shears.
Eaton, Geo. H. & Co., Boston, Mass.
Long & Allstatter Co., Hamilton, Ohio.

Presses, Dies, &c.
Beaudry Tool Co., Boston, Mass.
E. W. Bliss Co., Ltd., Brooklyn, N. Y.
Crosby, G. A. & Co., Chicago, Ill.
Niagara Stamping and Tool Co., Buffalo, N. Y.
Stiles & Parker Press Co., Middletown Conn.

Presses, Power, *Makers of.*
Eaton, Geo. H. & Co., Boston, Mass.
Long & Allstatter Co., Hamilton, O
Manville, E. J., Mch. Co., Waterbury, Ct,
Merriman, A. H., West Meriden.
Niagara Stamping and Tool Co., Buffalo, N. Y.
Waterbury Farrel Foundry and Machine Co., Waterbury, Conn.

Pumping Machinery.
Dean Bros. Steam Pump Works, Indianapolis, Ind.
McGowan, J. H. & Co., Cincinnati, O.
Norwalk Iron Wks. Co., So. Norwalk, Conn.
Southwark Fdy. & Mch. Co., Phila., Pa
Valley Pump Works, Easthampton, Mass.

Pumps, *Makers of.*
Deming Co., Salem, O.
Douglas, W. & B., Middletown, Conn.
Field Force Pump Co., Lockport, N. Y
Kegler, Weinschenk & Ohlers, Bellevue Ia.
Mast, Foos & Co., Springfield, O.
Myers, F. E. & Bro., Ashland, O.
St. Joseph Pump Co. St. Joseph, Mo.

Punches and Shears, Hand and Power.
New Doty Mfg. Co., Janesville, Wis.
Niagara Stamping and Tool Co., Buffalo, N. Y.

Punching and Shearing Presses.
E. W. Bliss Co., Ltd., Brooklyn, N. Y.
Crosby, G. A. & Co., Chicago, Ill.
Stiles & Parker Press Co., Middletown, Conn.
Waterbury Farrel Foundry and Mch. Co., Waterbury, Conn.
Watson & Stillman, 204 E. 43d, N. Y.

Rails, Old and New.
Richards, J. H. & Co., Pittsburgh, Pa.

Railway Supplies.
Scully-Castle Co., Chicago, Ill.

Rat and Mouse Traps.
Chillicothe Mfg. Co., Chillicothe, O.
Estey, W. S. 65 Fulton, N. Y.
Hotchkiss, E. S., Bridgeport, Conn.
Paine, A. W., Boston, Mass
Ripley Mfg. Co., Unionville, Conn.

Razors.
Butcher, W. & S., 135 Duane St., N. Y.
Electric Cutlery Co., 113 Chambers, N. Y
Jordan, A. J., St. Louis, Mo.
Southington Cutlery Co., Southington, Conn.
J. R. Torrey Razor Co., Worcester, Mass

Recording Pressure Gauges.
Bristols Mfg. Co., Waterbury, Conn.

Refrigerator Door Fasteners.
Conroy, P. J. & Co., Philadelphia.

Rivets.
Blake & Johnson, Waterbury, Conn.
Cobb & Drew, Plymouth, Mass.
Henderson, Jas. S., 165 Greenwich, N. Y.
Plymouth Mills, Plymouth, Mass.
Sternbergh, J. H. & Son, Reading, Pa.
Thompson, Judson L. Mfg. Co., Boston, Mass.
Townsend, W. P. & Co., New Brighton Pa.

Riveting Machines.
Adt, Jno. & Sons, New Haven, Conn.

Rock Breakers.
Totten & Hogg Iron & Steel Fdry. Co., Pittsburgh, Pa.

Rock Drills.
Rand Drill Co., 23 Park Place, N. Y.

Roller Tube Expanders.
Bullock, C. K., Philadelphia, Pa.

Rolling Mill Machinery.
Birmingham Iron Fdry, Birmingham, Conn.
Booth, The Lloyd, Co., Youngstown, O.
Leechburg Foundry & Mch. Co., Pittsburgh, Pa.
Mahoning Fdry & Mch. Co., Danville, Pa.
Robinson-Rea Mfg. Co., Pittsburgh.
Totten & Hogg Iron and Steel Fdry Co., Pittsburgh, Pa.
Waterbury Farrel Foundry & Mch. Co., Waterbury, Conn.

Rolls, Chilled, Sand and Steel.
Booth, The Lloyd, Co., Youngstown, O.
Chicago Foundry Co., Chicago, Ill
Garrison, A. & Co., Pittsburgh, Pa.
Johnson Foundry Co., Johnstown, Pa
Seaman, Sleeth & Black, Pittsburgh.
Totten & Hogg Iron and Steel Fdry Co., Pittsburgh, Pa.

Roofing.
Berlin Iron Bridge Co., E. Berlin, Conn
Cambridge Roofing Co., Cambridge, O.
Johns, H. W. Mfg. Co., 87 Maiden Lane
White, Scott A., Pittsburgh, Pa.

Roofing Slate.
Auld & Conger, Cleveland, O.

Rules, *Manufacturers of.*
Lufkin Rule Co., Saginaw, Mich.
Stanley Rule & Level Co., 29 Chambers,

Rubber Goods.
Canfield, H. O., Bridgeport, Conn.

Saw Irons.
Universal Saw Iron Co., Milwaukee, Wis

Sand, Artificial.
Edison, T. A., Ogdensburg, N. J.

Sand Paper.
Baeder, Adamson & Co., Phila., Pa.

Sand Paper Machinery.
York Flint Paper Co., York, Pa.

Sash Balances.
Caldwell Mfg. Co., Rochester, N. Y.
Perfection Sash Balance Co., Rochester, N. Y.
Pullman Sash Balance Co., Rochester, N. Y.
Stewart & Baker, Rochester, N. Y.

Sash Cords and Chains.
Binns' Patent Band Co., Phila., Pa.
Morton, Thos., 65 Elizabeth, N. Y.
Smith & Egge, Mfg. Co., Bridgeport.
Sutton, F. A., Providence, R. I.
Tate & Co., Malden, Mass.

Sash Locks.
Champion Safety Lock Co., Cleveland, Ohio.
Ives, H. B. & Co., New Haven, Conn.

Sash Pulleys.
Palmer Hardware Mfg. Co., Troy, N. Y

Sash Weights.
Brown, E. E. & Co., Philadelphia, Pa.

Saws, *Makers of.*
Atkins, E. C. & Co., Indianapolis, Ind.
Disston, Henry & Sons, Phila., Pa.
Jennings, C. E. & Co., 97 Chambers, N. Y.
National Saw Co., 96 Reade St., N. Y.
Richardson Bros., Newark, N. J.
Simonds Mfg Co., Fitchburg, Mass.

Saw Sets.
Kohler, F. E. & Co., Canton, Ohio.
Lloyd, W. J. Mfg. Co., Philadelphia, Pa.
Taintor Mfg. Co., 84-86 Chambers, N. Y.

Scales, *Manufacturers of.*
Buffalo Scale Co., Buffalo, N. Y.
Chatillon, John & Sons, 85-89 Cliff, N. Y.

Screens, Door and Window.
Queen Anne Screen Co., Burlington, Vt.

Screw Cutting Machinery.
Wells Bros. & Co., Greenfield, Mass.
Wiley & Russell Mfg. Co., Greenfield, Mass.

Screw Drivers.
Brown, R. H. & Co., New Haven, Conn.
Capitol Mfg. Co., Chicago, Ill.

Screw Plate and Pipe Cutter.
Jarecki Mfg. Co., Erie, Pa.

Screws, *Makers of.*
American Screw Co., Providence, R. I.
Blake & Johnson, Waterbury, Conn.
Wm. H. Haskell Co., Pawtucket.
Miles, F. S., 205 Quarry, Philadelphia.
National Screw & Tack Co., Cleveland, Ohio.
Reynolds & Co., New Haven, Conn.
Worcester Machine Screw Co., Worcester, Mass.

Scroll Saws.
Barnes, W. F. & John, Rockford, Ill.
Seneca Falls Mfg. Co., Seneca Falls, N. Y.

Scythe Stones and Whetstones.
Pike Mfg. Co., Pike Stat'n, N. H.
Cleveland Stone Co., Cleveland, O.
Huron Grindstone Co., Port Austin, Mich.

Separators, Steam.
Stratton Separator Co., 32 Cortlandt St., N. Y

Shafting, *Makers of.*
Cresson, Geo. V., Philadelphia, Pa.
Fairmount Mch. Co., Philadelphia, Pa.
Fitzsimons & Co., Cleveland, Ohio.
Sellers, Wm. & Co., Inc. Phila. Pa.
Stow Mfg. Co., Binghampton, N. Y.

Shaped Iron and Steel, *Manufacturers of.*
Ætna Iron & Steel Co., Bridgeport, O.
Allentown Rolling Mill, Phila.
Boonton Iron & Steel Co., Boonton, N. J.
Carnegie, Phipps & Co., Pittsburgh, Pa
Illinois Steel Co., Chicago, Ill.
Lockhart Iron & Steel Co., Pittsburg, Pa.
Passaic Rolling Mill Co., Paterson.
Pottsville Iron & Steel Co., Pottsville, Pa
Roberts, A. & P. & Co., Phila.
The Phoenix Iron Co., Phila., Pa.
Tudor Iron Works, St. Louis, Mo.

Shears and Scissors.
Acme Shear Co., Bridgeport, Conn

Sheet Iron and Steel, *Manufacturers of.*
Ætna Iron and Steel Co., Bridgeport,
Cambridge Iron & Steel Co., Cambridge, Ohio.
Carroll-Porter Boiler & Tank Co., Pittsburgh, Pa.
Chess Bros., Pittsburgh, Pa.
Moorehead-McCleane Co., Pittsburgh,
Pierson & Co., 24-29 West St., N. Y.
Reeves Iron Co., Canal Dover, O.
Reily, John W., Fort Hunter P. O., Pa.
Singer, Nimick & Co., Ltd., Pittsburgh, Pa.
The Mahoning Valley Iron Co., Youngstown, O.
Alan Wood Co., Philadelphia.
W. Dewees Wood Co., McKeesport, Pa.

Sheet Zinc.
Matthiessen & Hegeler Zinc Co., La Salle, Ill.

Shoes and Dies.
Chrome Steel Works, Brooklyn, N. Y.

Sinks.
Douglas, W. & B., Middletown, Conn.

Skates, Ice.
Winslow, Sam'l, Skate Mfg. Co. Worcester, Mass.

Skates, Roller.
Henley, M. C., Richmond, Ind.
Winslow, Saml., Skate Mfg. Co., Worcester, Mass.

Skylights.
Brienty Horticultural & Skylight Wks., 145 Liberty St., N. Y.

Smelting Works.
Reeves, Paul S., 760 S. Broad, Phila.

Speaking Tubes.
Ostrander, W. R. & Co., N. Y.

Speaking Tube Whistles.
Fallows Jas. & Sons, Philadelphia, Pa.

Specialties, Pat. Articles.
Konigslow, O., Cleveland, O.

Spelter.
Matthiessen & Hegeler Zinc Co., La Salle, Ill.

Splice Bars, Iron and Steel.
Springfield Iron Co., Springfield, Ill.

Spool Wire.
Tate & Co., Malden, Mass

Spoons and Forks.
Holmes & Edwards Silver Co., Bridgeport, Conn.
Rogers, The Wm. Mfg. Co., Hartford, Conn.

Sporting Goods.
Hartley & Graham, 19 Maiden Lane

Springs.
American Spiral Spring Co., Pittsburg, Pa.
Dunbar Bros., Bristol, Conn.
Haley Mfg. Co., Concord, N. H.
Miller & Van Winkle, 102 Walker St., N. Y.

Bradley Hammers

2000 IN USE.

FOR 20 YEARS these Hammers have been in the market, and during all that time have been acknowledged the very best. The material we use and our method of construction are the result of ripe experience, and not the jumped-at conclusions of amateurs. Send for circulars and price-lists.

WHEN.

Business Hints for Business Men in Business Hours. A series of practical hints and pointers of a business nature. By D. T. MALLETT. Pamphlet, 25 cents. Sent, postpaid, by **DAVID WILLIAMS, 96-102 Reade St., New York,**

The Art of Selling

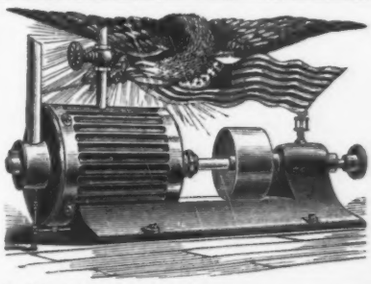
By F. B. GODDARD.

In this book the author lets the reader into the secrets of the accomplished and successful salesman, illustrates his tact and finesse and tells how he masters men. But beyond this, the work embraces much information which will be instructive and useful to all classes of business men, discusses fully the characteristic methods of conducting business to-day and makes an interesting application of character reading to the work of business negotiations.

Price, 50 Cents.

Sent, postpaid, on receipt of price, by

David Williams, 96-102 Reade St., N. Y.



AMERICAN HIGH SPEED ENGINE, built of any required size and power, for all stationary and marine purposes. Makes 1000 or more revolutions per minute. Has no dead centers. Unequaled regulation. No skilled engineer required! Cheap! Economical! Simple! Durable!

VALVES

Of all kinds for automatically controlling Steam Pressure. Manufactured by

MASON REGULATOR CO., Boston, Mass.

STANLEY'S PATENT
HAND-Y LEVEL.

The shallow grooves along the two sides of this Level give the owner an excellent grip on the Tool. In climbing ladders, walking on stagings or on the frame of a building, the peculiar form of the Level imparts a feeling of steadiness to the workman who carries it. For ascertaining a Plumb, it can be brought to a perpendicular position with remarkable ease and accuracy.

No. 16. Hand-y Plumb and Level, Cherry, Polished and Tipped.....$1.25

Manufactured by THE STANLEY RULE & LEVEL CO. New Britain, Conn.
